# A NEW LOOK AT INFECTIOUS DISEASES

(ISBN 0 900221 88 7)

from the British Medical Journal

Infectious diseases remain as much a medical challenge as ever, and the articles collected in book form under the title *A New Look at Infectious Diseases* cover many aspects of diagnosis and treatment. The widespread use of newer antibiotics, and increased risk of spread by travel are all dealt with, as well as the problems of diagnosis produced by present day doctors' unfamiliarity with many diseases, which were formerly so common and widespread.

## THE FINEST PRIVATE PSYCHIATRIC HOSPITAL IN BRITAIN IS IN NORTHAMPTON

St. Andrew's Hospital, which was established in 1838 as a non-profit making charitable foundation, is a progressive hospital staffed and equipped for the treatment of every type of psychiatric illness.

All patients are under the care of Consultant Psychiatrists.

In general, short stay patients are admitted to Isham House, a luxuriously appointed Nursing Home in the grounds. The accommodation consists of private bedrooms, most of which have private bathrooms. All forms of treatment are available, with emphasis on individual and group psychotherapy.

Facilities for occupational therapy and recreation are excellent, and include a 9-hole golf course, squash court, tennis courts, swimming pool and a Social Centre with restaurant, shop and hairdressing salon. All these are set in the hospital's own 100 acres of well-wooded grounds.

Long stay and psychogeriatric admissions are into the main hospital which has been modernised specifically for the purpose. Again, accommodation is mostly in private bedrooms.

St. Andrew's Hospital is only 65 miles from London and is easily accessible from all parts of the country by rail and road.

B.U.P.A., and P.P.P., subscribers are able to claim benefit in respect of their treatment fees.

St. Andrew's Hospital offers the highest standards of treatment for the whole spectrum of psychiatric illness in an ideal environment.

Further particulars, including fees, may be obtained from the Medical Director, St. Andrew's Hospital, Northampton, (Tel. 0604 21311) who can be seen in consultation by appointment at the hospital.

# Sounds right for Septrin

A black and white photograph showing a close-up of a person's hand holding a stethoscope against their chest. The stethoscope is positioned over the heart area, and the hand is partially visible. The background is a textured, slightly mottled grey.

## Right in chest infections

Why run the risk of a bacterial chest infection becoming chronic?

Experience increasingly indicates the need for prompt, vigorous treatment.

Whenever chest sounds indicate infection, rely on SEPTRIN:

- more effective than ampicillin or tetracycline<sup>1,2</sup>
- over 30 million treatment courses prescribed worldwide.

# SEPTRIN

# Now from Beecham: an oral penicillin specifically for Urinary Tract Infections.

Urinary tract infections are rarely as simple as they seem. Patients with renal infection may present with no symptoms other than dysuria and frequency. And management is very often complicated by relapse and recurrence.

Now Beecham have introduced Uticillin, a powerful oral penicillin indicated specifically for the treatment of urinary tract infections such as cystitis and pyelonephritis. Uticillin will successfully treat 9 out of 10 patients first time, with a reduced risk of relapse. Uticillin has the inherent safety of penicillin. Unlike many urinary antibacterials, Uticillin can be prescribed both in pregnancy and when the possibility of pregnancy must be considered.

And the dosage is simple to remember—1 tablet three times a day.

Uticillin. The decisive answer to acute and chronic urinary tract infections.

**Adult dosage:** Simple urinary tract infections, 1 tablet (500 mg) t.i.d. Complicated and recurrent urinary tract infections, 2 tablets (1g) t.i.d.

**Contra-indication:** Penicillin hypersensitivity.

**Side-effects:** As with other penicillins.

**Precaution:** In mild and moderate degrees of renal impairment the normal dosage recommendations should be followed. In patients with severe renal failure (creatinine clearance of 10 ml/min or less) carfecillin is not recommended; in such patients urine levels may be insufficient for therapeutic efficacy.

VIVALAN

**IN THE  
TREATMENT  
OF  
DEPRESSION**

# The unique antidepressant from ICI.

## Non-sedative.

'Vivalan' has little or no sedative effect<sup>1</sup>.  
This means that patients remain alert and active  
and can continue with their normal daily activities.

