Sectral

- **affords efficient, well tolerated prophylaxis**
'Sectral' significantly reduces attacks and improves exercise capacity.^{1,2} No serious adverse effects have been seen.
- **does not normally precipitate or aggravate bronchospasm in asthmatic or bronchitic patients**
'Sectral' is *cardioselective*, with negligible effect on the bronchi, so is unlikely to significantly increase airways resistance.³

- **is unlikely to provoke or worsen heart failure in patients with myocardial damage or disease**
'Sectral' has only minor direct cardio-depressant effect, so does not excessively reduce myocardial contractility or cardiac output.^{4, 5, 6}
- **allows comprehensive management of angina accompanied by arrhythmia**
'Sectral', with established anti-arrhythmic activity,^{7,8} affords effective control of both conditions.

A doctor can gain a lot from 5 years in the Royal Navy.

As a qualified doctor, you can join the Royal Navy for 3 or 5 years on a Short Service Commission.

In that time, you'll spend up to a year practising medicine in a Naval ship.

You could have the chance of working and living overseas for a time.

And you'll be able to do your General Professional Training in one of the clinical and medical scientific disciplines at a Naval hospital or an RN establishment.

At sea.

After a short Officers course at the Royal Naval College, Dartmouth, and a basic course in maritime medicine at the Institute of Naval Medicine, Alverstoke, you'll normally go to sea for about 12 months.

You'll be responsible for the medical care of some 250 to 500 men in your ship (and advise the Captain on health and environmental problems).

You won't lose touch with modern medicine, as you can visit local hospitals in ports of call and use the teaching aids provided by your Naval tutor.

Postgraduate training and specialisation.

After your sea-time, career counselling will determine your postgraduate training programme.

There are opportunities for General Professional Training in preparation for a clinical career in general practice, the hospital specialities, or the medical scientific disciplines such as Aviation, Underwater, Submarine and Nuclear Medicine; or in occupational and community medicine.

If you decide to transfer to a 16-year pensionable Commission, or a permanent Commission, you could move on to recognised higher training programmes which include research training and higher training posts in civilian units.

At Alverstoke, the Dean of Naval Medicine co-ordinates postgraduate medical training and research.

Naval hospitals.

The two largest are at Haslar (near Portsmouth) and Plymouth.

They undertake the care of Naval personnel, their families and NHS civilians, providing a broad spectrum of clinical material. Both hospitals are recognised for higher training in the major specialities.

There is a full range of modern, technical equipment, and the nursing and paramedical staff are highly skilled.

There are smaller hospitals in Malta and Gibraltar.

Salary.

If you join us immediately after registration, your salary will be £5,997 as a Surgeon Lieutenant.

You can, however, join at any age up to 39. In that case, your postgraduate experience is taken into account, and you could join as a Surgeon Lieutenant Commander earning £8,015 a year.

If you leave at the end of your 3 year Commission, you'll receive a tax-free gratuity of £1,500, or, after 5 years, £3,000.

If you decide to stay on, you can apply for a 16-year pensionable Commission or a permanent Commission.

