# ASPECTS OF SEXUAL MEDICINE

**From the British Medical Journal**

Freer discussion of sexual matters on television and in the popular press has led to many more patients approaching their doctors for advice on sexual problems. The articles collected together in this book give practical advice on common problems such as impotence and on the help and guidance that may be given to handicapped patients and others with special difficulties. Few doctors received adequate instruction on sexual medicine at their medical schools: *Aspects of Sexual Medicine* brings them up to date.

# To be taken when you feel a conference coming on.

Round and pill shaped, there's no excuse for any committee man to forget Wembley Conference Centre - London's new answer to the slings and arrows of medical meeting organising. We make no extravagant claims for the product; it speaks for itself.

From September 1976 we can handle here in London any size of meeting in the auditorium, five lecture theatres and a dozen other meeting rooms. Planning a really good conference centre is just like planning a hospital. Services must be grouped for ease of operation; everything must work well under pressure. It must be adaptable.

For example, we offer what we call our medical package. A self-contained area of the Centre which provides conference seating for up to 650, an exhibition of up to 15,000 sq ft with its own bars and lunch section (with all vital services including compressed air and claret laid on to every stand and table). All the other conference plumbing is there too: translation systems, TV, cine, projection.

So at the onset of pre-conference stress, please contact our "Registrar", Mr Ian Banks, Wembley Conference Centre, Wembley HA9 0DW, England. (Tel: 01-902 1234).

# A doctor can gain a lot from 5 years in the Royal Navy.

As a qualified doctor, you can join the Royal Navy for 3 or 5 years on a Short Service Commission.

In that time, you'll spend up to a year practising medicine in a Naval ship.

You could have the chance of working and living overseas for a time.

And you'll be able to do your General Professional Training in one of the clinical and medical scientific disciplines at a Naval hospital or an RN establishment.

## At sea.

After a short Officers course at the Royal Naval College, Dartmouth, and a basic course in maritime medicine at the Institute of Naval Medicine, Alverstoke, you'll normally go to sea for about 12 months.

You'll be responsible for the medical care of some 250 to 500 men in your ship (and advise the Captain on health and environmental problems).

You won't lose touch with modern medicine, as you can visit local hospitals in ports of call and use the teaching aids provided by your Naval tutor.

## Postgraduate training and specialisation.

After your sea-time, career counselling will determine your postgraduate training programme.

There are opportunities for General Professional Training in preparation for a clinical career in general practice, the hospital specialities, or the medical scientific disciplines such as Aviation, Underwater, Submarine and Nuclear Medicine; or in occupational and community medicine.

If you decide to transfer to a 16-year pensionable Commission, or a permanent Commission, you could move on to recognised higher training programmes which include research training and higher training posts in civilian units.

At Alverstoke, the Dean of Naval Medicine co-ordinates postgraduate medical training and research.

## Naval hospitals.

The two largest are at Haslar (near Portsmouth) and Plymouth.

They undertake the care of Naval personnel, their families and NHS civilians, providing a broad spectrum of clinical material. Both hospitals are recognised for higher training in the major specialities.

There is a full range of modern, technical equipment, and the nursing and paramedical staff are highly skilled.

There are smaller hospitals in Malta and Gibraltar.

## Salary.

If you join us immediately after registration, your salary will be £5,997 as a Surgeon Lieutenant.

You can, however, join at any age up to 39. In that case, your postgraduate experience is taken into account, and you could join as a Surgeon Lieutenant Commander earning £8,015 a year.

