## CANCER OF THE UTERINE CERVIX

This book describes the evolution of the comprehensive, co-ordinated, and multi-disciplinary cancer control programme for cervical cancer in a population approaching five million. This programme, centred at the Christie Hospital, Manchester, England, includes preventive cytological screening, early diagnosis by public and professional education, the treatment of patients with established cervical cancer, rehabilitation, follow-up and statistical evaluation, and finally, terminal care for those requiring it. Each of these aspects of cancer control is discussed in detail.

The aim was to write a balanced book, the emphasis being on the need for a holistic approach to cervical cancer in a large population. The reader will, however, find a full description of the Manchester Radium Technique, the rationale of which is often ill-understood and misquoted. Hitherto unpublished reports on a series of six clinical trials are presented, as well as a report on a study of radio-resistance in cervical cancers. The statistical details of curability will be new to some readers, especially perhaps to gynaecologists.

Edited by Eric C. Easson, MD, FRCP (Glas), *Director of Radiotherapy, Christie Hospital and Holt Radium Institute, Manchester.*

## PLANNING A DIAGNOSTIC RADIOLOGY DEPARTMENT

This new work attempts to indicate and resolve the problems one should consider before starting to plan an X-ray service for a hospital or clinic, something never done before in any one publication. Throughout the book, the radiology department is treated as part of the hospital as a whole and one of its unique features is the consideration of the X-ray department as a possible source of hospital infection.

Although considering all contemporary X-ray department designs, emphasis has been given to the concept of the 'db' system. These two letters can form the basic design elements for a modern X-ray department. The central area, between the uprights of the two letters, can contain the administration, filing and reporting activities, with the reception-control area at the top. Round the hemi-circumference of the two letters the X-ray rooms can be sited, surrounding the processing facilities. On either side of the reception office are the main waiting areas.

Many schematic diagrams are included, illustrating such concepts as the so-called sandwich design, and db designs for radiology departments with from 12 to 41 X-ray rooms. Basic considerations and philosophy have been adopted throughout and this approach has enabled the authors to place the parameters of design upon something more than an arbitrary basis.

## Problems of the Newborn

Many doctors outside the neonatal and paediatric field may be unaware of the rapid advances made in the care of the newborn in the last decade. Last year the *B.M.J.* published a series of articles discussing the diagnosis and management of common conditions affecting newborn babies. The articles have been revised by their authors and collected together as a booklet, forming a useful guide to both serious problems and more everyday topics which confront doctors in their practice.

## Gynaecology in General Practice

As in other branches of medicine, the pattern of gynaecological problems likely to be encountered by the general practitioner will probably change in the future. Moreover, many doctors, now in practice were taught little about some of the topics which are important today and are likely to become even more so. In 1971 the *B.M.J.* published a series of articles in the "Medical Practice" section discussing the management of various gynaecological disorders in a domiciliary setting. These have now been collected together as a booklet entitled *Gynaecology in General Practice* and provides a useful and up-to-date account of gynaecology in general practice.

## Doctors in the Australian Army get the best of all worlds

A new life in Australia. With first class passage paid for you and your family. A job waiting—and all the advantages of a service practice.

With extraneous administration taken off your hands, you can really do your job properly. You could be in an R.M.O. unit, field ambulance station or military hospital and there are opportunities for updating medical knowledge and techniques. Then there's the sports and social side, too.

The sort of man we're looking for is preferably under 40—with medical qualifications registerable in the Commonwealth of Australia. He's medically fit—prepared to serve anywhere and is a British subject eligible for permanent residence in Australia. If this sounds like you, this is what we'll do for you.

You'll be appointed to a Short Service Commission for 4 years in the Medical Corps of the Australian Army in the minimum rank of Captain, where your salary would amount to £4,773 per annum after the equivalent of 5 years service. (Your professional experience in England serves to ante-date your period of service). Tax and a refunded retirement benefit will be deducted from this—though your clothing and marriage allowances of £51 and £345 per annum are not taxed. You also receive a bounty of about £1,540.

