

Behind this great product for oedema...

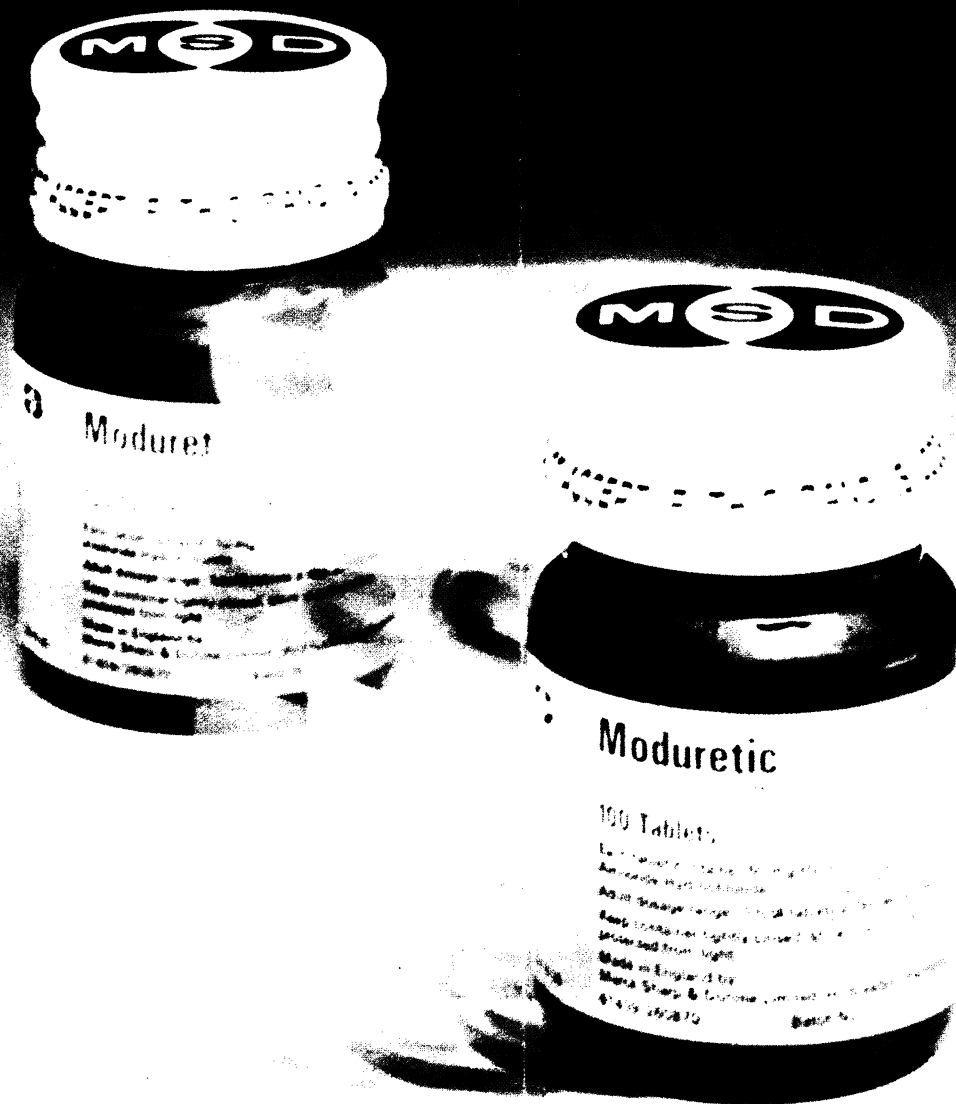

'... in the management of hypertension, the major clinical advantage to be obtained from combination thiazide-amiloride therapy (in comparison with thiazide drug alone) is the occurrence of moderate antikaliuresis and diuretic-antihypertensive efficiency.'

J. clin. Pharmacol., 1969, 9, 217 (Jul-Aug)

'Moduretic' provides thiazide antihypertensive therapy - alone or as

...is a great product for hypertension

adjunctive therapy – whilst conserving body potassium. In fact, potassium supplements should not be given concurrently.

'Moduretic' combines amiloride hydrochloride, a potassium-conserving agent, with hydrochlorothiazide, the well established thiazide antihypertensive.

Many physicians are already recognising the advantages of 'Moduretic' in the treatment of thiazide-responsive hypertension.