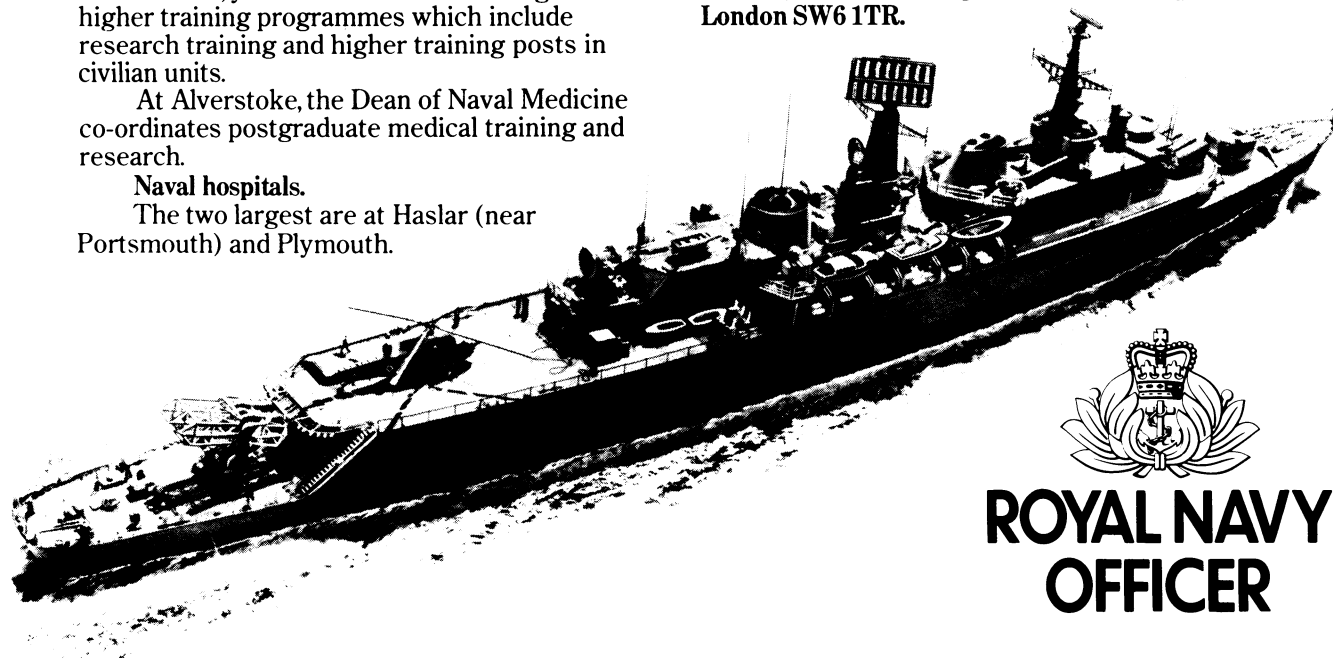

If you leave at the end of your 3 year Commission, you'll receive a tax-free gratuity of £1,500, or, after 5 years, £3,000.

If you decide to stay on, you can apply for a 16-year pensionable Commission or a permanent Commission.

The salary structure is based on an analogue computed from the average earnings of general practitioners in the NHS, with an additional X factor. There is extra pay for recognised postgraduate qualifications and Senior Specialist or Consultant status.

If you're posted overseas, you can, of course, take your family with you. There are, too, generous boarding school allowances for your children, starting at £807 for your first child.

**For more information, write to Surgeon Commander H.B. Blackstone, MRCS, LRCP, MRCGP, RN, ( 724FM5 ), Medical Directorate General (Navy), Ministry of Defence Empress State Building, London SW6 1TR.**

# Your heart risk patients may find it hard to give up smoking, boring to take more exercise, and depressing to stick to a diet.

## But they'll find they like Flora.

Many authorities throughout the world are in no doubt that a causative relationship exists between a raised blood cholesterol level and coronary atherosclerosis.<sup>1,2</sup>

Therefore, to lower blood cholesterol is a sound objective in the management of the patient. This can be achieved by reducing the intake of saturated fats in the diet and by partial substitution by polyunsaturated fats.<sup>3,4,5</sup>

Flora is higher in polyunsaturated fats than any other leading margarine,\* and is low in saturated fats. It is an effective, easy and palatable component of a lipid lowering diet.<sup>6,7</sup>

For the patient with coronary heart disease the recommendation of Flora margarine is logical, clinical advice.

If you would like further information about Flora margarine and recipes in which it may be used by your patients with coronary heart disease, please write to: Flora Information Service, 25 North Row, London W1.

# ***Inflation proof savings?***

Guaranteeing your savings against inflation is an impossible task. However, the new Index Linked S.A.Y.E. Scheme does just that – it is backed by a Government guarantee.

Although designed to be paid by monthly instalments out of income, it is now possible to deposit a capital sum from which these monthly payments are made. The capital sum required is less than the total S.A.Y.E. payments, so that quite apart from the guaranteed basic benefits of the S.A.Y.E. Scheme, there is the further attraction of the discount on the capital.

## ***An investment for all the family***

## Specialist Journals on MICROFICHE

Since January 1976 all the BMA Specialist Journals will be published in a microfiche edition simultaneously with the standard paper editions. Overseas subscribers to the microfiche editions will receive microfiches, by AIR MAIL, within days of publication. The availability of the microfiche editions should have great appeal to libraries and other readers far distant from the United Kingdom.

The microfiche produced for the British Medical Association conform to the international standard as laid down by the National Microfilm Association of America. These microfiches are produced by a step and repeat camera with duplicates produced on silver halide film for archival permanence. Each fiche measures 105 mm × 148 mm and can contain up to 98 images filmed at a reduction ratio of 24 × along with an eye readable title for identification. Details of microfiche volume binders are available on request.

The subscription prices for each annual volume on microfiche are as follows:

### VOCATIONAL TRAINING SCHEMES

This advertisement is not strictly necessary because we have already the largest Vocational Training Scheme in the country but we thought you might like to know that number of new places have been created and that just as in the past we have welcomed doctors from every part of the U.K. and elsewhere, so we shall do in the future. Our schemes are popular because every post within them has been hand-picked.

