

'The Anxious Heart'

Valium* Roche was used in addition to the standard treatment in 58 patients with cardiovascular conditions¹. There was marked improvement in 10 of 12 cases of heart failure, 73 per cent of the patients with angina pectoris responded well and 18 of 22 hypertensive patients also experienced excellent improvement. With reduction of emotional tension and aggressiveness, sleep improved and a fall in the average arterial pressure, from 190/110 mm Hg to 150/85 mm Hg occurred.

When you diagnose Bronchitis, you're in the normal territory

The right-first-time antibiotic for Bronchitis

Penbritin is right because of its clinical record. In more than 1000 cases of bronchitis reported over eight years Penbritin has proved successful in 95% of acute and 79% of chronic infections.

Penbritin is right because it is effective against the bacteria commonly involved in bronchitis, *Strep. pneumoniae* and *H. influenzae*, some strains of which are resistant to tetracyclines.

Penbritin is right because of its safety record. Nearly 2,000 references demonstrate its suitability for a wide range of patient-types.

Penbritin is available in capsule, syrup, tablet and injectable forms. You can prescribe the right antibiotic in the right presentation for each patient.

Usual Adult Dosage: 250 mg. q.i.d. $\frac{1}{2}$ -1 hr. a.c.

Contra-indication: Penicillin allergy.

Side-effects: As with other penicillins.

Further information is available on request.

Penbritin

Penbritin* (ampicillin B.P.) is a product of British research at

Beecham Research Laboratories Brentford, England
originators of the new penicillins

*regd.

to span the spectrum of depression

Concordin[®]

Protriptyline hydrochloride MSD

for listless, withdrawn depressives

They complain they're always tired and have no energy. They don't want to go anywhere or do anything. Bored, apathetic and withdrawn, they have few if any symptoms of anxiety—the symptoms of depression predominate.

These are the very patients for whom 'Concordin' offers special advantages—

- improvement often begins within a week ☐
- a prompt return to normal interests in many patients ☐
- essentially free from sedative activity ☐

Tryptizol[®]

Amitriptyline hydrochloride MSD

for anxious depressives

They may complain of always feeling on edge. They are often so worried that they can't sleep properly—they tend to wake up in the early hours and brood. Anxiety may mask an underlying depression—but both demand early treatment.

'Tryptizol' is more appropriate for many patients where anxiety predominates—

- ☐ anxiety and agitation are quickly relieved
- ☐ disturbed patterns of sleep are rapidly improved
- ☐ the underlying depressed mood is lifted

Merck Sharp & Dohme Limited, Hoddesdon
Hertfordshire Telephone, Hoddesdon 67123

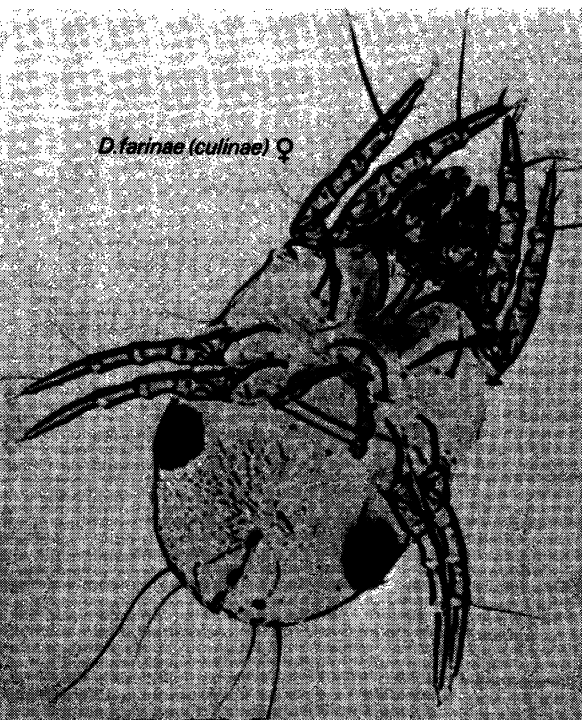

'Concordin' is available as 10 mg ('Concordin'-10) and 5 mg ('Concordin'-5) tablets. 'Tryptizol' is available as 10 mg, 25 mg, and 50 mg tablets, a syrup, and an injection. Detailed information on both products is available to physicians on request. ® denotes registered trademark.

protection against
acute attacks**

Choledyl Tablets, each containing 100 mg or 200 mg choline theophyllinate BP, are available in bottles of 100 and 500 tablets. Choledyl Syrup, containing choline theophyllinate BP 62.5 mg in each 5 ml dose, is available in bottles of 150 ml and 2 litres. Full information is available on request.

ALLEN & HANBURYS LTD LONDON E2 6LA

Choledyl is manufactured in England by Allen & Hanburys Ltd., under Licence from Warner-Lambert Pharmaceutical Company, New Jersey, U.S.A., owners of the Trade Mark.

As a doctor, you'd be better off abroad. Or would you?

Obviously, the decision's a difficult one. Especially if you're only just about to register.

So may we suggest something?

Rather than taking up a normal practice here or leaving the country, try the Royal Army Medical Corps. And you'll get the chance to do both.

Because, for some of the time, in the RAMC you're likely to see something of the world: in Germany, Cyprus, or maybe on exercises in countries from Canada to the Far East.

You can join for 3 or 5 years. And in that time you'll not only travel, you'll also gain valuable medical experience.

You'll hold the rank of Captain. And at say 24 years of age you earn around £3395 gross p.a. On top of that, there are all sorts of allowances.

Your surgery is well equipped by the Army. And you won't just be dealing with soldiers. There are wives and children to care for, too.

What's more, you get 6 weeks' paid leave every year.

At any time during your service, you can apply to stay on for a Regular Commission. And have the opportunity of specialising. In fact, around 70% of all Regular Officers do take up post-graduate studies.

Alternatively, you can leave at the end of your Short Service Commission.

All the better for the experience and for a tax-free gratuity. You get £1500 after 3 years. £3000 after 5.

So think about it. And before you decide on anything, find out more about the RAMC.

If you want full details, or want to meet an RAMC Officer, write to **Colonel T. S. Hart, MB, DPH, DTM & H, RAMC, Ministry of Defence (AMD2), Dept. 710 Lansdowne House, Berkeley Square, London, W1X 6AA.**

Post when normal postal services are resumed, or contact your local Army Careers Information Office.

Accident Proneness—Research in the Occurrence, Causation and Prevention of Road Accidents

LYNETTE SHAW, *Industrial Psychological Services, Johannesburg, South Africa*, and **HERBERT S. SICHEL**, *Operational Research Bureau, Johannesburg, South Africa*.

A unique analysis of the role of the automobile driver in road accidents. The authors justify by a survey of international research including their own work on the use of TAT projective personality tests for driver selection and accident prediction, the great influence personality has on driving behaviour. Other human factors affecting accident liability, including age, experience, exposure and discipline are covered and integrated with the concept of accident proneness.