If this sounds like your sort of life, contact: Brig. C. F. Flint, O.B.E., Australian Army Representative, Australia House, Strand, London WC2. Telephone: 01-836 2435. Extn. 356.

# A COMPARATIVE TRIAL OF CARBENOXOLONE & CAVED-S

**\*A new trial in the treatment of peptic ulcers**

SOME EXTRACTS	CAVED-S	CARBENOXOLONE
75% or more healing	62%	62%
Healed	45%	41%
Mean reduction in ulcer area	69%	70%
Mean duration of pain	17 days	19 days
Side Effects after "high risk" carbenoxolone patients excluded, e.g. over 75 years and a diastolic B.P. over 90mm Hg. and with cardiac or renal disease.	2 loose bowels	1 Hypokalaemia 2 Hypertension 2 Hypertension plus oedema

## No serious side effects observed in Caved-S treated patients

in the double blind or open series, which included "high risk" carbenoxolone cases of 11 hypertensive patients, one man with angina pectoris and bundle branch block, and one man of 80 years

with a history of hemiparesis.

The safety of CAVED-S was confirmed by the treatment of the elderly patients with cardiovascular and cerebrovascular diseases. The trial established beyond reasonable doubt the healing action of CAVED-S on gastric ulcers.

## DUODENAL ULCER PATIENTS

(Unpublished trial on file)

A hospital trial with CAVED-S tablets at increased dosage established recurrent episodes can be prevented. The high dosage was statistically more effective than the lower dosage in preventing relapses.

Patients were followed up for a minimum of one year, and it was concluded that "HIGH DOSES OF (CAVED-S) SHOULD BE GIVEN TO PATIENTS WITH DUODENAL ULCERS BEFORE SURGERY IS ATTEMPTED."

tried and trusted for more than 21 years

An outstanding record of efficacy and safety in many thousands of expectant mothers over two decades, together with the notable advantage of low cost, has firmly established 'Avomine'\* as the drug of first choice in the treatment of pregnancy sickness. Its sustained anti-emetic action provides efficient round-the-clock control of symptoms and is of great help to the patient in maintaining her normal daily routine during the often difficult first trimester. Side-effects are rarely experienced and there have never been any reports to suggest that its administration in any way harms foetal development.

It's one of the many hats you have to wear in the course of a normal working day. And while you're wearing it, your standard of diagnosis and treatment will be modelled on those of the dermatologists who taught you – and those whose advice and practice continue to give guidance. For you, now, there is the Ficoid range of topical skin preparations, bringing the standards of hospital dermatology to general practice.

### The Ficoid rationale

In the Ficoid range, there are preparations meeting virtually all the specifications you may require in topical skin therapy. An anti-inflammatory effect appropriate to the clinical situation. Antibacterial cover when needed. A physical form appropriate to the lesion and the patient's skin. And all at a cost which makes Ficoid not only good dermatology but exceptionally good value for money as well.

### The Ficoid range

The anti-inflammatory agent in Ficoid is fluocortolone, a fluorinated steroid adequate for even the most severe inflammation – and there is a dilute as well as concentrated form. When you need antibacterial cover, Ficoid-plus offers a wide antipathogenic spectrum without the well-known drawbacks of antibiotics.

### Cosmetically elegant

To cater for crusted, scaly, lesions and dry skin. Ficoid is available in ointment form. For moist or weeping lesions, Ficoid may be prescribed as a cream or a lotion. This is particularly suitable for pilose areas. For ease of prescribing, all the Ficoid range comes in 30 g tubes, except the lotion which is in 20 ml bottles.

