

In *chronic bronchitis* control of infection and clinical improvement are heralded by a reduction in the volume of sputum produced and its conversion from purulent to mucoid.

By those signs Bactrim Roche is an outstanding success. In a trial of sulphamethoxazole/trimethoprim, the constituents of Bactrim Roche, purulent sputum became mucoid in 23 (95·8 per cent) of 24 cases. This compared with the conversion of 16 (72·7 per cent) of 22 cases on ampicillin. In another trial¹ the same treatment produced a greater effect than tetracycline (1·0 g daily) on both the volume and the purulence of sputum.

¹ *Respiratory Med.* 1, 1968, 48-52.

"Our Jimmy's got ear-ache again, doctor"

It's his third attack in as many months, and he's only four. Neither Jimmy or his mother are very pleased. That's why the doctor's prescribing Ceporex this time.

In ENT infections, like otitis media, Ceporex Syrup gives an overall success rate of 88%. Ceporex is the first cephalixin syrup. Children like its pleasant fruit flavour and not-too-sweet taste. Ceporex absorption is rapid and virtually complete, giving high serum and tissue levels within an hour. Ceporex kills most of the common sensitive pathogens responsible for ENT infections, including penicillin-resistant staphylococci; and many gram-negative organisms. Ceporex is well tolerated because of its quick absorption and low toxicity and can be considered in patients hypersensitive to the penicillins. There is little chance of antibiotic rashes developing. For detailed information on Ceporex (trade mark), write to Glaxo Laboratories Ltd, Greenford, Middlesex.

Successful treatment starts with Ceporex

Ceporex

cephalexin

the more completely absorbed
oral antibiotic

“I took all the tablets, doctor. Honestly.”

Someone once remarked that politics is too important a matter to be left in the hands of politicians. A similar case can be made against leaving the treatment of the elderly and the debilitated to the patients themselves.

Such patients are often confused, forgetful, sometimes just plain cussed. They forget their tablets, take them erratically. Store them. Throw them away. Lose them. Take a few, feel better and give up*. With the result that they're soon back knocking on your surgery door.

When the treatment remains in *your* hands and you give one injection of the anabolic agent, Deca-Durabolin, you have 100% certainty of administration. 100% certainty that day-in, day-out for 3 to 4 weeks the patient is being progressively restored to physical fitness.

A single injection of Deca-Durabolin gives complete control of treatment . . . *with no wastage!*

One 25 mg. i/m injection of Deca-Durabolin :

Reinforces specific therapy

Restores positive nitrogen balance

Reduces calcium loss

Builds bodily resistance

Improves appetite, weight and well-being

Composition: Nandrolone decanoate.

Contraindications: Pregnancy ; prostatic carcinoma.

Side-effects: Normally none at recommended dose levels. Slight virilisation may occur in exceptionally sensitive individuals.

Packs: 25 mg or 50 mg per ml. :-

1 ml ampoules in 3's and 25's.

1 ml Orgajet disposable syringes
in 1's and 25's.

*“Socially isolated patients and those of low social class (are) particularly likely to neglect their drugs . . . Three articles from the United States have testified to the alarming extent geriatric patients fail to understand and observe instructions”.

“Every patient is a potential defaulter.

Compliance can never be assumed”.

Brit. med. J. (1969) 1, 218

When antibiotic treatment
has to start without
sensitivity reports

Ampiclox in emergency for
adults and children

Ampiclox Neonatal
for very young babies

Further information is available on request.

Ampiclox* (ampicillin sodium B.P./cloxacillin sodium B.P.) is a product of British research at
Beecham Research Laboratories, Brentford, England
originators of the new penicillins.

*regd.

Ampiclox

Sometimes a patient needs antibiotic treatment immediately. You take pathological samples but sometimes you can't wait until the results are known. Both situations call for Ampiclox.

- Active against a broad range of bacteria, Gram-negative and Gram-positive.
- Active against 'resistant' staphylococci, important in a hospital environment.
- Destroys bacteria, where other antibiotics merely inhibit. This is important when septicaemia threatens or the patient's resistance is low.
- The safety of penicillin therapy. Dosage can be increased unhampered by a low 'toxicity ceiling'.

Ampiclox† is a special injectable formulation of the antibiotics Penbritin* and Orbenin*. Ampiclox is ideal for use in emergencies and is well suited to continuation therapy when the need for its very broad spectrum is confirmed. Where sensitivity tests indicate, either Penbritin or Orbenin may be prescribed. Ampiclox is recommended for adults and children over the age of four weeks.

For the first few weeks of life, a baby's resistance to infection is very limited. It may not be possible to obtain satisfactory pathological specimens. Ampiclox Neonatal may be used for the treatment of confirmed or suspected infection in premature babies and other neonates. Also to forestall infection where a difficult delivery, clinical procedures or other circumstances present an infection hazard.

Ampiclox Neonatal is a specific formulation of Penbritin and Orbenin, designed for the safer, more effective treatment of neonates. It has the following advantages:

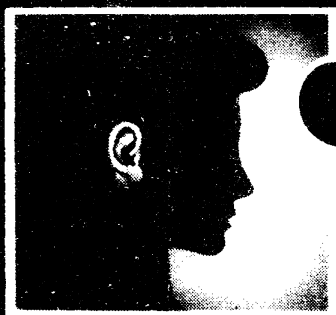

- Well proven record of safety for neonates.
- Low toxicity even at high dosage.
- Active against a wide range of bacteria, Gram-negative and Gram-positive including 'resistant' staphylococci.
- Bactericidal rather than bacteriostatic. Particularly important for neonates who have not had time to develop their own natural resistance.
- Available in oral and injectable presentations.

†currently supplied as 'Ampiclox Adult'.

Women Doctors

Thinking of returning to practise?**Hospital work can offer you
special advantages.**

You may not have been in active practice for a while for family or other reasons. You may be thinking of taking up professional work again, either now or within a year or so.

The hospital service can offer you very real advantages besides providing refresher training for doctors intending to take up or return to hospital posts. Hospitals realise that women doctors with personal or family commitments will wish to undertake part-time rather than full-time work, and will try their best to arrange this. Some hospitals can provide married accommodation and day-care for young children.

If you are interested, now or for the future, please write to the Senior Administrative Medical Officer at the Regional Hospital Board, who would like to know what sort of work you would like to do and your qualifications. You can get the address from the Secretary of your local hospital.

Issued by the Department of Health and Social Security.

When people suffer from people Neulactil pulls people together

Anxiety and tension states – antisocial behaviour. In the close environment of family life, each can aggravate the other. A teenage girl may show abnormal behaviour, but it is likely to be her “worried” mother, often suffering from insomnia, who seeks medical advice.

‘Neulactil’ is not only an effective treatment for severe anxiety and tension states, but is also especially valuable in the management of antisocial behaviour.

‘Neulactil’* preparations of pericyazine are available as tablets, syrups and injection solution.

"It's that backache again!"

Jane Smith's usually a lively thirty-year-old. But for the last six months she's had recurring bouts of acute pyelonephritis. Her doctor's tried a number of treatments but they only produced temporary remissions. This time he's prescribing Ceporex. He's saving both Jane and himself a lot of needless worry.

In UTI infections, like acute pyelonephritis, Ceporex has a success rate of over 80%. Ceporex rapidly kills the common gram-negative organisms responsible for most UTI infections. It achieves outstanding success against most strains of *E. coli*. It also kills most gram-positive organisms which may be present, including penicillin-resistant strains. The success rate of Ceporex is aided by its rapid and virtually complete absorption which gives very high serum, tissue and urine levels within an hour. Ceporex is well tolerated because of its quick absorption and low toxicity and can be considered in patients hypersensitive to the penicillins. There is little chance of antibiotic rashes developing. For detailed information on Ceporex (trade mark), write to Glaxo Laboratories Ltd, Greenford, Middlesex.

"But I can't swallow big pills, doctor"

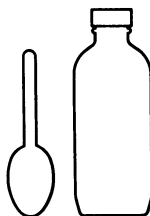

There's no problem with Ceporex 250 mg capsules, because they are the smallest cephalixin capsules available, so they're easy to swallow. They are suitable for the treatment of such infections as acute cystitis, sinusitis and tonsillitis.

Ceporex 500 mg capsules are the only cephalixin capsules available in this strength. They provide convenient treatment of more serious infections such as pyelonephritis and acute bronchitis, because it means your patients take fewer capsules.

The 250 mg/5 ml syrup is the first cephalixin syrup available. Its pleasant taste is very acceptable to children, and is particularly useful in otitis media; the elderly, who take to the not-too-sweet flavour quite readily, and for those not able to swallow capsules.

RYBARVIN Inhalant SAFE

EFFECTIVE TREATMENT
FOR BRONCHIAL SPASM

THE PROVEN
BLUE CHIP
INVESTMENT
FOR ASTHMATICS

*No devaluation
after 29 years!*

SAFETY The very small amount of inhalant often necessary to relieve an attack is important. Therapeutically, this is of benefit to the patient in avoiding any side-effects which might be brought about by taking too frequently a full measured dose. Over-dosage with the Rybarvin inhaler is virtually impossible.

ECONOMY Economically the very low cost of treatment by Rybarvin, 1500 average doses (half-minute) per 28ml. bottle, i.e. about 1/15d. per dose, must be of interest to both patient and doctor.

RYBARVIN INHALANT Bottles containing 15ml. and 28ml.

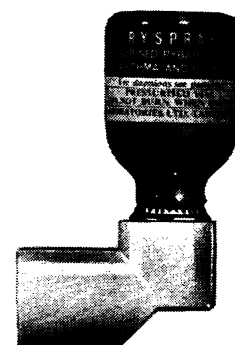

Extract of Pituitary (Posterior Lobe) B.P.C. 0.20% v/v Atropine Methonitrate B.P. 0.10% w/v, Papaverine Hydrochloride B.P. 0.08% w/v, Adrenaline B.P. 0.40% w/v, Benzocaine (Ethyl para-aminobenzoate) B.P. 0.20% w/v.

Note: THE RYBAR INHALER CAN NEVER HAVE A BLOCKED SYPHON TUBE. It is now fitted with a special filter (patent pending).

RYBAR LABORATORIES appreciate the convenience of the unobtrusive Pressured Pack particularly on social occasions and have produced Ry-spray for prescription where doctors feel this type of pack is more suitable.

RYSpray is a powerful bronchodilator giving rapid and sustained relief in asthma and bronchitis. Complete unit (300 doses).

It is a great convenience to the patient that the amount of inhalant in the bottle can be seen.

Samples and literature gladly sent on request

Diabinese

is unlikely to make
diabetic patients gain weight

THE MEAL – NOT DIABINESE –
IS THE DIRECT STIMULATOR
OF INSULIN RELEASE

IN FASTING DIABETICS A DOSE OF
DIABINESE WAS NOT FOLLOWED BY A
SIGNIFICANT RELEASE OF INSULIN

- After meals, release of insulin to the serum increased.
- Significant increases above basal levels – facilitated by Diabinese – occurred only after meals when rising glucose levels were present to challenge the beta cell mechanism.
- Despite the fact that Diabinese was given on the morning of the fasting day, insulin production did not appreciably exceed basal levels. Thus there was little or no likelihood of fat being deposited as a result of treatment with Diabinese.