## Rapid acting.

Controlled studies<sup>2</sup> have demonstrated  
that patients can show a marked improvement in  
as little as 3 days from the start of 'Vivalan' therapy.

## Widely effective.

'Vivalan' is effective in all types of depression  
including mixed anxiety-depressive states<sup>3</sup>.

Clinical trials have shown that as many as  
70% of patients respond favourably to 'Vivalan'  
therapy.<sup>2,4</sup>

'Vivalan' is chemically unrelated to  
any antidepressant currently available, and is a  
product of original ICI research.

'Vivalan' is a trade mark for viloxazine.

# VIVALAN

# Prescribing Information

## Presentation

'Vivalan' tablets, each containing viloxazine hydrochloride equivalent to 50 mg of viloxazine, are round, biconvex, yellow, film-coated and imprinted with the name 'Vivalan'.

## Use

Antidepressant.

## Depression

'Vivalan' is effective in all types and severities of depression, including those cases with a marked anxiety component, and may be used concurrently with ECT. It is able to control all the symptoms of depression. As 'Vivalan' has no sedative properties, patients remain alert during the daytime. 'Vivalan' has no hypnotic effect.

## Depression in Epileptics

'Vivalan', unlike the tricyclic antidepressants, has anti-convulsant properties, and is, therefore, of value in the treatment of depression in epileptic patients.

## Depression in the Elderly

Because of its lack of sedative and anticholinergic effects, 'Vivalan' is well tolerated in the elderly.

## Dosage and Administration

### Adults

Most patients respond to between 150–300 mg/day. Therapy may be started with either one tablet three times a day, or two tablets twice a day with meals. The onset of anti-depressive effect is usually seen in the first 5–10 days of treatment, and, if no effect has been seen in a fortnight, the dose should be increased. The maximum daily dose should not exceed eight tablets.

### Children

Due to absence of clinical experience in children under the age of 14 years, 'Vivalan' is not recommended in such patients.

## Contraindications, Warnings, etc.

There are no specific contraindications to the use of 'Vivalan'. Epileptic patients established on phenytoin may become liable to develop phenytoin toxicity if 'Vivalan' is added, and caution is, therefore, advised in their co-administration. Patients being treated with antihypertensive agents such as debrisoquine,

guanethidine and bethanidine may require restabilising when 'Vivalan' is introduced into the therapeutic regimen. No marked interaction with alcohol occurs.

## Pregnancy

No adverse effects have been seen in teratogenic studies in animals. There is no clinical experience of using 'Vivalan' in pregnancy. On basic principles, its use in the first trimester is to be avoided.

## Side Effects

'Vivalan' is generally well tolerated and side effects are mild and transient. An upper gastrointestinal disturbance with, e.g. nausea, loss of appetite, may be seen, but this usually disappears in a few days. As 'Vivalan' is not a tricyclic antidepressant, it does not produce the anticholinergic, sedative and hypnotic side effects of those drugs, neither does it produce excessive weight gain. 'Vivalan' is not a monoamine oxidase inhibitor and dietary restrictions are not required.

## Overdosage

Overdosage should be treated on general principles; there is no specific antidote. An unsuccessful suicidal attempt with 5g viloxazine together with a quantity of oxazepam and trimeprazine produced 24 hour coma. Cardiovascular system and respiration were unaffected. Treatment—lavage.

## Pharmaceutical Precautions

## Legal Category

There is no legal restriction on sale or supply. It is available only on the prescription of a medical practitioner.

## First they need a quick shot in the arm...

In confusional states following acute febrile illness or surgery, alcoholic or drug-induced psychoses, and in peripheral neuritis associated with a malabsorption syndrome, patients should benefit from 2 days intensive intravenous administration of Parentrovite high potency B and C vitamins. After which, therapy can be continued by the intravenous or the intramuscular route for 5-7 days. This treatment rapidly assists a return to normal intracellular glucose metabolism, the consequence of which is a significant improvement in the patients condition.

**Parentrovite** high potency injectable vitamins for initial therapy

then **Orovite** follows on naturally from Parentrovite

As soon as the clinical situation allows, the patient can be switched to maintenance therapy with Orovite until full health is restored.

Most people who need tranquilizers also need to work or run a home, so they should remain alert.