484 pages £6.00 hard cover

Touch, Tickle and Pain

Part 2
YNGVE ZOTTERMAN

The author—a distinguished physiologist—continues his autobiography in this, the second of a two-part volume, and relates experiences of his early research years, his adventures as a medical officer in the Swedish Navy, his travels during the Second World War, his appointment to Professorship, Nobel Prize Ceremonies and life in his summer house in Anacapri.

304 pages £3.00 hard cover

Immunological Surveillance

SIR MACFARLANE BURNET, *Joint, Medicine Nobel Prize Winner (1961)*.

Provides an up-to-date account of the interaction of immune processes with malignant diseases in man. Discusses also a remarkable range of related biological topics—including for example, spots on Dalmatian dogs; the Spotted Albinos in the Triobirand Islands; children born immunologically crippled; why cancer is not contagious; the evolution of vertebrates; and how insects protect themselves from bacteria.

280 pages £3.00 hard cover

Genetic Counselling in Relation to Mental Retardation

Edited by J. M. BERG, The Kennedy-Galton Centre for Mental Retardation Research and Diagnosis.

This, the second in a series of symposia to be published on behalf of the Institute for Research into Mental Retardation, considers from different but complementary standpoints the general question of genetic counselling in relation to mental retardation. Provides a picture of the present state of the subject and also directs attention to the unsolved problems and the need for further research.

48 pages 75p flexi-cover

Biochemical Screening in Relation to Mental Retardation

Edited by D. C. CUSWORTH, Senior Lecturer in Human Metabolism, University College Hospital Medical School, University of London.

The third volume in a series of symposia published on behalf of the Institute for Research into Medical Retardation, covers the main features of the mass screening programmes now being introduced all over the world for the early detection of inborn errors of metabolism. Will prove invaluable to all those who wish to observe or collaborate in this new scheme of improved medical care.

The 125mph dream car

For the man who can please himself

Everything about this 125 mph big sports saloon leaves you yawning at other cars. Its concept: luxury limousine with the heart and handling of a powerful sports car.

Its performance: 0-50 mph in 6.8 seconds. Its safety-conscious comfort: the unique anti-dive brake circuit that stops the nose bucking the system: the suspension that keeps pushy bends smoothly in their place.

Why try to tell you what only a test drive can? The dream-of-a-drive that will whisper: "This is for me". The car you can own immediately, the quality of which you'll enjoy for a very long time.

BMW 2800 costs £3,499 and the BMW 2500, a 121 mph car, costs £2,999. Also available with ZF Sports Automatic transmission and power steering.

Heated rear screen, limited-slip differential, self-levelling rear suspension are standard equipment on the BMW 2800.

2800 brief specification: 6 cylinder 2788 cc overhead camshaft. 192 bhp (SAE) at 6000 rpm. Touring 25.6 mpg.

2500 brief specification: 6 cylinder 2494 cc overhead camshaft. 170 bhp (SAE) at 6000 rpm. Touring 26 mpg.

Prices shown are recommended retail prices incl. P.T.

The big BMW 2800 & 2500 sports saloons. Unbeatable

Other models include: 106 mph BMW 1600 £1648—113 mph BMW 2002 £1874—106 mph BMW 1800 £1796-97
108 mph BMW 2000 £2199—130 mph BMW 2800 CS £4996-98

anxious and depressed

Mrs Rogers presented with headache. She appeared tense and irritable. Her doctor's history-taking elicited her social and sexual problems, her guilt feelings and insomnia. He decided she was basically depressed with anxious overtones.

Rabro Liquorice for Peptic Ulcer

NO OEDEMA - AMBULATORY TREATMENT

rabro tablets A combination of specially prepared liquorice with conventional ingredients.

advantages ■ Ambulatory treatment

■ Strict dieting unnecessary ■ Assists healing

formula Prepared Liquorice Juice. 300 mg.

Bismuth Subnitrate 350 mg. Magnesium Carbonate 400 mg.

Calcium Carbonate 200 mg. Cortex Rhamnus Frangula 25 mg.

Dose 2 tablets 3 times daily after meals.

Packing Containers of 60 & 150 tablets.
(in handy pocket strips of 10)

Continuing work on liquorice stresses its growing importance in the treatment of peptic ulcer. Untreated liquorice is known to produce undesirable side effects. In Rabro tablets the liquorice has been modified to overcome this. The fact that treatment is effective without the patient being confined to bed makes it the prescription of choice.

Trasicor

oxprenolol hydrochloride

The fundamental approach to long-term treatment of angina

Unique combination of benefits

Highly effective

- Frequency and severity of anginal attacks dramatically reduced
- Trinitrin requirements reduced or eliminated

Improved safety

- Greater protection against induced heart failure
- Less likely to increase airways resistance

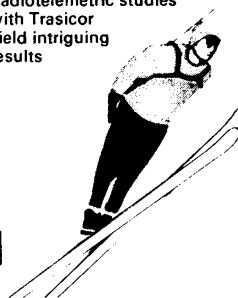

Trasicor goes further than just relief of pain
—it offers a better quality of life

Before using Trasicor, it is important that doctors consult the detailed literature for full prescribing information.

Tablets 40 mg (for angina) and 20 mg.
100's and 500's.
Basic NHS price 100 x 40 mg: £2.60
Ampoules 2 mg.

In obesity

It's simple-it's logical
the fatter they are - the higher the dose

'The effective dose range for most patients is 60-120mg/day and side effects can be minimised by beginning with the low dose and gradually increasing medication to the most effective level for that patient'.

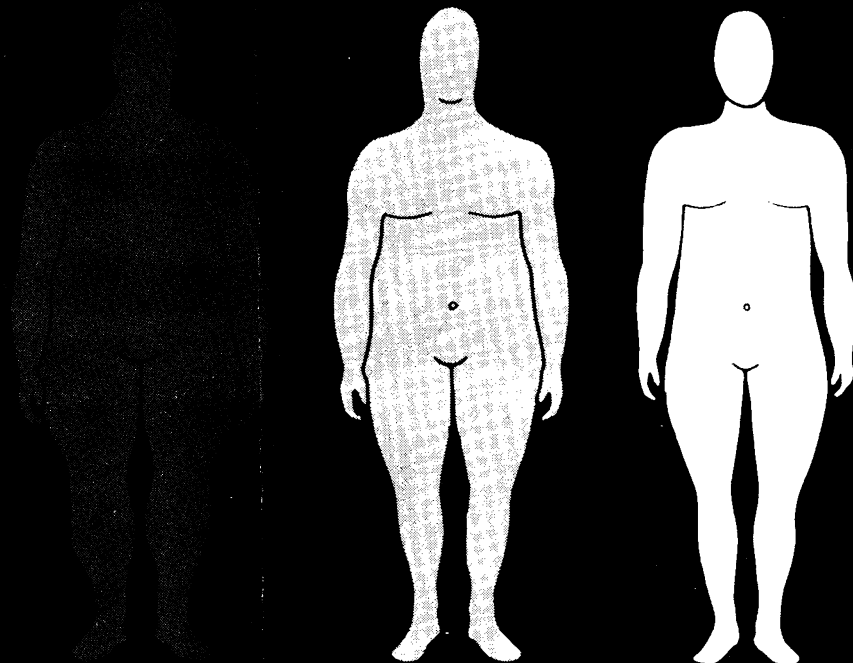

*International Symposium on Amphetamines and Related Compounds.
Raven Press (1970), 691.*