Ficoid 2	fluocortolone 0.2%	cream, ointment; 30 g tubes
Ficoid 2-plus	fluocortolone 0.2% clemizole hexachlorophenate 2.5%	cream, ointment; 30 g tubes
Ficoid 5	fluocortolone 0.5%	cream, ointment; 10 g and 30 g tubes lotion, 20 ml bottle
Ficoid 5-plus	fluocortolone 0.5% clemizole hexachlorophenate 2.5%	ointment 10 g, and 30 g tubes

### Clinical evidence for Ficoid\*

In one study\* fluocortolone was assessed by 110 doctors in the treatment of 1,028 patients with a variety of skin conditions including eczema (44%), dermatitis (15%) and psoriasis (8%). The trial involved both general practice and hospital cases. Results were summarised as follows:

	No	Clearer or improved	Unchanged or worse
Fluocortolone/clemizole hexachlorophenate	605	543	62
Fluocortolone	423	376	47
Totals	1028	919	109
	100%	90%	10%

### Contra-indications

In infants, long-term continuous topical steroid therapy should be avoided. Adrenal suppression can occur even without occlusion.

### Precautions

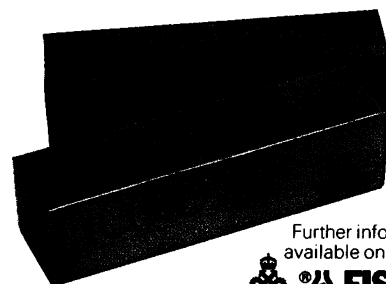

Topical administration of corticosteroids to pregnant animals can cause abnormalities of foetal development.

The relevance of this finding to human beings has not been established, however, topical steroids should not be used extensively during the first trimester of pregnancy, ie in large amounts or for prolonged periods. As with all topical steroids, there is a risk of striae following extensive therapy.

## When did you last use one of these?

Paraffin heated sterilizers are past history in the health service.

In some developing countries paraffin is the only available power source and these sterilizers are urgently needed. The Joint Mission Hospital Equipment Board supplies them.

Many of your colleagues in the emergent nations in mission hospitals and medical relief programmes work in primitive conditions and with outmoded equipment. Will you help them a little by helping the Joint Mission Hospital Equipment Board to supply them with up-to-date equipment very cheaply?

All it needs is a money gift which will be carefully spent.

Please send what you think you can spare to:

# What can I do at my age, to help old people in need?

(Mrs. Williams, now 78, talks to  
Dr. Reed, her doctor)

**Mrs. W.** I know what it's like to be old and lonely, even though I have a kind family, a home and enough to eat. But I've read about old people with no proper homes, struggling along in damp, awful rooms, without heating or warm food, or even an inside toilet. Surely I can do something to help them?

**Doctor R.** Well, I know you're not strong enough to visit them and climb up dark, rickety stairs, which cut so many of these old people off from the world. But, Help the Aged is doing the sort of practical job you'd appreciate. Rehousing these old people in modern, self-contained flats of their own. Where they can be independent, and yet cared for if they need help. Of course, it's a big job and Help the Aged are dependent on the support of people like yourself to do it.

**Mrs. W.** Do you mean that a contribution from me could really make a difference?

**Doctor R.** Yes. The reason a lot of well-known people support Help the Aged is that a small gift can go quite a long way towards helping the 300,000 old people who are desperately in need of care and housing.

**Mrs. W.** But I can't afford to give a lot of money. Would £30 or £40 accomplish anything?

**Doctor R.** A lot. About £1,000 worth of new housing for old people in fact. That's because Help the Aged use official loans which multiply the value of each gift 25 times over. In my experience as a Doctor, I can't think of any better value from a gift; not only is your money multiplied, but it goes on giving happiness, perpetuating your generosity over many years. For £150, you can name a flat in memory of someone dear to you, and £250 names a double flat in a Help the Aged Housing Scheme.

If your patients would like to help distressed, helpless old people, and show that some goodness is at work in the world, please remember the value of covenants and legacies. An annual report will be gladly sent on request.

Becotide Inhaler contains beclomethasone dipropionate BP, a steroid which differs from those previously administered to asthmatics by aerosol in that it is highly active within the lungs in doses which are not systemically active. Used as an aerosol it provides remarkable control of asthma without causing significant systemic effects. This result is attributable to the intrinsic properties of the compound and to its localisation at the intended site of action.