MODURETIC[®]

Amiloride hydrochloride and hydrochlorothiazide

a highly effective diuretic/antihypertensive that entirely obviates the need for potassium supplements.

'Moduretic' is available as peach-coloured, diamond-shaped tablets containing 5 mg amiloride hydrochloride and 50 mg hydrochlorothiazide. Detailed information is available to physicians on request. ® denotes registered trademark.

The Army asks a lot of a doctor. Here's what we give him in return.

Any young Doctor is bound to find his work demanding. And we won't pretend that the Army offers you a cushy life. What it does offer you, is opportunity and experience that you'd be hard put to surpass in civilian life.

You'll have ample opportunity to travel, anywhere in the world where the British Army is on exercises or operations.

You'll also gain considerable medical experience, with the chance of specialist post-graduate studies if you opt for a permanent commission.

Initially you can join for 3 or 5 years with the opportunity to convert to a regular commission.

You'll hold the rank of Captain and at the age of 24 you could be earning £3942 a year with 6 week's paid leave, plus allowances for educating your children, uniform etc.

Your surgery is equipped and staffed by the Army.

Your practice covers not only soldiers, but their wives and children as well. And if you want to set yourself up in civilian practice, you'll appreciate the tax-free gratuity that comes with all the valuable experience you've picked up in your short

service commission. The gratuity works out at £1500 after three years and £3000 after five.

If you're interested, we can arrange for you to visit one of our medical establishments and talk with serving RAMC Officers before you make your final decision.

How many of your 'newer' cases of arthritis could benefit from Brufen?

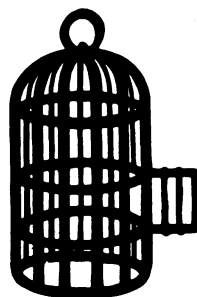

A recent study* in nearly 1,000 arthritic patients treated with Brufen included a number who had suffered with arthritis for a relatively short time – some for less than a year.

On Brufen, 3 out of every 4 of these 'new' arthritic patients improved

– and improved consistently in the real terms of less pain, greater mobility. It's never too early to start treatment with Brufen.

For the next ten minutes, you're the Dermatologist

It's one of the many hats you have to wear in the course of a normal working day. And while you're wearing it, your standard of diagnosis and treatment will be modelled on those of the dermatologists who taught you – and those whose advice and practice continue to give guidance. For you, now, there is the Ficoid range of topical skin preparations, bringing the standards of hospital dermatology to general practice.

The Ficoid rationale

In the Ficoid range, there are preparations meeting virtually all the specifications you may require in topical skin therapy. An anti-inflammatory effect appropriate to the clinical situation. Antibacterial cover when needed. A physical form appropriate to the lesion and the patient's skin. And all at a cost which makes Ficoid not only good dermatology but exceptionally good value for money as well.

The Ficoid range

The anti-inflammatory agent in Ficoid is fluocortolone, a fluorinated steroid adequate for even the most severe inflammation – and there is a dilute as well as concentrated form. When you need antibacterial cover, Ficoid-plus offers a wide antipathogenic spectrum without the well-known drawbacks of antibiotics.

Cosmetically elegant

To cater for crusted, scaly, lesions and dry skin. Ficoid is available in ointment form. For moist or weeping lesions, Ficoid may be prescribed as a cream or a lotion. This is particularly suitable for pilose areas. For ease of prescribing, all the Ficoid range comes in 30 g tubes, except the lotion which is in 20 ml bottles.

Ficoid 2	fluocortolone 0.25%	cream, ointment, 30 g tubes
Ficoid 2-plus	fluocortolone 0.25% clemizole hexachlorophenate 2.5%	cream, ointment, 30 g tubes
Ficoid 5	fluocortolone 0.5%	cream, ointment, 10 g and 30 g tubes lotion, 20 ml bottle
Ficoid 5-plus	fluocortolone 0.5% clemizole hexachlorophenate 2.5%	ointment 10 g, and 30 g tubes

Clinical evidence for Ficoid*

In one study* fluocortolone was assessed by 110 doctors in the treatment of 1,028 patients with a variety of skin conditions including eczema (44%), dermatitis (15%) and psoriasis (8%). The trial involved both general practice and hospital cases. Results were summarised as follows:

	No	Clearer or improved	Unchanged or worse
Fluocortolone/clemizole hexachlorophenate	605	543	62
Fluocortolone	423	376	47
Totals	1028	919	109
	100%	90%	10%

Contra-indications

In infants, long-term continuous topical steroid therapy should be avoided. Adrenal suppression can occur even without occlusion.

