# **Getting to sleep**

### Patients asleep in less than half the time

Clinical trials<sup>1-3</sup> have shown that Dalmane cuts sleep latency - the time taken to get to sleep - by half. In one study<sup>3</sup> Dalmane reduced the average sleep latency in a group of insomniacs from 36.2 minutes to 13.9 minutes.

# Staying asleep

### Average sleep of more than 8 hours

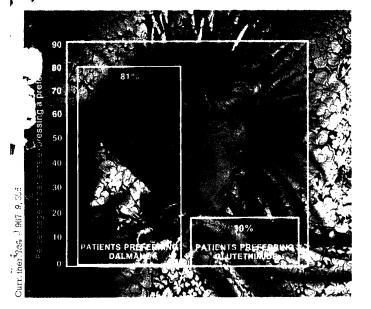

Dalmane increased the duration of sleep to – in one published study<sup>3</sup> – an average of 8 hours 11.7minutes in patients who had previously suffered from insomnia. Dalmane also reduces the number of nocturnal awakenings1,4 and the actual length of\* time spent awake during the night – from an average of 52.8 minutes to 24.3 minutes in one trial

# a new and powerful treatment for insomnia

# Patient Preference

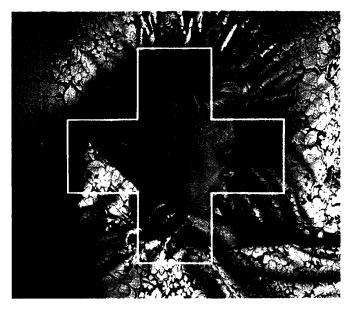

### Preferred by a greater number of patients - low incidence of šide-effects

In one trial in which Dalmane was compared with glutethimide, of those patients who expressed a preference 81 per cent did so in favour of Dalmane, whilst only 19 per cent preferred glutethimide. This high level of patient preference is due to the ability of Dalmane to produce sound sleep with a Low incidence of side-effects. Dalmane has been shown to produce less hangover than glutethimide in another trial<sup>6</sup>, than a barbiturate<sup>7</sup>, and, in one trial even a placebo – 9 cases with Dalmane, 25 with placebo<sup>8</sup>.

- 7. Int. J. clin. Pharmacol. Ther. Toxicol., 1972. 6, 13 8. Curr. ther. Res., 1971, 13, 18 9. Arch. int. Pharmacodyn., 1969, 178. 216 P. Data on file. Roche Products Limited.

# Safety

### A non-barbiturate treatment for insomnia with a wide margin of safety

Dalmane has an extremely high mean lethal dose in mice and rats9, thus suggesting that overdosage would be unlikely to present undue problems of management or threat to life. Human toxicity studies<sup>10</sup> in which healthy men were given large doses of Dalmane for some time confirmed that it is well tolerated and produces no unwanted systemic effects.

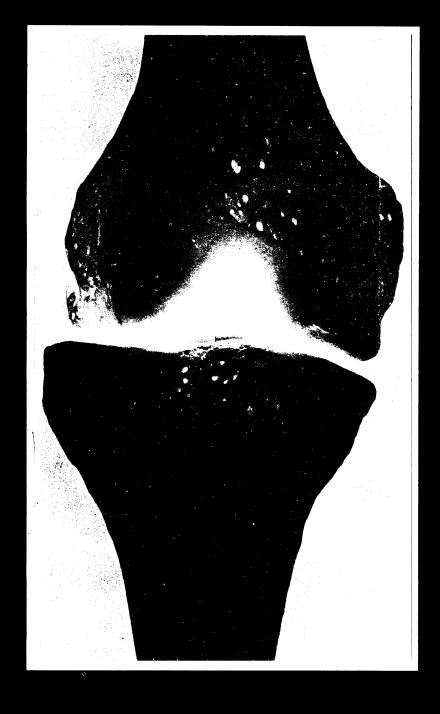

Full information is available on request from : Roche Products Limited, 15 Manchester Square, London W1M 6AP.

Dalmane is a trade mark for pharmaceutical preparations containing flurazepam.