Where problems have arisen or special requests made, schemes have been changed. We think we have the thing nearly right now; we never believe we are perfect; we are not self-satisfied and we do welcome comment from the trainees throughout the three years. Vacancies exist shortly and further posts will be available in press in July and August. If you apply for information we will not send you an expensive brochure, just a simple hand-out on the content of the schemes available. We do not feel we need to expound their virtues, all the schemes are in large towns or cities and all within a few minutes of beautiful countryside. Urban pursuits and country sports are all catered for in this go-ahead region.

All we expect is a willingness to work, a willingness to learn, and you can expect from us help and teaching as required. The final choice of your particular teaching practice within the scheme is left to you. Schemes exist in Birmingham, Bromsgrove, Burton-on-Trent, Coventry, Dudley and Stourbridge, Hereford, Kidderminster, Nuneaton, West Bromwich, Shrewsbury, Staffordshire, Stoke, Rugby, Walsall, Warwick and Leamington, Wolverhampton and Worcester. All are approved by the Royal College of General Practitioners.

Further details are available from the Regional Adviser in General Practice, West Midlands Regional Health Authority, Arthur Thomsom House, 146, Hagley Road, Birmingham B16 9PA. (52512) 21

Two Fellowships are available each year to physicians, surgeons, or other medical graduates of registrar status having M.R.C.P., F.R.S.C. or other higher medical qualification. The Fellowships will be for 2 years starting in October 1976, or earlier, with an optional third year. They are suitable for those intending a career in clinical medicine with an emphasis on cancer. The Fellows will participate in the Fund's research programmes spending the first year in the laboratories in Lincoln's Inn Fields and the second year at one of the two extra-mural clinical units: the Medical Oncology Unit, St. Bartholomew's Hospital or the Breast Cancer Unit, Guy's Hospital. A third year, which will be at the discretion of the Fund, will involve clinical or experimental work as appropriate. Fellows may wish to use the research to obtain an M.D. degree. Alternatively a Fellow may choose to work for a Ph.D. entirely in the Fund's laboratories.

Superannuable salaries will be appropriate to the qualifications and experience of the Fellows.

Applications should reach

**The Secretary,  
Imperial Cancer Research Fund,  
P.O. Box 123, Lincoln's Inn Fields,  
London WC2A 3PX**

(from whom application forms are obtainable) not later than 17 April, 1976.

## APPOINTMENTS

Applicants for medical appointments are advised to check whether the post advertised is included in the Important Notice and to scrutinize carefully the remuneration and terms of service offered. Any member who is in doubt about these terms in relation to B.M.A. agreements should consult the Secretary of the Association.

Advertisers are reminded that the Race Relations Board insists that no descriptive term implying racial, national, or ethnic characteristics may be used in any advertisement. Further, readers are advised not to apply for any appointment which discriminates between applicants on grounds of creed or unreasonably on grounds of sex.

### HOSPITAL APPOINTMENTS

Applicants should state names, address, age, nationality, and qualifications, and enclose (unless otherwise specified) one copy of each of three recent testimonials, with a short statement of experience and appointments held. Applications should be sent at once if no closing date is given: Canvassing disqualifies (Statutory Instrument, 1974, No. 361).

All National Health Service hospital appointments are in accordance with the Terms and Conditions of Service of Hospital Medical Staff.

Further details concerning standards of residential accommodation, telephone charges, removal allowances, study leave and other matters should be obtained from the Hospital Secretary; or by B.M.A. members from the Secretary, British Medical Association.

In particular, they will find full details of facilities provided in most hospitals in the United Kingdom in the current edition of the *Hospital Gazetteer*. If such details are not included members are advised to consult the Secretary of the B.M.A.

Applicants requiring hospital married accommodation are strongly advised to obtain, prior to interview, clarification in writing from the employing authority as to whether such accommodation will be available on appointment.

No advertisement may stipulate that a non-resident must live less than 10 miles from a hospital. Advertisements for post-registration house officers, senior house officers and registrars should state clearly whether the post is resident, i.e. compulsorily resident.

In all advertisements grade should be clearly indicated. Normally a consultant vacancy must be advertised as (a) part-time with the number of sessions clearly stated, or (b) whole-time with the option of maximum part-time.

In the view of the BMA, an advertiser should not insist on possession of English higher qualifications in preference to Scottish or Irish qualifications (or vice versa).