Precautions

Topical administration of corticosteroids to pregnant animals can cause abnormalities of foetal development.

The relevance of this finding to human beings has not been established, however, topical steroids should not be used extensively during the first trimester of pregnancy, ie in large amounts or for prolonged periods. As with all topical steroids, there is a risk of striae following extensive therapy.

tabs **Flagyl** (21) 1 t.d.s.

Her kind of T.V., trichomonal vaginitis, is always an acutely distressing condition, not least because of the special anxieties that inevitably attend any genital disorder.

With 'Flagyl' one of the things you can count on is dramatic relief of the disquieting clinical symptoms. And because 'Flagyl' is an exceptionally effective trichomonacide, producing cure in 90 to 100 per cent of cases within a week¹, you can be equally sure of definitively eradicating the parasite without fear of worrying relapses or problems of resistance. Moreover, as an easily administered oral medication gratifyingly free from unwanted effects², 'Flagyl' is both an extremely convenient and a highly acceptable form of treatment.

Flagyl still unsurpassed in trichomonal vaginitis

— and for those cases where monilial infestation co-exists: the combined 'Flagyl'/nystatin treatment pack, 'Flagyl Compak'.

Each 'Flagyl' tablet contains 200 mg metronidazole. Further information available on request.

HAY FEVER

THIS IS A SIMPLIFICATION OF THE SEQUENCE THAT LEADS TO THE IMMEDIATE ALLERGIC RESPONSE

1. GRASS POLLEN ANTIGENS ENTER THE BLOODSTREAM, CAUSING THE FORMATION OF LARGE NUMBERS OF ANTIBODIES.

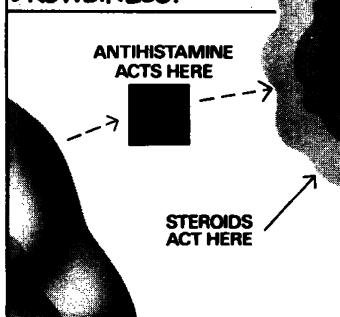

2. IN ALLERGIC PATIENTS SOME ANTIBODIES ATTACH THEMSELVES TO CERTAIN CELLS, SENSITISING THEM. WHEN THE ANTIGENS AGAIN COME INTO CONTACT WITH THE ATTACHED ANTIBODIES...

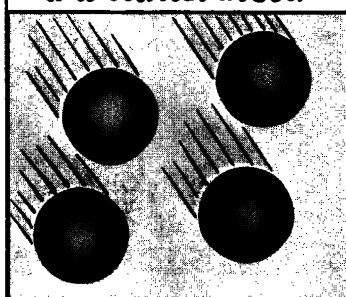

3. THE CELLS DISRUPT RELEASING HISTAMINE AND OTHER PRODUCTS - SRS-A, BRADYKININ, ETC. THESE CAUSE THE CLASSIC HAY FEVER SYMPTOMS - TISSUE INFLAMMATION, OEDEMA, RHINORRHOEA, PAROXYSMAL SNEEZING.

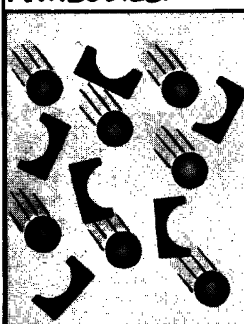

4. PALLIATIVE MEASURES MERELY REDUCE THE EFFECTS OF CELL-DISRUPTION PRODUCTS, BUT THEY CAN HAVE UNDESIRABLE SIDE EFFECTS LIKE DROWSINESS.

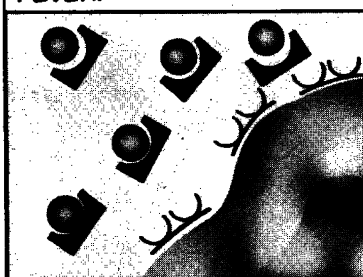

5. **ALAVAC-P** OFFERS A FUNDAMENTAL ANSWER IMMUNISATION.