**When it comes to safety, only one inhaler
has been shown to improve the natural
function of gas exchange in most patients.
Medihaler-duo.**

The safety of a pressurised aerosol is of greatest significance in the seriously ill asthmatic patient. This is the patient who is most likely to abuse his inhaler.

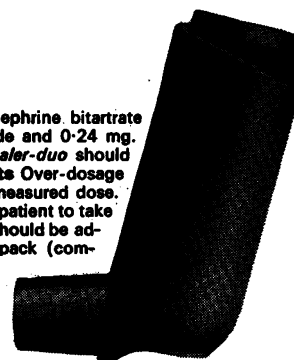

Often the severity of his condition is not clinically evident^{1, 2, 3, 4}. Moreover, recent discoveries suggest that apparent absence of cardiac effect at normal dosage is no longer an adequate measure of relative aerosol safety. Indeed, long-acting bronchodilators, in spite of claims for their selective action, are in gross overdosage most unlikely to be safer than isoprenaline^{5, 6}.

All tend to cause a fall in arterial oxygen tension.

However, *Medihaler-duo* raises arterial blood oxygen and lowers arterial blood carbon dioxide tensions. Clinical reports^{7, 8} have confirmed the improvement in the blood gas picture which may be so vital for the seriously ill patient. No other aerosol investigated gave this protection.

Composition *Medihaler-duo* contains a suspension of isoprenaline hydrochloride 8 mg./ml., phenylephrine bitartrate 12 mg./ml., and delivers to the patient a measured dose containing 0.16 mg. isoprenaline hydrochloride and 0.24 mg. phenylephrine bitartrate. **Contra-indications** There are no absolute contra-indications, but *Medihaler-duo* should be used with caution in the presence of cardiac disease, hypertension or hyperthyroidism. **Side-effects** Over-dosage may cause dry mouth, palpitations or nervousness. **Dosage** Each puff from *Medihaler-duo* delivers a measured dose. One to three puffs should be sufficient to provide relief in most cases. It should not be necessary for the patient to take further treatment for at least thirty minutes, or more than eight treatments a day. **Children** *Medihaler-duo* should be administered to children only under the supervision of a responsible adult. **Basic NHS price** Standard pack (complete 400-dose unit) 17/- plus Purchase Tax. Full information is available on request.

Upjohn

UPJOHN LIMITED • CRAWLEY • SUSSEX

A week ago
his problem was
his skin

He first noticed the itching at work. Then his hands started to redden. The skin cracked and became scaly. He soon found difficulty in operating his lathe and the irritation affected his sleep. He realised that something must be done; and done quickly. His doctor told him it was contact dermatitis and prescribed Propaderm Cream.

Propaderm relieves skin problems

Propaderm can be used for all conditions responsive to topical steroid therapy. Propaderm is beclomethasone dipropionate—a powerful topical steroid. So powerful that in a recent trial 94% of 252 patients with eczema or psoriasis showed good results when treated with Propaderm (cream, ointment and ointment with 3% aureomycin BP). Propaderm is fast acting. In the same trial the majority of patients who responded to Propaderm did so in the first week of treatment. "All three preparations of the drug which were tested were found to be superior to previous treatments. No side effects were reported."

Practitioner, (1968) 201, 362.

PROPADERM OINTMENT AND CREAM, PROPADERM-A OINTMENT with 3% aureomycin BP. Also available: Propaderm Lotion, Propaderm-C Ointment and Cream (with 3% clioquinol). Propaderm-N Ointment and Cream (with 0.5% neomycin sulphate BP). Propaderm-L Rectal Ointment and Suppositories (with lignocaine). Propaderm-Forte Cream. All Propaderm preparations contain beclomethasone dipropionate 0.025% except Propaderm-Forte Cream which contains 0.5%.

Full information is available on request.

Propaderm is a Trade Mark of ALLEN & HANBURYS LIMITED LONDON E2

Bisolvon disrupts the feltwork of AMPS (acid mucopolysaccharide) fibres responsible for the viscosity of *mucoïd* sputum, but takes about ten days of continuous treatment to reach its full effect. The patient should then be producing thinner and less sputum than originally. This beneficial effect of Bisolvon is maintained for as long as treatment continues.

During an infective exacerbation bacterial action causes the breakdown of cells and cell nuclei, producing DNA (desoxyribonucleic acid) fibres and fragmentation of existing AMPS fibres. DNA fibres therefore predominate in *purulent* sputum.

At this stage it is very important to maintain Bisolvon therapy, together with an effective antibacterial. This ensures that once the infection is brought under control (therefore eliminating DNA fibres) AMPS fibres do not re-form to raise sputum viscosity.

Bisolvomycin capsules, containing Bisolvon with oxytetracycline, have been developed to enable Bisolvon therapy to be conveniently maintained during the bronchitic's infective exacerbations.

Turquoise blue/grey capsules printed with the Company symbol.
Each capsule contains:
Bisolvon (bromhexine hydrochloride) 8mg.
oxytetracycline hydrochloride B.P. 250mg.

**Boehringer
Ingelheim**

Further information on Bisolvomycin can be obtained from:
Boehringer Ingelheim Limited Isleworth Middlesex

EXACERBATIONS OF BRONCHITIS

offer broad spectrum
antibiotic activity

PLUS

the benefits of
uninterrupted Bisolvon
therapy during the

infected phases

Contra-indications

Bisolvon: There are no absolute contra-indications, but observe caution in patients with gastric ulcer.

Oxytetracycline: Known tetracycline allergy; should not be given in pregnancy or in presence of renal or hepatic dysfunction. The concurrent administration of antacids should be avoided.

Precaution

Bisolvon: When patients under treatment for tuberculosis are also receiving Bisolvon, continue sputum cultures for tubercle bacilli for at least 3 months before assuming a negative result.

Oxytetracycline: Teeth staining may occur in children.

Side-effects

Bisolvon: Mild gastro-intestinal side-effects may occasionally be caused. A transient rise in serum transaminase levels may be observed in a few patients. These should fall again with continuation of Bisolvon treatment.

Oxytetracycline: May cause nausea, diarrhoea and symptoms resulting from the overgrowth of resistant organisms; in particular, overgrowth of *Candida albicans* may cause irritation of mouth, anus or vagina. Drug fever or rashes rarely occur.

Keflex[®] multi

cephalexin monohydrate

A broad spectrum for UTI

Clinical reports show that a satisfactory clinical response is obtained in **93%** of patients with acute infections and **80%** of patients with chronic infections due to frequently encountered urinary pathogens such as *E. coli*, *Proteus mirabilis*, and *Klebsiella*.

K Dosage

The usual adult dose is **250 mg** every six hours. For more severe infections or those caused by less susceptible organisms, **500 mg** every six hours may be needed. In appropriate cases up to **4G** per day may be given.

Precautions Any patient who has demonstrated some form of allergy, particularly to drugs, should receive antibiotics, including cephalixin, cautiously and then only when necessary. If severe reaction, individual idiosyncrasy, or allergy should occur, treatment should be discontinued.

The safety of cephalixin for use in pregnancy has not been established.

In patients being treated with cephalixin, a false positive reaction may occur with Benedict's or Fehling's solutions or with copper sulphate test tablets.

Adverse Reactions have been infrequent and mild. The most frequent was mild diarrhoea reported in slightly over 2% of 1230 patients studied. Nausea occurred in about 1 per cent. Skin reactions, including pruritus and dermatitis were also reported in 1 per cent of patients. Other reactions reported more rarely included vaginal monilial vaginitis, dizziness, headache, and abdominal pain.

Contra-indication 'Keflex' is contra-indicated in persons who have shown hypersensitivity to cephalosporins.

