

When you diagnose Bronchitis, you're not terminating

The right-first-time antibiotic for Bronchitis

Penbritin is right because of its clinical record. In more than 1000 cases of bronchitis reported over eight years Penbritin has proved successful in 95% of acute and 79% of chronic infections.

Penbritin is right because it is effective against the bacteria commonly involved in bronchitis, *Strep. pneumoniae* and *H. influenzae*, some strains of which are resistant to tetracyclines.

Penbritin is right because of its safety record. Nearly 2,000 references demonstrate its suitability for a wide range of patient-types.

Penbritin is available in capsule, syrup, tablet and injectable forms. You can prescribe the right antibiotic in the right presentation for each patient.

Usual Adult Dosage: 250 mg. q.i.d. $\frac{1}{2}$ -1 hr. a.c.

Contra-indication: Penicillin allergy.

Side-effects: As with other penicillins.

Further information is available on request.

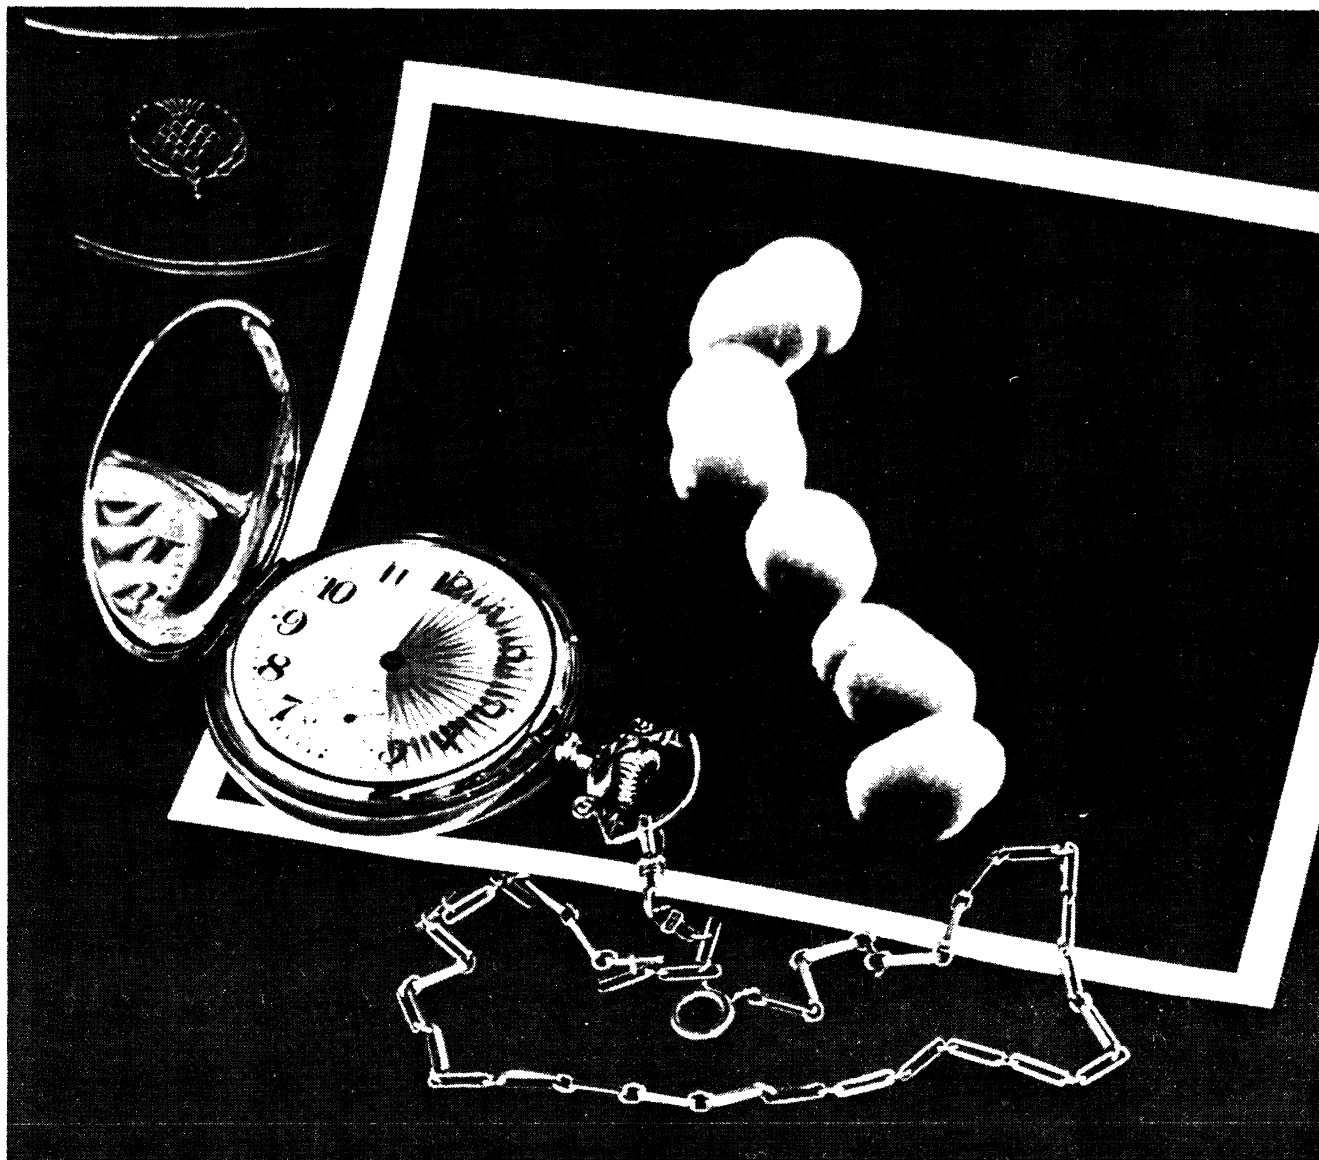

Penbritin

Penbritin* (ampicillin B.P.) is a product of British research at
Beecham Research Laboratories Brentford, England

Fundamentals of Biochemical Pharmacology

Edited by **Z. M. Bacq**

Covers the metabolism of drugs and their mode of action at the biochemical/biophysical level. About half of the book is devoted to describing experimental technique, the remainder to current knowledge, each chapter being contributed by an expert in that field.

644 pages £10.00 hard cover

Histoenzymology of the Endocrine Glands

L. Arvy

Comprehensively reviews the distribution of histochemically detectable enzymatic activity in endocrine glands. The approach is comparative, experimental techniques are described and the findings integrated with well known endocrine function.

544 pages £9.00 hard cover

Intestinal Absorption of Metal Ions, Trace Elements and Radionuclides

Edited by **S. C. Skoryna** and

D. Waldron-Edward, McGill University, Montreal

A comprehensive presentation of the physiology of intestinal absorption and transport, the mechanisms of absorption of specific metal ions and various factors affecting metal ion absorption and transport.

432 pages £7.00 hard cover

Introducing The Park Royal range of medical inspection lamps

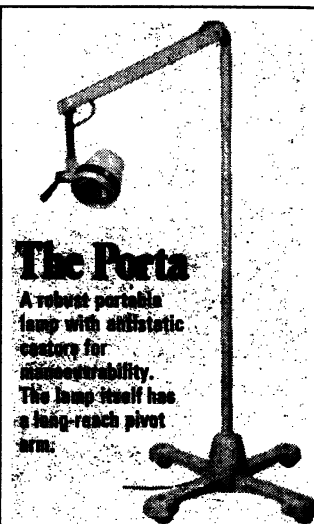

To lighten your work

The range is based on a common 12 volt sealed-beam lamp and integral transformer unit connected to the mains. Also available: a 24 volt sealed-beam lamp, an auto changeover adaptation with relay, and extension pieces for false ceilings.