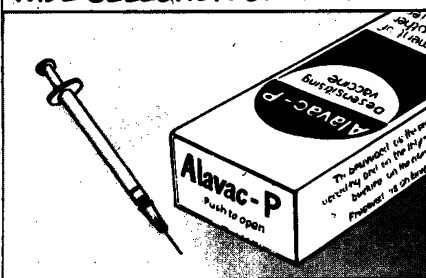

6. ALAVAC-P PROMOTES THE PRODUCTION OF CIRCULATING ANTIBODIES.

7. THESE CAPTURE THE ALLERGENS BEFORE THEY CAN EVER REACH THE SENSITISED CELL - PREVENTING THE SYMPTOMS OF HAY FEVER.

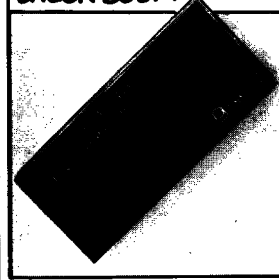

8. ALAVAC-P CONSISTS OF A SHORT, EASY-TO-ADMINISTER COURSE OF INJECTIONS, GIVEN WELL BEFORE THE HAY FEVER SEASON STARTS IN MAY / JUNE. ALAVAC-P IS SUITABLE FOR A WIDE SELECTION OF PATIENTS.

9. THREE SUCCESSIVE YEARS OF ALAVAC-P TREATMENT CAN CONFER EVEN LONGER-TERM FREEDOM FROM HAY FEVER.

10. YOU CAN PRESCRIBE ALAVAC-P FROM CASE HISTORY ALONE - AND TO SIMPLIFY THE RECORDING OF PATIENTS, BENCARD PROVIDE A PATIENT CHECK BOOK.

11. IMMUNISATION WITH ALAVAC-P GIVES SUMMER-LONG PROTECTION WITHOUT THE UNWANTED SIDE EFFECTS OFTEN ASSOCIATED WITH SYMPTOMATIC THERAPIES.

Here's why Alavac-P gives the most practical and effective action against hay fever and grass pollen asthma.

Alavac-P is an adsorbed, short-course (8-9 injections) hay fever vaccine.

It is a practical, more permanent alternative to temporary palliative measures.

It is formulated from the pollens of 12 common grasses that cause over 80% of hay fever and grass pollen asthma in the British Isles.

Minimal risk of reaction is ensured by the slow release of active material into the system.

Alavac-P provides clinically effective pre-seasonal treatment for patients of all degrees of sensitivity over 5 years of age.

Long-term protection may be achieved and deterioration

reversed in many patients by repeating Alavac-P treatment in three successive years.

Skin tests are not needed: Alavac-P may be prescribed from case history and clinical symptoms alone.

The course should be started by early March to ensure protection before the onset of the grass pollen season in mid-May.

Ready-assembled disposable syringes with attached needles are included with each set of vials together with instructions on administration, dosage and precautions.

Alavac-P is prescribable on N.H.S. form E.C.10.

Basic N.H.S. price - £5.85 per set.

A booklet with further information on Alavac-P (regd) and hay fever immunity is available from: Bencard, Freepost, Great West Road, Brentford, Middlesex.

WE WOULD like to have a fifth partner to join our New Town Practice in Sussex, within easy access to London, Paris and the sea. We hope to get a graduate of a British University, under 35, and preferably with trainee G.P. experience. This is a teaching practice, both for trainees and for many other grades of staff, with access to general and obstetric beds. We have had full ancillary staff since 1960 and currently have two health visitors, a district nurse, midwives as necessary, and employ nine ancillary staff. There will be ample opportunity for any hobbies or interests. We are in possession of all the usual equipment (including Electrocardiograph W.P.F.M., Age/Sex Register etc), and we really want a young man who means to enjoy general practice as a member of a team in a scientific set-up. We have two premises, both in excellent condition, one of which we own ourselves, but there is no capital requirement. Parity in three years and excellent remuneration, plus seven weeks yearly holiday. Please apply to Dr. Ivan Clout, Leacroft, Ifield Road, Crawley, in writing in the first instance. 10

GENERAL PRACTICE TRAINING POSTS

VOCATIONAL TRAINING FOR GENERAL PRACTICE GUILDFORD, SURREY

The Guildford & Godalming Hospital Management Committee, in association with the South West London and Surrey Executive Council, invite applications from fully registered medical practitioners for a planned series of posts in Guildford designed to provide for general practice. In the first year Senior House Officer posts will be held in Obstetrics and Gynaecology and in Paediatrics followed by one year as Medical Registrar with opportunities to work in other specialties. All posts are at St. Luke's Hospital.

