BRITISH MEDICAL JOURNAL 13 JANUARY 1973 ADVERTISEMENT

#### But there's no two ways about treatment: Stemetil controls both

- Rapid, sustained relief of nausea and vomiting
- Intrinsic tranquillizing action simultaneously calms and relaxes

Migraine, vestibular disturbances, gastro-intestinal disorders, malignancy, cardiovascular disease — in these and many other organic and psychogenic conditions, anxiety, nervousness and tension are familiar concomitants of nausea and vomiting, and serve only to hinder definitive treatment of the underlying disorder. 'Stemetil'\* not only stops the nausea and vomiting, but also effectively brings these accompanying emotional symptoms under control. Side-effects are minimal and transitory and the result is frequently such that the patient feels not just better, but better

than he's felt for a long time. Moreover, because it offers not just one, but two, essential effects, 'Stemetil' clearly makes economic, as well as therapeutic, sense.

# ALLERGIC RHNIS

# A completely fresh approach

The unique way in which sodium cromoglycate prevents asthmatic reactions has been the subject of over 150 clinical trials. Prompted by this success, more recent investigators have shown that, in the form of RYNACROM, sodium cromoglycate has a similar protective effect on the nasal mucosa and can provide year-round prophylaxis in allergic rhinitis?

RYNACROM is not a decongestant, anticholinergic, antihistamine or steroid. Its action is unlike any other form of treatment.

In the face of challenge – pollen, house dust, feathers, pets, etc. – RYNACROM (sodium cromoglycate) prevents the degranulation of those cells which would normally rupture and release histamine and inflammatory agents. Thus regular insufflation of RYNACROM provides continuous prophylaxis from a condition which, hitherto, has been difficult to control symptomatically and even more difficult to prevent. A number of patients who have failed

to respond to other forms of treatment have greatly benefited from RYNACROM!

RYNACROM does not produce inconvenient side effects associated with conventional therapy.

PHARMACEUTICAL PRODUCTS

Readers are reminded that prescribers' literature and clinical information are always available from advertisers on request.

### Do **you** have **MARTINDALE** at your elbow?

Martindale artindale Blank Latin Twenty-sethericani

Martindale, says *The Practitioner*, "puts every other textbook of treatment in the English language in the shade, so far as the prac-tising clinician is concerned." And it goes on to say: "The general practitioner who does not have a copy of this 'opus magnum' permanently at his elbow is not only depriving himself of a 'must', he is asking for unnecessary trouble.'' Martindale is the world's most comprehensive guide to drugs and medicines. The 26th edition, published recently, is a book of 2,346 pages containing about two million words. Martindale now includes over 2,800 drug monographs with information (where appropriate) about pharmacological action; toxic effects and their treatment; precautions to be observed on administration; interactions with other drugs; absorption, metabolism.

and fate in the body; actions, uses and dosage; proprietary drug preparations. Both proprietary and non-proprietary names are included in the 34,000-entry main index. The information is supported by abstracts and references selected from more than 30,000 specially prepared for this edition. The formulas are given of over 1,700 medicines that can be bought by the public without prescription information often essential in compiling a clinical history. For rational prescribing, Martindale is an essential tool. Ask your pharmacist to show you his copy-but don't expect him to let you borrow it! You can get your own copy from any medical bookseller, or post free from The Pharmaceutical Press.

# New Deteclo Syrup For patients you can't keep tabs on

There are some patients who need the triple tetracycline of Deteclo, but who find their medicine hard to swallow. Maybe it's because they're young. Or old. Or simply hate taking tablets. New Deteclo Syrup solves their problems in a raspberry-flavoured syrup. It tastes so nice, you won't have any trouble persuading them to take the treatment they need. And it's so effective, because the combination of tetracycline with demethylchlortetracycline and chlortetracycline produces such wide antibacterial activity. So when you can't be sure if they'll take the tablets or not, they can still get the good value of Deteclo and like it.