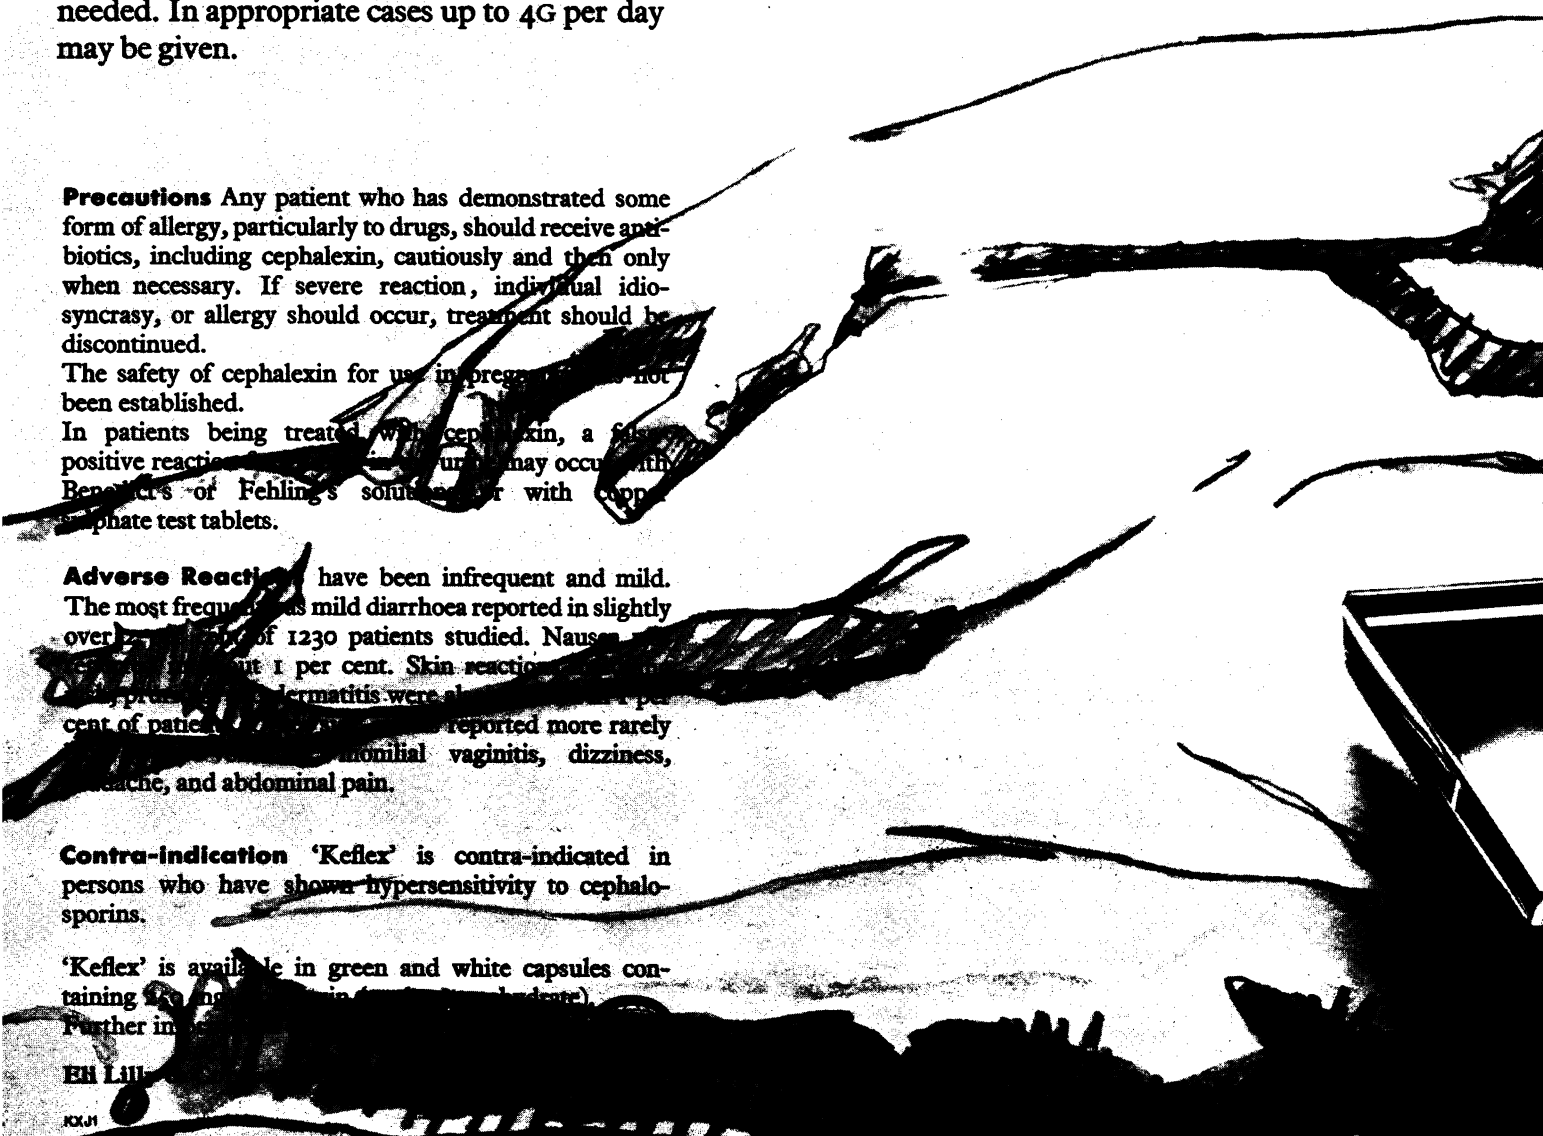

'Keflex' is available in green and white capsules containing 250 mg and 500 mg of cephalixin monohydrate.

Further information

EN Lill

A broad spectrum for bronchitis

In this condition where the infection is frequently of mixed aetiology, 'Keflex' clears purulent sputum and clinical improvement has been shown in over **90%** of patients studied. Susceptible organisms include *Haemophilus influenzae*, *Streptococcus pneumoniae*, and *Staphylococcus aureus*.

spectrum antibiotic

A broad spectrum for throat and ear infections

The spectrum of 'Keflex' covers the most common pathogens in throat and ear infections, and produced a good clinical response in **97%** of infections the majority of which were due to streptococci.

Bactericidal action
Rapidly absorbed
Well tolerated

SYNACTHEN[®] DEPOT

Johnny went into hiding q.i.d. until the doctor prescribed 'Ilosone' Suspension

'Ilosone' excels in paediatric infections. But the flavour of the suspension (although important to Johnny) is only one of the reasons why it works so well. Against gram-positive cocci 'Ilosone' is much more active than, for example, the tetracyclines – and it will not discolour teeth or deposit in bone. Thus for infections such as tonsillitis, pharyngitis, pneumonia, otitis media and acute bronchitis – 'Ilosone' Suspension is a first-line treatment.

Full information available on request.

'Ilosone' Suspension 125 mg* per 5 ml
'Ilosone' Forte Suspension 250 mg* per 5 ml
 both available in 100 ml pack for full five days treatment of 'everyday' infections.
 Also available 125 mg* and 250 mg* capsules. 500 mg* tablets.

*Base Equivalent erythromycin estolate B.P.

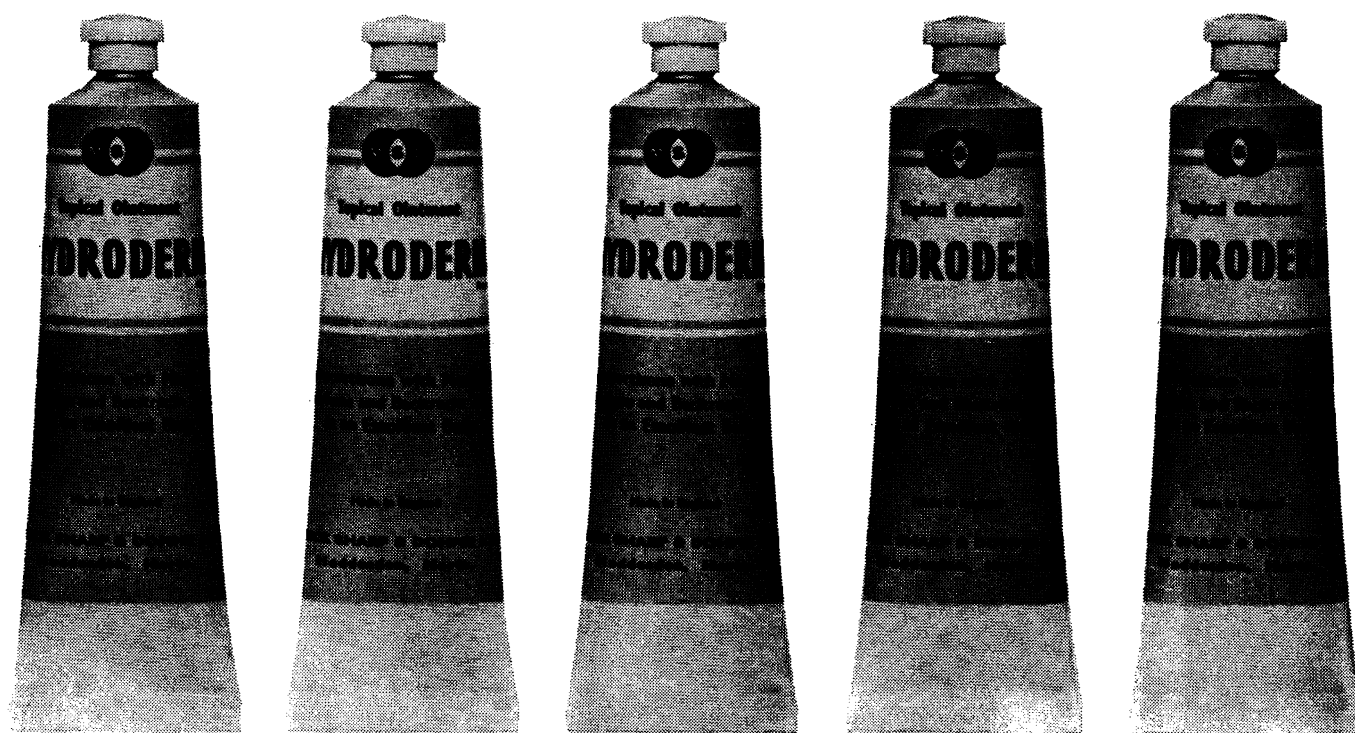

Eli Lilly & Co Ltd, Basingstoke, England

'Ilosone' is the Lilly trade mark for erythromycin estolate.

Hydroderm

Regd Trademark

simply treats 'skins'

**one strength
one base
one ointment**

Many common skin conditions respond readily to 'Hydroderm' Ointment. 'Hydroderm' contains hydrocortisone to control the inflammation, and the topical antibiotics neomycin and bacitracin to counter susceptible infection.

Supplied as a one-strength, one-base formulation for easy prescribing, 'Hydroderm' provides the simple answer to many common skin conditions seen in general practice.

'Hydroderm' is supplied as an ointment containing, in each gram, 10 mg hydrocortisone, 5 mg neomycin sulphate and 1,000 units zinc bacitracin, in tubes of 5 G and 15 G.

Detailed information is available to physicians on request

The dietary treatment of metabolic disorders

Automatic Amino Acid Analyser
by kind permission of
Technicon Instruments Co. Ltd.

The dietary treatment of metabolic disorders in infancy and allied conditions is aided by Trufood's extensive range of readily available synthetic and modified foods. Nearly 50 years' specialised experience of making foods for babies, combined with continuous and intensive research into their preparation, has enabled us to provide such trusted products as:

Minafen—
for the dietary treatment of phenylketonuria

HF (2)—
for the dietary treatment of histidinaemia

LPT (1) and LPTM (2)
for the dietary treatment of tyrosinosis

Galactomin — three formulae
No. 17 — for the dietary treatment of galactosaemia and lactose intolerance — No. 18 with reduced fat — No. 19 with fructose as the sole carbohydrate.

Edosol—
for low sodium diets

Locasol—
for the dietary treatment of hypercalcaemia

Himaizol—
for the dietary treatment of hypercholesterolaemia

And—for normal babies—**TRUFOOD** baby milk.

We will be pleased to share our skill and knowledge with you if you have any problems involving special diets, especially if they are for babies.

When you are ill we can foot the bills.

When you are ill your earnings soon stop.
Your outgoings won't.

Rent, mortgages, family housekeeping,
staff wages and school fees still have
to be paid.

Medical Sickness can take this worry
off your shoulders with a sickness and
accident insurance policy. Then when you
can't work because of illness or accident we
can start paying you an agreed sum each
month during your incapacity. And we'll go
on paying either until you're fit enough to
get back to work or until normal retirement
age, whichever is earlier. And we can't
cancel the policy because of long or
frequent claims.

If you have not yet got around to
ensuring that we can foot the bills when
you're ill write to us today quoting reference
number 5012 You will be surprised how
little this essential cover will cost.

ANTIBIOTICS AND THE INTESTINAL FLORA

Treatment with broad spectrum antibiotics suppresses the normal flora, which may be replaced by abnormal resistant organisms causing diarrhoea.

This change can be prevented or reversed by the implantation of *Lactobacillus acidophilus* which has been rendered antibiotic-resistant, and is thus able to multiply freely under these abnormal conditions. The products of growth of the organism are inimical to that of many other bacteria^{1 2} and thus contribute to its rapid preponderance over other species.

Oral treatment with antibiotic-resistant *L. acidophilus* in the form of ENPAC has been shown to eliminate *Candida* from the faeces of infants with antibiotic-induced diarrhoea, with relief of symptoms succeeded by rapid gain in weight^{3 4} and greatly to reduce the numbers of staphylococci in the faeces of patients treated with tetracyclines.⁵

Senokot restores natural rhythm to the constipated colon

Senokot, standardized senna, has earned a reputation for effectiveness and safety. Over 150 references in medical journals and text books testify to its value. Senokot is suitable for all ages and is useful in pregnancy and in geriatric cases. It is predictable in its action and, taken in the correct dosage, it is free from griping. Acting specifically in the colon, it induces controlled peristaltic action and restores the normal defaecation reflex leading to re-education of the bowel.

From the dispensing packs, the basic NHS cost of a spoonful of granules or two tablets is about a halfpenny.

Granules: 56, 170 and 900 grammes.

Tablets: 50, 100, 200, 1000.

Syrup: 150 ml, 2 litres.

**Non modo plus Alphosyl psoriasis curiae
praescribitur quam quidquid aliud medicamentum...
Sed ecce Alphosyl capillare!**

It's a fact. Alphosyl is the most widely prescribed product used specifically for the treatment of psoriasis.

Alphosyl Lotion. Alphosyl Cream. Alphosyl Shampoo.

The Cream and the Shampoo are recent additions. Alphosyl Cream is particularly effective in the intertrigenous areas. Even in the most resistant cases.