A year will then be spent as a Trainee in General Practice in Guildford and it is hoped to arrange a final year in General Practice with clinical assistant appointments in hospital. Next vacancy September, 1973.

Application forms and further particulars available from Group Secretary, Guildford & Godalming Hospital Management Committee, St. Luke's Hospital, Guildford. (46225) 22

UNIVERSITY OF BRISTOL

VOCATIONAL TRAINING FOR GENERAL PRACTICE

Applications are invited for a three year traineeship in Vocational Training for General Practice, consisting of two years hospital and elective training and one year traineeship in an approved practice.

After a short period of orientation of not more than three months in the training practice, trainees will start hospital appointments at S.H.O. level in a Bristol Hospital: six months each in Medicine and Obstetrics with gynaecology or arfered, followed by two three month periods in Paediatrics and Geriatrics. The remaining six month period in hospital will be partly or wholly elective when opportunities will be given to gain experience in special hospital and other departments. The trainee will complete their year in practice before or after this elective period. There will be a half-day release course during University term time throughout the three years which will contain a special extended course in psychiatry.

The period of orientation should start in June 1973 and the first hospital appointments will start on 1st August, 1973.

Applications from suitably qualified practitioners should give details of previous experience, the names and addresses of two referees, and quote a date when they would anticipate being able to start the preliminary orientation period in practice. Applications should be sent before 28th February, 1973.

It may be possible also to assist practitioners wishing to complete requirements for vocational training, who have already in part fulfilled the necessary criteria.

Applications and requests for further information, should be sent to: The Adviser in General Practice, Medical Postgraduate Department, University of Bristol, Senate House, Tyndall Avenue, Bristol BS8 1TH. (20227) 22

GENERAL PRACTICE TRAINING POSTS

Vocational Training for General Practice The Norwich Scheme

Applications are invited for a three year Traineeship for General Practice consisting of two years of hospital posts and a year in general practice. The hospital posts will be within the United Norwich Hospitals and will consist of a 6 month appointment in general medicine with neurology and dermatology, 6 months in obstetrics with gynaecology (approved for D.Obst.R.C.O.G.), three 3-month appointments in other specialties, including paediatrics and casualty, and a three month locum/elective period. The general practice traineeship will be in an approved general practice within the Norfolk and Norwich area. A weekly study half day programme and a course of monthly evening meetings on topics of special interest to general practice will be held. The scheme is approved by the Department of Health and Social Security as qualifying for the vocational training allowance and by the Royal College of General Practitioners for eligibility to take the M.R.C.G.P. on completion of the course.

Married accommodation will be available throughout the hospital period. Hospital posts commence on the 1st August, 1973, but the one year period in general practice can be divided to give an initial period of 3 months starting in May 1973.

FELLOWSHIP AWARDS

THE HEINZ FELLOWSHIPS
OF THE BRITISH
PAEDIATRIC ASSOCIATION

H. J. Heinz Company Limited generously endows Fellowships in paediatrics which the Nuffield Foundation administers in conjunction with the British Paediatric Association.

Two or three Fellowships will be offered each year, the number and type awarded in any one year depending on circumstances and the calibre of applicants available.

The types of Fellowship, which are open to men or women, are:

(a) To enable a paediatrician from any part of the Commonwealth overseas to spend six to twelve weeks in the United Kingdom, meeting twelve paediatricians and seeing something of their work. Preference will be given to those recently established in an academic career who can arrange their visit to allow attendance at the Annual General Meeting of the British Paediatric Association in April 1974.

(b) To further the training of a young paediatrician from any part of the Commonwealth overseas by spending one year in postgraduate study of paediatrics and child health at approved centres in the United Kingdom with a view to assisting the Fellow on return to his country to further paediatric knowledge by teaching. The award is not intended to enable the Fellow to obtain a higher degree in medicine.

(c) To enable a paediatrician from the United Kingdom of Senior Registrar status, or a Consultant Paediatrician of not more than about five years' seniority, to make a short working visit (up to three months) to a centre in a developing country, teaching or conducting research so as to benefit both the Fellow and his hosts. The applicant should submit a brief programme and indicate the likely benefits to himself and to his hosts which he suggests will accrue.

Applications for these awards must be received by the Nuffield Foundation not later than 15th July, 1973.