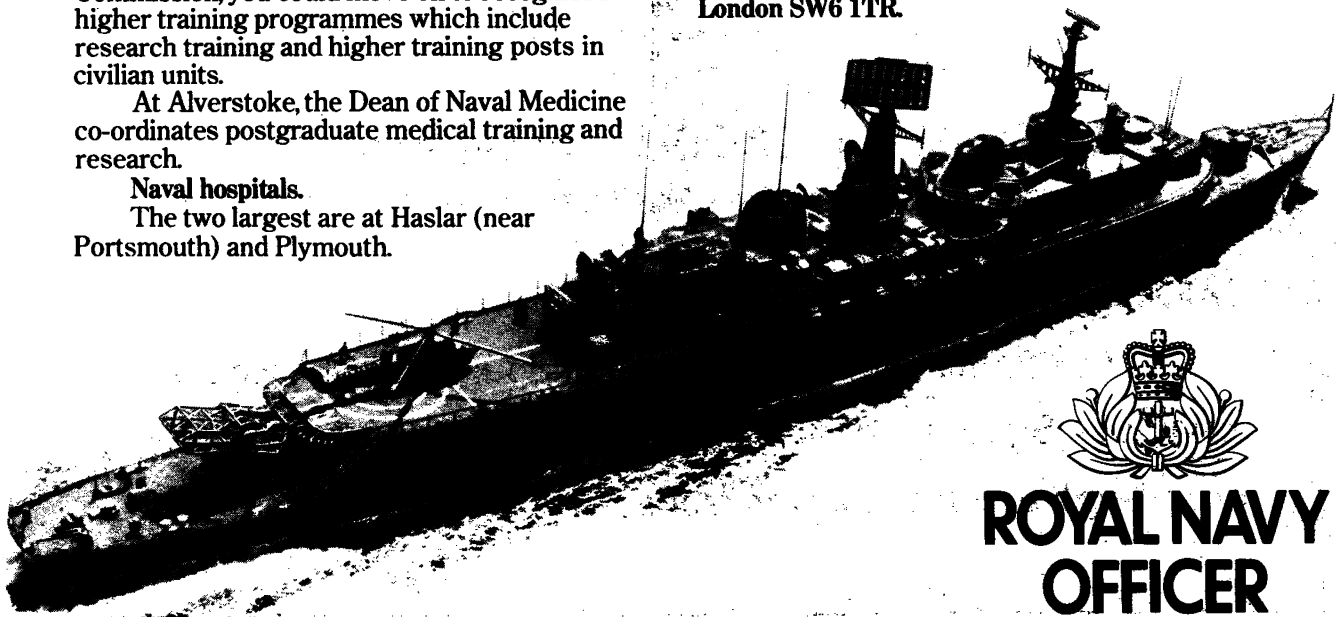

The salary structure is based on an analogue computed from the average earnings of general practitioners in the NHS, with an additional X factor. There is extra pay for recognised postgraduate qualifications and Senior Specialist or Consultant status.

If you're posted overseas, you can, of course, take your family with you. There are, too, generous boarding school allowances for your children, starting at £807 for your first child.

For more information, write to Surgeon Commander L.C. Banks, MB B Ch MFC M RN, (724FM2), Medical Directorate General (Navy), Ministry of Defence, Empress State Building, London SW6 1TR.

ASPECTS OF SEXUAL MEDICINE

From the British Medical Journal

Freer discussion of sexual matters on television and in the popular press has led to many more patients approaching their doctors for advice on sexual problems. The articles collected together in this book give practical advice on common problems such as impotence and on the help and guidance that may be given to handicapped patients and others with special difficulties. Few doctors received adequate instruction on sexual medicine at their medical schools: *Aspects of Sexual Medicine* brings them up to date.

Why forbid the patient coffee?

Thanks to H-A-G Decaffeinated Coffee even in cases of Insomnia, Palpitations, Disorders of the Heart and Circulation, Excitability, Gastritis and Peptic Ulcer, Gallstones, certain Diseases of the Liver the patient need not forego his favourite beverage.

***THE H-A-G DECAFFEINATING PROCESS.**
Swelling the green beans by steam pressure enlarges the pores and exposes the maximum surface to the highly volatile caffeine solvent (not trichlorethylene) which is flushed through the beans, carrying the caffeine with it. The surplus solvent is removed by a final steam flushing. The beans are then roasted in the normal way.

H-A-G coffee is available in 3 forms, Beans, Ground and Instant.

Liberal samples of Ground or Instant will be sent free and post free to any Doctors applying to: The A.A. Supply Co. Ltd. Dept. BM, 14 Northfield Estate, Beresford Avenue, Wembley, Middlesex. HAO 1YN.

MEET THE CALMURID BROTHERS

Urea is now known to possess antipruritic, keratolytic and antibacterial properties, and can produce a marked rise in the water content of treated dry skin. Until recently, the instability of urea solution prevented other than extemporaneous preparations being used. However, the Calmurid

formulation has overcome the problem. Calmurid Cream rehydrates and softens thickened and dry skin; Calmurid HC is indicated where hydrocortisone is needed additionally to deal with inflammation.