Nobrium can provide tranquillity without undue sedation. It has a specific, precise action on the amygdala which leaves most other parts of the brain virtually unaffected.

Nobrium "...is an anxiolytic agent to be given throughout the day,

particularly in the treatment of out-patients with duties in productive employment.... It is a medication with a strikingly low component of sedative action coming close to being the ideal anxiolytic for daytime use."

# Indocid®

## IN ARTHRITIS CONSIDER THE MERITS OF 'INDOCID'

### Reliability

Ten years' clinical experience has proved the qualities of 'Indocid'.

### Efficacy

Indocid' is established as a major antirheumatic agent. Its beneficial effect often leads to a progressive increase in mobility – even in some who are severely disabled – enabling many patients to enjoy a more active life.

### Anti-inflammatory

The powerful anti-inflammatory properties of 'Indocid' have been recognised for many years. Reduction of inflammation and swelling may enable some patients to perform tasks previously seen as impracticable.

### Analgesic

Indocid' can relieve arthritic pain – promptly and effectively. Natural movement is encouraged. By using Indocid' Suppositories at night, the patient's sleep is less interrupted by pain; and with 'Indocid' Capsules during the day, the physical and psychological benefits of reduced pain are considerable.

### Mobility

By relieving pain, swelling, and inflammation, 'Indocid' encourages the patient to attempt more natural movement. 'Indocid' is often an important part in the management of the patient incapacitated by rheumatoid arthritis or osteoarthritis.

### Versatility

'Indocid' has proved valuable against a variety of arthritic conditions, and the two strengths of capsules allow easy adjustment of dosage to meet the needs of individual patients.

'Indocid' is indicated in the active stages of –  
rheumatoid arthritis  
osteoarthritis  
ankylosing spondylitis  
gout  
certain acute musculoskeletal disorders

in the day and night control of  
a variety of arthritic conditions

Kent Area Health Authority

**CINQUE PORTS VOCATIONAL TRAINING SCHEME**  
Applications are invited for one trainee post in this scheme which is based on the towns of Dover and Deal. Medical institutions include a District General Hospital, a General Practitioner Hospital and a new multi-group Health Centre.

The initial and closing periods of the three-year scheme will be spent in General Practice and there will be four six-month Senior House Officer posts in the hospital in Medicine/Geriatics, Paediatrics/Dermatology, Obstetrics/Gynaecology, and Psychiatry. The last of these will include a good deal of work within the Community.

A day release scheme operates which includes participation in a continuing course at the Kent Postgraduate Medical Centre at Canterbury. The Centre, and the scheme itself, have close links with the Health Service Research Unit at the University of Kent.

Throughout the three year period each trainee will be in continuous touch with his own General Practitioner. The post in Obstetrics/Gynaecology and Paediatrics are recognized for the Membership and Diploma of the Royal College of Obstetricians and Gynaecologists and Diploma in Child Health respectively. Fluidity within the organisation will allow an alternative post such as Anaesthesia. Trainees will be encouraged to sit for the Membership of the Royal College of General Practitioners.

The post will begin on 1st July, 1975. Further details of the scheme and application forms can be obtained from the Postgraduate Tutor at Buckland Hospital, Dover. Telephone enquiries can be made to Mrs. Howard. Tel: Dover 201624. Closing date for applications: 30th April, 1975. (38748) 21

## Career at the crossroads?

The decisions you make during the next few months are likely to be crucial to your future career. But are you sufficiently aware of all the worthwhile alternatives open to you? One fast-

growing specialty you may not yet have considered offers you the following:

- ☐ The intellectual interest and horizons of hospital research work
- ☐ The immediate financial attractions of general practice
- ☐ The opportunity for international travel
- ☐ Good facilities for keeping abreast of new developments in clinical practice
- ☐ A career structure allowing rapid advancement on merit
- ☐ Regular hours, permitting free time for family and outside pursuits.

It is a professionally demanding career - as an active member of a multidisciplinary team researching and developing tomorrow's medicines within the pharmaceutical industry.

About a third of all the medical research in the UK is carried out by pharmaceutical companies, and there is a strong and consistent growth in the number of physicians choosing to make their careers in this increasingly important medical specialty.