FENFLURAMINE

Dosage is the same for **all** obese patients for the first two weeks

***then it is
related to
the severity
of the obesity***

	SEVERE Tabs. per day	MODERATE Tabs. per day	MILD Tabs. per day
1st Week	1 + 1	1 + 1	1 + 1
2nd Week	1 + 2	1 + 2	1 + 2
3rd Week	2 + 2	2 + 2	1 + 2
4th Week and maintenance	2 + 2 + 2	2 + 2	1 + 2
Percentage overweight	> 20%	15-20%	10-15%
Skinfold thickness	Men > 25 mm Women (> 30 mm)	20-25 mm (25-30 mm)	15-20 mm (20-25 mm)

Where twice a day dosage is shown, tablets are taken morning and evening. If three times a day, the third dose is taken at lunchtime

When weight has been stabilised the dosage should be reduced in reverse to starting treatment, to two tablets daily before stopping

Note: Weight loss will not usually be apparent during the first two or three weeks of treatment.

Contra Indications:

Although both human and animal studies have demonstrated that there is no harmful effect on the foetus, it is not recommended that PONDERAX be administered during the first trimester of pregnancy, unless the physician considers the benefit outweighs any possible risk.

Precautions:

Do not administer concurrently with MAOI's, or to depressive patients. PONDERAX may potentiate the action of some anti-hypertensive, anti-diabetic and sedative drugs. The dosage of these drugs should be re-assessed when the patient is taking PONDERAX.

Secondary Effects:

Principally mild sedation and increased bowel frequency. Very occasionally gastric upset, nausea, dizziness and headache have been reported. All these effects are reversible by reduction or cessation of dosage.

Ponderax produces sustained, substantial weight loss through its unique glycoliptic action without stimulation.

Full information, patient dosage pads and skinfold calipers are available from:

HAPPILY EVER AFTER

'Keflex' offers a combination of effectiveness and safety which is unsurpassed by any other antibiotic.

No reports of teeth staining or renal damage, a very low incidence of rash and gastrointestinal disturbance make it particularly suitable for the treatment of bacterial infections in children. Add broad-spectrum, bactericidal action and resistance to penicillinase and it's easy to see why so many children recover so quickly with so few complications after 'Keflex' therapy.

'Keflex' Suspension is supplied in 100 ml bottles containing 125 mg cephalixin (as the monohydrate) per 5 ml. 'Keflex' is also available for older children and adults as capsules each containing 250 mg cephalixin (as the monohydrate).

"To get through the day is a hard enough fight for the patient with crippling osteoarthritis or severe rheumatoid arthritis, but when nights have been sleepless and pain-wracked, the next day is started with physical and psychological stores depleted and the patient already exhausted at the starting-post."

Lancet, 1970, i, 881 (25 Apr)

For many patients afflicted by arthritis, 'Indocid' Suppositories can bring about a noticeable improvement during the night. Many will enjoy a better night's sleep, less interrupted by pain and stiffness, and find it easier to get started in the morning. The addition of 'Indocid' Capsules will help to keep them mobile during the afternoon and evening.

Indocid SUPPOSITORIES
AND CAPSULES

Indomethacin/MSD

Supplied as 100 mg suppositories, 25 mg and 50 mg capsules, and a suspension (25 mg/5 ml). The informative literature, available on request, should be consulted before prescribing. ® denotes registered trademark.

Gastric ulcers—endoscopic photograph

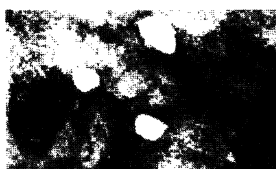

Gefarnil brings the ulcer problem down to size.

Traditional treatment in suspected or confirmed peptic ulcer cases is mostly symptomatic – geared simply to relief of pain.

Now there is Gefarnil – the unique healing agent. Its anti-ulcer properties have already been well established in animal experiments and clinical trials^{1,2,3}.

Its systemic action means that Gefarnil can reach ulcer sites in both stomach and duodenum, and while many other agents act by surface contact, merely providing an environment for healing, Gefarnil takes effect through its blood-tissue level, independent of conditions in the gut lumen.

The expected sequence of events with Gefarnil is as follows:

15 days—remission of symptoms (usual antacid/antispasmodic treatment advisable during this period)
30 days—ulcers no longer detectable radiographically (but may still be evident endoscopically)
60 days—ulcers no longer detectable endoscopically.

Only minor transient side effects occur with Gefarnil, which can thus be used with confidence not only in confirmed but also in suspected ulcer patients.

Gefarnil* is presented as capsules, each containing 50 mg. Gefarnate, and as injection solution, 50 mg. per ml.

Further information available on request.

Daonil[®] glibenclamide

a distinctly different sulphonylurea for maturity onset diabetes
clinically superior — pharmacologically advanced

A markedly different mode of action at the beta cell distinguishes Daonil from other sulphonylurea preparations.¹ Infusion experiments show *sensitisation* of the beta cells to glucose so that insulin release is prolonged. Serum insulin levels remain high for as long as 13-16 months after initiation of Daonil², but fall off after a much shorter period on chlorpropamide³.

Many publications illustrate the clinical advantages of Daonil^{2,4,5,6}, better control of blood sugar with a single daily dose ranging from 2.5-20mg.² a low incidence of gastric irritation and skin rashes⁴, no consistent weight gain⁵.

*Each Daonil tablet contains glibenclamide 5mg.
Full information available on request.*

Hoechst Pharmaceuticals A Division of Hoechst UK Limited Hoechst House Salisbury Road Hounslow Middx 01-570 7712

A 40 year old civil servant, following a severe domestic upset, took a total of 90mg (18 tablets) of Mogadon between midnight and noon. "In the following eight hours he consumed half a bottle of whisky and some sherry; when seen some two hours later, it was obvious that he had been drinking but he was quite conscious and capable of discussing his domestic troubles and to relate the story of what had happened throughout the previous night."¹

Now you can sleep easy

Against a background of increasing concern about the danger of barbiturate poisoning (as few as 20 or 30 tablets may prove fatal), the advent of Mogadon must be of considerable importance. Indeed, Mogadon ".....appears to be as nearly as safe as a drug can be."² Even as many as 80 tablets have produced no untoward effects. Moreover, a recent trial in the B.M.J. showed Mogadon comparable in effect to butobarbitone.³ When such a drug exists, should you risk using anything else?

the germ-killers re-union

The germ killers are re-grouping for the attack. From 1st February, 1971, after a period under licence, all Betadine germicidal preparations will be distributed by Napp Laboratories Limited – a member of an International group of pharmaceutical companies which has demonstrated through research the exceptional clinical value of povidone iodine.