# NEW for arthritis

# NEW from May & Baker

# Dyspepsia

# If antacids were the complete answer, would he return to your surgery so often?

Antacids deal with excess acid. But, in many cases, dyspepsia involves more than this.

Unpleasant symptoms such as dyspepsia, heartburn and gastritis can frequently be traced back to disturbed gastric motility. Recent research has shown that in many patients food is retained for too long in the stomach, gastric contents enter the oesophagus, and bile refluxes from the duodenum.<sup>1</sup>

With Maxolon, you can resolve this underlying problem. Maxolon restores gastric motility to normal, so that symptoms of dyspepsia are prevented.

Prescribe Maxolon (tablets or syrup) for your dyspepsia patients. They—and you—will appreciate the difference.

Full information on Maxolon in gastroduodenal conditions is available on request.

1. Proceedings of Symposium on Maxolon Postgrad. med. J., (1973), 49, (Suppl.) 104.

Maxolon\* (metoclopramide) is a product of **Beecham Research Laboratories**, Brentford, England.

BRITISH MEDICAL JOURNAL 2 FEBRUARY 1974 ADVERTISEMENT

Erythroped is the easy antibiotic. Easy for you to prescribe. Easy for parents to give. Easy for children- and old people-to take.

Erythroped is made in 3 strengths for 3 different age groups – the only children's antibiotic that is. We've increased the three strengths, so now Erythroped is even more effective. Simply prescribe them <u>by name</u>, according to the age of the child, q.i.d.

And the delicious cherry taste of Erythroped will ensure that all the treatment you prescribe gets taken.

You know exactly where you are with Erythroped. It's the antibiotic that makes life easier for everyone.

# SEPTRIN TACTICS first

SEPTRIN ensures coverage against all likely bacterial pathogens.

# fast

SEPTRIN rapidly obtains effective blood levels with simple twice daily dosage.

# decisive

SEPTRIN crushes bacterial resistance with a bactericidal action which differs essentially from that of the antibiotics

Superior to either ampicillin or tetracycline as judged by reduction in sputum purulence or sputum volume.<sup>1,2</sup>

"... not only are the two primary pathogens, *Strep pneumoniae* and *H influenzae*, sensitive, but so are the secondary invaders such as klebsiella which often replace them after antibiotic treatment." <sup>3</sup>

"... can only be considered excellent on the criteria originally specified, namely the elimination of the infecting micro-organism." 4

# Are your asthmatics under too much pressure?

Older patients may be particularly susceptible to tissue damage from asthmatic attacks. And aerosol therapy, used when the attack is under way, may not be of much help.

Bronchodilators do not always work. They may not get through to the affected areas and consequently succeed only in hyperventilating unaffected parts. The patient may panic, overdose, and there is now danger of cardiac stimulation.

With steroids there is always the risk of untoward effects and they should probably be reserved for those patients for whom there is no alternative.