# Triple tetracycline.

# **ÖEDEMA**APRIOX

Whatever the cause of the oedema – whether of cardiac, renal, hepatic, premenstrual or other origin – Aprinox induces a profound but easily manageable diuresis extended conveniently over a period of 12 to 18 hours. Whilst the ratio of sodium and chloride excretion closely resembles the normal pattern, potassium excretion remains low. Aprinox is a reliable diuretic and, because of its gentle action, highly acceptable to the patient. Aprinox: tablets of Bendrofluazide B.P. 5 mg (also 2.5 mg)

# APRINOX 5mg. the diuretic that leaves you and your patient in control

Full information is available on request from Medical Marketing, The Boots Company Ltd., Nottingham.

# **Bleomycin Lundbeck** A new oncolytic agent

Lundbeck announce the introduction of bleomycin, a new oncolytic agent which has been shown to have: No toxic effect on the bone marrow. No immunosuppressive action.

Bleomycin may be useful in the management of

- 1. Squamous cell carcinoma affecting the mouth, nasopharynx and paranasal sinuses, larynx, oesophagus, external genitalia or skin. Well differentiated tumours usually respond better than anaplastic ones.
- 2. Hodgkin's disease and other lymphomas including mycosis fungoides.
- 3. Testicular teratoma.

There have been no reports of cross resistance with other currently used oncolytic agents.

Dose: 15mg-30mg intramuscularly or intravenously to a total dose of up to 300mg depending on factors including the condition to be treated and the age of the patient.

Adverse reactions: Side effects which may occur include fever, anorexia, tiredness, nausea and the development of lesions of the skin or oral mucosa. Interstitial pneumonia may occur during, or occasionally, after a course of treatment. This condition may, on occasions, develop into fatal pulmonary fibrosis but such an occurrence is rare on recommended doses. Patients undergoing treatment should have chest X-rays taken weekly.

Sodium Cromoglycate BP

# good friend in

Amoxil is an excellent antibiotic for the treatment of bronchitis. Its broad spectrum of activity covers the respiratory pathogens commonly encountered in general practice, H. influenzae, pneumococci and other streptococci.

Amoxil's outstanding oral absorption – not greatly affected by food - ensures that high bactericidal serum levels are rapidly obtained. Clinical results<sup>2</sup> have demonstrated that bactericidal levels can also be achieved in the bronchial secretions, recognised as a frequent source of re-infection in exacerbations of chronic bronchitis.

> This action contrasts with that of many commonly used antibiotics which cannot effectively penetrate these secretions to eradicate the infection.

Brit. J. Dis. Chest. (1972), 66, 185 Add to this the convenience of a three times daily dosage regime, the degree of safety exociated with penicillin therapy, treatment costing as little as 16p a day and a wide range at highly acceptable oral presentations and it's easy to see why Amoxil is a good friend a bronchitis.

Further information on Amoxil (amoxycillin) available from: Bencard, Freepost, Great West Road, entford. Middx.

Interest rates offered to big investors and small savers alike are many and varied, but each investment has its own particular set of terms and conditions.

Some investments tie up your savings for a fixed period of years, whilst others offer prompt withdrawal facilities.

Some are designed to provide regular income; others offer capital growth. Either may or may not be taxable.

Both may incorporate life assurance and the income tax relief then obtainable can further improve the attractiveness of the investment.

١

It's all very confusing unless you are a financial expert. How else can you choose a plan to suit your own particular needs and be safe in the knowledge that the Company to which you are to entrust your savings is absolutely secure?

Whether you are interested in saving a monthly sum out of salary, or making a single investment, you would be wise to consult the experts at the M.I.A. They are there to help you, as they have helped thousands of your colleagues—their advice is free and entirely without obligation.

as the Senior Project Leader in a biological research laboratory to be established in Hampshire. He will initiate a research programme to develop quantitative inhalation toxicological techniques for assessing, in relevant animal experiments, the biological effects of aerosols. He will be responsible to the Manager, Biological Research, and will establish and develop the necessary supporting team. The person appointed will have had considerable research experience and will probably be medically qualified. Basic training or experience in clinical or animal respiratory physiology would be preferred but experience in other aspects of inhalation toxicology would also be relevant. Applicants, between the ages of 30 and 40, should possess a Home Office Licence under the Cruelty to Animals Act. Salary by negotiation; contributory pension scheme; re-location help. Please write or telephone 01-629 1844 (at any time) in confidence—for further information, J. G. French reference AM.3801.