Because of their outstanding, non-selective, microbicidal properties, specific Betadine preparations can be used with utmost confidence. Below is the range of Betadine preparations:-

Betadine Surgical Scrub
Betadine Antiseptic Solution
Betadine Aerosol Spray
Betadine Ointment
Betadine Scalp Lotion
Betadine Vaginal Gel
and Vaginal Douche Solution

Lethal to all major classes of pathogens, Betadine germicides destroy both Gram-positive and Gram-negative bacteria (including all antibiotic resistant strains) and are also lethal to viruses, protozoa and fungi within 30 seconds. *Betadine even kills resistant spores within 60 minutes of contact.*

The Space Age germicide

Betadine® Surgical Scrub was NASA's choice for use in decontamination procedures following lunar missions.

Full information and samples are available to the medical profession on request from:

**As a first line antibiotic in
common respiratory infections**

ILOSONETM
Erythromycin Estolate BP

has proved its claims

☐ Intense antibacterial action
where it is needed

☐ Low incidence
of sensitivity reactions

☐ Reliable, consistent
and rapid absorption

☐ Little clinically significant
effect on gut flora

It is not surprising that more and more doctors are prescribing ILOSONE as a first line treatment for everyday respiratory infections.

The clinical evidence, which has been mounting for over 10 years, has only strengthened the ILOSONE claims. Reliable, predictable and effective where it matters most—particularly against Gram positive cocci, *H. influenzae* and *Mycoplasma pneumoniae*. Little or no effect on the normal gut flora and no risk of stained teeth or deposition in bone.

Furthermore, apart from rare reports of reversible cholestatic jaundice following prolonged treatment, ILOSONE has a notable record of safety.

ILOSONE has stood the test of time where others have failed or have yet to prove themselves.

**ILOSONE has
stood the test of time**

6 separate problems— solved with one antibiotic

Lilly
Keflex
PREPARATIONS OF CEPHALEXIN MONOHYDRATE

multi-spectrum antibiotic

Cephalexin is the oral antibiotic that could overcome the above problems—combining bactericidal action, broad-spectrum activity, and effectiveness even in the presence of penicillinase producers. With care, 'Keflex' may be used even in patients with renal damage. Its rapid action together with almost complete absorption, plus a very low incidence of gastro-intestinal side effects are the reasons why so many bronchitic patients recover so quickly with so few problems following 'Keflex' therapy. **500 mg 'Keflex' tablets** are a convenient dosage form for these bronchitic patients.

Further information available on request.
Eli Lilly & Company Limited Basingstoke Hants

'Keflex' 500 mg tablets each containing 500 mg cephalexin* (coded U49). Also available 250 mg* capsules (coded H69), 250 mg*/5 ml suspension and 125 mg*/5 ml suspension. *Cephalexin (as the monohydrate).

Serenace

HALOPERIDOL

*three
pathways to
serenity*

Serenace Tablets Liquid and Ampoules

**for schizophrenia, mania, childhood
behaviour disorders**

Serenace acts quickly and safely to calm the aggressive and agitated patient without inducing drowsiness.

Serenace enables patients to derive full benefit from rehabilitation therapy.

Serenace does not demonstrably affect a child's learning ability.

Serenace 3 mg Ampoules as a premedicant in anaesthesia, obstetrics, 'conscious' procedures

Serenace 3 mg —

- * Gives an effective predictable response
- * Reduces post-operative vomiting
- * Gives minimal disturbance of respiration and blood pressure.
- * Leaves patients calm but co-operative.

Serenace 0.5 mg Capsules

**for anxiety and anxiety with
associated depression**

Serenace capsules rapidly alleviate your patient's anxiety and tension.

Serenace capsules twice daily dosage takes your patient calmly and safely through the day without soporific effects.

Serenace has shown no addictive properties even after long periods at high dosage.

"Haloperidol's lack of soporific activity and its effectiveness in reducing severity of fatigue are desirable qualities when treating outpatients who must continue to work."

Glaxo brief

a few minutes reading
from Glaxo

Betnovate is better.
So he is too.

**Glaxo
brief**

Infected eczema: all the better for **Betnovate-N**

S

Eczema patients respond better to Betnovate than to other topical steroids. Two clinical trials^{1,2} involving 916 patients and comparing Betnovate with five other leading topical steroids, proved this conclusively. Their findings included:

"Betamethasone 17-valerate was statistically superior to the other topical corticosteroids in fourteen of the twenty separate subdivisions of the trial; in no instance was it inferior."¹

When you add the broad-spectrum antibiotic neomycin to the most effective steroid you can prescribe, the result is Betnovate-N. In infected eczema it controls the infection and gives rapid relief from itching and inflammation thus achieving the best response. The one thing to remember is Betnovate. Add an N to fight the infection.

In tonsillitis **Crystapen G** beats the streptococci and that's what counts!

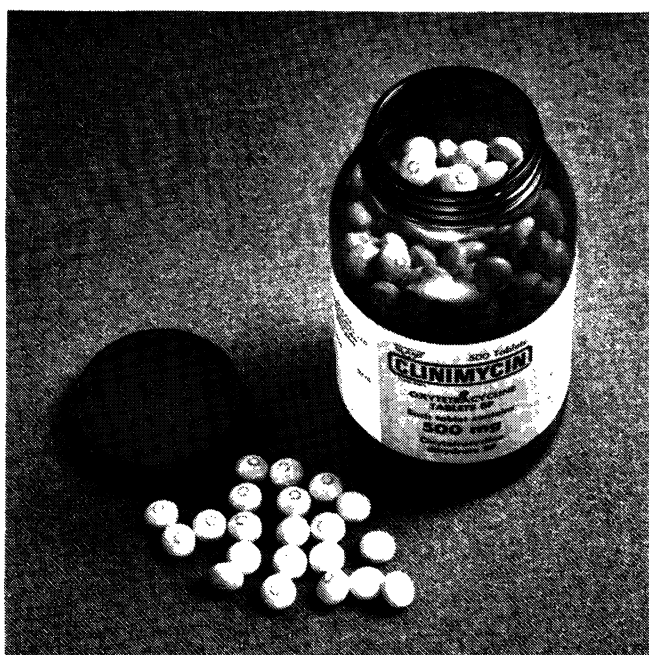

Penicillin is still the most effective treatment for tonsillitis. That's because it is still the most effective antibiotic against streptococci. Recently there has been an increase in the number of streptococci resistant to sulphonamides and tetracyclines. And Ampicillin simply doesn't have the same high degree of activity against streptococci as Penicillin. Crystapen G is the penicillin that beats the streptococci and at a low cost too.