*Becotide Inhaler ensures for your  
asthmatic patients*

- Effective treatment—equal to that of oral prednisolone<sup>1,2</sup>
- Freedom from steroid side effects including adrenal suppression<sup>3,4</sup>

UNIVERSITY OF EXETER  
Postgraduate Medical Institute

A full-time postgraduate course lasting 10  
weeks will begin on 25th April, 1973. These  
courses are held 3 times a year starting in  
October, January and April. Each course  
includes instruction in general medicine,  
paediatrics, preventative medicine,  
pathology, psychiatry, orthopaedics, and  
general surgery. The programme is planned so  
that students wishing to specialize in a  
particular clinical subject are given facilities  
to do so, while other students are taught in  
each of the main clinical departments. Unpaid  
clinical attachments can be arranged at the  
end of the course for students requiring a  
longer period of training, but these are  
normally reserved for students sponsored by  
some official body.

It is sometimes possible to accept general  
practitioners for 1 or 2 weeks of a course, and  
attendance for this period is recognized under  
Section 63 of the Health Services and Public  
Health Act 1968. These courses are also  
recognized under the special scheme for the  
re-training for general practice of doctors who  
have been out of the Health Service for at  
least 5 years.

The fee for this course will be £40 (£83 for  
students from outside the United Kingdom).

Further particulars and application forms  
for these courses are obtainable from the  
Director, The Postgraduate Medical Institute,  
The University, Exeter, Devonshire. (20764) 4

## UNIVERSITY AND RESEARCH APPOINTMENTS

### RESEARCH FELLOWSHIP APPLICATIONS INVITED

The National Fund for Research into Crippling Diseases (Action Research for the Crippled Child), a voluntary organization concerned with promoting research into the prevention, cure, treatment or environmental problems of physical disability, invites applications for two research fellowships. The fellowships will generally not exceed three years and the starting salary will be according to experience and seniority, but will not exceed £3,500 p.a. A small sum for research expenses will be allowed to the department where the work is carried on. Applications from non-medical scientists will be considered.

Applications including full curriculum vitae, the proposed research programme and a supporting statement from the head of the department in which it is proposed that the research be carried out, should be sent, together with the names of two referees, to the Director, National Fund for Research into Crippling Diseases, Vincent House, 1 Springfield Road, Horsham, Sussex, by 15th June, 1973. (22094)

## UNIVERSITY AND RESEARCH APPOINTMENTS

### Schizophrenia Research Fellowship

The Schizophrenia Research Fund proposes to establish a second long-term Fellowship, tenable for 5 to 7 years, for research into Schizophrenia.

The grant will be made in the form of a Fellowship either to the individual who is to be wholly engaged on the work or to the head of a department who wishes to include such a post in his department and to associate himself with the work. The holder of the post should have research experience but need not be medically qualified. In certain circumstances the conditions of the Fellowship might be alterable.

The salary will be in the range of £2,500—£4,500 depending on qualifications and experience. Superannuation provision will be similar to the F.S.S.U. scheme.

Applications should give details of the projected research and of the qualifications and experience of the proposed holder of the post and the names of three referees; and, unless coming from the head of a department, should state where the applicant proposes to do the work, what facilities and co-operation would be required from the institution concerned and whether these have yet been assured.

Applications should be sent to:

The Secretary,  
 Schizophrenia Research Fund,  
 P.O. Box 185, New Court, St Swithin's Lane, London EC4P 4DU.

## MEDICAL SUPPORT GROUP

The assessment of evidence of safety, efficacy and quality in connection with applications for registrations and approvals for clinical trials in the U.K. and overseas, is a vital stage in the medical research programme.

The increasing stringency of drug regulatory authorities throughout the world makes it imperative that we appoint a further physician to join an existing team concerned with drug registration. The Group also provides an essential medical information service linking the laboratory scientist with the practising physician.