Personnel Manager, The Wellcome Foundation Ltd. 183 Euston Road, London NW1 2BP. (19501)

#### INDUSTRIAL APPOINTMENTS

Attention is drawn to the British Medical Association's statement of policy on the Remuneration of Industrial Medical Officers as approved by the Representative Body, which is available on request from the Secretary.

# Chief **Medical Officer**

Our present Chief Medical Officer has decided to take a senior appointment with the Employment Medical Advisory Service. We wish to replace him with an experienced Occupational Health Physician who will have responsibilities for the health and safety services throughout the company. These will be based broadly on the recommendations of the Robens committee with particular emphasis on the environmental control of a wide range of potential hazards.

The company employs approximately 60,000 people with factories in Bristol, The Midlands and Scotland. The person appointed would be based in Derby

A senior Medical Officer who has been responsible for more than 10,000 people would have the appropriate experience. A Diploma in Industrial Health or an appropriate higher medical qualification is desirable.

The salary would be in excess of the minimum BMA recommendation for Chief Medical Officers in Industry.

Please write with brief personal details to:

#### UNIVERSITY AND RESEARCH APPOINTMENTS

# Senior Toxicologist

This is a new and senior appointment, carrying responsibility for all the toxicology and pathology studies conducted by a major independent British Research Institute.

The work is wide-ranging and interesting, and is carried out in conjunction with industrial enterprises, Government agencies and international organisations. Safety evaluation and environmental pollution studies are conducted on a wide variety of potential new medicines, cosmetics, toiletries, food additives and industrial chemicals, using many species of animals from mice to baboons. Considerable importance is attached to researching and developing new techniques.

Applications are invited from life science graduates (male or female) in their 30's with several years' relevant postgraduate experience. Particularly advantageous, though not essential, would be a medical or veterinary

qualification, experience in the pharmaceutical, chemical or food industry, and a practical knowledge of pathology.

Salary, benefits and conditions of service are in line with the seniority and importance of the appointment.

The Institute is located in pleasant countryside near a major University city.

Please 'phone for further information, or write for an application form to:

Dr. A. E. F. Chandler, Talentmark Limited, 14 New Burlington Street, London W1X 1FF.

Tel: 01-437 6244

No information will be disclosed to our clients without your prior permission.

#### SERVICES

# AS A NAVAL DOCTOR, YOU'D GETA WHOLE LOT MORE OUT OF LIFE.

## (AND SO WOULD YOUR FAMILY)

Right from the start, you'd have a complete change of scene.

Serving either with the Navy at sea or among service personnel and their families at a naval establishment. Very likely in another

Either way, you'd never find yourself short of assistance. (Every naval doctor is fully supported by medical staff).

Equally important, you'd never find yourself getting into a rut – for in two years or so you'd receive a new appointment.

In a new place. Doing a different job. Perhaps with the chance to learn something of the special problems of diving, aviation, or tropical medicine for example.

It's a stimulating life. Not only for

yourself but for your family too.

For in most cases they'd accompany you. And wherever you go there are usually married quarters – fully furnished houses or flats, equipped with everything you need. And at very reasonable rents.

What's more, a generous education

allowance is made for your children if they are at boarding school. £363 p.a. for a first child, £432 p.a. for a second, £519 p.a. for a third. On top of this, removal and other allowances are also provided.

Add this to the salary and you'll see how well a naval doctor's pay compares with a civilian doctor's.

For instance, with five years' post registration experience you would join us as a Surgeon Lieutenant-Commander on £4,767 a year.

And any specialist qualifications/experience you have could increase your salary

There are opportunities, too, to keep up with the latest developments in medicine. For the Navy fully recognises the need for such opportunities both in the interests of naval medicine and a doctor's professional advancement.

That's not all. You can join on a 3-year or 5-year commission (each carrying a tax-free terminal gratuity of £1,500 and £3,000 respectively) and you can transfer to a full 16-year pensionable commission if you wish.

To find out more, write to Surgeon Cdr. L. C. Banks, M.B., B.Ch., R.N. (724 ABB), Dept. of the Medical Director-General (Navy), Empress State Building, London S.W.6.

#### **OVERSEA**

Attention is drawn to the importance of detailed careful conportance of detailed careful con-sideration to the terms of any contract, especially as terms and conditions of service may differ markedly in different areas. 'Notes on Contracts Overseas' may be obtained on application to the Secretary.