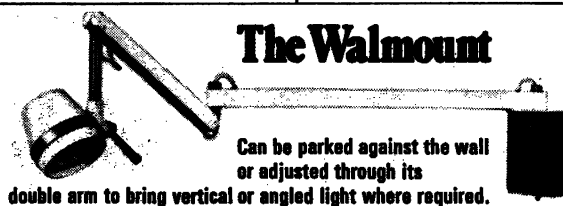

The Seemount

For ceiling mounting. Fully engineered and finished with swivel joint, telescopic arm and adjustable lamphead. Operative arc of 120° with two parking positions.

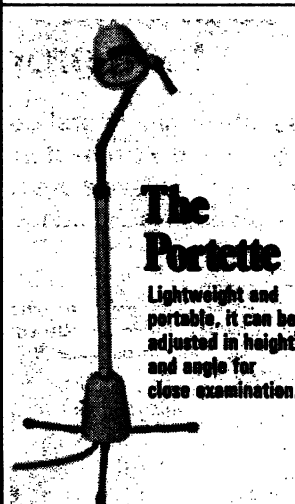

The Portam

A robust portable lamp with artistic contour for manoeuvrability. The lamp itself has a long-reach pivot arm.

The Walmount

Can be parked against the wall or adjusted through its double arm to bring vertical or angled light where required.

The Portette

Lightweight and portable, it can be adjusted in height and angle for close examination.

The adjustable focus lamp can replace the sealed-beam lamp on any model in the Park Royal range. The control knob gives adjustment from narrow to medium beam.

For full information about the Park Royal Range of lamps, contact Wandsworth Electrical Manufacturing Co Ltd Dept. BMJ, Portman Chambers, 7/9 Baker Street, London W1M 1AB Telephone 01-486 3201

Betnovate is better. So is she.

Discoid eczema: all the better for Betnovate

Eczema patients respond better to Betnovate than to other topical steroids. Two clinical trials, involving 916 patients and comparing Betnovate with five other leading topical steroids, proved this conclusively.

Their findings included:

"... whenever preferences were expressed, there were always more for betamethasone 17-valerate than for the other corticosteroids."¹

"Betamethasone 17-valerate was statistically superior to the other topical corticosteroids in fourteen of the twenty separate subdivisions of the trial; in no instance was it inferior."¹

"A better response is more likely with betamethasone 17-valerate than with any of the other corticosteroids tested."¹

"... response in psoriasis is a more stringent test of the efficacy of a corticosteroid than response in eczema. The superiority of betamethasone 17-valerate in this context is noteworthy."²

Betnovate gives rapid relief from itching and inflammation and thus achieves the best response. In discoid eczema it's the one thing to remember because Betnovate is the most effective steroid you can prescribe.

BUT NOW
the diuretic that entirely
obviates the need for
potassium supplements

'Moduretic' is a completely new diuretic from Merck Sharp & Dohme that induces a highly effective diuresis as well as helping the body to *conserve* its natural balance of potassium.

'Moduretic' offers the physician the means of treating patients with a diuretic while avoiding the limitations imposed by potassium supplements. Indeed, 'Moduretic' conserves body potassium so effectively that potassium supplements are contra-indicated.

'Moduretic' is available as peach-coloured, diamond-shaped tablets containing 5 mg amiloride hydrochloride/MSD and 50 mg hydrochlorothiazide/MSD.

Detailed information is available to physicians on request.
'Moduretic' is a registered trademark.

MODURETIC
 DIURETIC

What is the word for emotional distress?

The presenting symptoms? "Can't sleep... irritable... no appetite... tired... aches and pains"—consultation after consultation.

The task? To penetrate behind the facade to the underlying condition.

The aim? To make the patient feel better quickly and reveal the problem, without unnecessary consultations.

Tranquillizers or hypnotics may deal with part of this aim, but only part.

Prothiaden can meet all the requirements. It is rapidly effective in both anxiety and depression. One ingredient, a single-strength capsule means straightforward dosage.

Prothiaden is well tolerated even by the elderly. Prothiaden can mean trouble-free treatment of anxiety, depression, in fact any manifestation of emotional distress.