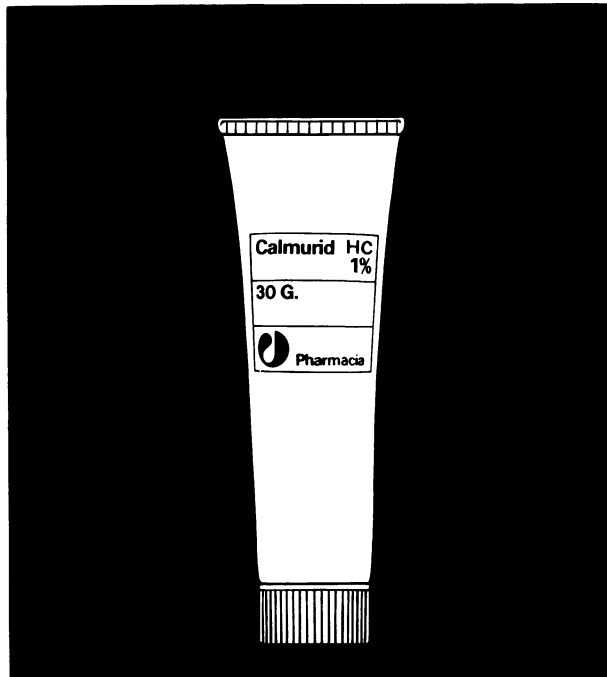

FOR DRY SKIN

Whether the dry scaling skin in ichthyosis or the horny masses of tylosis of the hands or feet, Calmurid disperses the horny scales and raises the water content of the skin towards normal. In patients with severe ichthyosis Calmurid was the most effective of four preparations tested.¹ In other studies resistant cases showed remarkable clinical improvements in a few days² with parallel biochemical improvement³. Calmurid was found most valuable in the treatment of hyperkeratotic feet⁴. Carbamide (urea) B.P. 1968 10% in a stabilising emulsified base; tubes of 50 and 100g.

**There is
a Sister
Too.**

Calmurid Solution (20% Urea) represents a step forward in the treatment of psoriasis of the scalp, seborrhoeic eczema and seborrhoea – no tar, no steroids. Data sheet available on request.

FOR ECZEMA

Eczema characteristically has inflammation and frequently a dry scaly covering. Calmurid HC, by its dispersive and rehydrating actions on the scale allows hydrocortisone to exert its full anti-inflammatory effect. So effective is this combination that Calmurid HC has been found to be as effective as the commonly used fluorinated steroids^{5,6} yet it achieves this without the risks of skin damage and systemic effects associated with them. Hydrocortisone has negligible atrophic action on skin⁷. Carbamide (urea) B.P. 1968 10%, hydrocortisone 1% in a stabilising emulsified base; tubes of 30g.

Calmurid is a registered trademark.

MIGRAINE

-not
Mrs. Jackson

Mrs. Jackson's migraines, while frequent, do not follow an entirely predictable pattern. She dislikes the side-effects of ergotamine treatments: long-term prophylaxis would involve an unacceptable degree of over-medication. Is there an alternative?

2 PINK MIGRALEVE, taken at the first warning, will often completely abort impending Migraine attacks. Residual symptoms, if any occur, can be controlled with Yellow Migraleve. Like most patients, Mrs. Jackson will find such a regime preferable, because Migraleve offers:

- Less medication than with long-term prophylactic treatments
- Economic dosage, taken only as attacks occur
- Proven effectiveness in 79% of attacks¹
- Considerably less vomiting than with ergotamine¹
- Proven patient preference¹

We have gained a first rate reputation for our thyroid function test kits. In a word, it's quality. Quality that applies to all our products.

Our new T4 RIA Kit has the same well-researched background. And the same quality control programme that ensures reliable and reproducible results. For example our kit must give less than 4% intra-assay variation before we are prepared to release it.

In the thyroid field Thyopac* - 3, 4, 5 and T3 RIA kits have already gained world-wide acclaim. Now we have an excellent addition to the range.

That's our opinion - test it for yourself!