A new 500 mg Clinimycin Tablet for bronchitis

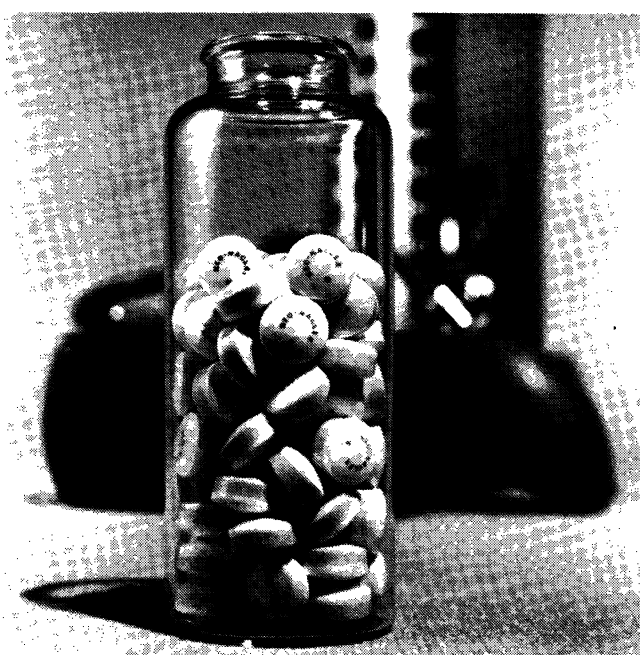

A new 500 mg tablet has been introduced in the Clinimycin range. This is particularly valuable in cases of acute or chronic bronchitis where a regimen of 500 mg oxytetracycline three or four times daily is indicated. With this new 500 mg strength Clinimycin Tablet you can, for the first time, prescribe each dose in a single tablet. This makes life much easier for the patient and ensures that the correct dosage is more likely to be taken. The new 500 mg Clinimycin tablet has arrived in time to meet the increased winter demand.

Neo-NaClex-K—a unique tablet for the safer management of all grades of hypertension

Neo-NaClex-K is a unique two-layered diuretic/potassium chloride tablet which is helping doctors to treat all grades of hypertension more effectively and safely. In mild cases it can be used alone to lower blood pressure. And in severe cases it can be used in conjunction with other more potent drugs to enable the dosage and side effects of the latter to be substantially reduced. Neo-NaClex-K is particularly well-suited to the long-term management of hypertension in the elderly because side effects are very rare, and the special formulation of the tablet ensures that no great concentration of the potassium chloride is reached in the intestine at any one time.

Golden Ostermilk— more hygienic more convenient

Golden Ostermilk — the new baby milk food from Glaxo — needs to be mixed in a new way. It's called the warm-mix method and it means mother can mix baby's feed in a few moments in a wide-neck bottle. It's safer for baby because there's less risk of carrying infection from mixing utensils to the bottle, and it's simpler for mother. The secret of warm-mixing is cooling the boiled water, until it's lukewarm, before adding the Golden Ostermilk powder. And warm-mixing preserves the natural taste and natural goodness of Golden Ostermilk. Recommend it with confidence.

Iron out iron deficiency with **Fersaday**

Fersaday continues to be the effective and rapid answer to iron-deficiency anaemia. Fersaday contains ferrous fumarate which is well tolerated, thus avoiding the gastric upsets common to some iron preparations. Because the ferrous fumarate is well tolerated, adequate dosage for iron-deficiency anaemia can be given in one daily tablet. The tablets come in handy wallets of 28 — with a Fersaday tablet identified for every day of the week. When you require a safe, low cost iron treatment prescribe Fersaday to iron out iron deficiency.

HOW TO CHOOSE THE BEST COURSE

It may indeed be difficult to choose the best course, when there are so many fine ones available. The choice is obvious, however, when it comes to safeguarding your own and your family's future.

It will pay handsomely to get in touch with the Insurance Agency which specialises in selecting the right policies for medical men, and can discuss his particular problems knowledgeably and sympathetically.

The Medical Insurance Agency can through its country-wide organisation give unbiased, expert advice on all insurance, estate duty and many financial problems, and undoubtedly "Choose the best Course" for you, personally.

UNIVERSITY OF BIRMINGHAM FACULTY OF MEDICINE AND DENTISTRY COURSE ON ADVANCES IN MEDICINE AND THERAPEUTICS

A three-day course on Advances in Medicine and Therapeutics, primarily designed for general practitioners, will be held, under Section 63 provisions, at the Queen Elizabeth Medical Centre, Edgbaston, Birmingham 15, from Wednesday April 21 to Friday April 23, 1971. The course has been so arranged as to permit considerable time for discussion and for visits to specialised units (e.g. coronary care, dialysis and transplant) in the Queen Elizabeth Medical Centre, as well as more formal symposia on selected topics of therapeutic and practical importance in the Community and Hospital. A charge of £5 will be made to cover all meals and refreshments, including a dinner on the first evening of the course. Enquiries and applications to attend should be addressed to Professor A. G. W. Whitfield, Director, Board of Graduate Studies, the Medical School, Birmingham B15 2TJ. (15923) 2

The London School of Hygiene and Tropical Medicine and The Hospital for Tropical Diseases

A course on the more important tropical diseases as encountered in general practice in Britain will be given at the London School of Hygiene and Tropical Medicine and at the Hospital for Tropical Diseases, London, on Friday, July 2 and Saturday, July 3, 1971. Clinical and laboratory demonstrations will be given by members of the staff of the School and Hospital.

The course has been approved as qualifying for expenses under Section 63 of the Health Services and Public Health Act 1968. The fee is £8. Entrants will be limited in number and must be medically qualified.

Applications and enquiries should be directed to the Registrar of the London School of Hygiene and Tropical Medicine, Keppel Street (Gower Street), London, WC1E 7HT. (15901) 2

INSTITUTE OF UROLOGY In association with St. Peter's Hospitals WEEK-END COURSE on "RECENT ADVANCES IN UROLOGY" March 19 to 21, 1971

The Medical Protection Society

The Council of the Medical Protection Society invite applications from registered medical practitioners for the appointment of

An Additional ASSISTANT SECRETARY (MEDICAL)

Experience of the National Health Service important, although service in the Armed Forces could be helpful; knowledge of committee procedure desirable. An aptitude for public speaking and interest in the law or medical jurisprudence would all be valuable. It is anticipated that the candidate appointed would not be under 32 years of age.

Salary will be on a scale which will be incremental and superannuated. The point of entry will have regard to experience and age and will lie between £4,500 and £5,325; thereafter there will be five annual increments of approximately £200.

The professional whole-time staff of the Society includes four doctors and two dental surgeons; one of the former is in charge of the Society's Northern Regional office at Leeds.

Further details of the post may be obtained either from the Secretary, Dr. Constable, 50 Hallam Street, London, W.1 or from Dr. Ford, 30 Park Square, Leeds 1.

Applications (envelope marked "Assistant Secretary"), giving full particulars, together with the names of not more than three referees, should reach

The Secretary,
Medical Protection Society Ltd.,
50 Hallam Street, London, W1N 6DE. Tel. 01-580 9241
not later than Monday, February 22, 1971. (H7864)

THIRD PARTNER (MALE) TO JOIN progressive practice in Kingston-upon-Thames. Medical and obstetric beds, hospital appointments, E.C.G. machine, full pathological and X-ray facilities, postgraduate medical centre. S.R.N. as receptionist, secretary, health visitor and district nurse attached. Small list enables us to maintain high academic standards of medical practice.—Box 2322, B.M.J. 6-1 or telephone 01-940 1569, 01-546 2291.