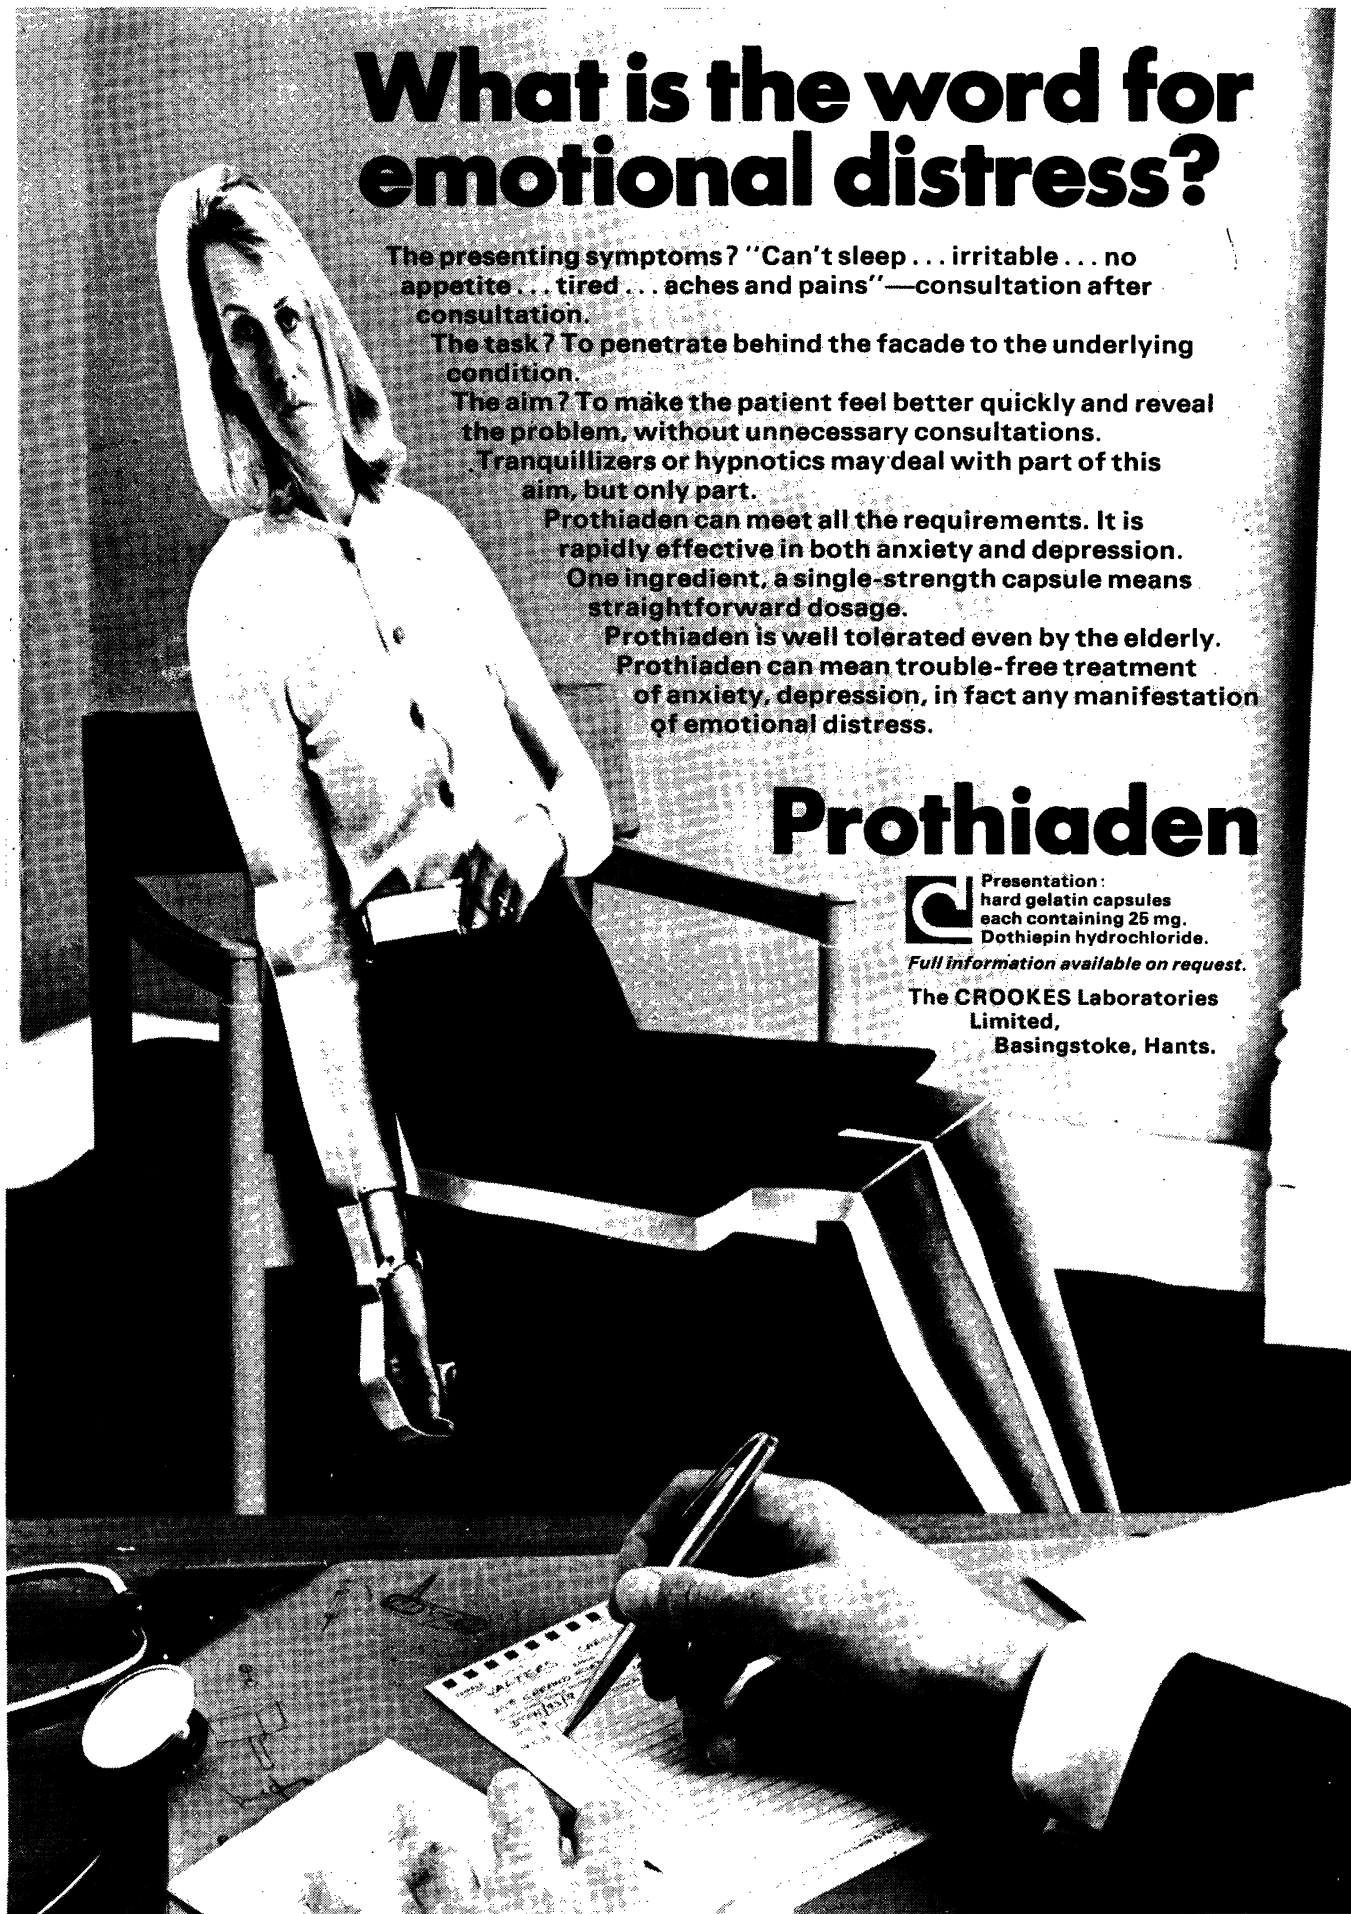

Prothiaden

B.M.J. Publications

Today's Drugs

1970 Edition

The problem facing the prescribing doctor today is choice. Catalogues of drugs—no matter how detailed—are of little help unless accompanied by advice on which drug to give for what condition. So this new edition of "Today's Drugs" not only gives a full account of the drugs but also includes clear accounts of the management of common conditions such as urinary infections and epilepsy.

The new edition differs from the earlier one in other ways. It deals with only three subjects—infections, vitamin deficiencies and anaemias, and disorders of the nervous system. Further volumes will be published at intervals of about a year, and by the time the whole field of therapeutics has been covered this first volume will have become obsolete and due for replacement. In order to further emphasize the ephemeral nature of books on therapeutics—and to cut costs—the book is a paperback.

PRICE £1.00 (U.S.A. \$3.00) *including postage*

The New General Practice 2

What important developments are there in General Practice? Does the General Practice Team work successfully? What is the Family Doctor's future role in the Hospital Service? These and other questions are answered in *The New General Practice 2* which, published two years after the first volume in this series, also deals with topics such as the use of computers, plans for the new towns, and Scandinavian developments in general practice. This second volume contains 27 articles published in the *B.M.J.* in the last two years. The introduction has been written by Professor J. D. E. Knox, Professor of General Practice at Dundee University.

PRICE £1.25 (U.S.A. \$3.50), *including postage*

Road Accidents and the Family Doctor

Road accidents are now acknowledged to be one of the major epidemics of our time. It has been estimated that many accident deaths could be saved by skilled treatment at the site of the accident, and recently doctors in Britain and abroad have been playing an increasingly active part in this. This booklet, which reprints a series of articles which appeared in the *B.M.J.* contains contributions on organization and medical equipment, the management of soft-tissue injuries, resuscitation, fractures of the spine, and extrication of persons trapped in a vehicle. The introduction is written by Mr. Norman Capener, Chairman of the Medical Commission on Accident Prevention.

PRICE 50p. (U.S.A. \$1.75) *including postage*

Contra-indications and Precautions relating to Pregnancy

There is a possibility that live attenuated rubella virus administered during pregnancy could infect and damage the foetus, producing congenital abnormalities. Therefore **pregnant women must not be vaccinated** and pregnancy should be excluded before vaccination is undertaken. This danger to the developing foetus equally applies in the case of a pregnancy

conceived within two months following vaccination. Women of child-bearing age must be warned that for at least two months after vaccination they must take strict contraceptive precautions. If there is any possibility that they may become pregnant within this period they should not be vaccinated.