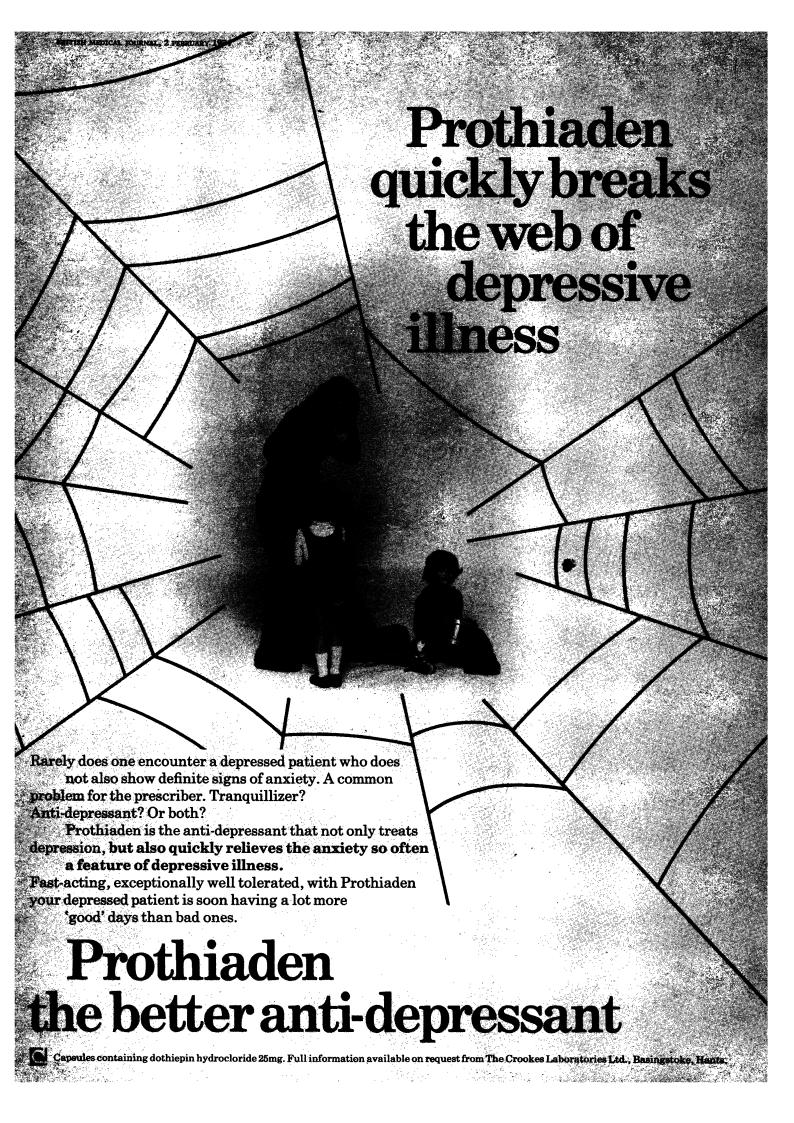

Only Intal prevents asthmatic attacks and eliminates these problems.

With Intal there is no danger of side effects, no risk of misuse and no diminution of therapeutic effect.

Put them on Intal. Give them a fighting chance.

APRIL 1973 GOOD NEWS CHRONIC BRONCHITICS

# Bactrim Roche

In April 1973 an article<sup>1</sup> in The Practitioner showed that Bactrim Roche – already an established treatment for acute exacerbations of chronic bronchitis superior to ampicillin, the terracyclines and cephalexin – can also play a valuable role in the long-term management of that condition.

# THE MOST SIGNIFICANT ADIANCE IN THE TREATMENT OF PARKINSONISM SINCE LEVODOPA

# IN THE TREATMENT OF PARKINSON'S DISEASE Now available Significant Significan

# SINEMET

'Sinemet' contains levodopa, and carbidopa—a new agent discovered by the Merck Sharp & Dohme Research Laboratories. Carbidopa inhibits only the extracerebral decarboxylation of levodopa, making more levodopa available for transport to the brain and subsequent conversion to dopamine.

# 'Sinemet' reduces or eliminates many of the adverse reactions seen in treatment with plain levodopa. With 'Sinemet', quicker control can be achieved-usually within one week.

- 'Sinemet' provides effective, long-lasting levodopa plasma levels at doses approximately 75 per cent lower than those needed with plain levodopa.
- 'Sinemet' offers prompt relief of many of the major symptoms of Parkinson's disease—fully effective doses are usually reached within seven days.
- 'Sinemet' usually reduces and in some patients completely avoids certain distressing side effects caused by plain levodopa anorexia, nausea, vomiting, cardiac arrhythmias, postural hypotension, dizziness.
- Patients maintained on levodopa can be easily and quickly transferred to 'Sinemet' with expectation of better results.

# IN THE TREATMENT OF PARKINSON'S

... 90 per cent of patients responded with a degree of improvement above 50 per cent. This compares favorably with the results obtained from the administration of L-Dopa alone. In fact, these results obtained within the first week of treatment were similar to those which one finds after six months or a year of treatment with L-Dopa alone.'

Trans. Amer. neurol. Ass., 1971, 96, 55

'Rapid induction of therapy, better diurnal symptomatic control and a new capability to administer pyridoxine to patients receiving levodopa constituted advantages of adding inhibitor [carbidopa] to levodopa.'

