

Trasicor®

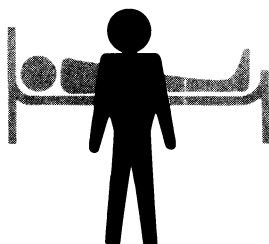

"...there are good reasons for believing that oxprenolol (Trasicor) should become an integral part of all antihypertensive therapy."¹

Highly Effective

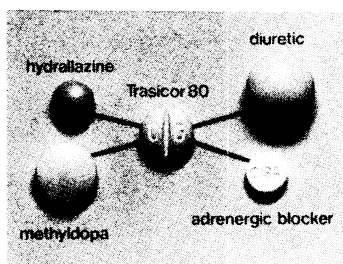

Numerous studies²⁻⁶ have shown that Trasicor, particularly in combination with a diuretic, reduces diastolic BP to near normal levels with high patient acceptability. This is important because it is the quality of control rather than the initial severity of hypertension which influences the prognosis?⁷

No Postural Hypotension

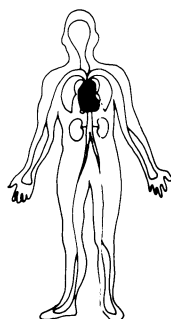

Trasicor gives effective BP control without exercise or postural hypotension⁴ and with 'strikingly few side effects'.⁸

Suitable in any Combination

Trasicor can be combined successfully with other antihypertensive agents such as diuretics (e.g. Navidrex K), hydralazine, adrenergic blockers (e.g. Ismelin) and methyldopa.

Cardioprotective

Cardioprotection before infarction

A three-year prospective study suggests that beta-blockers significantly reduce the risk of myocardial infarction and sudden death in IHD patients, with or without hypertension.⁹

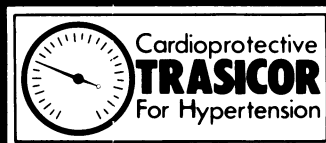

Cardioprotection after infarction

Two recent prospective studies from Sweden showed a statistically significant reduction in sudden death^{10,11} and re-infarction¹¹ in patients treated with a non-selective beta-blocker.

Trasicor tablets (oxprenolol hydrochloride) 20mg, 40mg, 80mg, 160mg available in Securitainers of 100.

In bronchitis Septrin b.d. leaves nothing to chance

Septrin has a powerful action against the pathogens likely to cause acute episodes of bronchitis; *H. influenzae*, the most troublesome organism, is highly sensitive.

Septrin has been shown to give better results than ampicillin¹ and tetracycline² with regard to:

- * Rapidity of resolution of symptoms.**
- * Eradication of pathogens from sputum.**
- * Conversion of purulent to mucoid sputum.**

The irony of being a charity is that you depend on charity to survive. Barnardo's is Britain's largest child care charity. That means our 7000 children rely on the charity of people just like you. Out of every £1 donated, at least 82p is spent entirely on helping these children.

There are all kinds of Barnardo's children. Some are handicapped, some are deprived. A few are orphaned, many simply deserted. The one thing they all have in common when they come to us is a desperate need for somebody to do something for them.

Unfortunately, we find ourselves in much the same position. Without continuous charitable acts by you, and people like you, we cannot go on feeding, clothing and educating our children. We cannot go on running Dr. Barnardo's schools, homes and Day Care centres. Or finding foster homes. Or struggling to keep families together.

We desperately need a donation from you. Even better is a Deed of Covenant because we can recover tax already paid. Or maybe you'd prefer to join a local fund raising group?

Only if you help can we go on giving hope to our children. However much, or little, you can afford, surely 7000 young lives are worth something?

We can't give unless you do.

The salary will be within the normal professional range for full-time clinical appointments with superannuation. Applications (one copy suitable for photocopying), giving full details of qualifications and experience and the names and addresses of three persons to whom reference may be made, should be sent to the Registrar, The University, Manchester M13 9PL, from whom further particulars may be obtained, and received by him not later than 11th February, 1976. Overseas candidates may apply by air mail letter in the first instance. Please quote reference 259/75/JMB. (22147) 25

SPECIAL APPOINTMENTS

QUARRIER'S HOMES
Bridge of Weir, Renfrewshire

MEDICAL OFFICER
The above post falls vacant on 1st February, 1976. Quarrier's Homes, situated 18 miles west of Glasgow, is a village community providing care for over 500 socially deprived children and long term care for 150 adults and children with severe epilepsy. The Medical Officer is responsible for the medical supervision of the whole community and postgraduate qualification or experience in paediatrics, neurology or psychiatry would be an advantage. The medical work is centred on a small cottage type hospital with good facilities and there is easy access to local general hospitals. The post is a resident one

and family accommodation is available. Remuneration is negotiable and is based on the Medical Assistant Hospital Grade. There is also a very favourable superannuation scheme. Further particulars, applications etc. to the Secretary, Quarrier's Homes, Bridge of Weir, Renfrewshire. (H19739) 37

Workshop and Retford District from 2nd March, 1976 to 20th April, 1976 inclusive. Applications to the Medical Personnel Department, Lichfield Lane, Berry Hill, Mansfield, Notts. NG18 4RG, naming two referees. (50192) 51-1

OCCUPATIONAL HEALTH

Medical Officer

Foots Cray, Kent.