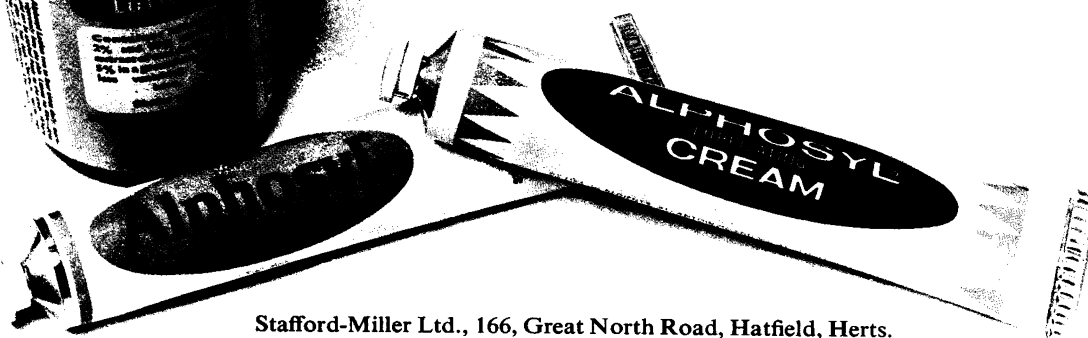

The Shampoo removes scales

from the scalp preparing the head for treatment with the Lotion.

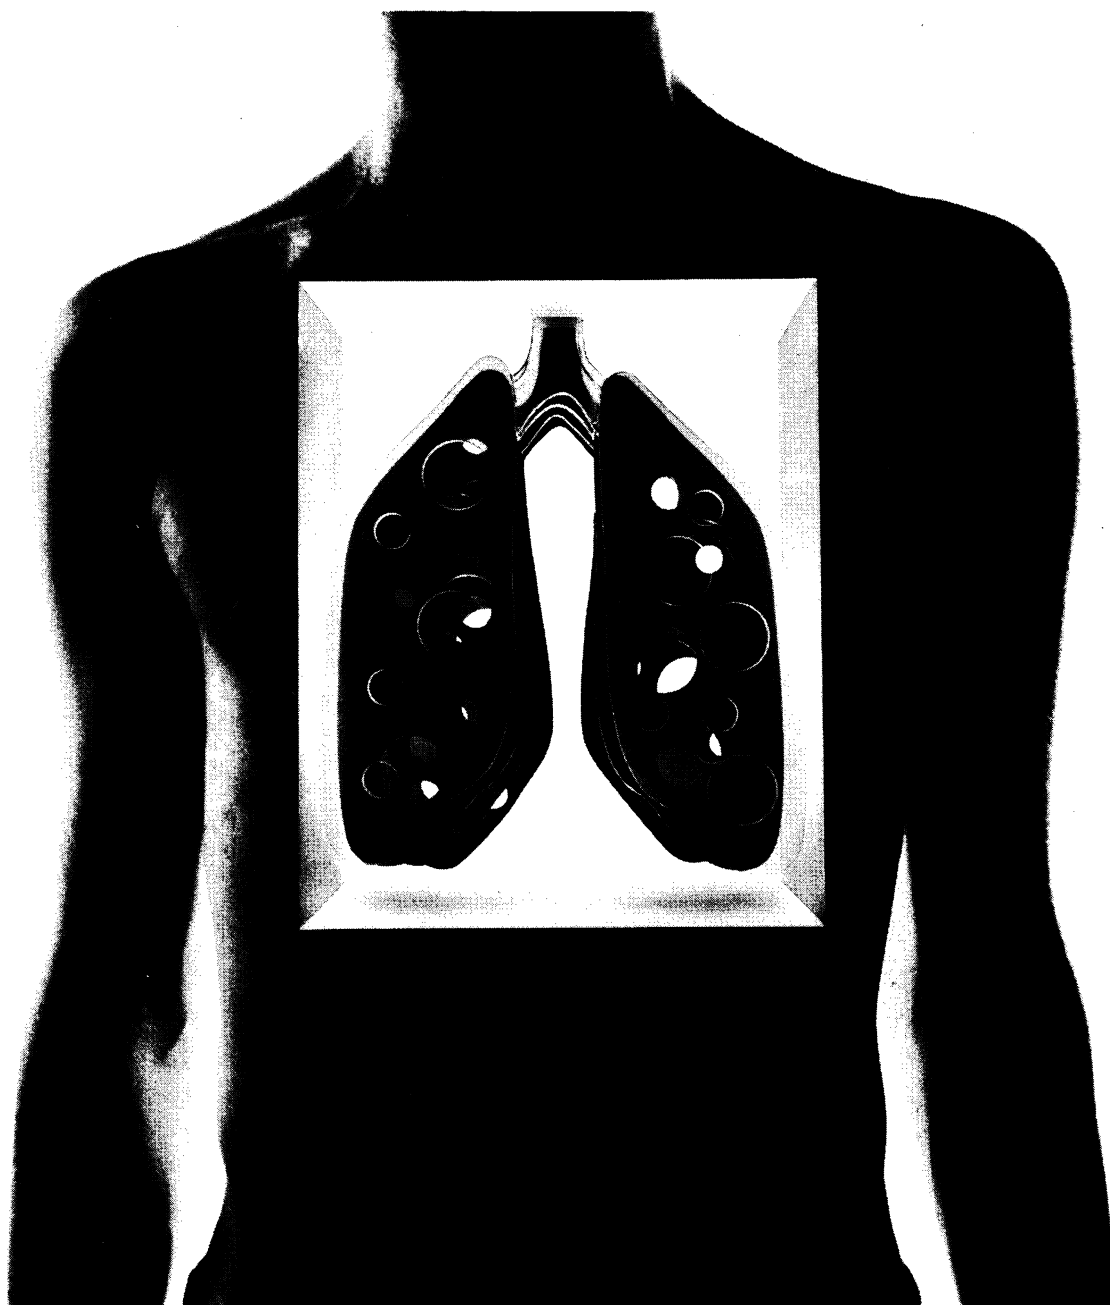

Alphosyl Therapy (Lotion, Cream and Shampoo) can be adjusted to suit the patient's individual needs... or preferences.

Alphosyl is available as a 5% refined alcoholic extract of coal tar and allantoin (2%) in a Cream and Lotion. Alphosyl Shampoo is a unique combination of coal tar extract (5%) and hexachlorophene (1%).

Psoriasis R_x Alphosyl

Stafford-Miller Ltd., 166, Great North Road, Hatfield, Herts.

dramatic disappearance of bronchitis pathogens

... a combination of trimethoprim and sulphamethoxazole provided effective prophylaxis in chronic bronchitis. It dramatically diminished sputum volume, rendered it mucoid and abolished pathogens.¹

This combination, available as SEPTRIN*, swiftly eradicates a wide range of organisms including the pathogens common in bronchitis—*H. influenzae*, *Pneumococci* and *Klebsiella* sp.

SEPTRIN has been compared in a trial with ampicillin in treating exacerbations of chronic bronchitis. SEPTRIN produced a significantly greater reduction in sputum volume and of

sputum purulence and the trial also showed that SEPTRIN produced a better overall *clinical* response in the bronchitic patients.²

THE HOSPITAL GAZETTEER 1969

A guide to the Hospitals in the United Kingdom

The gazetter occupies 282 pages, and is designed especially to help the junior doctor seeking a hospital appointment to choose the one most suited to his needs.

This new edition is even more comprehensive than those previously published. It is possible to tell at a glance:

The number of beds;
the establishment of medical staff;
nature of special departments;
study leave, off duty time, etc.;
opportunities for preparation for postgraduate diplomas;
the kind of accommodation provided;
facilities for recreation and other relevant facts.

Price 40/- including postage

Specially reduced price for B.M.A. members and senior medical students 25/- (including postage).

Why patients who hate the idea of elastic hosiery like wearing Scholl

Scholl know as well as you do just how much women hate the idea of elastic stockings. That's why they've made Scholl elastic stockings as acceptable to women as they are effective in bringing relief. Scholl elastic stockings do look nicer than ordinary elastic stockings. That's why patients are going to wear them when you prescribe them. Not just for the support. Not just for the comfort. But for the look of stockings that look like stockings—or are indiscernible under them.

Scholl 'Nylastik' (illustrated)

(prescribed as 'Lightweight Elastic Yarn') Nylastik are suitable for mild to average varices or for expectant mothers. They are worn instead of nylons and, on the legs,

appear almost indistinguishable from an ordinary 30-denier stretch stocking.

Scholl 'Soft Grip'

(prescribed as 'Standard Elastic Yarn')

Scholl Soft Grip are suitable for average to moderately severe varices. They are worn *under* normal sheer nylons. They are circular knit in double-expansion mesh with two-way elasticity to give firm, even support *around* the leg with plenty of comfortable 'give' lengthwise.

Scholl[®]

The world's largest makers of
elastic hosiery

ROYAL COLLEGE OF PHYSICIANS**NEW PHYSIOLOGICAL CONCEPTS OF CLINICAL DISEASE**

The college is organizing a further series of presentations on the above subject. These sessions have been arranged to be of interest not only to junior hospital staff, but also to consultants and senior registrars who wish to keep abreast of new knowledge in this field. There will be no fee, but a small charge for tea will be made at the time. The sessions will be held on Tuesday afternoons twice a month from 2.30 until 6.00 p.m. On the intervening Tuesdays there will be the new series on Clinical Pharmacology.

The programme for the next session on 17th March is as follows:-

FAT METABOLISM

Dr. T. R. E. Pilkington (St. George's Hospital Medical School)	
Dr. N. Myant	
Dr. B. Lewis (St. Mark's Hospital)	
Dr. O. H. Wolff (Institute of Child Health)

PRACTICES
(Executive Councils)

For vacancies (except those in Scotland) apply on Form E.C.16A, obtainable from the Executive Council. Mark envelopes "Vacancy."

COUNTY PALATINE OF CHESTER
NATIONAL HEALTH SERVICE
EXECUTIVE COUNCIL FOR CHESHIRE
NANTWICH, CHESHIRE
CLASSIFIED "INTERMEDIATE"

A Medical Practice Vacancy will arise in a 2 man partnership practice due to the retirement of both partners on June 30, 1970. The partnership list is currently 4,374, all prescribing; some mileage.

The practice is located in Nantwich, a pleasant Market Town in South Cheshire, situated about 4 miles South West of Crewe.

Applicants will be expected to indicate their proposals for managing a list of this size (the maximum list for a single-handed Doctor is 3,500).

The retiring partners, together with another local partnership, were to participate in a Health Centre, to be situated centrally in the town. The Health Centre will inter alia provide 5 General Practitioner Consulting Suites and is expected to be completed late in 1971.

Through the good offices of the retiring doctors, surgery accommodation will be made available until the Health Centre becomes operational.

Application forms and further information may be obtained from the undersigned and completed forms should be submitted to reach the Executive Council no later than March 31, 1970. F. Hayter, Esq., Clerk, Cheshire Executive Council, 28, Nicholas Street, Chester, CH1 2PH. (H.7438) 3

MIDDLESEX EXECUTIVE COUNCIL
VACANCY—WILLESDEN, N.W.10

Applications invited for vacancy occasioned by death of male practitioner. List at present approximately 2,490. Intermediate area. Practice premises may be available.