New Engl. J. Med., 1972, 286, 8 (6 Jan)

'The advantages include rapid improvement in functional capacity, more stable responses through the day in many patients, reduction in maintenance L-DOPA dosage requirements, elimination of the need to restrict pyridoxine intake, and decrease in those side effects attributable to extracerebral dopamine, particularly nausea, vomiting, and cardiac irregularity.'

... the response of nearly all patients, including some who had no measurable response to L-DOPA is improved; and certain adverse reactions are reduced.'

Advances in Neurology, Vol 2, Raven Press, New York, 1973, p 161

'Patients treated with the combined therapy improved more rapidly, had less nausea and vomiting, and required a much smaller dose of levodopa than patients treated with levodopa by itself.'

J. Neurol. Neurosurg. Psychiat., 1973, 36, 10 (Feb)

'In summary, the combination of levodopa with alpha-methyldopa hydrazine [carbidopa] is an effective, rapid, and efficient means of reversing the parkinsonian state.'

Trans. Amer. neurol. Ass., 1971, 96, 55

Carbidopa ana Levodopa

enables more patients to enjoy the therapeutic promise of levodopa

'Sinemet' is available as dapple-blue, half-scored, oval tablets, marked 'MSD 654', containing 25 mg carbidopa and 250 mg levodopa, in bottles of 100. Detailed information is available to physicians on request.

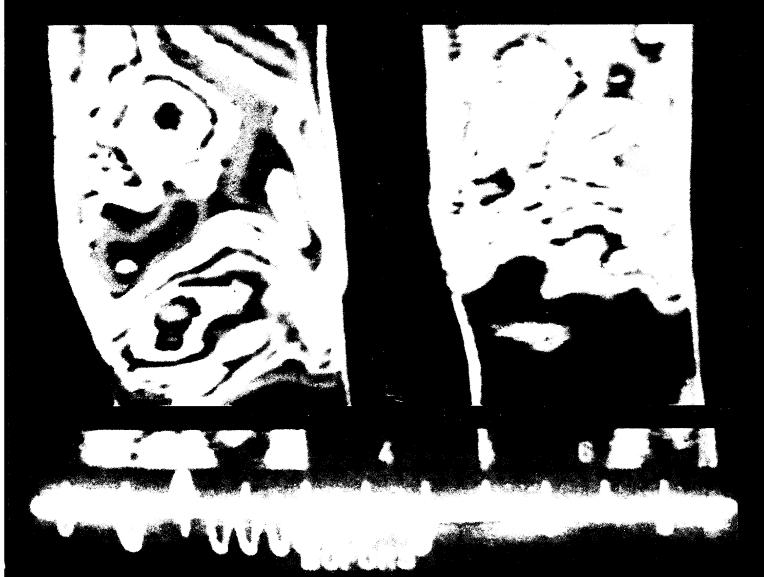

(§) denotes registered trademark.

Merck Sharp & Dohme Limited Hoddesdon, Hertfordshire

Rheumatoid arthritic, severely inflamed and swollen L. knee joint. Complained of 'bad pain'. Thermogram confirmed marked inflammation—hottest areas white, through red down to coolest areas in blue.

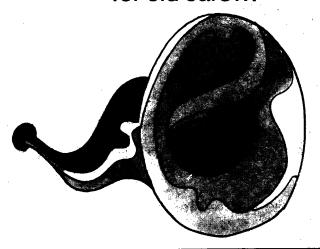

After 10 days on Benoral. Patient reported joint less troublesome and only 'slight pain'. Swelling much reduced. Thermogram confirmed inflammation almost resolved—most of the orange and yellow has disappeared: white and red areas have gone entirely.

# Now you can <u>see</u> the relief you bring

Thermograms are photographs of heat. The process has now been developed to measure with precision the amount of heat emitted from the area examined. And so, for the first time, we can actually show you the powerful anti-inflammatory action of Benoral—depicted vividly by these thermograms. It's a pity thermography can't show Benoral's other great benefit—little or no gastric irritation.

### TRAINING IN DIAGNOSTIC RADIOLOGY AND RADIOTHERAPY

Courses for postgraduate training in Diagnostic Radiology and Radiotherapy normally commence in October each year. Training appointments at Registrar grade are available to suitable candidates who should have completed at least one year's general clinical experience after full registration.