Before any contract is signed it is advisable to obtain full details of remuneration and of terms and conditions of service and information about local conditions. These may often be obtained from the local B.M.A. Branch or affiliated Medical Association whose address may also be obtained on application to the Secretary.

Your knowledge and experience in the field of

# Medicine

will prove more rewarding
in an Air Force environment.
Establish yourself now as one of
the dedicated members of the RAAF
medical team comprising

# Doctors Dentists Medical Technologists Pharmacists Nursing Sisters

Successful applicants can expect to occupy highly responsible, significant and vital appointments in the air force. It means work in an exciting, entirely different environment. Rare opportunities to further professional skills. A chance for travel and to establish yourself in Australia. A RAAF career in any of the above areas of medicine will prove an unforgettable, challenging and valuable experience.

#### **Qualifications**

Naturally, qualifications vary with category and the RAAF Careers Officer will provide specific information on the respective professional requirements and other conditions of service. All applicants must be Australian citizens or British subjects who are granted permanent residence in Australia. The preferable age is between 21 and 40 years and appointments will be restricted to male applicants, with the exception of the Nursing Service, for which only female applicants will be considered.

#### **Duties**

Successful applicants will be granted commissioned rank on appointment. Primarily, they will be concerned with the medical and dental care of RAAF and WRAAF personnel at air force bases, in air force hospitals or on staff duties in Australia or overseas. Opportunities also exist for participation in other associated areas of medicine and for undertaking post-graduate courses.

# Your salary and other good reasons for serving

The salary offered will depend on category, qualifications and experience. Married members will receive an additional allowance and "fringe" benefits available to all members include free medical, dental and optical treatment, free initial issue of uniforms, generous pension or gratuity, free removal expenses and tax concessions.

# The Future **General Practitioner**

#### **LEARNING AND TEACHING**

General or family practice is a special subject. This book is written by six experienced teachers selected by the Council of the Royal College of General Practitioners. It is intended chiefly for teachers, but it will also be valuable to those who are learning and to all who are concerned about the place of family practice within a country's medical services.

A syllabus is developed in five main parts:

Health and Diseases: Human Development: Human Behaviour: Medicine and Society: The Practice

Throughout the book the authors have tried to indicate ways in which the teacher may approach the task of passing on what he had learned by his own experience. The theme is the search for objectives which will satisfy the needs of learner and teacher. The belief is that this search will benefit the future family practitioner and through him the community of his patients.

# **Medical Officer**

## **General duties & obstetrics**

In Zambia, Roan Consolidated Mines provides a comprehensive medical service for its employees. Based at Mufulira, the doctor appointed will undertake general duties involving hospital out-patient sessions and domiciliary and clinic visits. He will also have medical and obstetrical in-patient responsibilities and will share hospital obstetrical call duties on a rota basis, with the principal obstetrician and one other medical officer. Experience in hospitals and general practice is called for which must include obstetrics. This is a post for a doctor holding the DRCOG rather than MRCOG.

Curative medical services are centred on two well-equipped hospitals totalling 460 beds. There are a total of 13 medical officers, including those with higher qualifications working in their specialised fields. The services are provided for employees and their dependants which comprises about 55,000 local and 2500 expatriate personnel.

A competitive salary will be negotiated, depending on experience and qualifications. Employment will be on a two or four year contract by agreement. Benefits include children's education allowances return passages low rental housing paid leave which accrues at the rate of 55 days per annum.

Immediate interviews are offered but because of documentation procedures it will be about three months before the man appointed will take up his duties in Zambia.

Please write giving concise details of qualifications and experience, quoting reference AM 513, to:

# You're looking at the destruction of pathogens by 'Eskacef'. The new bactericidal antibiotic. Use it...to be sure.

The way to prevent infections becoming problems is to cope with them from the start . with 'Eskacef'.

'Eskacef' is rapidly bactericidal against a wide range of Gram-positive and Gramnegative organisms – even penicillinase producing strains. It is one of the most rapidly absorbed antibiotics and reaches high

urinary concentration in active form.