Apply on Form E.C.16A before March 20, 1970, to: The Clerk, Middlesex Executive Council, Dept. S. 4th Floor, International Life House, Olympic Way, Wembley, Middx. HA9 0LF. (H.7417) 3

GREATER LONDON BOROUGH
OF REDBRIDGE
ILFORD

Applications are invited for a medical practice vacancy in the above urban area (classified as "designated"—Designated Area allowance payable), arising from retirement of practitioner.

Total number on list—2,400 approximately. Residential and surgery accommodation available for purchase.

Form E.C.16A and further details obtainable from the Clerk, North East London Executive Council Ilford Lane Chambers, Ilford Lane, Ilford, Essex.

Applications to be received not later than April 1, 1970. (H.7416) 3

MEDICAL PRACTICE VACANCY
CARLISLE, CUMBERLAND

Applications are invited for a vacancy due to death. List at present—approximately 2,684. Area designated for over 3 years. Applications on Form E.C.16A to reach The Clerk, Carlisle Executive Council, 1, Brunswick Street, Carlisle, CA1 1PR. not later than March 25, 1970. Further information on request. (H.7374) 3

SOUTHEAST-ON-SEA
EXECUTIVE COUNCIL
WESTCLIFF-ON-SEA

Applications are invited for a vacancy due to resignation on May 31, 1970, in above urban area (classified as "Open"). List approximately 3,400.

Surgery accommodation available for rental. Form E.C.16A and further details obtainable from the Clerk, Southend-on-Sea Executive Council, Carby House, 73 Victoria Avenue, Southend-on-Sea.

Completed applications to be received not later than March 25, 1970. (H.7410) 3

SOUTH-WEST LONDON AND SURREY
EXECUTIVE COUNCIL

Applications are invited for a vacancy arising from the death of a general medical practitioner.

This single-handed practice is in Wimbledon, which is classified "Open". Number on list approximately 3,350.

The deceased doctor's residence may be available for purchase, and the lock-up surgery may be available for rental.

Applications on Form E.C.16A obtainable from H. V. Wiggott, Clerk of the Council, South-West London and Surrey Executive Council, Victoria House, London Road, North Cheam, Surrey, to be received not later than 12 noon, March 24, 1970. (H.7373) 3

UNIVERSITY OF LONDON
(BRITISH POSTGRADUATE MEDICAL FEDERATION)
INSTITUTE OF NEUROLOGY
(QUEEN SQUARE)
QUEEN SQUARE PRIZE IN NEUROLOGY

A prize of £100 is awarded annually to a present or past postgraduate student or member of the staffs of the Institute of Neurology and The National Hospitals for Nervous Diseases, not holding Consultant status at the time of submitting the entry, who presents the best paper describing work, a large part of which was carried out in the Institute or the Hospitals.

Conditions of the Award:

The essay must be the original work of the applicant.

The work must have been done at some time within five years preceding the date of application. The essays may include published work.

Entries must be submitted so as to reach The Dean, Institute of Neurology, Queen Square, London, W.C.1. not later than the 1st APRIL 1970.

The award will be announced in JULY and made to the Prize Winner at the Inaugural Lecture held at the beginning of each Academic year in OCTOBER. (15661) 2.

COMMERCIAL APPOINTMENTS see also p. xxxv

ROCHE

BIOELECTRONICS
MANAGER

As part of our planned expansion and diversification, we are establishing a Bioelectronics Department in our Head Office at the address below. To head this new department, we are seeking a man, probably in his thirties or early forties, who has good experience in medical instrumentation, preferably over a wide field. Preference will be given to a registered medical practitioner combining medical and technical interests. He will also have a good understanding of the commercial implications of all his activities.

His task will be to build up and run this new department, set up to sell and service a wide range of medical electronic equipment in hospitals throughout the country. Based in London, he will travel as necessary in the United Kingdom. There will also be a short initial training period in Switzerland.

The conditions of service are those to be expected from a large international organisation.

Please write in confidence, quoting reference ZB, for further information and an application form, to the Head of Personnel at:

ROCHE PRODUCTS LIMITED
15 MANCHESTER SQUARE LONDON W1M 6AP

(15449)

16

SMITH & NEPHEW PHARMACEUTICALS LTD.
SMITH & NEPHEW RESEARCH LTD.

Assistant physician

The Medical Department serving the two Companies is entering into a phase of planned expansion and has now reached one of the stages of recruiting a further physician. Applications are now invited for the new vacancy.

Great emphasis is placed on the scientific basis of the work of the Department and candidates for this vacancy will require to have a scientific degree, such as a pre-clinical B.Sc., or be able to provide other evidence of familiarity with scientific method as well as a registerable medical qualification. Although the work mainly centres on the development of new drugs, the human aspects of adhesives and plastics technology and other research areas play a part.

Attendance at appropriate meetings and the submission of material for publication will be encouraged. Career prospects in the Industry are good. Travel, some of which may be abroad, will be necessary.

Candidates may be men or women — it is unlikely that anyone over 35 will be appointed. The salary, which will be negotiated, will be attractive and will depend on qualifications and ability. Previous experience in the Pharmaceutical Industry is unnecessary. Conditions of service are above average and a car will be provided.

Applications, in writing, including a curriculum vitae, should be addressed to:

The Medical Director
SMITH & NEPHEW PHARMACEUTICALS LTD.
Bessemer Road, Welwyn Garden City, Herts.

Members of the Smith & Nephew Associated Companies.

(15494) 16

INDUSTRIAL APPOINTMENTS

see also pp. xxxiv and xxxvi

Attention is drawn to the British Medical Association's statement of policy on the Remuneration of Industrial Medical Officers as approved by the Representative Body, which is available on request from the Secretary.

National Coal Board MEDICAL SERVICE

Applications are invited for posts of Deputy Area Medical Officers in the Yorkshire and Nottinghamshire coalfields.

The Medical Service provides comprehensive medical care in relation to their work for all members of the coal industry. It is also responsible for the health of employees in the ancillary industries, e.g. Bricks, Patent Fuels and Chemicals, which are increasing in number and diversity. Clinical and epidemiological investigation is actively encouraged—also liaison with the Institute of Occupational Medicine in Edinburgh.

Experience in occupational medicine is desirable, but not essential; training will be given and facilities for taking the Diploma in Industrial Health provided. The likely trend of manpower has been and is taken into account in recruitment to the medical service. For those who wish to make the Board's Medical Service their permanent career, there are now excellent prospects of promotion to more senior posts. Alternatively, several years in this industry with its diversity of environmental hazards should provide successful candidates with a sound basic training in occupational medicine.

Starting salaries according to age and experience will fall within the range £2,550 to £4,050—this range will be the subject of review in the coming months.

Please write, giving personal details and brief outline of qualifications and experience to: Head of Staff Administration, Room 232, Hobart House, Grosvenor Place, London, S.W.1. (15697) 17

Applications should be sent at once if no closing date is given. Canvassing disqualifies (Statutory Instrument, 1966, No. 569).

SALARY SCALES OF HOSPITAL MEDICAL STAFF

Following the Tenth Report of the Review Body, new salary scales have been approved. These came into force on January 1, 1969. The scales are set out below:

HOUSE OFFICERS: Each post in this grade shall be tenable for six months. £1,250 per annum for the posts held during the first year; £1,350 per annum for posts held during the second year; £1,450 per annum for posts held during the third and subsequent years, subject to full registration. Deductions of £165 per annum in respect of lodging only for voluntary residence.

SENIOR HOUSE OFFICERS: £1,570 per annum in the first year; £1,680 per annum in the second year; £1,790 per annum in the third or subsequent years. Deductions of £195 per annum in respect of lodging only for voluntary residence.

REGISTRARS: £1,790 per annum, rising by three annual increments of £110 and a further increment of £100 to a maximum of £2,220. Deductions of £195 per annum for those with remuneration at the first point on the scale, and £225 per annum for those on the second and subsequent points will be made in respect of lodging only for voluntary residence.

On assimilation to the scale for Registrars, one increment and one only shall be given for any year or part of a year in excess of two spent previously in the senior house officer grade. Allowances at rates up to £140 per annum shall be payable to house officers, senior house officers and registrars occupying posts approved for such allowances in peripheral hospitals.

SENIOR REGISTRARS: £2,120 per annum rising by one increment of £100 and four further annual increments of £135 to £2,760. Deductions of £250 per annum in respect of lodging only for voluntary residence.

On assimilation to the salary scale for senior registrars, increments to a maximum of two shall be given for each year or part of a year in excess of three spent previously in the registrar grade.

MEDICAL ASSISTANTS: £2,100 per annum rising by one annual increment of £120, by another three annual increments of £130 and by a further ten annual increments of £120 to a maximum of £3,810. Deductions of £250 per annum in respect of lodging only for voluntary residence.

CONSULTANTS: £3,470 per annum rising by eight annual increments of £200 and one further increment of £205 to a maximum of £5,275. Deductions of £390 per annum in respect of lodging only for voluntary residence.

COMPULSORY RESIDENCE: The Terms and Conditions of Service of Hospital Medical and Dental Staff state:

173. A practitioner who is required as a condition of his appointment to reside in a hospital shall be provided with lodging without charge, except where the practitioner elects to occupy a house, flat or apartment for which a rental is appropriate.

All National Health Service hospital appointments are in accordance with the Terms and Conditions of Service of Hospital Medical Staff. Memoranda on the following subjects of particular interest have been issued by the Ministry of Health: Standard of Residential Accommodation, Telephone Charges, Removal Allowances, Study Leave.

Further details may be obtained from the Hospital Secretary, or B.M.A. members may obtain summaries of the Memoranda or explanatory handouts from the Secretary, British Medical Association. (August 1969)

Morgannwg Hospital and Postgraduate
Centre in Psychiatry**WHOLE-TIME MEDICAL ASSISTANT
(Psychiatry)**

to Morgannwg Hospital at Bridgend, with
visits to other hospitals. Hospital is respon-
sible for extensive domiciliary and outpatient
services and has a close relationship with the
Local Authorities within the catchment
area.

Hospital possesses full facilities for all
modern methods of investigation and treat-
ment, and offers widely varied experience.
Post affords excellent facilities for postgrad-
uate education in psychological medicine and
related fields of study which include courses
in psychology, neuroanatomy, neuropathology,
etc., as well as regular Clinical conferences
and periodic Weekend Courses for general
practitioners, and the doctor appointed would
be expected to participate in these facili-
ties.

The hospital is situated in very pleasant
surroundings.

Successful candidates will be required to
live within ten miles of the base hospital.

Married and single accommodation is
available.

Further particulars of the hospital and
postgraduate activities are available on
request.

the new key

● maximum efficacy ● minimum dosage ● optimum tolerance

Extensive chemical and pharmacological research involving examination of over 8,000 compounds revealed one which has proved to be the most active and least toxic antidiabetic agent so far produced. Its name is DAONIL.

Maximum efficacy

The hypoglycaemic activity of DAONIL was first shown in animal experiments where a dose of only 0.28 mg/kg reduced blood sugar levels by nearly 30%. In subsequent world-wide clinical trials on over 5,000 patients DAONIL provided satisfactory control of blood sugar in 80%. Control was classified as excellent or good in 70% of cases.

Excellent 37.4%
Good 32.2%
Adequate 18.7%

A single daily dose proved sufficient.