The appointment is to provide full medical services to four major locations in London, Kent and Sussex, with a total of over 5,000 employees. Medical centres, staffed by nurses, are already established. Emphasis will be placed on improving the quality of health protection and screening, and also on making a real impact on absence reduction programmes. There is professional expertise in such areas as occupational hygiene on the staff of the Director, Medical Services, to whom the Medical Officer will report.

Candidates will have at least six years' post-qualification experience, two of which will have been in an occupational health appointment. A high degree of sensitivity is required making for the ability to contribute as a manager on local issues: the management style is open and participative. A facility for easy communication is also critical.

The commencing salary will be of interest to those earning about £7,000 p.a., and a Company car will be provided. Other conditions of service are those you would expect of a major international company, and include twenty-four days' holiday, contributory pension scheme and free BUPA membership.

Information about the appointment and a Personal History Form (to be returned by Monday, 26th January 1976) are obtainable from:

B. W. Drinkwater, Manager, Recruitment, Standard Telephones and Cables Limited, STC House, 190 Strand, London, WC2R 1DU.

APPLICANTS ARE ADVISED NOT TO
send original testimonials when replying to advertisements. Copies will serve the purpose quite as well, and in the event of their being lost or mislaid no inconvenience will ensue.

APPOINTMENTS

Applicants for medical appointments are advised to check whether the post advertised is included in the Important Notice and to scrutinize carefully the remuneration and terms of service offered. Any member who is in doubt about these terms in relation to B.M.A. agreements should consult the Secretary of the Association.

Advertisers are reminded that the Race Relations Board insists that no descriptive term implying racial, national, or ethnic characteristics may be used in any advertisement. Further, readers are advised not to apply for any appointment which discriminates between applicants on grounds of creed or unreasonably on grounds of sex.

HOSPITAL APPOINTMENTS

Applicants should state names, address, age, nationality, and qualifications, and enclose (unless otherwise specified) one copy of each of three recent testimonials, with a short statement of experience and appointments held. Applications should be sent at once if no closing date is given: Canvassing disqualifies (Statutory Instrument, 1974, No. 361).

All National Health Service hospital appointments are in accordance with the Terms and Conditions of Service of Hospital Medical Staff.

Further details concerning standards of residential accommodation, telephone charges, removal allowances, study leave and other matters should be obtained from the Hospital Secretary; or by B.M.A. members from the Secretary, British Medical Association.

In particular, they will find full details of facilities provided in most hospitals in the United Kingdom in the current edition of the *Hospital Gazetteer*. If such details are not included members are advised to consult the Secretary of the B.M.A.

Applicants requiring hospital married accommodation are strongly advised to obtain, prior to interview, clarification in writing from the employing authority as to whether such accommodation will be available on appointment.

No advertisement may stipulate that a non-resident must live less than 10 miles from a hospital. Advertisements for post-registration house officers, senior house officers and registrars should state clearly whether the post is resident, i.e. compulsorily resident.

In all advertisements grade should be clearly indicated. Normally a consultant vacancy must be advertised as (a) part-time with the number of sessions clearly stated, or (b) whole-time with the option of maximum part-time.

In the view of the BMA, an advertiser should not insist on possession of English higher qualifications in preference to Scottish or Irish qualifications (or vice versa).

SALARY SCALES OF HOSPITAL MEDICAL STAFF

HOUSE OFFICER: Each post in this grade shall be tenable for six months. £2,859 per annum for the posts held during the first year; £3,075 per annum for posts held during the second year; £3,294 per annum for posts held during the third and subsequent years, subject to full registration.

The Future General Practitioner

Learning and Teaching

General or family practice is a special subject. This book is written by six experienced teachers selected by the Council of the Royal College of General Practitioners. It is intended chiefly for teachers, but it will also be valuable to those who are learning and to all who are concerned about the place of family practice within a country's medical services.

A syllabus is developed in five main parts:

Health and Diseases

Human Development

Human Behaviour

Medicine and Society

The Practice

Throughout the book the authors have tried to indicate ways in which the teacher may approach the task of passing on what he had learned by his own experience. The theme is the search for objectives which will satisfy the needs of learner and teacher. The belief is that this search will benefit the future family practitioner and through him the community of his patients.