THIRD PARTNER REQUIRED TO FORM Group Practice in semi-rural Essex. Purpose-built surgery planned. Appointments system. Ancillary staff. Open access to Pathology and X-ray Department and Academic Unit in near-by Hospital. Obstetrics essential.—Box 2323, B.M.J. 6-1

PARTNERSHIPS WANTED

UNIVERSITY AND RESEARCH APPOINTMENTS

(see also OVERSEA)

MEDICAL RESEARCH COUNCIL

Tuberculosis and Chest Diseases Unit, Brompton Hospital

Applications are invited from medical graduates for a vacancy on the scientific staff of this Unit to assist with the initiation and development of a variety of research projects into the aetiology, epidemiology and therapy of chest diseases. The Unit's programme includes investigations in Britain into tuberculosis, carcinoma of the bronchus, sarcoidosis, asthma and other non-tuberculous conditions, and into tuberculosis abroad, and the organization and evaluation of medical services.

The post is particularly suitable for an experienced research worker interested in the possibility of a career in medical research. Experience in chest diseases, epidemiology or social medicine is, however, an advantage, although less experienced candidates seeking further training and broader experience can apply. Honorary clinical status within the Hospital and an honorary appointment in the Department of Medicine in the Institute of Diseases of the Chest are possible for a candidate with appropriate experience. Salary according to age, qualifications and experience, plus London allowance; superannuation provision.

Application, giving full details of qualifications, experience and the names of three referees should be sent to the Director, M.R.C. Tuberculosis and Chest Diseases Unit, Brompton Hospital, Fulham Road, London, S.W.3.

(H8128)

14-1

UNIVERSITY COLLEGE

Galway, Ireland

LECTURESHIP IN ANATOMY

Applications are invited for the above post. The latest date for receipt of applications has been extended to March 18, 1971. Prior to application, further information should be obtained from the Secretary, University College, Galway, Ireland. (H8134)

14-1

UNIVERSITY OF LONDON

A lecture entitled "Calcitonin and Calcium Homeostasis" will be delivered by Professor D. H. Copp (British Columbia) at 5.30 p.m. on February 25 at The Middlesex Hospital Medical School (Edward Lewis Lecture Theatre), Cleveland Street, W1P 7PN. Admission free, without ticket. M. A. Baatz, Academic Registrar. (15991)

14-1

UNIVERSITY OF ST. ANDREW'S

Department of Anatomy

Applications are invited from graduates in medicine or biology for the post of

LECTURER

Excellent research facilities are available including an Electron Microscope. Current research interests in the Department include the Development and Clinical Anatomy of the Heart and the Ultrastructure of the Connective Tissues. Salary scale £1,491-£3,417. Starting salary according to qualifications and experience. F.S.S.U. Grant towards the expenses of furniture removal. Applications with the names of two referees should be lodged with the Secretary of the University, College Gate, St. Andrew's, from whom further particulars may be obtained. (15973)

14-1

SPECIAL APPOINTMENTS

WARE PRACTICE MANAGER required for expanding group practice. Salary in accordance with experience and qualifications. J. M. Ferrar, 63 High Street, Ware, Herts. 18

APPLICANTS ARE ADVISED NOT TO send original testimonials when replying to advertisements. Copies will serve the purpose quite as well, and in the event of their being lost or mislaid no inconvenience will ensue.

INDUSTRIAL APPOINTMENTS

Attention is drawn to the British Medical Association's statement of policy on the Remuneration of Industrial Medical Officers as approved by the Representative Body, which is available on request from the Secretary.

JOSEPH LUCAS LTD. MEDICAL OFFICER

Applications are invited from registered medical practitioners for the full time post of Medical Officer based at Great King Street, Birmingham.

This appointment offers an opportunity to take charge of and assist in the further development of an established occupational health service at a number of factories in the Birmingham area and scope for a permanent career in occupational medicine within a large industrial organisation. The development of special interests will be encouraged. Occupational Hygiene services are available as well as X-ray, E.C.G. and physiotherapy facilities.

The post is suitable for candidates with a good standard of clinical medicine, who are seeking an opportunity to enter occupational medicine, as well as for doctors already experienced in this field.

Salary will be in accordance with the British Medical Association scale for Medical Officers, the commencing point depending on qualifications and experience, and there are promotion prospects.

Applications, giving full details of qualifications, experience and age, should be addressed to the

**Chief Medical Officer
JOSEPH LUCAS LTD.
GREAT KING STREET, BIRMINGHAM 19**

(15847) 17

**BABCOCK & WILCOX
(OPERATIONS) LTD.**

**RENFREW
SCOTLAND**

MEDICAL OFFICER- SCOTLAND

A challenging opportunity exists for a Doctor, preferably with postgraduate qualifications and previous experience in occupational health, to work in an active Occupational Health Service based at Renfrew serving a heavy engineering Company.

The Service is based on the precepts of—

1. Prevention—personal and environmental
2. Treatment
3. Rehabilitation

(See "Occupational Health" Sept./Oct. 1969 Vol. XXI, No. 5)

- The successful applicant will be expected to assist the Senior Medical Officer in all aspects of this service.
- There are five well equipped Medical Centres with a wide range of diagnostic tools and environmental measuring equipment.
- The occupational health team, in addition to the Senior Medical Officer, includes fifteen other trained nursing and ancillary staff.
- Encouragement will be given to the successful applicant to develop particular aspects of the service, e.g. First Aid training and Rehabilitation.

Salary scale £3,320-£5,250 (B.M.A. recomm. scale). Company car provided.

Further details together with application form available from—

ROYAL GWENT HOSPITAL

Newport, Mon. (432 beds)
(Recognized F.R.C.S.)

SENIOR HOUSE OFFICER
required in March. Resident or non-resident. Married quarters available. The Department is in the charge of a full-time Consultant Surgeon, has five Senior House Officers and all emergency cases are admitted through the department, which is responsible for initial resuscitation. The Department is equipped with apparatus for cardiac monitoring, positive pressure ventilation, as well as x-ray intensifiers and a Berman F. B. Locator. The hospital is the base hospital for the Group, and therefore has a large volume of acute cases in all specialties. It is being extensively re-developed by a major capital building programme. A new intensive care unit has recently been opened.

There is close connexion with the teaching hospital at Cardiff, 10 miles to the west, and there is an extensive postgraduate education programme with a very good library. A Postgraduate Centre has recently been opened. The appointment gives ample opportunity to the holder to avail himself of these facilities. The successful candidate will be expected to be resident on the nights on which he is on first call, which will on average be one night in five.

Applications giving full particulars and names and addresses of two referees to Group Secretary, 64, Cardiff Road, Newport, Mon., telephone: Newport 52244. (42035) 20-8

THE GENERAL HOSPITAL

Batley, Yorkshire
SENIOR HOUSE OFFICER
Applications are invited from candidates eligible for temporary or full registration for the above post in the Accident and Emergency department, which is supervised by a Consultant and comprises a Senior Casualty Officer and four S.H.O.s.