Enquiries about career opportunities, available posts and other information may be made to the Head of a Diagnostic X-Ray or Radiotherapy Department.

Booklets entitled "Diagnostic Radiology as a Career" and "Radiotherapy as a Career" for the guidance of those interested may be obtained from The Examinations Secretary, The Faculty of Radiologists, at the Royal College of Surgeons, Lincoln's Inn Fields, London WC2A 3PN. (22721)

### QUEEN CHARLOTTE'S HOSPITAL FOR WOMEN

## **FAMILY PLANNING COURSE** FOR MEDICAL PRACTITIONERS

A training course in Family Planning in Clinical Practice for Medical Practitioners, preferably with some post-registration experience in gynaecology, will be held at Queen Charlotte's Maternity Hospital on 2nd and 3rd March, 1974, followed by a series of visits to appropriate clinics at Queen Charlotte's Maternity Hospital and the Chelsea Hospital for Women.

The programme of training is in line with that recommended by the Royal College of Obstetricians and Gynaecologists and the Royal College of General Practitioners. Candidates completing the course will receive the Queen Charlotte's Hospital for Women Family Planning Certificate of Gynaecologists recognized by both Colleges.

The fee for this non-residential course will be 50

Applications, including details of past experience, should be addressed to:-

Mr G. V. P. Chamberlain, M.D., F.R.C.S., M.R.C.O.G.,

Queen Charlotte's Maternity Hospital, 339 Goldhawk Road, LONDON W6 0XG.

GENERAL PRACTITIONER TEACHERS

### **Training for Course Organisers and Tutors**

A course for doctors who will be responsible for training general practitioner teachers has been initiated by the Royal College of General Practitioners with the support of the Nuffield Provincial Hospitals Trust. Instruction will also be given in the organisation of educational programmes for vocational trainees and for established general practitioners.

The course will have six separate five-day modules. The first module will be held at 14 Princes Gate, from the 22nd-25th April, 1974. The sixth module will be held at the end of March, 1975. Members will be expected to conduct educational exercises themselves between modules. Help with these exercises will be available from the Nuffield Tutor, Dr. Paul Freeling, who has overall responsibility for the course. For further details, including the funding of course members, please apply as soon as possible to:

> The Secretary, The Royal College of General Practitioners, 14 Princes Gate, London SW7 1PU.

(22833)

## **CLINICAL TRIALS** WORKSHOP

The Department of Clinical Pharmacology, University of Birmingham, in association with the Association of Medical Advisers in the Pharmaceutical Industry and the Trust for Education and Research in Therapeutics, will be holding a Clinical Trials Workshop at the University of Birmingham Medical School on 1st-4th April, 1974. The course will be fully residential and limited to 56 participants. Course fee (including accommodation, meals and a course dinner) is £40.

For further information please contact Dr. B. T. Marsh, Medical Director, Leo Laboratories Limited, Hayes Gate House, 27 Uxbridge Road, Hayes, Middlesex UB4 OLF.

(22831)

THE TAVISTOCK CLINIC

and
THE TAVISTOCK INSTITUTE OF HUMAN RELATIONS
SCHOOL OF FAMILY PSYCHIATRY
AND COMMUNITY MENTAL HEALTH

### INTER-DISCIPLINARY SEMINARS IN THE FIELD OF COMMUNITY MENTAL HEALTH

The School will be offering two seminars this year.

### Unacceptable behaviour in the family: interdisciplinary approaches in community care

3rd-5th June, 1974 Chairman: Dr. A. Brook

This seminar is intended for social workers, doctors working in the field of community health, G.P's, psychiatrists, health visitors and community nurses. There will be presentations by five speakers drawn from various disciplines, and small group and plenary discussions.

### 2 New developments in community mental health

10th-11th June, 1974 Chairman: Dr. C. Murray Parkes

A two-day seminar is being held for members of previous courses which will enable them to exchange information about advances in the field and to review work in progress.

Applicants who have not attended previous seminars but are experienced in the field of community mental health will also be considered.