'Slow-Fe'

TM

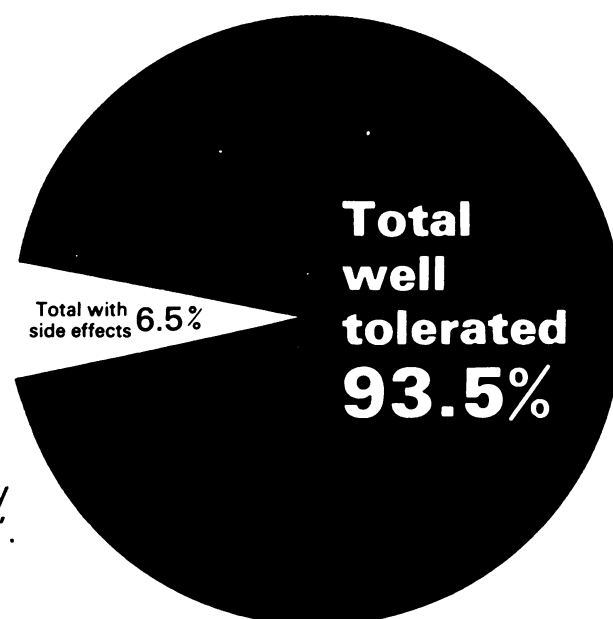

precision release of the right iron in the right place

Well tolerated in over 93% of patients

A multi-centre trial (Clin. Trials Jnl. (Lond), 1969, 6, 229) carried out by 258 G.P.s and involving over 2,300 patients has shown that 'Slow-Fe' is better tolerated than both plain iron and coated or delayed-release preparations.

The level of gastrointestinal side effects with 'Slow-Fe' was only 6½% – roughly the same as the expected incidence with placebo and considerably lower than that with plain ferrous sulphate B.P.

Fifty-seven patients unable to tolerate many other iron preparations were given 'Slow-Fe'. All but 3 of them found that 'Slow-Fe' was free from the usual side effects.

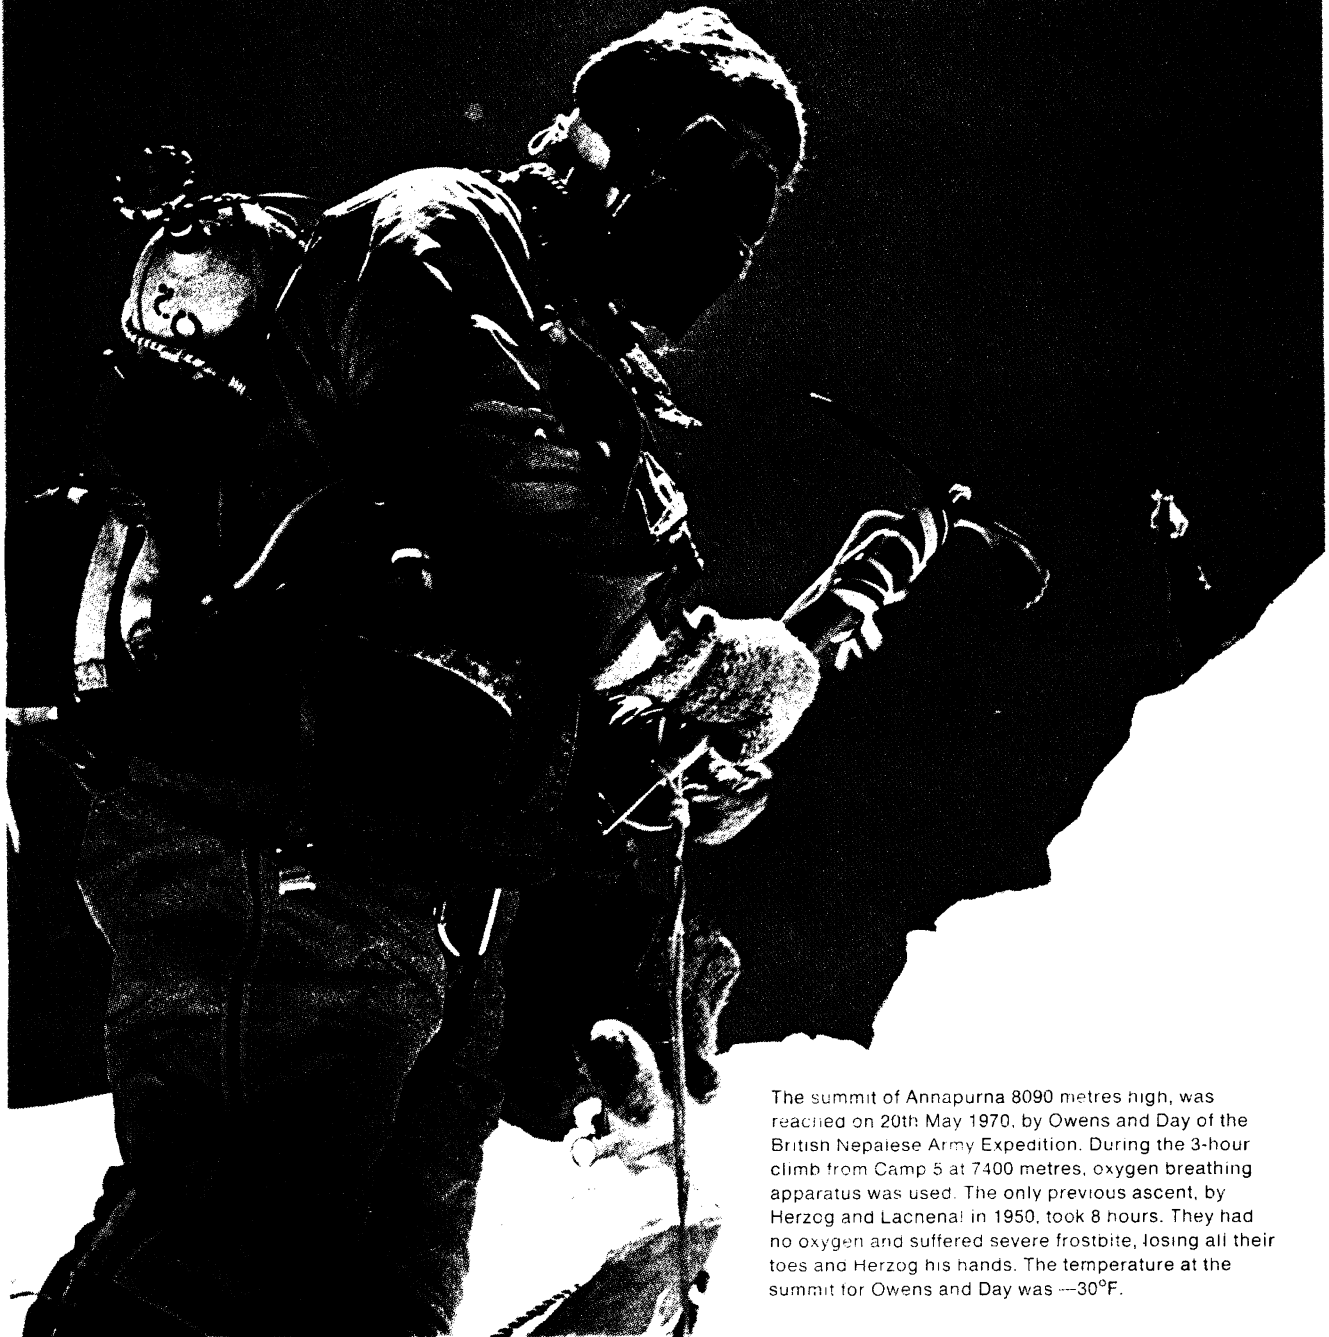

'Slow-Fe' contains 160mg exsiccated ferrous sulphate (≡ 50mg elemental iron).
'Slow-Fe folic' contains 160mg exsiccated ferrous sulphate (≡ 50mg elemental iron) and 400 micrograms folic acid in a special slow-release base.

Daily dosage reminder units of 30. Packs of 30, 150 and 600.
Basic NHS price, 30 ex 600 : 23p.