## OPHTHALMOLOGY

**LEEDS**  
**REGIONAL HOSPITAL BOARD**

**CONSULTANT IN OPHTHALMOLOGY**  
Halifax  
(Whole-time or Maximum Part-time)  
Duties mainly at Royal Halifax Infirmary. Vacancy by retirement.  
Further information and application forms obtainable from the Acting Secretary, Park Parade, Harrogate to whom completed forms should be returned by 13th April, 1973. (48232) 76-1

**MANCHESTER**  
**REGIONAL HOSPITAL BOARD**

**LOCUM CONSULTANT OPHTHALMOLOGIST**  
Maximum part-time, with duties in the Oldham and District Group (5 sessions) and in school clinics (4 sessions) of the neighbouring Lancashire County Council Division, vacant immediately.

Applications, giving full details and the names and addresses of two referees to the Group Secretary, Oldham and District Hospital Management Committee, Central Offices, Rochdale Road, Oldham OL1 2JH. (22208) 76-1

**SOUTH-EAST METROPOLITAN**  
**REGIONAL HOSPITAL BOARD**

Applications are invited for the appointment of a **CONSULTANT OPHTHALMOLOGIST** whole-time or maximum part-time, to Clinical Areas 5 and 7.

For the next year the out-patient services and beds will be based in the hospitals at Orpington, Possession of F.R.C.S. and wide experience of Ophthalmology is essential, and Dartford. At the end of that time the in-patient services for the area will be concentrated into a 50-bedded unit at the new District General Hospital at Queen Mary's, Sidcup, which will deal with all branches of Ophthalmic surgery. Consultants from another Group will also be using these beds. The establishment of a new service with this degree of concentration within a period of a year should present an interesting challenge and opportunity further to develop a special interest for the person appointed.

Possession of F.R.C.S. and wide experience on Ophthalmology is essential.  
The successful candidate will be required to reside within 10 miles by road of the main hospital unless prior approval is given by the Board to a greater distance.

Orpington and Dartford Hospitals may be visited by arrangement with the respective Hospital Secretaries. It is not felt at present that a visit to Sidcup would be of material advantage as the unit has not been commissioned.

Application forms from the Secretary, Advisory Appointments Committee, South-East Metropolitan Regional Hospital Board, Randolph House, Wellesley Road, Croydon, Surrey, to be returned by 19th April. (48450) 76-1

**ST. THOMAS' HOSPITAL**

## Medical Advisers for the Employment Medical Advisory Service

There are a number of vacancies arising from the planned expansion of the Employment Medical Advisory Service, a division of the Department of Employment. The appointments, which are full-time, are in areas based in or near **Birmingham, Bristol, Cardiff, Gillingham (Kent), Greater London, Huddersfield, Liverpool, Manchester, Sheffield, Slough, Stoke-on-Trent, Wolverhampton**. Vacancies may arise in other areas.

An Adviser's duties will include investigations and formal surveys, advice about working conditions, and medical supervision of young people who are not fully fit for employment and of people undergoing training or rehabilitation. This is very wide-ranging work of growing importance. It will take an Adviser into many different work-places, particularly factories, and will require him to give advice on occupational medicine to workers (and their representatives) and employers, as well as maintaining liaison with medical practitioners and hospitals on the medical aspects of their patients' work.

So far as is geographically possible Advisers will work in groups and nurses will be appointed to some (22100)

groups. Clerical and supporting staff will be provided. Laboratory facilities either through the NHS or the EMAS Central Reference Laboratory will be available. Statistical assistance is also available.

Applicants (men or women) must be fully registered medical practitioners in the United Kingdom. Experience in industrial medicine or in allied subjects such as toxicology, pulmonary physiology or psychiatry is desirable and the possession of higher qualifications will be an advantage. A current driving licence is essential.