It is so low in toxicity that it can be used in children, may be suitable for long term use, and, with adjustment of dosage to avoid accumulation, may be used in renal failure.

'Eskacef' is available in both capsule and suspension presentations.

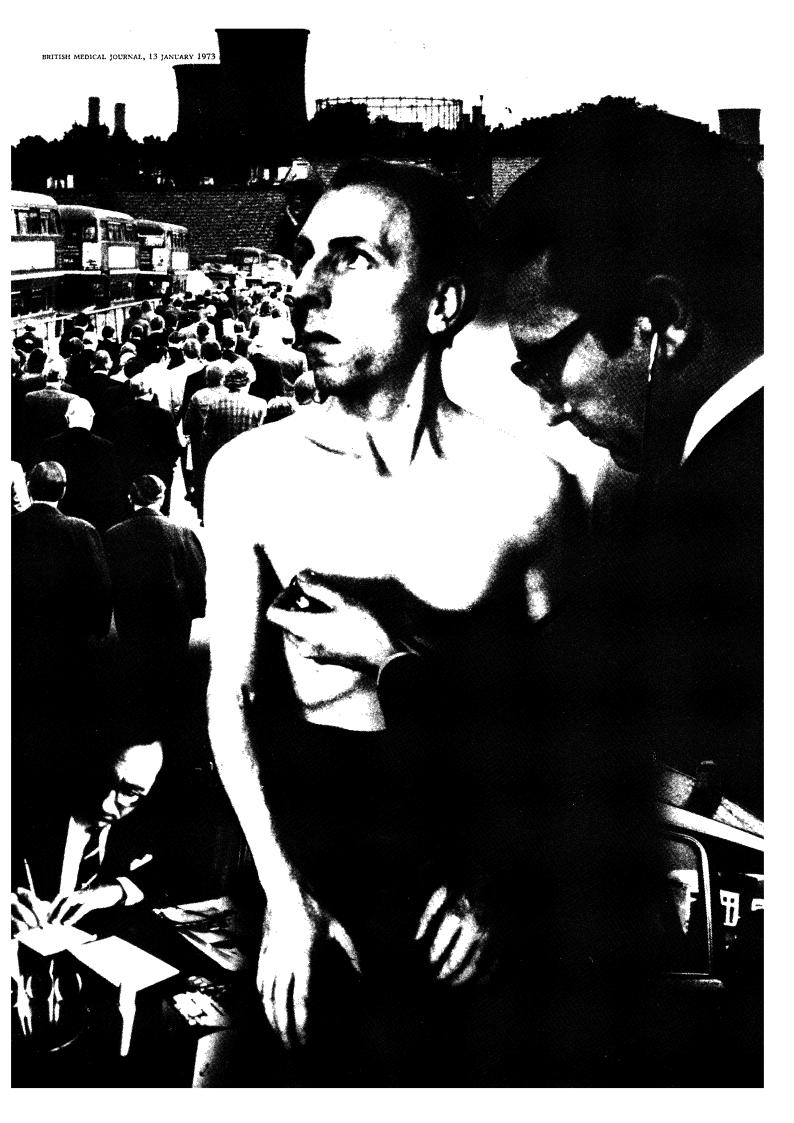

Use it ... to be sure.

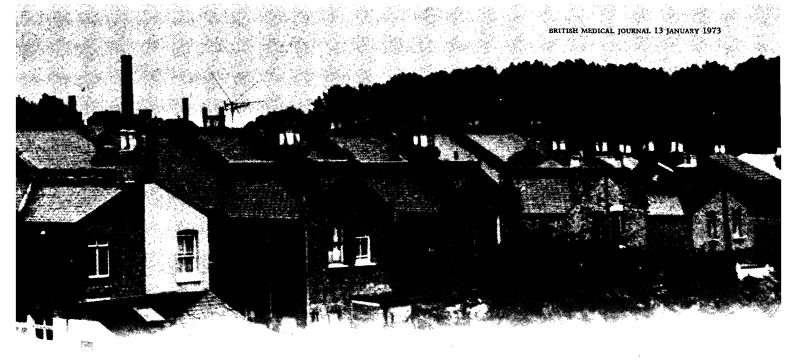

Each capsule contains 250 mg or 500 mg cephradine. Each 5 ml of suspension contains 125 mg or 250 mg cephradine. Further pharmacological and dinical data

available on request.