Transvasin at the summit

The summit of Annapurna 8090 metres high, was reached on 20th May 1970, by Owens and Day of the British Nepalese Army Expedition. During the 3-hour climb from Camp 5 at 7400 metres, oxygen breathing apparatus was used. The only previous ascent, by Herzog and Lachenal in 1950, took 8 hours. They had no oxygen and suffered severe frostbite, losing all their toes and Herzog his hands. The temperature at the summit for Owens and Day was -30°F .

ON ANNAPURNA the members of the British Nepalese Army Expedition chose Transvasin to relieve muscular pain. Three British climbers used it:

"One suffered badly strained back and chest muscles following involvement in an avalanche. The second developed severe intercostal fibrositis, and the third had badly bruised himself after falling 30 feet and jamming in a crevasse. Transvasin gave considerable relief to all three climbers."

Personal communication, 3rd September 1970.

Transvasin was also used with great success by many other members of the party who complained of various other aches and pains.

IN GENERAL PRACTICE too, Transvasin provides effective relief from muscular and rheumatic pains. It contains esters of nicotinic and salicylic acids which ensure a rapid hyperaemic and analgesic effect.

Available in 30 g tubes.

Basic NHS price 12½p, plus P.T.

Full information is available on request.

It goes down well with patients

Patients find Broxil Syrup easy to take. Children, for example, enjoy its fruit flavour and will readily accept their medicine. Patients with sore throats find the syrup easy to swallow, while some patients always have difficulty taking tablets or capsules. For the same reasons, Broxil Syrup may be simpler for your elderly patients too.

Broxil works. In practice, patients do seem to get better quicker with Broxil. It has the excellent safety record of a well-tried penicillin. For respiratory and ENT infections, few antibiotic treatments can match up to Broxil's record of safety and effectiveness over ten years of practice.

Day after day of freedom from asthmatic attack

The unique mode of action of disodium cromoglycate offers the asthmatic patient outstanding benefits. A prophylactic treatment, it prevents the onset of asthmatic episodes - thus minimising long-term damage to lung tissue. Freedom from asthma attacks permits a happier, more normal life for the asthmatic patient.

Published clinical reports confirm that with INTAL COMPOUND, the incidence and severity of acute attacks is considerably reduced - even in patients on conventional therapy such as bronchodilators, antihistamines and corticosteroids. Less time is lost from work or school, exercise tolerance is improved and a consistent clinical comment on disodium cromoglycate has been the total absence of serious side effects.

INTAL COMPOUND - supplied in SPINCAPS (each containing 20 mg disodium cromoglycate, and 0.1 mg Isoprenaline Sulphate BP in powder form, together with an inert carrier). For use in a special insufflator - SPINHALER.

Full information is available on request. The Technical Services Department, Fisons Limited-Pharmaceutical Division, Loughborough, Leicestershire.

"You *increased* the dosage?
But I thought this woman had
a peptic ulcer."

"She has – but I find that she
can tolerate Brufen, and her arthritis
is improving nicely."

Experience has shown that Brufen is extremely well tolerated by the majority of arthritic patients, including many who have suffered from persistent gastric disturbance with other antirheumatic drugs. Patients with pre-existing peptic ulceration have received Brufen therapy without exacerbation of gastric symptoms.[†]

In the treatment of arthritis, Brufen provides the relief of pain and stiffness essential to achieve a progressive improvement in joint flexion and functional capacity. To patient and doctor, Brufen means highly effective antirheumatic therapy without the limitation of frequent side-effects. Brufen is available as tablets, each containing 200 mg. of ibuprofen.

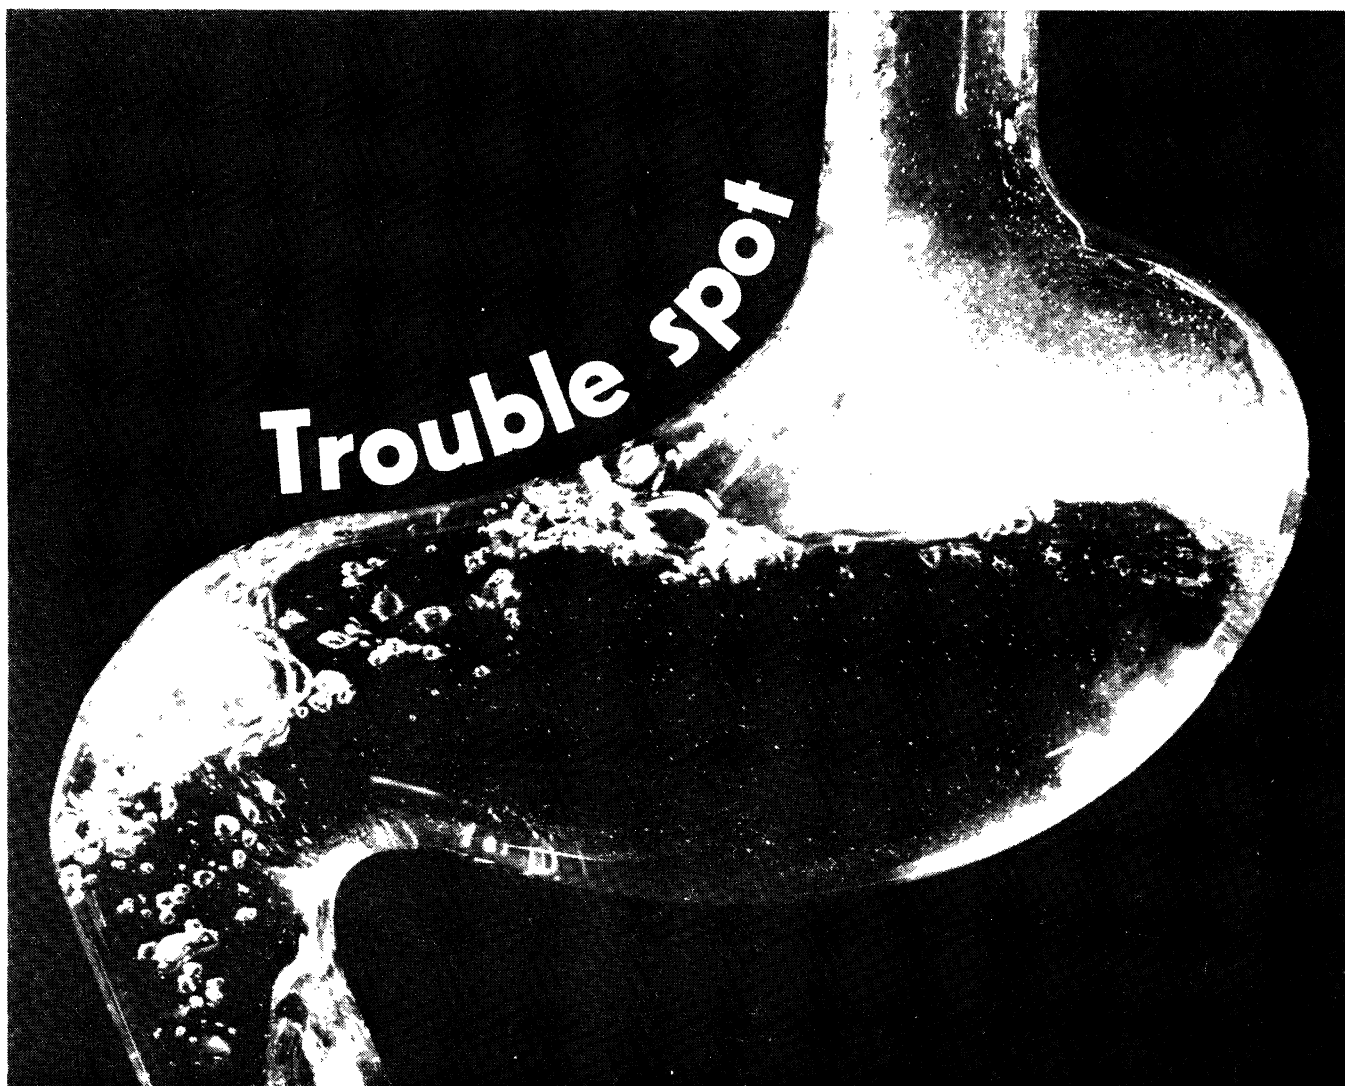

BRUFEN
(ibuprofen)