The salary scale is £4,313 to £6,045 (higher in London). Starting salary could be up to the maximum. There are good prospects of promotion, as the Service develops, to posts with salaries up to £7,690. The pension is non-contributory and previous superannuation rights will normally be transferable.

For full details of these posts and an application form (to be returned by 18 April, 1973), write to the Civil Service Commission, Alencon Link, Basingstoke, Hants RG21 1JB, or telephone Basingstoke 29222 extension 500 or London 01-839 1992 (24-hour Answering Service) quoting S/8219/1.

## ADMINISTRATIVE

# NEWCASTLE REGIONAL HOSPITAL BOARD ADMINISTRATIVE MEDICAL OFFICER (Trainee)

A comprehensive training in medical administration is offered to a keen young doctor with sound basic medical experience. A full training programme tailored to the needs of the successful applicant will be arranged. This will initially consist of a period of in-service instruction, followed by secondment, in September/October, 1973, to a full-time course for two years organised by the London School of Hygiene and Tropical Medicine, leading to an M.Sc. Degree in Social Medicine from the University of London.

No administrative experience is required, nor is any particular pattern of previous clinical experience necessarily more appropriate than any other. The principal criteria will be a good general medical background and aptitude and enthusiasm for management, investigation, and the practice of medicine on a community scale.

Salary scale £3,120 x increments of £162 (1), £261 (4), to a maximum of £4,146. Post superannuable.

Further particulars available on request. Canvassing will disqualify, but applicants are encouraged to visit the Senior Administrative Medical Officer by appointment.

Applications, giving particulars of age, qualifications and experience, together with names and addresses of three referees, should be addressed to the Senior Administrative Medical Officer, Newcastle Regional Hospital Board, Benfield Road, Newcastle upon Tyne NE6 4PY, by 28th April, 1973. (48627) 111

# NORTHERN REGIONAL HOSPITAL BOARD (Scotland)

**MEDICAL SUPERINTENDENT** of the Inverness Hospitals, including duties as a member of the medical administrative staff of the Regional Hospital Board. The revised salary scale for this modified appointment is £4,836 rising by six annual increments to a maximum of £6,510 per annum.

Schedules of application and further particulars may be obtained from the Secretary, Northern Regional Hospital Board, 17 Old Edinburgh Road, Inverness IV2 3HG, with whom applications should be lodged by 23rd April, 1973. (H11159) 111

# WESTERN REGIONAL HOSPITAL BOARD

Applications are invited for the following appointment.

**ADMINISTRATIVE MEDICAL OFFICER** on the staff of the Western Regional Hospital Board, with duties as Deputy Group Medical Superintendent of the Hospitals administered by the Board of Management for Glasgow Northern Hospitals.

The successful candidate will be enabled to spend half of his time for a period of two years in the Department of Epidemiology and Preventive Medicine of the University, to study Community Medicine.

The Regional Board has discretion in terms of regulations to regrade the post after a suitable period to Assistant Senior Medical Officer.

Salary scale — £3,120-£4,146 per annum. Applications (1 copy), stating date of birth, qualifications, experience, present appointment and the names of two referees, to reach the Secretary, Western Regional Hospital Board, 351 Sauchiehall Street, Glasgow, G2 3HT, not later than thirty days after the publication of this advertisement. ## SERVICES

# AS A NAVAL DOCTOR, YOU'D GET A WHOLE LOT MORE OUT OF LIFE.

(AND SO WOULD YOUR FAMILY)

Right from the start, you'd have a complete change of scene.

Serving either with the Navy at sea or among service personnel and their families at a naval establishment. Very likely in another part of the world.

Either way, you'd never find yourself short of assistance. (Every naval doctor is fully supported by medical staff).

Equally important, you'd never find yourself getting into a rut – for in two years or so you'd receive a new appointment.

In a new place. Doing a different job. Perhaps with the chance to learn something of the special problems of diving, aviation, or tropical medicine for example.

It's a stimulating life. Not only for yourself but for your family too.

For in most cases they'd accompany you. And wherever you go there are usually married quarters – fully furnished houses or flats, equipped with everything you need. And at very reasonable rents.