The hospital deals almost entirely with orthopaedics and trauma. The Orthopaedic Department is staffed by two S.H.O.s and a Registrar. The post is likely to appeal to persons seeking primary F.R.C.S. or higher qualifications. Adequate study and library facilities are available. It is possible that the person appointed having satisfactorily completed the full term of the above post, would receive preferential consideration for a post of S.H.O. (Surgery) at one of the two of the General Hospitals in the Group. Both Accident and Emergency post and Surgical post referred to are recognized by Royal College of Surgeons of England and Edinburgh. Telephone Batley 3333 and arrange interview with Administrative Officer. (42460) 20-8

THE LEICESTER ROYAL INFIRMARY

**SENIOR HOUSE OFFICER IN THE
ACCIDENT AND EMERGENCY/
ORTHOPAEDIC DEPARTMENTS**
Vacant immediately. Tenable for six months; resident. Recognized for F.R.C.S. This is a rotating appointment and includes training in management of in-patient and out-patient fractures, and duties in the Accident/Emergency Department. Regular teaching ward rounds and tutorials are held. There is an active postgraduate programme and ample time allowed for study. Applications stating age, qualifications and experience, and the names of two referees, to Group Secretary, The Leicester Royal Infirmary, LE1 5WW immediately or telephone 0533-24225 ext. 270. (42312) 20-8

THE LONDON HOSPITAL

Whitchapel E1 1BB
Applications are invited for the post of **SENIOR HOUSE OFFICER
EMERGENCY AND ACCIDENT
DEPARTMENT** becoming vacant March 15, 1971. Applications (two copies no forms provided) together with the names and addresses of two referees, should be received by the undersigned by March 6, 1971. Tel. 01-247 5454, ext. 392. J. L. Scarlett, House Governor. (15971) 20-8

TYNEMOUTH VICTORIA JUBILEE INFIRMARY

Hawkeys Lane, North Shields, Northumberland (151 beds)
SENIOR HOUSE OFFICERS
required end of February and also end of March, 1971, for Casualty/General Surgery, working under the supervision of a Consultant Surgeon. Well staffed department. APPOINTMENTS

Applicants should state name, address, age, nationality, and qualifications, and enclose (unless otherwise specified) one copy of each of three recent testimonials, with a short statement of experience and appointments held. Applications should be sent at once if no closing date is given: Canvassing disqualifies (Statutory Instrument, 1969, No. 163).

SALARY SCALES OF HOSPITAL MEDICAL STAFF

Following the Twelfth Report of the Review Body, new salary scales have been approved. These came into force on April 1, 1970. The scales are set out below:

HOUSE OFFICER: Each post in this grade shall be tenable for six months. £1,626 per annum for the posts held during the first year; £1,755 per annum for posts held during the second year; £1,884 per annum for posts held during the third and subsequent years, subject to full registration.

Deductions of £177 per annum in respect of lodging only for voluntary residence.

SENIOR HOUSE OFFICER: £2,040 per annum in the first year; £2,184 per annum in the second year; £2,328 per annum in the third or subsequent years.

Deductions of £210 per annum in respect of lodging only for voluntary residence.

REGISTRAR: £2,328 per annum × £144(3) × £126(1)—£2,886.

Deductions of £210 per annum for those with remuneration at the first incremental point on the scale, and £243 per annum for those on the second and subsequent points will be made in respect of lodging only for voluntary residence.

On assimilation to the scale for Registrars, one increment and one only shall be given for any year or part of a year in excess of two spent previously in the senior house officer grade.

Allowances at rates up to £183 per annum shall be payable to house officers, senior house officers and registrars occupying posts approved for such allowances in peripheral hospitals.

SENIOR REGISTRAR: £2,760 per annum × £126(1) × £174(1) × £177(1) × £174(1) × £177(1)—£3,588.

Deductions of £270 per annum in respect of lodging only for voluntary residence.

On assimilation to the salary scale for senior registrars, increments to a maximum of two shall be given for each year or part of a year in excess of three spent previously in the registrar grade.

MEDICAL ASSISTANT: £2,520 per annum × £144(1) × £156(3) × £144(10)—£4,572.

Deductions of £270 per annum in respect of lodging only for voluntary residence.

CONSULTANT: £4,512 per annum × £201(8) × £210(1)—£6,330.

Deductions of £420 per annum in respect of lodging only for voluntary residence.

COMPULSORY RESIDENCE: The Terms and Conditions of Service of Hospital Medical and Dental Staff state:

173. A practitioner who is required as a condition of his appointment to reside in a hospital shall be provided with lodging without charge, except where the practitioner elects to occupy a house, flat or apartment for which a rental is appropriate.

All National Health Service hospital appointments are in accordance with the Terms and Conditions of Service of Hospital Medical Staff.

Further details concerning standards of residential accommodation, telephone charges, removal allowances, study leave and other matters may be obtained from the Hospital Secretary; or by B.M.A. members from the Secretary, British Medical Association. (November, 1970)

SOUTH WESTERN REGIONAL HOSPITAL BOARD

Applications are invited for the appointment of

REGISTRAR IN ANAESTHETICS

in the Bath Group of Hospitals (non-resident).

The appointment, which is vacant, will be for a period of two years but is subject to review after the first year. The post is recognized for the D.A. and F.F.A.R.C.S. Opportunity exists to attend courses in Bristol. The successful candidate may be required to rotate to other hospitals including Teaching Hospitals in Bristol for training purposes.

Applications by letter, stating date of birth, qualifications and experience with dates, together with the names and addresses of two recent referees should be sent to the Secretary of the Regional Hospital Board, 27 Tyndalls Park Road, Bristol, BS8 1PJ. Closing date March 1, 1971. (H8138) 21-6

SOUTH WESTERN REGIONAL HOSPITAL BOARD Plymouth Clinical Area

Applications are invited for the appointment of

REGISTRAR IN ANAESTHETICS

in the Plymouth Group of Hospitals. At present there are two Senior Registrars, three Registrars and four Senior House Officers in positions which are recognized for the D.A. and F.F.A.R.C.S. A course of lectures and tutorials is run for these examinations and there is a Day Release system operating for the Primary F.F.A. Course at Bristol.

The post offers wide experience in most branches of Surgery; the Group contains the sub-regional Neuro-surgical Unit, including Intensive Care and there is opportunity of instruction in Thoracic anaesthesia, by means of a fortnightly release to a Thoracic Centre.

The appointment which is vacant will be for two years, subject to review after the first year. The post is designated as non-resident but simple accommodation may be available if required. Previous married Registrars have not found it difficult to obtain approved accommodation.

Applications by letter, stating date of birth, qualifications and experience with dates, together with the names and addresses of two recent referees should be sent to the Secretary of the Regional Hospital Board, 27 Tyndalls Park Road, Bristol, BS8 1PJ. Closing date March 1, 1971. (H8139) 21-6

Geigy Pharmaceuticals Macclesfield Cheshire SK10 2LY

GEIGY

Diseases of the Joints

Arthritis and rheumatism are common complaints, even if patients are often vague about the exact meaning of the terms they use. In the last few years the diagnosis of joint disorders has become more exact, while the introduction of local and systemic steroid therapy and the powerful non-steroidal anti-inflammatory drugs has revolutionized treatment. In an attempt to bring doctors up to date in this field, the *B.M.J.* published in 1969 a series of short articles giving practical advice on the common disorders of the joints. The articles have now been revised by their authors and collected together to form this handbook on the management of arthritis.