new freedom for the arthritic patient

Spasm Secretion Sickness Stress

Long-acting 'Stelabid', with its comprehensive therapeutic action, ensures swift and prolonged relief of distressing local symptoms in a wide range of gastro-intestinal disorders, and particularly in peptic ulcer. 'Stelabid' reduces gastric hypersecretion, prevents nausea and vomiting, inhibits hypermotility and relieves painful spasm

throughout the gut. At the same time, 'Stelabid' exerts a beneficent calming action which effectively allays the background stress and worry that so often provoke or aggravate such conditions. A single dose of 'Stelabid' protects the patient for 12 hours—a useful advantage during the working day—and to ensure an undisturbed night's sleep.

Stelabid:

settles the matter
in a wide range of gastro-intestinal disorders

Smith Kline & French Laboratories Limited Welwyn Garden City Hertfordshire

Each 'Stelabid' tablet contains 5 mg. isopropamide as the iodide ('Tyrimide') and 1 mg. trifluoperazine as the dihydrochloride ('Stelazine'). Literature giving full prescribing information is available on request. 'Stelabid', 'Tyrimide' and 'Stelazine' are trade marks. SBD:PA 40

Chances are you have over 100 Psoriatics on your list... ...Alphosyl could help them.

A great many people in Britain suffer from Psoriasis. On average, more than 100 for every G.P. in the country. And that's why every G.P. should know about Alphosyl.

Alphosyl Lotion is the most widely prescribed treatment specifically for Psoriasis. Patients get complete clearing or a marked improvement without systemic reactions, without uncomfortable restrictive dressings and without serious side effects or contraindications.

Alphosyl Lotion is the primary treatment, for use all over the body. And its effectiveness is backed up by the Cream and Application PC. The Cream is particularly effective in the intertrigenous areas, and Application PC removes scales from the scalp and prepares the head for treatment with the Lotion.

Alphosyl therapy (Lotion, Cream and Application PC) can be adjusted to suit the patients individual needs . . . or preferences.

Alphosyl is available as a 5% refined alcoholic extract of coal tar and allantoin (2%) in a Cream and Lotion. Alphosyl Application PC is a unique combination of coal tar extract (5%) and hexachlorophane (1%).

Psoriasis R Alphosyl

Let the blood flow through

In the treatment of ischaemia due to intermittent claudication, cerebral arteriosclerosis and vasospastic disorders, Bradilan® has achieved excellent results. Because Bradilan employs tetranicotinoylfructose, the molecule of which is gradually hydrolised in the intestine, release is smooth and even – with no peaks or troughs. Consequently, efficient and prolonged vasodilation is maintained, with less risk of over dilation in flush areas. For the same reason, headaches are a rare occurrence. Bradilan acts directly on vessel walls and is especially indicated when ischaemia is due to vasospasm. Ideally, treatment should be continued for at least 12 weeks so that progress can be realistically evaluated.

BRADILAN sustained vasodilation with minimal side effects

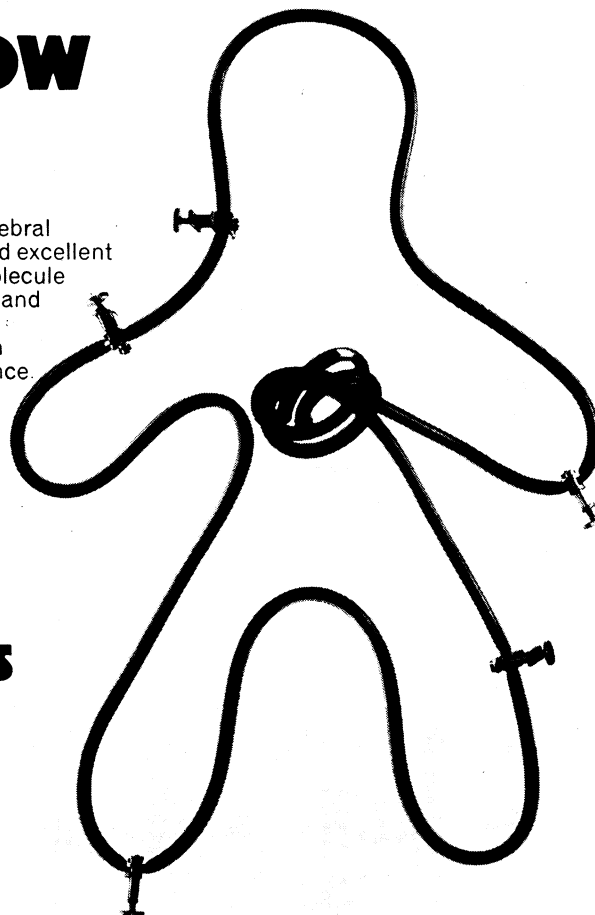

Tablets 250 mg.

A girl student aged 15 years, who, wanting to commit suicide, ingested 26 tablets of Mogadon.

In the absence of her parents, the patient took this dose together with half a bottle of wine. The patient was admitted to hospital 12 hours later. Respiration and circulation were normal, the patient was in a state of fairly prolonged deep sleep with marked muscle relaxation.¹

Now you can sleep easy

Against a background of increasing concern about the danger of barbiturate poisoning (as few as 20 or 30 tablets may prove fatal), the advent of Mogadon must be of considerable importance. Indeed, Mogadon ".....appears to be as nearly as safe as a drug can be."² Even as many as 80 tablets have produced no untoward effects. Moreover, a recent trial in the B.M.J. showed Mogadon comparable in effect to butobarbitone.³ When such a drug exists, should you risk using anything else?

No age, cardiac or respiratory
restrictions
No need for antacids
Can reduce the need for surgery
with duodenal ulcer patients

Hypertension is a danger sign

Half measures can be fatal

There is now convincing evidence that in hypertension, whether mild or severe, blood pressure must be maintained in the normal range.

Any degree of hypertension -- and by inference, incomplete therapeutic control -- still carries a high long-term morbidity.

Complete control is usually impracticable with conventional antihypertensive agents because of prohibitive side effects.

Not so with 'Inderal'-80. This drug maintains normal blood pressure by night as well as day. Hypotensive crises due to changes in posture, activity or external temperature do not occur. Mental, sexual and gastro-intestinal functions are unimpaired.

'Inderal'-80, with a thiazide diuretic, controls some 80% of hypertensive patients. It is a real step forward in preventive medicine.

Detailed information, available on request, should be consulted before prescribing.

ACCIDENT AND EMERGENCY OFFICER

(Registrar grade) to the Eastbourne Group of Hospitals.

Successful candidate required to be resident.

Married accommodation available. Application forms obtainable from the Secretary, Registrar's Committee, South East Metropolitan Regional Hospital Board, Randolph House, 46/48 Wellesley Road, Croydon CR9 3QA (Telephone No.: 01-686 8877, Extn. 111). If the postal strike continues, forms may also be obtained from the Clinical Management Committee named above.