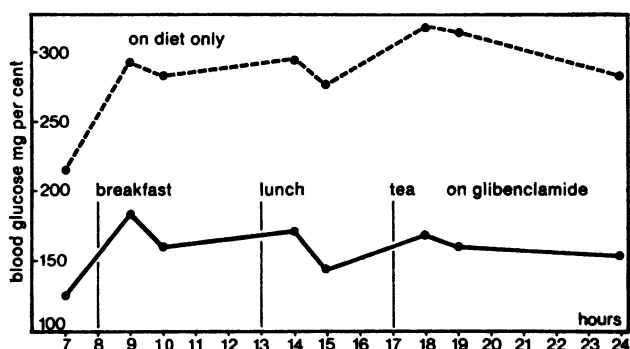

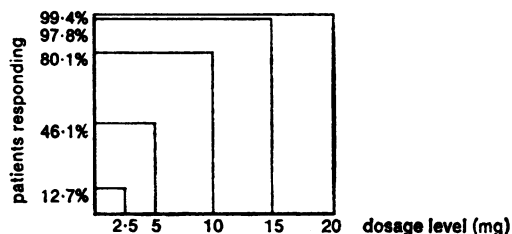

Fig 1 Blood glucose profiles throughout the day in 25 patients on diet only and then following therapy with glibenclamide at breakfast.

Thirty-six investigators compared DAONIL with chlorpropamide. Eighteen considered the two drugs to be equally effective but fourteen found DAONIL to be superior in lowering blood sugar.

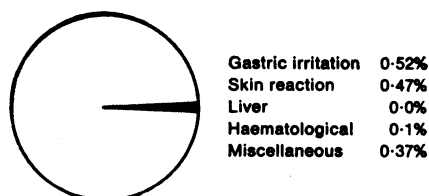

Minimum dosage

Very small amounts of DAONIL bring about the required degree of blood sugar control. Over 90% of suitable patients could be stabilised using a dosage range of 2.5 – 20 mg. confirming DAONIL as the most active antidiabetic agent available.

Optimum tolerance

In a chronic condition such as diabetes any treatment must be well-tolerated by the patient. In extensive clinical trials side-effects sufficiently severe to warrant withdrawal of therapy occurred in only 1.46% of patients.

PART-TIME MEDICAL OFFICER

required at

H. M. Borstal, Everthorpe, Brough, Yorkshire

Applications are invited from registered medical practitioners for appointment as part-time Medical Officer at H. M. Borstal, Everthorpe.

The salary has been provisionally assessed at £620 a year and will be reviewed after three months. Any adjustment in salary will be retrospective to the date the Medical Officer commences duty.

For further details and application form write to Establishment Officer, Romney House (R227 G H), Marsham Street, London, S.W.1. (15616) 55

MEDICAL ADVISORY SERVICE

Civil Service Department

Applications are invited from Medical Practitioners, practising in the district detailed below, for appointment, in a part-time and mainly advisory capacity, as Local Medical Officer for each of the districts or groups of districts shown. The town shown in brackets after the district-name indicates the Head Post Office Area in which the district or group of districts, is situated. Applicants should have a surgery in the district.

Successful applicants will be required to examine and report on the condition of certain Government Officers, teachers, candidates for appointment, etc., who may be referred to them from time to time; and to attend when summoned to an emergency case of accident or sudden illness occurring in a Government office in the neighbourhood.

Fees for this work, and mileage allowance where journeys in excess of a certain distance are necessary, will be paid on a scale agreed with the British Medical Association. Intending applicants should write, within fourteen days, to:-

THE MEDICAL ADVISER,
CIVIL SERVICE DEPARTMENT,
WHITEHALL,
LONDON, S.W.1.

For a form on which application may be made. Applicants should be not more than 60 years of age.

The districts for which applications are invited are as follows:-

England and Wales
Kington (Warwick)
Plaistow E13 (London Postal Region)
Hornchurch (Romford)
Beeston (Nottingham)
Scotland and Northern Ireland
Dundee (Dundee)
Mid and West Calder (Edinburgh)
Downpatrick (Downpatrick)
Musselburgh (Edinburgh)
(15668) 55

PUBLIC HEALTH**CITY OF CHESTER**

DEPUTY MEDICAL OFFICER
OF HEALTH AND
DEPUTY PRINCIPAL SCHOOL

Applications are invited from persons holding the D.P.H. and with experience in the Health Services. Salary £2,332/10 x 75 (4)-£2,632/10, plus £150 (approximately) per annum fee as Deputy Medical Referee to the City Crematorium. Car allowance with assisted purchase scheme; removal expenses and housing considered. The person appointed would be well placed to be favourably considered for promotion on the retirement of the Medical Officer of Health. Further particulars and forms of application from the Medical Officer of Health, City Health Department, St. Martin's House, Chester, to whom applications should be submitted as soon as possible. (H.7431) 56

CITY AND COUNTY OF KINGSTON UPON HULL

DEPUTY MEDICAL OFFICER

OF HEALTH

this post is to be held in conjunction with the appointments of Deputy Principal School Medical Officer, Deputy Port Medical Officer of Health (at Hull) to the Hull and Goole Port Health Authority, Medical Officer of Health, and of Commonwealth Immigrants under that Authority and Deputy Medical Referee to the Kingston upon Hull Crematorium. Applicants must hold the Diploma in Public Health and the possession of additional degrees, diplomas or academic distinctions will be considered an advantage. Salary scale £2,930 x £105(4)-£3,350. In addition an allowance of £200 per annum will be paid in respect of the duties of Deputy Medical Referee to the Crematorium and an honorarium of £150 per annum will be paid in respect of Port Health duties outside normal working hours. An "essential use" car allowance will be granted and a contribution to removal expenses will be considered.

Particulars of the appointment and forms of application may be obtained from the Medical Officer of Health, Guildhall, Kingston upon Hull, HU1 2AA, to whom completed application forms must be returned not later than the first post of March 23, 1970. (28425) 56

CITY AND COUNTY OF THE CITY OF EXETER

MEDICAL OFFICER OF HEALTH AND
PRINCIPAL SCHOOL MEDICAL OFFICER

Salary Scale £3870 x 105(4)-£4290
Applications are invited for the above appointment from registered medical practitioners holding a Diploma in Public Health and having considerable experience of Public Health Administration and the School Health Service. Car allowance.

Forms of application and further particulars may be obtained from the Town Clerk, 10 Southernhay West, Exeter, EX1 1JN, to whom they should be returned by April 7, 1970. (H7430) 56

YORK COUNTY BOROUGH COUNCIL

Applications are invited from registered medical practitioners for appointment as DEPARTMENTAL MEDICAL OFFICER on the salary scale £1,850-£2,520, the commencing point depending upon qualifications and experience. Possession of a D.P.H. or D.C.H. will be an advantage. The duties will be mainly clinical work in the Child Health, School Health and other Local Authority services.

Car allowance and assistance with removal expenses to a maximum of £40. Application forms, together with further particulars can be obtained from the Medical Officer of Health, 9 St. Leonard's Place, York, to whom completed applications should be returned by March 30, 1970.

S. R. W. Moore, M.D. D.P.H. Medical Officer of Health. (H.7387) 56

**AEROMEDICAL AND SAFETY TRAINING SCHOOL
BOSCOMBE DOWN, SALISBURY, WILTS.**

Applications are invited from Registered Medical Practitioners to fill a vacancy at the above Establishment for a period of two years to undertake the running of the School.

Duties include the organising and running of courses in the practical aspects of aviation physiology, and safety survival procedures for Ministry of Technology personnel engaged on flying duties. Candidates should have a background of experience of flying conditions in service aircraft, a knowledge of aviation medicine and experience in the supervision of decompression chamber training.

Salary will be within the range of £2,610 at age 28 years to £3,967 at age 40 years and above.

Hours of duty. Weekdays 8.30 a.m. to 5.0 p.m.

Application forms may be obtained from:-

S. G. SEARLE,
Ministry of Technology,
Room 639,
Adelphi,
John Adam Street,
London, W.C.2.

Closing date 20th March 1970.

Please quote reference 2A/33.

(15669) 55

**NATIONAL HEALTH SERVICE
HOSPITAL ADVISORY SERVICE****MEDICAL STAFF CONSULTANTS**

Applications are invited from men and women who are fully registered as medical practitioners in the U.K. for appointment to the professional teams of the Hospital Advisory Service. This new Government Service has been set up to help improve standards of hospital care through visits to individual hospitals to be carried out by a number of teams each comprising one doctor, two nurses, one social worker and one hospital administrator. Initially the Service will concentrate on long stay hospitals. Applicants must have a thorough knowledge of the hospital service and must be Consultants (with several years' experience in that grade) in one of the clinical fields to be covered initially by the Service—mental illness, subnormality, geriatrics or chronic sickness.

Appointments will be made for one or, preferably two years, by arrangement, normally from medical practitioners now employed in the hospital service who will be seconded to the Hospital Advisory Service and will return to their present posts at the end of their period of secondment.

Existing salary arrangements (including increments due and scale improvements negotiated during secondment) and existing superannuation arrangements will apply. When on duty N.H.S. subsistence allowance at the higher rate of the Class 1 level and first-class N.H.S. travel allowances will be payable.

Exceptionally, medical practitioners who do not currently hold a post in the National Health Service may be appointed on the N.H.S. Consultants' scale of remuneration, for a similar period of service. Applications in writing giving details of age, experience and qualifications and the names of two referees to whom the applicant is not in any way related should be sent to:

Establishments and Organization Division, Department of Health and Social Security, Room 410, Ivybridge House, 1-5 Adam Street, London, W.C.2 by 31st March 1970. (15617) 55

KENT COUNTY COUNCIL

Applications invited for posts in the grade of

Medical Officer in Department

(preferably Male)—full or part-time—in the East Kent area. Salary in scale £1,850-£2,520 a year. Full-time posts superannuable. Duties mainly in School Health and Child Health Services. Experience in classification of educationally subnormal children desirable but not essential. Possession of current driving licence essential. Assistance with removal expenses in certain circumstances. Applications stating age, qualifications and experience, together with the names of two persons to whom reference may be made as to professional ability and character to Dr. A. Elliott, Principal School Medical Officer, Springfield, Maidstone. (15094) 56

**BOROUGH OF COLCHESTER
ESSEX COUNTY COUNCIL**

(Delegated Health Service)

MEDICAL OFFICER**£1,850—£2,520 (Scale "C")**

This combined appointment will include duties in the public health and child and school health services in Colchester and surrounding districts.

The salary will be fixed according to qualifications and experience and travelling, subsistence and car allowances are payable (or car provided). Assisted car purchase scheme in operation, and assistance given with removal expenses.

Possession of D.P.H., or D.C.H. an advantage but not essential. Applicants not yet approved for ascertainment of mentally handicapped children should be prepared to attend an approved course after appointment.

Application forms from the Medical Officer of Health, East Lodge Court, High Street, Colchester, Essex. Closing date—31st March, 1970. 28690-56

KENT COUNTY COUNCIL

Applications invited for posts in the grade of

Medical Officer in Department

—full or part time (at least four sessions)—in the North West Kent and Medway Towns areas. Salary in scale £1,850-£2,520 a year. Full time posts superannuable. Duties mainly in School Health and Child Health Services. Experience in classification of educationally subnormal children desirable but not essential. Possession of current driving licence essential. Assistance with removal expenses in certain circumstances. Applications stating age, qualifications and experience, together with the names of two persons to whom reference may be made as to professional ability and character to Dr. A. Elliott, Principal School Medical Officer, Springfield, Maidstone. (15323) 56

HAMPSHIRE

Part-time Medical Officer in Department

A registered Medical Practitioner is required for this part-time post (average 5 half-day sessions per week) in the Bordon area. Duties will include acting as School Medical Officer to over 2500 pupils, and, in addition, clinic work including children under five, maternity and child welfare. The Diploma in Child Health or Public Health would be an advantage. Salary pro rata to Whitley Council Scale i.e. £1850 to £2520 per annum. Essential user car allowance.