PRACTITIONER COMMITTEE

Hawkesley Housing Estate
(Kings Norton Municipal Ward
Selly Oak Parliamentary Division)

HEALTH CENTRE
PRACTICE VACANCY

Hawkesley Housing Estate is now in course of development by Birmingham Corporation and by the end of 1978 should provide accommodation for an estimated population of about 7,000. The Estate is situated on the southern boundary of Birmingham and is immediately adjacent to an attractive rural part of the county of Hereford and Worcester.

A health centre for three doctors is planned for the estate. Prior to the erection of the health centre the Corporation will provide practice accommodation on a rental basis.
The estate has been classified as "Designated" by the Medical Practices Committee so that subject to the agreed conditions the doctor appointed will be eligible for a Type 'A' Initial Practice Allowance. As the list increases the doctor will be expected to take an appropriate number of partners and to conduct the practice from the health centre when it is ready for occupation. The vacancy provides an excellent opportunity for an experienced general practitioner who is keen to practise in a health centre and is capable of forming and organising a partnership practice. He will be expected to commence to practise on the estate on or about 1st May, 1976.

Applications on form FP.16A should be submitted not later than 30th January, 1976, to K.F.G. Day, Administrator, Birmingham Family Practitioner Committee, Sutton New Road, Erdington, Birmingham, B23 6TR (Tel: 021-373 2651). (H19912)

GENERAL PRACTICE TRAINING POSTS

GLOUCESTERSHIRE GENERAL PRACTITIONER TRAINING SCHEME

Applications are invited for four traineeships from individuals wishing to commence Vocational training for General Practice in June/July 1976. The scheme is arranged as a joint venture between the Cheltenham and Gloucester Health Districts and the Area General Practice Advisory Committee. It will give the Trainee an excellent grounding in all aspects of hospital and general practice and is approved for the membership examination of the R.C.G.P. The schedule of training is as follows:

i) A four to eight week attachment to a general practice commencing in June/July 1976. ii) Four hospital attachments rotating at six monthly intervals viz: a) Senior House Officer in Accident and Emergency — Gloucester. b) Senior House Officer in Dermatology — Gloucester. c) Senior House Officer in Paediatrics — Cheltenham. d) Senior House Officer in Obstetrics and Gynaecology — Cheltenham.

These posts will involve compulsory residence in the hospitals. iii) A final period of training in general practice.

The Trainees will be expected to attend a half day release course at Cheltenham. Application forms available from District Personnel Officer, Cheltenham Health District, Cheltenham General Hospital, Sandford Road, Cheltenham. Tel: Cheltenham 21344. (50544) 21

EAST SUSSEX AREA HEALTH AUTHORITY Hastings Health District

A vacancy will arise on 1st March, 1976 for a one year Trainee Assistantship in association with the Hastings Vocational Training Scheme. This post, initially in Bexhill, offers a unique opportunity for a more experienced doctor who while not wishing to complete a full vocational training scheme wishes to undertake a shorter period of training prior to entering General Practice as a principal in 1977.

For further details apply to Dr. J. A. Hopson, Hastings Postgraduate and Medical Centre, Holmesdale Garden, Hastings, as soon as possible. (50586) 21

PONTEFRAC T GENERAL INFIRMARY

VOCATIONAL TRAINING SCHEME FOR GENERAL PRACTICE

There are vacant vacancies on an established 3 year training scheme for General Practice commencing 1st August, 1976. Rotational experience comprising two six-month posts in selected General Practices, and four six-month posts in approved specialties at Pontefract General Infirmary with the option of six months psychiatric experience at Stanley Royd Hospital, Wakefield. The Infirmary (411 beds) is a modern developing District General Hospital with a new Consultant Obstetric Unit, Postgraduate Centre and Library facilities and married accommodation. Day release for Postgraduate courses at Leeds University. The scheme is approved for the membership examination of the Royal College of General Practitioners.

Further details from District Administrator, Wakefield Area Health Authority, Eastern District (Pontefract), Churchill House, 29 Mill Hill, Pontefract, West Yorkshire, WF8 4LD, to whom applications should be submitted by the 7th February, 1976. (50546) 21

SOUTH EAST KENT HEALTH DISTRICT Kent Area Health Authority)

CINQUE PORTS VOCATIONAL TRAINING SCHEME

Applications are invited for one trainee post in this scheme which is based on the towns of Dover and Deal. Medical institutions include a District General Hospital, a General Practitioner Hospital and a new multi-group Health Centre.