Completed forms should be returned either direct to the Regional Hospital Board or via the Group Offices by March 13, 1971. (42583) 20-6

THE UNITED LIVERPOOL HOSPITALS

Applications are invited for the post of

SENIOR CASUALTY OFFICER

(Registrar Grade) for the period to September 30, 1972. Re-appointment for the period to September 30, 1973 will be considered without the need for further application. The post is suitable for persons working for the Primary Fellowship and the duties are arranged to allow time for attendance at the University's Basic Medical Sciences Course. The Hospital is situated in close proximity to the Medical School and to the Department of Anatomy to which it is probable that access will be available. Apply as soon as possible on the form obtainable from the Secretary, The United Liverpool Hospitals, 80 Rodney Street, Liverpool L1 9AP. Telephone 051 709 7111. (H8198) 20-6

BEDFORD GENERAL HOSPITAL

(North West Metropolitan Region)

SENIOR HOUSE OFFICER

(Accident and Orthopaedic) required from March 27, 1971, for a period of six months in the first instance. Post recognized for F.R.C.S. Medical Institute with regular clinical meetings and extensive reference library. Candidates should state whether single or married accommodation required and the date they are able to commence duties.

Detailed applications to: Establishment Officer, Bedford Group H.M.C., 3 Kimbolton Road, Bedford or telephone Bedford 59401, Ext. 28. (42635) 20-8

BEDFORD GENERAL HOSPITAL

(North West Metropolitan Region)

LOCUM SENIOR HOUSE OFFICER

(Accident & Orthopaedics) required from April 28, 1971. Detailed applications to: Establishment Officer, Bedford Group H.M.C., 3 Kimbolton Road, Bedford or telephone Bedford 59401 (code 0234), Ext. 28. (42636) 20-8

CENTRAL KENT HOSPITAL

MANAGEMENT COMMITTEE West Kent General Hospital, Maidstone, Kent

SENIOR HOUSE OFFICER

Accident and Emergency Department required for a 6 month appointment. Post vacant now. One of two posts. Recognized for F.R.C.S. Special peripheral allowance in addition to normal salary. Previous experience in the U.K. an advantage. Applications with full particulars and naming two referees should be forwarded to the Hospital Secretary as soon as possible. (16058) 20-8

APPLICANTS ARE ADVISED NOT TO original testimonials when replying to advertisements. Copies will serve the purpose quite as well, and in the event of their being lost or mislaid no inconvenience will ensue.

CLOSING DATES

It can be assumed that all advertisements carrying a closing date will not be adhered to until the present Post Office strike is over and normal postal deliveries are resumed.

CHARING CROSS GROUP OF HOSPITALS

Fulham Hospital, St. Dunstons Road, W6 8RF

CASUALTY OFFICER

(S.H.O. grade) required from March 15, 1971, for six months with a possible further six months extension. Apply to Hospital Secretary, 01-748 2050. Extension 157. (H8162) 20-8

CHELMSFORD AND ESSEX HOSPITAL

CASUALTY OFFICER

(Senior House-Officer)

Applications are invited for the above post. It is recognized for the F.R.C.S. Duties shared with a second Casualty Officer. Opportunity can be given for Casualty Officer to follow up his cases in the wards and to obtain operating experience in major theatre under the guidance of the Consultant and the Resident Surgical Officer. Off-duty time is generous and the post is likely to suit one seeking either a higher qualification in surgery or intending general practice. The Department deals almost exclusively with trauma and there are very few casual attenders.

There is an Academic Unit with good library facilities and a full programme of postgraduate education.

Applications, together with the names of two referees, to the Secretary, Chelmsford Hospital Management Committee, Bellefield, London Road, Chelmsford, CM2 0QH Essex, stating telephone number. (41025) 20-8

Applications should be sent at once if no closing date is given: Canvassing disqualifies (Statutory Instrument, 1969, No. 163).

SALARY SCALES OF HOSPITAL MEDICAL STAFF

Following the Twelfth Report of the Review Body, new salary scales have been approved. These came into force on April 1, 1970. The scales are set out below: HOUSE OFFICER: Each post in this grade shall be tenable for six months. £1,626 per annum for the posts held during the first year; £1,755 per annum for posts held during the second year; £1,884 per annum for posts held during the third and subsequent years, subject to full registration.

Deductions of £177 per annum in respect of lodging only for voluntary residence.

SENIOR HOUSE OFFICER: £2,040 per annum in the first year; £2,184 per annum in the second year; £2,328 per annum in the third or subsequent years.

Deductions of £210 per annum in respect of lodging only for voluntary residence.

REGISTRAR: £2,328 per annum \times £144(3) \times £126(1) = £2,886.

Deductions of £210 per annum for those with remuneration at the first incremental point on the scale, and £243 per annum for those on the second and subsequent points will be made in respect of lodging only for voluntary residence.

On assimilation to the scale for Registrars, one increment and one only shall be given for any year or part of a year in excess of two spent previously in the senior house officer grade.

Allowances at rates up to £183 per annum shall be payable to house officers, senior house officers and registrars occupying posts approved for such allowances in peripheral hospitals.

SENIOR REGISTRAR: £2,760 per annum \times £126(1) \times £174(1) \times £177(1) \times £174(1) = £3,588.

Deductions of £270 per annum in respect of lodging only for voluntary residence.

On assimilation to the salary scale for senior registrars, increments to a maximum of two shall be given for each year or part of a year in excess of three spent previously in the registrar grade.

MEDICAL ASSISTANT: £2,520 per annum \times £144(1) \times £156(3) \times £144(10) = £4,572.

Deductions of £270 per annum in respect of lodging only for voluntary residence.

CONSULTANT: £4,512 per annum \times £201(8) \times £210(1) = £6,330.

Deductions of £420 per annum in respect of lodging only for voluntary residence.

COMPULSORY RESIDENCE: The Terms and Conditions of Service of Hospital Medical and Dental Staff state:

173. A practitioner who is required as a condition of his appointment to reside in a hospital shall be provided with lodging without charge, except where the practitioner elects to occupy a house, flat or apartment for which a rental is appropriate.

All National Health Service hospital appointments are in accordance with the Terms and Conditions of Service of Hospital Medical Staff.

Further details concerning standards of residential accommodation, telephone charges, removal allowances, study leave and other matters may be obtained from the Hospital Secretary; or by B.M.A. members from the Secretary, British Medical Association. (November, 1970)

King Lear - Act 3, Sc 7.

The Duke of Gloucester's anguish in 'King Lear'—after his torture and blinding, and the revealed treachery of his son, Edmund—may not find many exact parallels in modern society, but his mood 'all dark and comfortless' is seen often enough in patients suffering from depression and anxiety. In such cases

Triptafen-DA can often help; lifting the basic depression and calming any underlying or overt anxiety. The combined action of amitriptyline and perphenazine relieves the symptoms of depression and anxiety, no matter which condition predominates.

Each Triptafen-DA tablet contains amitriptyline hydrochloride BP 25mg and perphenazine BP 2mg. Also available: Triptafen-DA Suspension.

Full information is available on request

WARRINGTON GENERAL HOSPITAL
(678 beds)

RESIDENT HOUSE SURGEONS
Applications are invited for the above posts.

The posts are recognized for pre-registration purposes for the examination for Fellowship of the Royal College of Surgeons of England. As well as a comprehensive training in General Surgery, the posts offer some experience in the specialties, so that they are, therefore, eminently suitable for both those who wish to specialise and those who wish to enter General Practice. If so desired, it can usually be arranged for the holders to complete their pre-registration year by proceeding to similar appointments on the Medical Unit of the Hospital at the end of their period as House Surgeons.
Please telephone the Group Secretary at Warrington 35911. Warrington General Hospital, Lovely Lane, Warrington. (16089) 50-9

Royal Hobart Hospital
Hobart — Tasmania

HAEMATOLOGIST

Applications, closing April 9, 1971, addressed to the General Superintendent, Dr. G. Mackay-Smith from whom further particulars may be obtained, are invited from registered medical practitioners with an appropriate higher qualification and laboratory experience in haematology for appointment as Haematologist at the Royal Hobart Hospital.