Trasico

more than just
a matter of pain
control in heart
disease of life

The first clinical experience with Trasico in the treatment of cardiac arrhythmias has been reported in the November (1970) Supplement to the Postgraduate Medical Journal. Copies are available on request to CIBA Laboratories, Horsham, Sussex.

More published evidence

Many patients have now been safely treated with Trasico, and its effectiveness has been confirmed in well-designed double-blind studies. Comprehensive evidence of the value of Trasico is found in the Symposium proceedings carried in the November (1970) Supplement to the Postgraduate Medical Journal. Copies are available on request to CIBA Laboratories, Horsham, Sussex.

Radiotelemetric studies
with Trasico
yield intriguing results

Trasico also effectively controls
and prevents a variety of cardiac arrhythmias

Fight cancer with a will

When testators ask your advice, please remind them of the urgent work of the Imperial Cancer Research Fund. In the Fund's up-to-date laboratories trained minds are using every weapon of modern science to fight all forms of cancer, including leukaemia.

Now one of the world's great research centres, the I.C.R.F. relies entirely on public support. The cancer problem *must* be solved. Please help now.

Patron:
H.M. THE QUEEN

President:
The Honourable Angus Ogilvy

Form of Bequest

I hereby bequeath the sum of.....pounds free of duty to the Imperial Cancer Research Fund, Lincoln's Inn Fields, London, WC2A 3PX for the purpose of scientific research, and I direct that the receipt of the Honorary Treasurer or Secretary shall be a good discharge for such legacy.

Please write for further information to: The Secretary, I.C.R.F. (Dept 101),

Candidates must:

(a) Be under 50 years of age on March 1, 1971.

(b) Possess the M.Ch. Degree of a recognized university, or the Fellowship of one of the Royal Colleges of Surgeons or a professional qualification at least equivalent to either of these.

Application forms and particulars of Office may be obtained from the Secretary, Galway County Council, County Buildings, Galway, to whom completed applications must be returned on or before 12 o'clock noon on March 5, 1971. (15927) 60

SERVICES

What's in the RAF for a young doctor?

Interesting out-of-the-rut medicine

The typical R.A.F. station doctor is a G.P. - with probably a lot of experience in pediatrics! He also has important responsibilities in aviation medicine, public health and industrial health. He does much more preventive work than most civilian doctors are able to do. There are wide opportunities for hospital practice - 47% of R.A.F. doctors are now working in specialist departments.

The chance to travel

You could live and work abroad, in many different conditions and climates, treating not only R.A.F. personnel and their families, but local populations. Your gain in clinical experience would be marked.

... a fair crack of the whip for the Doctor's wife

A Doctor's wife is a Doctor's *wife*. She should not also have to be his telephone-answerer, appointment-maker, dispenser and general auxiliary! In the R.A.F., these things are done by professionals: the typical R.A.F. doctor, on a typical R.A.F. station, works in a fully equipped Medical Centre, which he shares with another doctor; between them they would probably have about 12 staff—secretarial as well as nursing.

£3,000 (tax free) after 5 years

In the first case, you would probably join the RAF for 5 years. If you decide to go back to civil life at the end of this time, you would take with you a tax-free honorarium; at present £3,000. (You might of course wish to stay on: you can apply after the first year.) Now for income. Suppose you are 25, and fully registered. If you were in the RAF, your income would be at least £3,395 p.a. And if you're married, the RAF would probably also provide you with a fully furnished house at a modest rent.

To find out more, please enquire at your nearest RAF Careers Information Office—address in phone book—or write to The Directorate-General of Medical Services, RAF (MA1 RAF), Ministry of Defence (724QS17), 1-6 Tavistock Square, London WC1H 9NL. Please give your age, nationality, qualifications and date of full registration with General Medical Council.

Medical Officers

£4,200 p.a. plus

Roan Consolidated Mines Limited has vacancies at Mufulira on the Copperbelt of Zambia, for two Medical Officers with experience in hospital and private practice, preferably including obstetrics.

The Company provides a comprehensive health service for its employees and dependants, which at Mufulira number approximately 55,000 local and 3,000 ex-patriate personnel. The curative medical services have an establishment of thirteen doctors and centre around two well equipped hospitals totalling 460 beds.

Medical Officer duties include out-patient clinics, domiciliary visits and a certain amount of medical in-patient responsibility.

Employment will be on a four year contract renewable by agreement.

Starting salary will depend on experience and qualifications, but total annual emoluments will not be less than the equivalent of £4,200. Leave will accrue at the rate of 55 days per annum, and a car is provided for professional use.

Additional benefits include • paid return passages and mid-contract leave passages for applicants and families • baggage allowance • furnished accommodation at sub-economic rental • free life assurance • children's educational allowance up to the equivalent of £500 per child with two holiday fares per annum.

At 4,000 feet a.s.l., the Copperbelt enjoys a healthy temperate climate with sunshine all year round. Excellent facilities exist for practically all sport and leisure activities, including television.

All applications will be treated in strictest confidence.

Write or telephone for application form to:

F. C. Wilson, 8/71, Overseas Appointments Division, RST International Metals Limited, One Noble Street, London, EC2V 7DA.

Telephone: 01-606 8800 Ext. 307

What happens if CMC is added to ACTH?

CROOKES ACTH/CMC

ACTH/CMC is ACTH with a difference. The difference is convenience. ACTH/CMC is a clear, mobile liquid, even under storage conditions. It is highly purified, has a prolonged storage life and is virtually painless on injection.

Which all adds up to easier therapy in bronchial asthma, Bell's palsy and rheumatoid arthritis. Even with long courses there are no dangers of withdrawal symptoms. ACTH/CMC stimulates natural corticosteroid production. And so it removes the risk of adrenal atrophy so common with synthetic corticosteroid treatment.

ACTH/CMC is the modern form of ACTH

Corticotrophin complexed with carboxymethylcellulose

The Crookes Laboratories Limited,
Basingstoke, Hampshire.

Betnovate is better. So is she.

Infected infantile eczema: all the better for Betnovate-N

Eczema patients respond better to Betnovate than to other topical steroids. Two clinical trials, involving 916 patients and comparing Betnovate with five other leading topical steroids, proved this conclusively.

Their findings included:

"... whenever preferences were expressed, there were always more for betamethasone 17-valerate than for the other corticosteroids."¹

"Betamethasone 17-valerate was statistically superior to the other topical corticosteroids in fourteen of the twenty separate subdivisions of the trial; in no instance was it inferior."¹

"A better response is more likely with betamethasone 17-valerate than with any of the other corticosteroids tested."¹

"... response in psoriasis is a more stringent test

of the efficacy of a corticosteroid than response in eczema. The superiority of betamethasone 17-valerate in this context is noteworthy."²

When you add the broad-spectrum antibiotic neomycin to the most effective steroid you can prescribe, the result is Betnovate-N. In infected infantile eczema it gives rapid relief from itching and inflammation and thus achieves the best response. The one thing to remember is Betnovate. Add an N to fight the infection.