The initial and closing periods of the three-year scheme will be spent in General Practice and there will be four six month Senior House Officer posts in the hospital — in Medicine/Geriatrics, Paediatrics/Dermatology, Obstetrics/Gynaecology and Psychiatry. The last of these will include a good deal of work within the Community.

A day release scheme operates which includes participation in a continuing course at the Kent Postgraduate Medical Centre at Canterbury. The Centre, and the scheme itself, have close links with the Health Service Research Unit at the University of Kent.

Throughout the three year period each trainee will be in continuous touch with his own General Practitioner. The post in Obstetrics/Gynaecology and Paediatrics are recognised for the Membership and Diploma of the Royal College of Obstetricians and Gynaecologists and Diploma in Child Health respectively. Fluidity within the organisation will allow an alternative post such as Anaesthesia. Trainees will be encouraged to sit for the Membership of the Royal College of General Practitioners.

Further details of the scheme and application forms can be obtained from the Postgraduate Tutor at Buckland Hospital, Dover. Telephone enquiries can be made to Mrs. Howard. Tel: Dover 201624. Closing date for applications 31st January, 1976. (50675) 21

EAST SUSSEX AREA HEALTH AUTHORITY Brighton Health District

VOCATIONAL TRAINING SCHEME FOR GENERAL PRACTICE

Applications are invited for this well-established three year training course. The course consists of four six month periods in hospital posts and two periods of six months in General Practice attachments. Included in the course is a day release scheme for attendance at lectures, discussions etc. at Sussex Postgraduate Centre and during the third year the day release is for attendance at seminars etc. at the University of Sussex.

The Postgraduate Centre has a vigorous programme of clinical meetings and extensive library facilities.

Arrangements can also be made for short attachments to specialities not normally included in the course.

This is considered as a resident course and single accommodation is available. Married accommodation may be available if required. The next vacancies are from 1st April, 1976.

Forms of application and further details regarding the course are available from Mr. Belcher, Deputy Hospital Secretary, Royal Sussex County Hospital, Eastern Road, Brighton, BN2 5BE. (H19796) 21

COMMERCIAL APPOINTMENTS

How do you rate your future as a GP?

How does your present position score on the following:

- ☐ Intellectual interest and satisfaction?
- ☐ Worthwhile medical goals to strive for?
- ☐ Professional working environment with stimulating colleagues?
- ☐ Opportunity to probe unusual medical problems in depth?
- ☐ Opportunity for advanced medical study and specialist training?
- ☐ Regular hours of work with weekends off?
- ☐ Travel and internationality of outlook?
- ☐ Meaningful opportunities for rewarding initiative and merit?
- ☐ A salary ladder that reaches to £20,000+?
- ☐ A varied career with exciting prospects?

If you haven't scored 10 out of 10, here's a post that *can* offer you all these advantages. It entails:

- Planning and organisation of clinical studies on new medicines.
- Attendance at relevant medical conferences and symposia.
- Travel within the UK and possibly also to Europe, North America and Africa.
- Maintenance of patient contact by means of a simultaneous NHS Clinical Assistantship.
- Close liaison with research scientists, clinicians, drug regulatory authorities, etc.
- Evaluation of published papers and other reports on selected therapeutic topics.
- Lecturing on aspects of therapeutics and pharmaceutical medicine.
- Medical control of marketing and advertising programmes.
- Monitoring and follow-up of important adverse drug effects or interactions.

The appointment is a new one and will be called Medical Controller. The successful candidate will report to the resident Medical Director of a leading international pharmaceutical company, and be based at the company's UK headquarters in the western Home Counties. Any necessary training will be given and the starting remuneration level is likely to be within the £9,000 – £10,000 range. A car and other benefits are also provided.

Applicants should be within the age range 28 – 40 and have *at least* 2 years' broadly-based general medical experience, backed by a good British medical qualification and a positive interest in therapeutics. Personal qualities should include a questioning mind, drive and enthusiasm.