The appointee will be in charge of the Section of Haematology and Blood Group Serology in the Clinical Laboratories of the Hospital and although he may have special interests in clinical haematology he must have a wide experience of laboratory haematology appropriate to these responsibilities which will include the supervision of the haematology training of the pathology registrars. The appointee will also be required to contribute to the teaching of haematology in the University of Tasmania Departments of both Pathology (Professor R. A. Rodda) and of Medicine (Professor A. G. Baikie) which has a major interest in haematological disorders. The appointee will be given an appropriate status in the University.

The salary range will be to a maximum of \$14,190 depending on the qualifications and experience of the appointee.

Assistance towards travelling expenses of up to \$1,000 with a three year bond available.

Superannuation.

Ninety days long-service leave after each 10 years of service.

Annual leave four weeks.

Salaries and conditions of service are subject to such changes as may be determined by the appropriate authority, when such matters become subject to general review. (16023) 61-1

Overseas Development

The provision of skilled man-power is a vital element in Britain's aid to the developing countries. Your professional skills will be welcome and you will have the satisfaction of doing a challenging, responsible and worthwhile job. Terms of service usually include family passages, paid leave, educational grants and free or subsidized accommodation and terminal gratuities. For certain of these appointments an appointment grant of up to £200 and car purchase loan of up to £300 may be payable. Employment will be on contract to the overseas Government; in most cases superannuation rights can be preserved or maintained.

Candidates should normally be citizens of, and permanently resident in, the United Kingdom. They must possess full medical qualifications and be eligible for full registration with the General Medical Council in the United Kingdom.

CONSULTANT ANAESTHETIST £5,400/Bahamas

Required at the Princess Margaret Hospital, Nassau, to advise on all matters related to anaesthesia including intensive therapy, and to carry out normal duties of Anaesthetist. Candidates must be under 50 and possess the F.F.A., R.C.S. or equivalent with at least five years' experience. Emoluments are normally tax free. Limited private practice is permitted. Contract 3 years.

MEDICAL OFFICER (PATHOLOGY) £4,200-5,100/Bahamas

To perform laboratory work, in particular, morbid anatomy and histology services, at the Rand Laboratory, Princess Margaret Hospital, Nassau. Candidates should be under 50 and possess the M.R.C.Path., but candidates with only Part I will be considered. Emoluments are normally tax free. Private practice is not permitted. Contract 3 years.

MALARIOLOGIST £4,363/Zambia

To advise on Malaria pre-eradication and eradication schemes. He must be 30-55 with at least five years' experience in the planning of control and eradication schemes on a large scale. An allowance of £1,666 p.a. in lieu of private practice is also payable. Contract 3 years.

ENTOMOLOGIST £2,560-3,384/Zambia

To study malaria-carrying mosquitoes in relation to malaria incidents and to investigate and implement mosquito control and eradication measures. He must be 25-40 and have a higher science degree in entomology or allied subject. Contract 3 years.

CONSULTANT PATHOLOGIST £3,756-4,050/Fiji

To carry out Forensic pathology, Histopathology, and the supervision of Laboratory work. Candidates must be under 50 and possess the M.R.C.Path. or D.C.P. Contract 2-3 years.

PHYSICIAN SPECIALIST £3,991/British Solomon Islands

To be the sole Consultant Physician. Also to carry out duties of Superintendent of the Central Hospital, though this is under review, visit the three district hospitals, and be responsible for a small number of patients in the Mental Hospital. Candidates, preferably male, should be under 45 and M.R.C.P. or equivalent. A specialist allowance of £168 p.a. is also payable. Contract 2 years.

MEDICAL OFFICER (Pneumoconiosis) £2,686-3,664/Zambia

To carry out medical examinations at the Phneumoconiosis Medical and Research Bureau, Kitwe, and to perform any other medical duties as required by the Director. They should, preferably, have experience in chest diseases. An allowance of £933 p.a. in lieu of private practice is also payable. Contract 3 years.

SENIOR MEDICAL SUPERINTENDENT £3,558/Malawi

To be responsible for the administrative and medical control of the Queen Elizabeth Hospital, Blantyre. He must be under 50 and have previous experience in medical administration. Emoluments quoted above include a supplement of £208 p.a. Contract 2-3 years.

MEDICAL OFFICERS £2,446-3,295/Dominica

For the usual Medical officer duties in any institution or district. Private practice is permitted. Contract 2 years.

CONSULTANT OBSTETRICIAN/ GYNAECOLOGIST £3,756-4,050/Fiji

To undertake duties at Lautoka Hospital, Lautoka. Candidates must possess the M.R.C.O.G. and be under 60 years. Private Consulting practice only permitted. Contract 2-3 years.

ANAESTHETIST £2,986/St. Kitts

Required at the Joseph N. France General Hospital to administer anaesthetics during operating sessions usually two-half days per week and when necessary. Also to share duty as Medical Officer on wards. He should possess a higher qualification in anaesthetics. Private practice is limited or an allowance of £250 p.a. is payable in lieu. Contract 2-3 years.

REGISTRAR (ENT) £2,834-3,424/Barbados

To be responsible to the Head of Department and under the direction and control of the Hospital Director at the Queen Elizabeth Hospital for duties usually required in a teaching hospital. Candidates should be under 57 and preferably possess F.R.C.S. or equivalent or have at least one years' post-registration experience in E.N.T. Contract 2-3 years.

SPECIALIST OPHTHALMOLOGIST £336 per month/Brunei

Based at the General Hospital, Bandar Seri Begawan. To be responsible to the Director of Medical Services for all Ophthalmic Services during the sabbatical leave of the substantive holder and care of all Ophthalmic In and Out patients. In addition, Adviser to the Director of Medical Services on all Ophthalmic subjects. Candidates should possess F.R.C.S., D.O.M.S. or D.O., with adequate experience in Ophthalmic Surgery and Ophthalmology. Private practice not permitted. Contract 9 months.

GENERAL DUTY MEDICAL OFFICERS

Are required in Lesotho, Malawi, Seychelles, St. Kitts, and Zambia. Salaries vary with local living costs. Appointments are normally on contract for 2-3 years.

ST. ANDREW'S HOSPITAL NORTHAMPTON

Medical Director: James Harper M.B., F.R.C.P. (Edin.), D.P.M.
St. Andrew's Hospital is a private psychiatric hospital situated in 130 acres of parkland in the county town of Northampton. In general, patients are admitted to Vantage House, a reception unit in the grounds, which is equipped for the investigation and treatment of all forms of mental and nervous illness. In addition, there is accommodation mainly in private rooms, both in the main hospital and in various villas, for longer-stay patients and geriatric patients.
The hospital's amenities include Gloucester House, which comprises an Occupational Therapy department, a swimming pool, a squash court and library, while in the grounds there are tennis courts, a nine-hole golf course, etc.
Fees range from £31 10s. per week, and subscribers to private medical insurance schemes, such as British United Provident Association and Private Patients Plan, may claim benefit in respect of these charges.
Further particulars may be obtained from the Medical Director, St. Andrew's Hospital, Northampton (Tel. Northampton 34354), who can be seen in consultation by appointment, either at the hospital or at 55 Harley Street, London, W.1. 67-13

THE RICHMOND PRIVATE CLINIC AND NURSING HOME 15 Rosslyn Road, East Twickenham, Middlesex.

Telephone 892 3839 & 892 3850
wishes to announce that it is now open and provides a modern theatre and nursing facilities for 40 surgical and medical cases. All enquiries to Matron Mrs. M. E. Mielitz, S.R.N. 67-13