Starting salaries are in the £6000-£8000 range and are strongly progressive: top salaries in the industry compare very favourably with those in other branches of medicine in the UK. Other benefits include a car, the opportunity for an honorary hospital attachment, heavily subsidised health assurance and pension schemes, and generous housing and relocation assistance.

To embark upon such a career you should have a good British medical degree (ideally backed by a higher qualification), good clinical and therapeutic experience, and a questioning research-oriented mind.

If you would like to know more, please write or 'phone for further details - entirely without cost or obligation. We are an independent organisation with wide experience of the pharmaceutical industry in this country and overseas. Over the years we have helped many physicians to further their careers in clinical research, both in the UK and internationally.

## APPOINTMENTS

Applicants for medical appointments are advised to check whether the post advertised is included in the Important Notice and to scrutinize carefully the remuneration and terms of service offered. Any member who is in doubt about these terms in relation to B.M.A. agreements should consult the Secretary of the Association.

Advertisers are reminded that the Race Relations Board insists that no descriptive term implying racial, national, or ethnic characteristics may be used in any advertisement. Further, readers are advised not to apply for any appointment which discriminates between applicants on grounds of creed or sex.

Applicants should state name, address, age, nationality, and qualifications, and enclose (unless otherwise specified) one copy of each of three recent testimonials, with a short statement of experience and appointments held. Applications should be sent at once if no closing date is given: Canvassing disqualifies (Statutory Instrument, 1974, No. 361).

All National Health Service hospital appointments are in accordance with the Terms and Conditions of Service of Hospital Medical Staff.

Further details concerning standards of residential accommodation, telephone charges, removal allowances, study leave and other matters should be obtained from the Hospital Secretary; or by B.M.A. members from the Secretary, British Medical Association.

In particular, they will find full details of facilities provided in most hospitals in the United Kingdom in the current edition of the *Hospital Gazetteer*. If such details are not included members are advised to consult the Secretary of the B.M.A.

Applicants requiring hospital married accommodation are strongly advised to obtain, prior to interview, clarification in writing from the employing authority as to whether such accommodation will be available on appointment.

No advertisement may stipulate that a non-resident must live less than 10 miles from a hospital. Advertisements for post-registration house officers, senior house officers and registrars should state clearly whether the post is resident, i.e. compulsorily resident.

In all advertisements grade should be clearly indicated. A consultant vacancy must be advertised as (a) part-time with the number of sessions clearly stated, or (b) whole-time with the option of maximum part-time.

In the view of the B.M.A., an advertiser should not insist on possession of English higher qualifications in preference to Scottish or Irish qualifications (or vice versa).

## SALARY SCALES OF HOSPITAL MEDICAL STAFF

**HOUSE OFFICER:** Each post in this grade shall be tenable for six months. £2,202 per annum for the posts held during the first year; £2,370 per annum for posts held during the second year; £2,538 per annum for posts held during the third and subsequent years, subject to full registration.

**NON-RESIDENT REGISTRAR**  
Two-year appointment renewable after one  
year to be held at Claybury Hospital with the  
possibility of rotating for one year to Whipps  
Cross Hospital. Both hospitals are within easy  
reach of central London. The post is  
accredited for the full course of psychiatric  
training towards the M.R.C.Psych. and  
recognized for the D.P.M. Claybury is a  
progressive mental hospital of 1,560 beds with  
seven admission firms and a high turnover of  
patients. It is well known for its therapeutic  
community methods of approach to treatment.

The hospital is organized into firms, each  
serving a sector of the catchment area. Each  
Registrar works on an admission ward under  
Consultant supervision and has responsibility  
for long-stay wards. The Registrar undertakes  
out-patient work and has the opportunity to  
train in group psychotherapy under a  
Consultant Psychotherapist.

Whipps Cross is a general hospital with a  
very active psychiatric out-patient service  
and limited facilities for selected in-patients.