Further details and application forms available from:

The Executive Officer (Training),
School of Family Psychiatry and Community Mental Health,
The Tayistock Centre, 120 Belsize Lane, London, N.W.3.

Closing date for applications: Monday, 22nd April, 1974.

REGIONAL POSTGRADUATE INSTITUTE FOR MEDICINE AND DENTISTRY Newcastle upon Tyne

## VOCATIONAL TRAINING **FOR** GENERAL PRACTICE

Applications are invited from recently qualified medical graduates (including women graduates) for 3-year courses of training starting in July, 1974. Three programmes are offered, one based on Newcastle upon Tyne, one on Teesside and the third in the East Cumberland area.

Each comprises three stages:

- 1. A 6-month appointment in a teaching general practice.
- 2. Successive 6-month appointments in 4 of the following specialties: Obstetrics, Gynaecology, Paediatrics, Medicine, Geriatric Medicine, Chest Medicine (East Cumberland only), Rheumatology (Teesside only), Psychiatry, Emergency Medicine, a combined E.N.T. Skins and Eyes (Teesside only) and combined E.N.T. and Skins (East Cumberland).
  - 3. A final 6-month appointment in a teaching general practice.

Every effort will be made where appropriate, to devise flexible schemes for women doctors, and in this connection any previous experience of women doctors will be taken into account.

Regular weekly seminars and visits augment practical experience and cover major aspects of general practice with particular reference to the examination of M.R.C.G.P. In addition experience for the D.C.H. and D.Obst.R.C.O.G. examinations is provided. The courses described in the B.M.J. of 2nd January, 1971, are now well established with 80 trainees in post. Salaries are at the combined Trainee Assistant and Senior House Officer scale combined Trainee Assistant and Senior House Officer scale (£2,569.50-£2,935.50).

### Further details are available from:

For Newcastle Dr. Andrew Smith Lecturer in Family Medicine, Department of Family and Community Medicine, The Medical School, Newcastle upon Tyne NE1 7RU. For Teesside Dr. Aubrey Colling, 25 Bridge Road, Stockton-on-Tees, Teesside.

For East Cumberland Dr. H. C. Barr, Birbeck House, Duke Street, Penrith, Cumberland.

### COMMERCIAL APPOINTMENTS

# Clinical Investigators

John Wyeth & Brother Limited, the U.K. member of an international ethical pharmaceutical group which has achieved major advances in several fields of medicine, seek two doctors to join their energetic and expanding clinical investigation team. Ideally the applicants, between 28 and 45 years of age, will have experience within the pharmaceutical industry.

The appointed doctors should have the ability to organise detailed clinical research programmes in the United Kingdom on new drug candidates from the Wyeth Institute of Medical Research at Taplow and other sources. The responsibility will also include the extension of the early evaluation of new compounds by clinical trials in Europe in co-operation with our associated companies there. associated companies there.

A sound background in basic medical science is a requirement for these positions as the Company is at a crucial stage in the early clinical development of several new compounds.

Career prospects in the pharmaceutical industry are attractive. Initial salary will depend mainly on qualifications and experience and the Company operates a non-contributory pension fund and life assurance scheme. A company car is provided. Conditions of employment are good and will include assistance with removal expenses.

Please apply to:-Cameron Wolstenholme, Personnel Controller, John Wyeth & Brother Limited, Huntercombe Lane South, Taplow, Maidenhead Berks. (22691)

Attention is drawn to the British Medical Association's statement of policy on Attention is drawn to the British released Association is statement of poincy on the Remuneration of Industrial Medical Officers as approved by the Representative Body, which is available on request.

# London Transport Medical Service

Applications are invited from Registered Medical Practitioners for a training post in the London Transport Medical Service. The successful applicant will work in one of the Medical Centres in the London Area. He will be responsible to the Chief Medical Officer; will receive general training in clinical work as applied to an Occupational Health Service in the transport industry and in the medical supervision of working conditions. After approximately 2 years, he will be seconded, if suitable, to take a course for the Diploma of Industrial Health.

This is an opportunity for a doctor with a good standard of clinical medicine, interested in a career in industrial medicine to join a long-established medical service in a constantly changing and developing industry.