Smith Kline & French Laboratories Limited Welwyn Garden City, Hertfordshire EF: PA272 col.

# When chest infections clamp down Magnapen relieves the pressure.

As the weather worsens, demands on your time increase. This winter you can relieve some of the pressure by prescribing Magnapen for the more serious chest infections which you see. For acute-on-chronic bronchitis. For pneumonia. For infections following flu.

Magnapen gives you a greater chance of first time success in these serious cases because it is active against virtually all bacteria encountered in General Practice. So you can rely on Magnapen even when there are no laboratory reports to guide you.

Magnapen's greater certainty means that the patient is more likely to respond quickly. More likely to be up and about again sooner. And Magnapen can save you the time which you might otherwise have to spend on repeat visits, second consultations or night calls to patients who may fail to respond to other antibiotics.

Full information is available on request.

Magnapen\* (250mg ampicillin with 250mg flucloxacillin) is a British product originated by

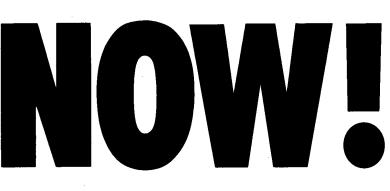

\*regd.

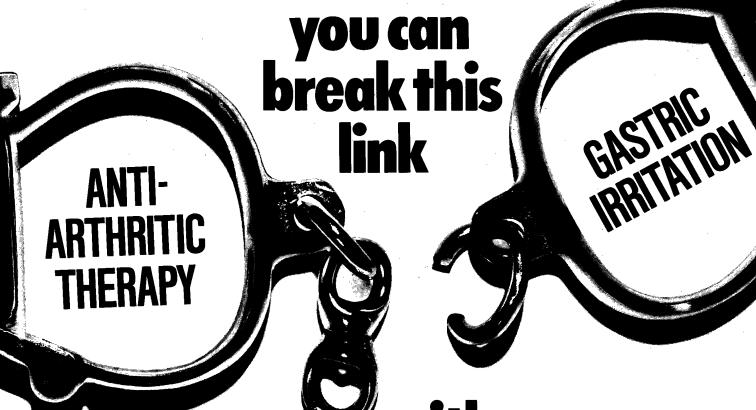

Beecham Research Laboratories Brentford, England.

Magnapen for greater certainty in serious chest infections

# Benoral suspension

Benoral Suspension, a new and highly effective anti-inflammatory analgesic, does not produce the gastric irritation which so often complicates therapy with aspirin and other anti-arthritic agents.

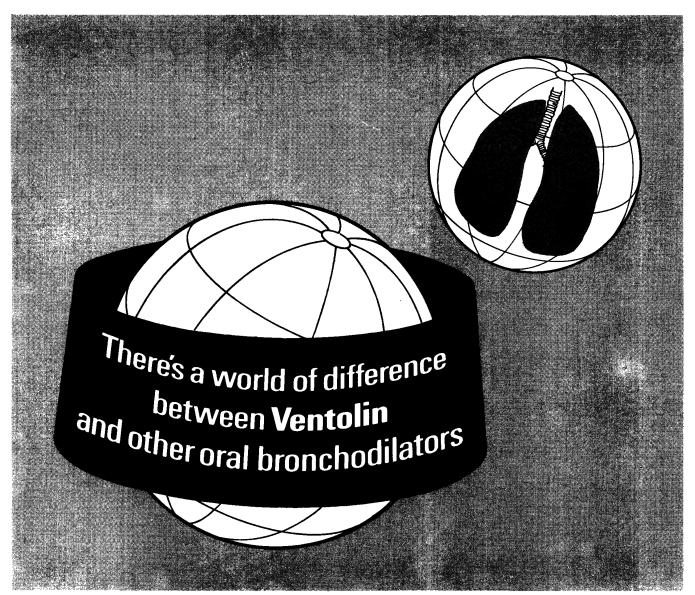

Because it has a long duration of effect, Benoral allows a simple twice-daily dosage regimen which controls swelling and pain and affords significant relief from night discomfort and early morning stiffness.

**Benoral Suspension** 

the new superior anti-arthritic free from gastric irritation