## AVON AREA HEALTH AUTHORITY (Teaching) SPECIALIST IN COMMUNITY MEDICINE (Planning)

Salary scale: £5433-£7947 p.a.  
Application is invited for a Specialist in  
Community Medicine responsible for medical  
planning and medical information services.  
Avon County has a population of over  
900,000 and the Area Health Authority has five  
Districts, one of which is managed under  
Agency arrangements by the Wiltshire Area  
Health Authority. There are Universities in  
Bristol (with a medical faculty) and in Bath.  
The area is served by 59 hospitals and the  
Authority is responsible for a number of  
regional and sub-regional specialties.  
A sound knowledge of epidemiology and  
medical statistics is essential and academic  
research experience highly desirable. Proven  
ability in research is important (not  
necessarily in health service research) and  
every opportunity will be given to undertake  
appropriate research. Practical experience in  
health service administration is not required.  
The Authority has approved the  
establishment of a health care planning and  
information unit, and the S.C.M. (Planning)  
will have a major responsibility for this in  
collaboration with scientific and  
administrative colleagues. He would be  
required to give a service to specialists in  
community medicine, to district community  
physicians, to planning teams, to individual  
consultants and their departments and to  
general practitioners, in connection with  
research or development projects.  
Further information may be obtained from  
Dr. A. H. Snaith, Area Medical Officer (Bristol  
20350) but formal applications should be  
made to the Area Personnel Officer, National  
Westminster Court, Little John Street, Bristol,

## SPECIALIST IN COMMUNITY MEDICINE (Social Services Liaison/ Health Service Planning)

Salary Scale £5433-£7947 (Under Review).  
Applications for the above post in this  
single-district area are invited from suitably  
qualified registered medical practitioners at  
present employed within the United Kingdom  
who have wide experience in medical  
administration and have acquired knowledge  
of work in local authority health departments  
or regional hospital boards. Experience in  
general practice would be an added  
advantage.  
The duties of the post will be concerned  
principally with the organization, planning  
and development of health services for  
specific patient groups and with ensuring  
effective co-ordination of these services with  
those provided by the local Social Services  
Department. The successful applicant will  
also be expected initially to undertake certain  
duties in connection with health service  
planning in close co-operation with the Area  
Medical Officer. This aspect of the work will,  
however, be reviewed if additional specialist  
appointments can be made.  
The area is within easy reach of both  
Manchester and Salford Universities and  
offers opportunities for research.  
Application forms and further particulars of  
the post may be obtained from the Area  
Personnel Officer, Trafford Area Health  
Authority, Oakland House, Talbot Road, Old  
Trafford, Manchester M16 0PQ.  
The Area Medical Officer will also be  
pleased to meet prospective applicants who  
wish to discuss details of the post. Tel: 061 872

## 'We have an urgent need for General Practitioners in the Southern States of America'

E. J. RYAN, Jnr., Corporate Director,  
Hospital Corporation of America.

Hospital Corporation of America, the world's largest hospital management company, was founded seven years ago by a group of doctors in Nashville, Tennessee.

Their aim was to provide the finest possible health care in hospitals that were managed by highly qualified personnel.

In just six years the Corporation has grown to a point where it owns and manages sixty-five hospitals throughout fourteen states and has many other projects in hand all over the world.

But, more importantly, it has developed into one of the most respected and physician orientated medical administrations in the United States.

Many communities in rural areas of the Southern States, where Hospital Corporation of America have hospitals, are urgently in need of qualified general practitioners. Opportunities exist for M.D.s to work in private practice, either alone, in partnership, or in groups.

Applicants must be eligible for licensure or prepared to take the necessary steps to acquire a state license in Tennessee, Alabama, Kentucky, Georgia, Texas, Iowa or Indiana.

If you are interested in finding out more about these opportunities please write in the first instance to E. J. Ryan, Jnr., at the address below giving details of your career and experience to date.

# ALCOHOL, DRUGS AND DRIVING

## A Supplement to 'The Drinking Driver' \*

The Association's report 'The Drinking Driver' (1965) led to important amendments in the law, as a result of which certain changes are necessary in the sections of the report which dealt with legal and medical procedures. This Supplement revises those sections of the report concerned with procedure and takes into account at the same time the procedure for dealing with drivers suspected of being impaired by drugs other than alcohol.

Price 30p

\*Copies of 'The Drinking Driver' are still available at Price 12½p

*Both publications can be ordered together at the combined price of 40p  
 (All prices include the cost of postage)*

Payment must be enclosed with order or a surcharge of 20p will be made for rendering invoices and statements.