Please write for further information and an application form, or 'phone for a personal discussion:

COMMERCIAL APPOINTMENTS

Medical Adviser *International Role*

Glaxo Holdings Ltd., the parent company of the £multi-million international Glaxo group of companies, wish to appoint another doctor in their New Product Services Division in London.

Reporting to the Head of the Medical Department, the physician will be responsible for designated geographical areas of the world, conducting and evaluating clinical trials with new compounds, and supporting the marketing function in those areas overseas. As extensive travel will be involved, applications cannot be considered if there are any restrictions on freedom of travel.

This is an opportunity for a qualified physician, probably aged under 40, with experience in general practice or as a registrar, to take part in worldwide clinical trial programmes. An interest in this type of work is important, and some experience in the pharmaceutical industry would be an advantage but not essential, as would the ability to converse in another European language. For the doctor who may be considering a change in career, this appointment offers a rare prospect to join a leading company which conducts research and develops, manufactures and markets a wide range of pharmaceuticals.

Initial earnings around £8,500. Attractive conditions of employment include a company car, a share in group profitability, as well as a contributory pension. Assistance with re-location expenses where appropriate will be available.

Please telephone (01-629 1844 at any time) or write — in confidence — for information. B. G. Woodrow ref. AM.6638.

This appointment is open to men and women.

SENIOR MEDICAL OFFICER

required for

Health Screening Centre in Scotland

The Gaelic Healthguard Company Limited, a subsidiary of The
Gaelic Oil Company Limited, plans to set-up a multiphasic
Health Screening Centre in Aberdeen. The Gaelic Oil Com-
pany Limited is a subsidiary of Gulf Oil (Great Britain)
Limited. The Centre will provide screening facilities for per-
sonnel employed in the offshore oil industry and other indus-
trial concerns in the Aberdeen area and will also be available
for other regular medical screening programmes. This centre
will be the first of its kind in Scotland and its establishment will
provide many challenges for the individual selected as Senior
Medical Officer. He will be responsible initially for setting up
the centre and for its continued operation thereafter.

We are looking for a doctor with considerable medical and
administrative experience who should ideally have 10 years
post qualification experience and be interested in the concept of
multiphasic screening. Previous experience of industrial health
and a knowledge of the medical situation in the offshore oil
industry would be advantageous.

Salary will not be less than the recommended BMA scale for
Senior Medical Officer grade but could be higher if warranted.
Financial assistance for re-location will be provided.

Interested applicants can obtain further details and an appli-
cation form from:

**The Managing Director
The Gaelic Oil Company Limited

APPOINTMENTS

Applicants for medical appointments are advised to check whether the post advertised is included in the Important Notice and to scrutinize carefully the remuneration and terms of service offered. Any member who is in doubt about these terms in relation to B.M.A. agreements should consult the Secretary of the Association.

Advertisers are reminded that the Race Relations Board insists that no descriptive term implying racial, national, or ethnic characteristics may be used in any advertisement. Further, readers are advised not to apply for any appointment which discriminates between applicants on grounds of creed or unreasonably on grounds of sex.

HOSPITAL APPOINTMENTS

Applicants should state names, address, age, nationality, and qualifications, and enclose (unless otherwise specified) one copy of each of three recent testimonials, with a short statement of experience and appointments held. Applications should be sent at once if no closing date is given: Canvassing disqualifies (Statutory Instrument, 1974, No. 361).

All National Health Service hospital appointments are in accordance with the Terms and Conditions of Service of Hospital Medical Staff.

Further details concerning standards of residential accommodation, telephone charges, removal allowances, study leave and other matters should be obtained from the Hospital Secretary; or by B.M.A. members from the Secretary, British Medical Association.

In particular, they will find full details of facilities provided in most hospitals in the United Kingdom in the current edition of the *Hospital Gazetteer*. If such details are not included members are advised to consult the Secretary of the B.M.A.

Applicants requiring hospital married accommodation are strongly advised to obtain, prior to interview, clarification in writing from the employing authority as to whether such accommodation will be available on appointment.