What's more, a generous education

allowance is made for your children if they are at boarding school. £363 p.a. for a first child, £432 p.a. for a second, £519 p.a. for a third. On top of this, removal and other allowances are also provided.

Add this to the salary and you'll see how well a naval doctor's pay compares with a civilian doctor's.

For instance, with five years' post registration experience you would join us as a Surgeon Lieutenant-Commander on £4,767 a year.

And any specialist qualifications/experience you have could increase your salary even more.

There are opportunities, too, to keep up with the latest developments in medicine. For the Navy fully recognises the need for such opportunities both in the interests of naval medicine and a doctor's professional advancement.

That's not all. You can join on a 3-year or 5-year commission (each carrying a tax-free terminal gratuity of £1,500 and £3,000 respectively) and you can transfer to a full 16-year pensionable commission if you wish.

To find out more, write to Surgeon Cdr. L. C. Banks, M.B., B.Ch., R.N. (724ABE), Dept. of the Medical Director-General (Navy), Empress State Building, London S.W.6.

# A good friend in

Amoxil can be relied on to treat commonly occurring bacterial infection of the ear, nose and throat. This was demonstrated in a recent clinical trial<sup>1</sup> involving 150 children where Amoxil was clinically successful in 94% of cases.

Amoxil's broad spectrum of activity coupled with its outstanding oral absorption<sup>2</sup> ensure that high bactericidal serum levels are available to act quickly and decisively at the site of infection.

Add to this the convenience of a three times daily dosage regime, the degree of safety associated with penicillin therapy, treatment costing as little as 16p per day, and a wide range of highly acceptable oral presentations – further good reasons why Amoxil represents practical antibiotic therapy at its best.

Amoxil is a good friend in throat infections – this happy eight year old certainly thinks so.

Further information on Amoxil regd (amoxycillin) is available from: Bencard, Freepost, Great West Road, Brentford, Middlesex.

 **Bencard**

#### Prescribing information.

**Dosage:** Adults 250 mg three times a day. Children – up to ten years: 125 mg three times a day. In the case of severe infections the dosage should be doubled.

**Presentation:** Amoxil capsules 250 mg. Amoxil syrup 250 mg/5 ml, 100 ml bottle. Amoxil syrup 125 mg/5 ml, 100 ml bottle. Amoxil Paediatric Suspension 125 mg/1.25 ml, 20 ml bottle with pipette.

Amoxil presentations contain amoxycillin as the trihydrate.

**Contra-indication:** Amoxil is a penicillin and should not be given to penicillin-hypersensitive patients.

**Side effects:** In clinical trials involving more than 1,500 patients no serious side effects were reported. Those side effects which were encountered were of a mild transitory nature.

# Behind this great product for oedema...

'... in the management of hypertension, the major clinical advantage to be obtained from combination thiazide-amiloride therapy (in comparison with thiazide drug alone) is the occurrence of moderate antikaliuresis and diuretic-antihypertensive efficiency.'

*J. clin. Pharmacol.*, 1969, 9, 217 (Jul-Aug)

'Moduretic' provides thiazide antihypertensive therapy – alone or as

# ...is a great product for hypertension

adjunctive therapy – whilst conserving body potassium. In fact, potassium supplements should not be given concurrently.

'Moduretic' combines amiloride hydrochloride, a potassium-conserving agent, with hydrochlorothiazide, the well established thiazide antihypertensive.

Many physicians are already recognising the advantages of 'Moduretic' in the treatment of thiazide-responsive hypertension.

## MODURETIC<sup>®</sup>

Amiloride hydrochloride and hydrochlorothiazide

*a highly effective diuretic/antihypertensive that entirely obviates the need for potassium supplements.*

'Moduretic' is available as peach-coloured, diamond-shaped tablets containing 5 mg amiloride hydrochloride and 50 mg hydrochlorothiazide. Detailed information is available to physicians on request.