Starting salary will be in the range of £3,700 to £4,400 per annum according to age, qualifications and experience. The post carries valuable free travel concessions on and off duty and there is a contributory superannuation fund.

Applications, giving full details of age, qualifications and experience, together with the names of three referees, should be sent to the Appointments and Welfare Officer (Ref: 541/1), London Transport, 55 Broadway, SW1H 0BD, to arrive not later than 11th February, 1974.

Board of Governors — St. Peter's Hospitals (In association with the Institute of Urology)

# Consultant Urologist

Applications are invited for the above appointment for 3/4 sessions a week from a mutually convenient date. Experience as a Consultant in an established urological department will be an advantage.

Full information about training, experience and research to be sent together with the names of three referees to the House Governor and Secretary, Board Offices, St. Philip's Hospital, Sheffield Street, London WC2A 2EX by 8th February, 1974.

# **SCOTTISH HEALTH SERVICE** Fellowships in Community Medicine

At least six Fellowships in Community Medicine are offered in 1974 to medically qualified candidates.

FELLOWSHIPS are for three years, modified for candidates with relevant qualifications or experience. The usual pattern is one year's fulltime academic study followed by an opportunity for gaining practical experience in various fields of community medicine and undertaking study projects.

Salary scale (senior registrar equivalent) £3,363 to £4,395, but suitable applicants with less clinical experience than might be considered desirable could be offered a fellowship starting at a point on the registrar scale (£2,850 to £3,531). Approved unniversity fees, and certain travel subsistance expenses, are met.

Closing date for application is 25th February, 1974.

# JUNIOR FELLOWSHIPS

A limited number of posts in the S.H.O./Registrar grades are being made available for graduates with two to three years basic professional experience who have not decided finally which branch of medicine will provide for them a satisfying career, but who might consider the specialty of Community Medicine.

These posts would in most cases be limited to one year's duration. The holders would continue halftime with clinical duties and would be given the opportunity of undertaking or assisting with a research project in a subject related to community medicine.

These posts are intended to provide introduction to Community Medicine whilst enabling the successful candidates to gain further clinical experience.

# THE INSTITUTE OF MEDICAL AND VETERINARY SCIENCE Adelaide, South Australia

# Clinical **Microbiologist**

Applications are invited from medical practitioners registrable (preferably as Specialists) in South Australia for several positions of Clinical Microbiologist in the Division of Clinical Microbiology at the Institute of Medical and Veterinary Science in Adelaide.

The Division is a large one, and undertakes investigations of all kinds for the Royal Adelaide Hospital (one of the main teaching hospitals of the University of Adelaide Medical School) and for many other hospitals and practitioners throughout the State of South Australia. It is well staffed with scientific and technical workers, and is led by Dr. Trevor Steele, F.R.C.P.A., M.R.C.P.(Lond.). The policy is to encourage the emergence of medical specialists in infectious diseases, who have or will obtain both laboratory and clinical postgraduate qualifications, and who can contribute significantly to the diagnosis and treatment of especially urgent or complicated medical cases.

The main qualification desired is the Fellowship of the Royal College of Pathologists of Australia (F.R.C.P.A. or equivalent) but the Division is also particularly suitable for those who have already obtained a postgraduate clinical qualification (M.R.C.P. M.R.A.C.P., or equivalent) and who now wish to enter this special area of laboratory medicine as a career taking the F.R.C.P.A., when ready to do so. There is also at least one senior vacancy for an experienced Clinical Microbiologist.

Salary will be either within the range of \$13,490 to \$15,200 or that of \$15,770 to \$17,480 according to qualifications and experience. An additional 12 1/2 % is payable in lieu of private practice to registered medical laboratory specialists. Removal and travel allowances may be arranged for senior appointees.