No advertisement may stipulate that a non-resident must live less than 10 miles from a hospital. Advertisements for post-registration house officers, senior house officers and registrars should state clearly whether the post is resident, i.e. compulsorily resident.

In all advertisements grade should be clearly indicated. Normally a consultant vacancy must be advertised as (a) part-time with the number of sessions clearly stated, or (b) whole-time with the option of maximum part-time.

In the view of the B.M.A., an advertiser should not insist on possession of English higher qualifications in preference to Scottish or Irish qualifications (or vice versa).

SALARY SCALES OF HOSPITAL MEDICAL STAFF

HOUSE OFFICER: Each post in this grade shall be tenable for six months. £2,859 per annum for the posts held during the first year; £3,075 per annum for posts held during the second year; £3,294 per annum for posts held during the third and subsequent years, subject to full registration.

NEW ZEALAND

Southland Hospital
Kew, Invercargill

VISITING OPHTHALMOLOGIST

An opportunity exists in this rapidly growing district for an Ophthalmologist to work with the present visiting Ophthalmic Specialist in a modern hospital and at the same time establish a private practice with Private Hospital Operating facilities. The Southland Hospital Board invites applications from Registered Medical Practitioners with higher qualifications in ophthalmology for the position of part-time Ophthalmologist.

Wages and conditions of employment are in accordance with the New Zealand Hospital (Medical Officers) Regulations. The hospital post is offered on a 4/10ths basis. Salary scale for this position will be determined within the automatic progression scale for Specialists \$13,332/\$17,777 per annum, the commencing rate on the scale to be determined by the Medical Officers Salaries Grading Committee, the salary to be as a proportion of the whole-time rate. There exists on the scale, four higher steps which are based upon special ability or responsibility.

This year Southland Hospital will reach a total of 360 beds and plans are well advanced for a large Obstetric Unit. An Out-patients Department, including a well designed Ophthalmic Suite and a new suite of four Operating Theatres have been completed. Equipment includes a Fundus Camera and a Cryo Therapy Unit, and equipment for fluoroscein retinography in on order.

The Hospital serves as a base hospital for the Southland region with a present population of 120,000, half of which is centred around the city of Invercargill. The population is growing rapidly as secondary industry is added to what has hitherto been a wealthy agricultural and pastoral economy.

SOUTHLAND HOSPITAL BOARD

2ND YEAR HOUSE SURGEON Applications are invited for two second year House Surgeon posts at Seddon Memorial Hospital, Gore, New Zealand.

Successful applicants can be appointed for 12 months or for a shorter period if desired. Seddon Memorial Hospital is a small but busy hospital. There are three general surgeons on the staff, a specialist physician visits the hospital one day per week and from day to day the medical side is attended by general practitioner physicians.

There is one general surgeon, one orthopaedic surgeon and one gynaecological surgeon. A paediatrician visits the hospital once a fortnight and specialists in haematology, dermatology, chest surgery, neurosurgery and radiotherapy visit regularly.

It follows that this hospital offers a first rate training in basic medicine and surgery. Solo medical practice can be taken up afterwards with confidence. While gaining experience in the handling of emergencies of all types the incumbent will be able to come to a firm decision with regard to his own future in medicine. There are good library facilities and attendance at lectures and tutorials in Southland base hospital will be arranged.

For further details please contact D. W. H. Hurley, Surgeon Superintendent either by letter, P.O. Box 184, Gore, New Zealand, or by telephone 6099, Gore. (22727)

Chronic bronchitis

A tenfold reduction in exacerbations

Results from a recent multi-centre trial show that Kelfizine W can produce a tenfold reduction in exacerbations of acute bronchitis.

Figures for a randomly selected group of 1120 patients out of the trial population showed that in the Winter of 1972/73 – without Kelfizine W – the number of exacerbations averaged 4.2 per patient. The following year, 1973/74, whilst receiving Kelfizine W, the same patients averaged just 0.42 exacerbations each.

No less than 5596 out of 6500 patients taking part overall (84.7%) were satisfactorily managed on the Kelfizine W regimen, and 4129 patients (63%) neither required nor received antibiotics.