Please quote reference MA1265/AM when asking for application forms (returnable by 23rd March, 1970) and details from the County Medical Officer, The Castle, Winchester. (15485) 56

CITY OF MANCHESTER HEALTH DEPARTMENT

(Medical Officer of Health—Dr. KENNEDY CAMPBELL,
M.A., M.D., LL.B., D.P.H., L.M.)

DEPUTY ADMINISTRATIVE MEDICAL OFFICERS SALARY SCALE: £2,425 TO £2,980

Applications are invited for the undermentioned posts from registered medical practitioners. Doctors wishing to gain administrative experience which will equip them for posts of responsibility in the proposed new Area Health Authorities will find these positions extremely valuable. Applications will be considered from general practitioners who are attracted towards medical administration.

A. Deputy Administrative Medical Officer (General Services)

The person appointed will deputise for the Administrative Medical Officer in charge of a division of the department concerned with the control of infectious disease, epidemiology, airport health control, the ambulance service and staff health and welfare.

The developing staff health and welfare service offers an opportunity for a person with both clinical and administrative interests. Research work will be encouraged.

The person appointed will also be required to act as Deputy Medical Referee to the Blackley Crematorium, for which an additional amount of £76 13s. 4d. per annum is paid.

B. Deputy Administrative Medical Officer (Personal Health Services)

The person appointed will deputise for the Administrative Medical Officer in charge of a division of the department concerned with a wide range of personal health services, including maternal and child health, geriatrics and pre-symptomatic screening services.

For both posts a car allowance is payable, and assistance with removal expenses may be available. (Previous applications for these posts will be reconsidered.) Requests for application forms (returnable no later than 26th March, 1970) and further details of the posts should be made to the Town Clerk (O), Town Hall, Manchester, M60 2LA, indicating whether your interest is in Post A or Post B or both. (H7392) 56

COUNTY COUNCIL OF ESSEX

APPOINTMENT OF MEDICAL OFFICER OF HEALTH Saffron Walden Borough and Rural District Councils, AND AREA MEDICAL OFFICER/DIVISIONAL SCHOOL MEDICAL OFFICER.

Essex County Council
Candidates should hold the Diploma in Public Health for this combined post involving duties for the Borough and Rural District Councils of Saffron Walden and the Essex County Council. Combined salary scale £3,206 13s. 4d. rising to £3,710. Whitley Medical Council (Committee "C") conditions of service will apply and also relevant Standing Orders of the employing authorities.

Appointment is subject to medical fitness and is superannuable. Commencing salary according to qualifications and experience. Applicants must be able to drive and will be paid an allowance for use of own private car on official business. Assistance given towards approved removal expenses.

Application form (returnable by March 25, 1970) from Clerk of the County Council, County Hall, Chelmsford. (28487) 56

HAMPSHIRE

PART-TIME MEDICAL OFFICER IN DEPARTMENT

A registered Medical Practitioner is required for this part-time post (average 5 half-day sessions per week) in the Romsey area. A diploma in Child Health or Public Health would be an advantage. Salary pro-rata to the Whitley Council scale i.e. £1,850 to £2,520 per annum. Please quote reference MA.1289/AM when asking for application forms, returnable by March 23, 1970, and details, from the County Medical Officer, The Castle, Winchester. (15643) 56

HUNTINGDON AND PETERBOROUGH COUNTY COUNCIL

DEPUTY COUNTY MEDICAL OFFICER OF HEALTH AND DEPUTY PRINCIPAL SCHOOL MEDICAL OFFICER

A registered medical practitioner (male or female) is required for the above-mentioned full-time post.

Candidates must hold a Diploma in Public Health and should have a sound knowledge and experience of all aspects of the work of the Local Health Authority.

Salary £2,975 x £100 (4)-£3,375.

Candidates must be car drivers. Car loan scheme in operation.

Payment towards removal expenses.

Form of application together with conditions of appointment may be obtained from the County Medical Officer, County Buildings, Huntingdon.

Completed applications should be returned to the undersigned as soon as possible. Eric P. Smith, Clerk of the County Council, County Buildings, Huntingdon. (28797) 56

LONDON BOROUGH OF HARINGEY HEALTH DEPARTMENT

MEDICAL OFFICER

(Part-time) £5 8s. 0d. per session. (5 sessions per week.)

D.P.H., D.C.H., or D.R.C.O.G. desirable but not essential.

Required to work in Local Authority clinics which comprise maternity, child welfare and school health is provided.

Application forms from Medical Officer of Health, Tottenham Town Hall, N.15. returnable by March 21, 1970. (28670) 56

LANCASHIRE COUNTY COUNCIL MEDICAL OFFICER (Departmental)

Applications are invited from registered medical practitioners for vacancies which exist in the following areas:

- (a) Fleetwood
- (b) Area adjacent to Liverpool
- (c) Royton & Crompton
- (d) Middleton

Salary scale £1,850-£2,520 per annum, commencing point according to experience.

The County Council has a generous scheme of financial assistance towards study for the Diploma in Public Health.

Industrial
Medical Officer
Kitimat B.C.

ALCAN CANADA employs about 2500 in the giant aluminium smelter at Kitimat in the coastal mountain range of British Columbia.

The Medical Officer, a member of the management team, is responsible for supervising all plant health services, advising on working conditions in relation to health and hygiene, providing good working relations with the community and the Government health services, and conducting medical examinations of employees and prospective employees.

Candidates should be about 35 to 40 years of age and must possess a medical degree qualifying him for admission to practise in British Columbia. Industrial experience is essential and a higher qualification in industrial health is desirable.

Kitimat is a well planned post-war city of some 12,000 with an excellent hospital, schooling, recreation and family living facilities. Fishing and hunting are good nearby.

The initial salary will be based on qualifications and experience and will be consistent with levels currently prevailing in British Columbia.

Applicants should write giving age, training and qualifications, career to date, and quoting reference AM.190 to:

D. L. Roper,
Overseas Appointments 190,
Alcan Industries Limited,
One Mount Street,
Berkeley Square, London W1Y 6HP.

SPECIALISTS IN INTERNAL MEDICINE

REQUIRED BY SASKATCHEWAN CANCER COMMISSION

Applications are invited from specialists in internal medicine (2 positions) for the cancer clinic in the University Hospital, Saskatoon.

Applicants are required to have higher qualifications in internal medicine. Experience in haematology or nuclear medicine will be advantageous, but not essential.

The clinic has a well equipped department of nuclear medicine and is responsible for all radioactive isotope investigations in haematology, endocrinology and metabolic disturbances in the northern half of the province.

The successful candidates will be appointed to the medical staff of the University Hospital and will be encouraged to take an active part in its teaching programme.

The present salary range for applicants with Canadian Certification or Fellowship is \$19,836 per annum—\$25,332 per annum. Without Canadian higher qualifications the salary range is \$19,836 per annum—\$21,876 per annum. Both of these salary ranges are presently under review.

There is a superannuation scheme, group life insurance and other fringe benefits.

Enquiries should be directed to: Dr. T. H. C. Barclay, Director of Cancer Services, Allan Blair Memorial Clinic, Regina, Saskatchewan. (15645)

61-1

CANADA

PSYCHIATRISTS

The Mental Health Branch, Province of British Columbia requires Doctors for the practice of Psychiatry in a number of challenging positions in clinics and institutions. Salary from \$13,560 to \$20,880 per annum, depending upon qualifications and experience. For full information, write to:—

British Columbia Civil Service Commission, Valleyview Lodge, Essondale, British Columbia, CANADA. (H7301)

61-1

ROTTERDAM MEDICAL FACULTY

Applications are invited for the vacant positions approximately equivalent to

REGISTRAR and LECTURER

in the department of Pathology section II, of the Medical Faculty of Rotterdam. The work of the department includes undergraduate teaching, hospital service in surgical pathology (mainly tumour pathology) and morbid anatomy, and research into problems of immunopathology, organ transplantation (including side-effects of immunosuppressive therapy) and carcinogenesis.

Any non-Dutch speaking appointees will be engaged principally in research and hospital service.

Further information may be attained from Professor M. J. de Vries, Department of Pathology, Medical Faculty of Rotterdam, P.O. 1738, Rotterdam, The Netherlands. (15626)

61—1

Auckland Hospital Board NEW ZEALAND

The Auckland Hospital Board invites applications from suitably qualified Medical Practitioners for the position of:

Physician-in-Charge

Department of Physical Medicine Board's Institutions

The appointee will be based at Auckland Hospital and will have direct charge of the Department of Physical Medicine at that Hospital, but will have overall responsibility for the Departments of Physical Medicine in all the Board's other institutions.

The qualifications desired in the appointee are a Membership of a Royal College of Physicians and a Diploma in Physical Medicine.

The position has been designated under the Hospital Employment (Medical Officers') Regulations as that of a Specialist and the salary scale prescribed by the regulations is:—

SPECIALIST—NZ\$6,090—8,100 per annum, by 9 automatic annual increments

The Regulations also provide for progression beyond the automatic maximum as recognition of special professional excellence or special responsibilities.

The appointee's commencing rate will be determined by the Director-General of Health in accordance with his qualifications and experience in the specialty, but shall be subject to review by the Medical Officers' Salaries Grading Committee at the request of the Board or the appointee.

Conditions of Appointment giving further details of this position, together with details of assistance towards travelling expenses to New Zealand, as well as forms of Application are available from the High Commissioner for New Zealand, New Zealand House, The Haymarket, London, W.C.2.

Applications addressed to the Secretary, Auckland Hospital Board, P.O. Box 5546, Auckland 1, New Zealand, close at 2 p.m. on Tuesday, 28 April, 1970. (15615)

**AHMADU BELLO UNIVERSITY
HOSPITAL, Nigeria
INSTITUTE OF HEALTH**

1. Applications are invited from suitable qualified and experienced Medical Practitioners for the undermentioned posts.

(a) SENIOR REGISTRARS**(b) REGISTRARS****(c) SENIOR HOUSE OFFICERS
in Medicine, Paediatrics and Community
Medicine**

2. The Faculty of Medicine of Ahmadu Bello University, Zaria, was established in October, 1967, and now has 120 students under instruction, the first batch (approximately 30) now being in the first year of clinical training. Clinical training is carried out in Hospitals situated in Zaria, Kaduna, Kano (Orthopaedic) and Malumfashi comprising approximately 1,000 beds in all, which were originally Government Hospitals but which are now being modified to bring them up to teaching standards. In Northern Nigeria there is an immense amount of clinical work to be done and likewise an immense amount of clinical experience to be obtained by anyone who is prepared to join in the pioneer work which is now being carried out.

3. Qualifications

(a) Senior Registrars: (i) Medicine: M.R.C.P. or equivalent. (ii) Paediatric: M.R.C.P. or D.C.H. or equivalent. (iii) Community Medicine: D.P.H. or equivalent.