The conditions for the Fellowships and application forms may be obtained from the Director of the Nuffield Foundation, Nuffield Lodge, Regent's Park, London NW1 4RS. (H10492) 26

MEDICAL SUPPORT GROUP

The assessment of evidence of safety, efficacy and quality in connection with applications for registrations and approvals for clinical trials in the U.K. and overseas, is a vital stage in the medical research programme.

The increasing stringency of drug regulatory authorities throughout the world makes it imperative that we appoint a further physician to join an existing team concerned with drug registration. The Group also provides an essential medical information service linking the laboratory scientist with the practising physician.

COMMERCIAL APPOINTMENTS

WRW

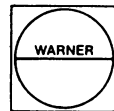

Senior Medical Adviser

This is a senior appointment within the Medical Department of this well-known pharmaceutical company and involves responsibility for initiation, organization and development of clinical trials on new or existing products.

It requires a wide knowledge of clinical medicine and a medical graduate with previous experience of the industry, probably at present holding a responsible appointment, is the candidate we are seeking. He will be required to travel fairly extensively within the United Kingdom and at times overseas. An ability to project his personality and discuss in depth with clinicians aspects of the company's products and to lecture on them would be added advantages.

The company has diversified interests and international associations, and recent development within the global structure of the company offers prospects for real career advancement. The position will be based at Eastleigh and conditions of employment are first-class. Fringe benefits include a company car and free pension and life assurance. Reasonable re-location expenses will be met. The generous salary commensurate with the candidate's experience and ability, is negotiable.

Reply in confidence to:

Mr. M. J. Witcher,
Personnel Director,
William R. Warner & Co. Ltd.,

SCOTTISH HEALTH SERVICE
FELLOWSHIPS IN
COMMUNITY MEDICINE

At least three Fellowships in Community Medicine are offered in 1973 to medically qualified candidates.

FELLOWSHIPS are for three years, modified for candidates with relevant qualifications or experience. The usual pattern is one year's full-time academic study followed by opportunity for gaining practical experience in various fields of community medicine and undertaking study projects.

Salary scale (senior registrar equivalent) £3,120 to £4,146. Approved University Fees, and certain travel and subsistence expenses, are met.

Closing date for application is 2nd March, 1973.

JUNIOR FELLOWSHIPS

A limited number of posts in the S.H.O./Registrar grades are being made available for graduates with two to three years basic professional experience who have not decided finally which branch of medicine will provide for them a satisfying career, but who might consider the specialty of Community Medicine.

These posts would in most cases be limited to one year's duration. The holders would continue half-time with clinical duties and would be given the opportunity of undertaking or assisting with a research project in a subject related to community medicine.

These posts are intended to provide an introduction to Community Medicine whilst enabling the successful candidates to gain further clinical experience.

These lungs are old before their time.

They are asthmatic, have become bronchitic and are now emphysematous. While antibiotics are fighting the infective component, INTAL provides constant protection from the asthmatic episodes that often accompany chronic bronchitis. It could save the lungs from further damage.

Sodium Cromoglycate BP has no bronchodilator or anti-inflammatory activity. Its principal action is to inhibit the release of spasmogens and inflammatory agents in immediate-type allergic reactions in the lungs.

Where asthma complicates the treatment of bronchitis, INTAL can control the asthmatic component while the antibiotic clears the infective element. Because asthmatic attacks are actually prevented, there may be a concomitant reduction in the number of infective episodes, thus protecting the lungs from further damage.

INTAL contains 20 mg Sodium Cromoglycate BP. If inhalation of the fine dry powder causes transient bronchospasm INTAL CO is available which contains 0.1 mg Isoprenaline Sulphate BP in addition to sodium cromoglycate.

Intal®  **daily prophylaxis in asthma**

When chest infections clamp down Magnapen relieves the pressure.

As the weather worsens, demands on your time increase. This winter you can relieve some of the pressure by prescribing Magnapen for the more serious chest infections which you see. For acute-on-chronic bronchitis. For pneumonia. For infections following flu.

Magnapen gives you a greater chance of first time success in these serious cases because it is active against virtually all bacteria encountered in General Practice. So you can rely on Magnapen even when there are no laboratory reports to guide you.

Magnapen's greater certainty means that the patient is more likely to respond quickly. More likely to be up and about again sooner. And Magnapen can save you the time which you might otherwise have to spend on repeat visits, second consultations or night calls to patients who may fail to respond to other antibiotics.