Applications, stating full name, place, date and year of birth, marital status, nationality, past and present employment, qualifications and experience, together with the names of three referees, should be addressed to the Director, Box 14, Rundle Street Post Office, Adelaide, South Australia, 5000. (22900)

**PFIZER LIMITED** SANDWICH, KENT

# New Benafed\* when cough complicates the cold

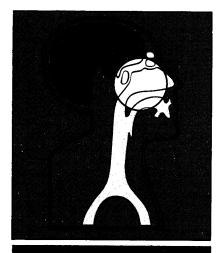

# Cough Suppressant

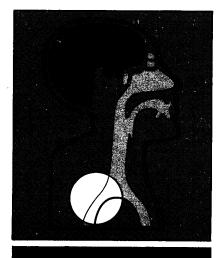

BENAFED reduces the frequency and severity of coughing through the actions of Benadryl\* and dextromethorphan, the most widely used non-narcotic antitussive.

BENAFED exerts an effective expectorant action through recognised expectorant agents ammonium chloride and sodium citrate which help to loosen tenacious sputum.

BENAFED reduces the cough-triggering post-nasal drip, decongests the sinuses and relieves nasal stuffiness through the action of pseudoephedrine.

BENAFED makes breathing easier through the bronchodilatory actions of Benadryl\* and pseudo-ephedrine without the marked central-stimulant action of ephedrine.

Each 5 ml. syrup contains: Diphenhydramine Hydrochloride B.P. 12.5 mg. Dextromethorpham Hydrobromide B.P. 15 mg. Pseudoephedrine Hydrochloride B.P.C. 30 mg. Ammonium Chloride B.P.125 mg. Sodium Citrate B.P. 57 mg. Chloroform B.P. 20 mg. Menthol B.P. 1 mg.

# Doctors have been known to stop prescribing Dermovate after just 7 days.

# It's clear to see why...

... Dermovate has proved itself so successful in the treatment of psoriasis – a searching test for any topical steroid.

It's not just in general practice that Dermovate (clobetasol propionate) is proving itself to be a top performer.

In clinical trials, involving double blind comparisons with other modern topical steroids, Dermovate showed itself to be significantly superior in the treatment of psoriasis.\*

But not only in psoriasis has Dermovate proved superior.

In stubborn eczema and other recalcitrant dermatoses Dermovate clearly succeeds.

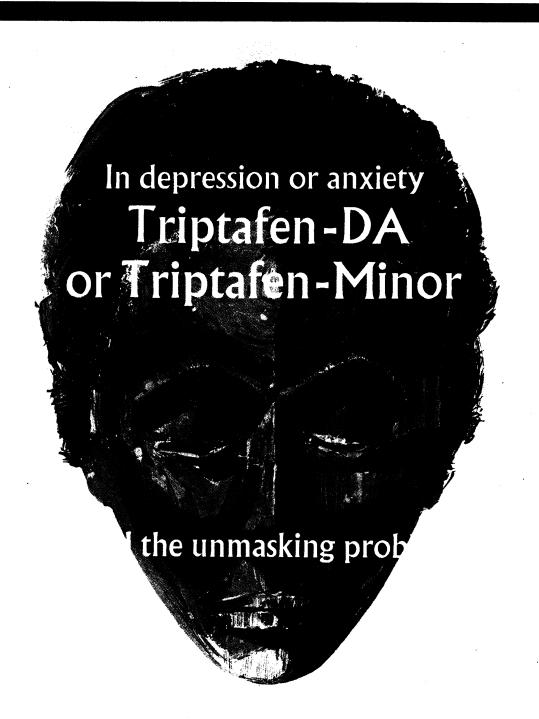

If you haven't prescribed Dermovate yet – do so today and see for yourself that Dermovate clearly succeeds in psoriasis and stubborn eczemas.

# Dermovate proved superior. Stubborn eczemas.

a top performer in psoriasis & stubborn eczemas

35mm photographs taken by a doctor in General Practice \*British Journal of Dermatology, 1974, 90 (In Press) Dermovate is available as Cream and Ointment in 25 and 100 gram tubes

Literature on Dermovate (trade mark) is available from Glaxo Laboratories Ltd, Greenford, Middlesex, UB6 0HE

"... often anxiety or agitation occurs in depressed patients treated with antidepressant drug therapy.

Serious depressive states can be uncovered when anxiety is treated by tranquillisers."

(Practitioner, 1972, 208, 511.

Triptafen-DA treats the depression AND the masked anxiety.