(b) Registrars: At least 2 years experience since qualification preferably with experience in the relevant speciality.

(c) Senior House Officer. Full registration as a Medical Practitioner.

4. Salaries

(a) Senior Registrars £N1776-1980 per annum.

(b) Registrars £N1452-1512 per annum.

(c) Senior House Officers £N1392 per annum.

(£N1 equals £1 3s. 4d. sterling.)

5. Gratuity of £N37 10s. for each completed quarter of satisfactory service including earned leave. A supplementation varying with salary of approximately 30 per cent of salary, generally free of income tax, may be payable by the British Government to British or Irish candidates.

Return passages, and 42 days leave per annum. Appointments are for one tour of 12 months renewable (except in the case of Senior House Officer) by mutual agreement. Successful candidates would be required to register with the Nigeria Medical Council. Applications should be submitted not later than March 30 on the appropriate forms which may be obtained from the London Representative, Ahmadu Bello University, 56/60 Hallam Street, London W.1 and from whom further particulars may be obtained. Medical Officer/ Physician

£5,000 p.a.

Roan Selection Trust has a vacancy for a Medical Officer/Physician on the Copperbelt of Zambia and applications are invited from Medical Practitioners with adequate experience and a higher qualification in medicine, notably membership.

The successful applicant will be employed at Mufulira, one of four mines on the Copperbelt managed by RST and owned in partnership with the Zambian Government's Industrial Development Corporation. Mufulira has medical facilities catering for a population of approximately 50,000 and which centre round two well-equipped hospitals with a total of 430 beds. The present establishment of medical officers is 12 including those with higher qualifications. An additional medical officer is now required who will serve primarily as a Consultant Physician. In common with the other medical officers employed, his duties will include a certain amount of general medical work which in this instance will be minimal. In addition a limited amount of student nurse teaching will be involved associated with a training school for registered nurses which is to be established at the larger hospital.

Employment will be on a 4 year contract renewable by agreement, starting salary will depend on experience and qualifications but total annual emoluments will not be less than the equivalent of £5,000. Leave will accrue at 55 days per annum and a car is provided for professional use.

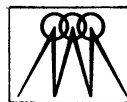

Additional benefits include: Paid return contract passages and mid contract leave passages for applicant and family. Baggage allowance. Furnished house at sub-economical rental. Free life assurance. Children's education allowances up to the equivalent of £500 per child per annum with two holiday fares per annum.

At 4,000 ft. A.S.L. the Copperbelt enjoys an ideal climate with sunshine all year round. Excellent facilities exist for practically all sports and leisure activities including television.

All applications will be treated in strictest confidence. For application form, write or telephone:-

E. T. S. Hughes, 8/70, Overseas Appointments Division,
RST International Metals Limited, One Noble Street, London E.C.2.
Telephone: 01-606 8800 Ext. 307

VICTORIA GENERAL HOSPITAL Winnipeg

Applications are being received for **HEAD OF THE DEPARTMENT OF OBSTETRICS AND Gynaecology**

This is an accredited community hospital with an energetic and progressive medical staff. It is a new 300 bed hospital which will open to admit patients in the fall of 1970.

There are 30 Obstetrical beds and 8 Gynaecological beds.

Term of office for department head will commence prior to opening date. Although no stipend is available at present, consideration will be given to the provision of free office space for private practice.

Applications with details of curriculum vitae along with the applicant's proposed program for development of this department should be marked for the attention of: Mr. J. H. Carter, Administrator, Victoria General Hospital, 424 River Avenue, Winnipeg 13, Manitoba.

Closing date for applications is April 30, 1970. (H.7366) 61-1

WANTED—GENERAL PRACTITIONER with primary interest in internal medicine to join a small clinic in British Columbia.—Box 2049 B.M.J. 61-1

WANTED—TWO GENERAL PHYSICIANS—both consulting—one general and one general but with subspecialty—i.e., pulmonary diseases or gastroenterology. Minimum requirement eligibility to sit the internal medicine examinations of the Royal College of Physicians and Surgeons, Canada. A mutually agreeable starting monthly rate between \$1,350 and \$1,600 based on present training experience and qualifications will be determined. Partnership possible after one year. Large practice excellent diagnostic facilities, pension, life, disability insurance and generous leave benefits available within multi-specialty private sector. Please airmail reply to the Executive Secretary, P.O. Box 557, Regina, Saskatchewan. 61-1

WANTED. LOCUM OR ASSISTANT FOR the summer of 1970, with view to staying in Partnership. Four man group. General Practice. Young man with a year or two postgraduate work preferred. Hospital privileges available. Good climate, no fog. Local fishing and fishing in season. Fare paid. West Coast Medical Clinic, 12 West Street, Corner Brook, Newfoundland. 61-1

WELL ESTABLISHED MEDICAL PRACTICE for sale in North Island town in New Zealand. Well appointed residence with detached surgery suite. Good weekend roster in operation. Single family man as good schools and University facilities readily available. For details apply to Box OV.967, B.M.J. 61-1

WELLINGTON HOSPITAL BOARD Wellington, New Zealand

DIRECTOR OF ANAESTHESIA

Applications are invited from suitably qualified Medical Practitioners for the position of Director of Anaesthesia, Wellington Hospital Board.

The appointee will be responsible for the anaesthetic services at Wellington and Hutt Hospitals and this will include arranging the duties of the whole-time and visiting anaesthetic staff attached to these hospitals. He will be expected to maintain a high standard of anaesthesia and ensure that Registrars, House Surgeons and Students attached to the department receive adequate supervision and instruction from senior staff.

An appropriate higher qualification is necessary and applicants must qualify for specialist status as defined in the New Zealand Hospital Employment (Medical Officers) Regulations.

Salary scale will be within the range \$6000-\$1000 with automatic increments to the maximum.

\$NZ2,149 equals £1 sterling approximately. Assistance may be given towards the appointee's transport expenses to New Zealand in return for an undertaking to remain in the Board's service for a minimum period of two years.

Applicants should obtain a copy of the Conditions of Appointment and a form of application from the Office of the High Commissioner for New Zealand, New Zealand House, Haymarket, London, S.W.1.

Applications, preferably on the form provided will be received by the Secretary, Wellington Hospital Board, Private Bag, Wellington, New Zealand up to 9 a.m. on Monday, April 6, 1970. (15274) 61-1

euglucon[®]

glibenclamide

new single daily dosage

During the **15 years** since **tolbutamide** was introduced, the search for improved oral anti-diabetic agents has continued. The investigation of more than 8,000 sulphonylurea compounds showed Euglucon to be the most potent yet best tolerated oral anti-diabetic agent so far available.

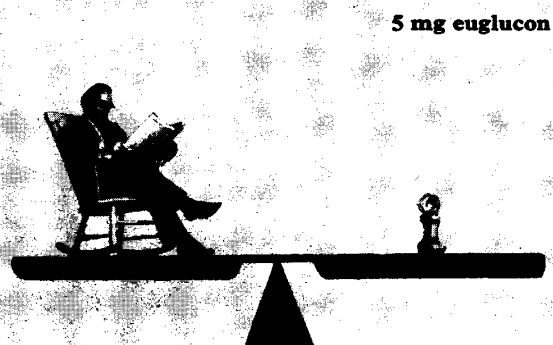

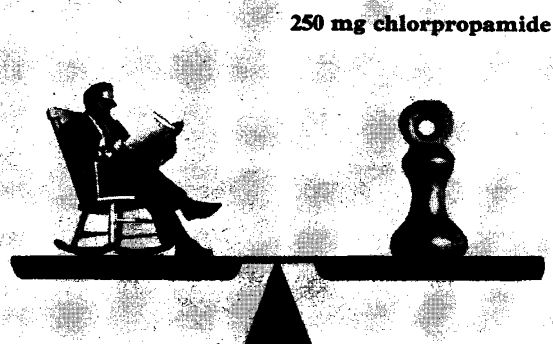

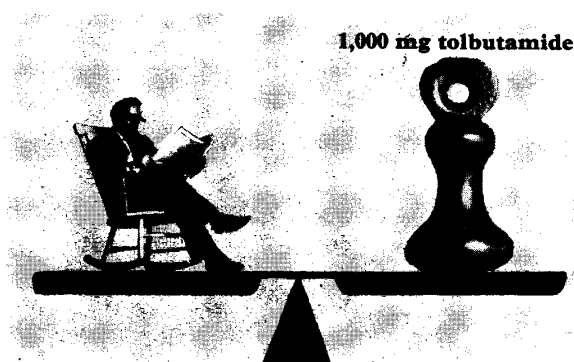

International clinical experience with more than 5,000 patients has shown that the majority of maturity-onset diabetics can be effectively controlled on a daily dosage of 10 mg or less of Euglucon, usually in a single administration. At the same time, Euglucon is well tolerated even in prolonged therapeutic dosage, being in this respect at least comparable to tolbutamide. Because of its potency, Euglucon may be suitable for the management of patients who have failed to respond to other oral anti-diabetic agents.

Detailed information on Euglucon available on request

1,000 mg of tolbutamide or 250 mg of chlorpropamide
is approximately equivalent to
5 mg of **Euglucon's** active principle **glibenclamide**.

new power in control of maturity

Oral hypoglycaemic agent

Effect of an oral glucose load on mean blood-glucose in four healthy adults before and 15 hours after 5 mg. glibenclamide.

First British publication on Euglucon

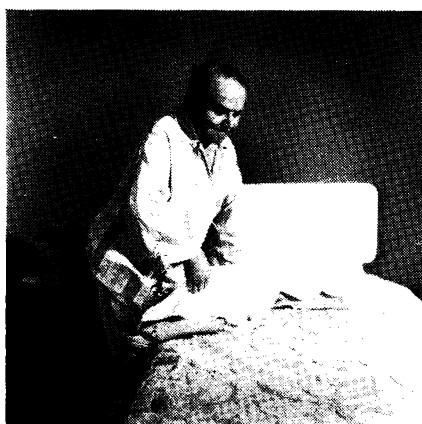

Euglucon has been made the subject of extensive clinical trials in this country. The first published report* reviews full metabolic studies carried out with healthy adults and diabetic patients. It also describes the results of a clinical trial involving 135 patients with maturity-onset diabetes. The trial included both new and old patients and treatment was continued for up to 7 months.

In their conclusions, the authors state:

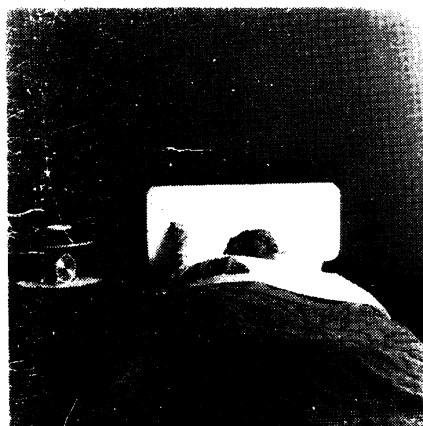

"Glibenclamide was found to be an effective agent for the treatment of maturity-onset diabetes and compared favourably in this trial with other sulphonylureas. The potency of the drug was such that some patients could be maintained on as little as 2.5 mg glibenclamide compared with 500 mg chlorpropamide. No gastro-intestinal or other side-effects were observed in patients treated with the drug over 7 months."

Metabolic and clinical effects of glibenclamide, *Lancet* (1970) i, 57.