### SALARY SCALES OF HOSPITAL MEDICAL STAFF

**NORTH WESTERN REGIONAL HEALTH AUTHORITY**

**TRAINING IN COMMUNITY MEDICINE**

These posts are suitable for doctors with at least two years post-registration clinical experience who are interested in a career in community medicine. The posts will be rotating and will offer practical experience in the work of the specialty by attachment to health districts and areas in Greater Manchester. They will normally be held for about two years and during this period the holders will be expected to undertake the course offered by Manchester University Department of Community Medicine. This is a part-time course, involving attendance at the University for 2½ days weekly in term time, over two years. Both formal instruction and preparation of a thesis is involved, and the course will prepare participants for an M.Sc., as well as enabling them to sit for the membership of the Faculty of Community Medicine. The training posts established are equivalent to registrar in the clinical specialties and carry the same salary scale (£4,152 plus £222 (3) plus £291 (1) £5,109); where doctors currently earning higher salaries are appointed it will be at the discretion of Authorities to allow protection of salary.

Application forms and further particulars may be obtained from the Regional Medical Officer, North Western Regional Health Authority, Gateway House, Piccadilly, Manchester M60 7LF. Applications should be received not later than 15th March, 1976. (24438) 110

**ROCHDALE AREA HEALTH AUTHORITY**

Applications are invited from suitably qualified and experienced registered Medical Practitioners in the United Kingdom for the following two posts

(1) AREA SPECIALIST  
IN COMMUNITY MEDICINE  
(Child Health)

(2) AREA SPECIALIST  
IN COMMUNITY MEDICINE  
(Health Care Planning)

The salary for each post is £7,536 to £10,689 per annum. The Child Health Specialist will be a member of the team of Community Physicians on the staff of the Area Health Authority, and will play a leading role in planning and developing child health services in the Area in addition to managing a well-staffed team of clinical and senior medical officers engaged in community child health work.

The Specialist in Health Care Planning will be a member of the team of four Community Physicians on the staff of the Authority and, in conjunction with the Area Medical Officer, will review the medical needs of the Area. In particular the successful candidate will be responsible for the planning of operational health care services in both primary and secondary systems and will co-operate with other colleagues to this end; this will include planning of new health buildings within the Area. The successful candidate will be encouraged to develop any special interests, for example statistical analysis of health problems and the application of computers in the field of community medicine. The doctor appointed will have medical personnel functions for junior medical staff employed by the Area Health Authority. The Area Medical Officer, Dr. J. Sarginson, will be pleased to provide further information about both posts. Tel: Rochdale 4739.

Application forms, together with job descriptions, available from the Area Personnel Officer, Rochdale Area Health Authority, Birch Hill Hospital, Rochdale. (Tel: Littleborough 7829). Closing date for receipt of applications is 29th March, 1976. (25046) 110

# Training in Community Medicine

## Midlands and South Western Inter-Regional Scheme

A two-year programme of in-post training is planned to begin in September 1976 to assist doctors to prepare for a career in community medicine and for the Membership examination of the Faculty of Community Medicine of the Royal Colleges of Physicians. It is being offered jointly by the Universities of Birmingham, Bristol, Exeter, Oxford, Reading, Southampton and the Welsh National School of Medicine in collaboration with health service authorities. Each University will contribute instruction in the subjects of its special experience and knowledge.

The Universities will provide a co-ordinated series of two or three-week modules of academic tuition, amounting to a total of 20 weeks over the period of two years; studies between modules will be supervised by university staff. During the two years doctors will be given appropriate in-service experience in training posts in health service authorities. For this purpose training posts will be offered in the five Regions with which the universities are associated (West Midlands, Oxford, South Western, Wales and Wessex). Although trainees will be in contract with Regional Health Authorities, the in-service training experience may be provided at various levels within the health service.

The training posts established will be equivalent to registrar in the clinical specialties (salary £4,152-£5,109).

Applications are invited from registered Medical Practitioners who have had at least one year's post-registration experience, they should be addressed to the **Regional Administrator of the Regional Health Authority** which is the applicant's first choice (in the case of the Welsh Office to the Chief Medical Officer) but should also indicate any other Regions for which he or she would wish to be considered. Applications should be received **not later than 3rd May, 1976**.

Applicants should send brief details of age, qualifications, and previous experience, a statement of future career intentions, and names and addresses of three referees. Those of above average ability, with more than one year's clinical post-registration experience and who have proved their ability by the acquisition of a higher qualification (e.g. M.R.C.P., M.R.C.G.P.) or achieved success in another specialty are especially eligible for the scheme.

Further details of the course can be obtained from **Professor A. G. W. Whitfield, The Medical School, Birmingham B15 2TJ**, who is the co-ordinator of the scheme. The addresses of the Regional Health Authorities participating in the scheme are:-

**West Midlands**

The firm is one of the leaders in skin hygiene in the industrial and public sectors. Its dermatological preparations are known throughout the world. Population growth, increased population density, environmental problems and increased human sensitivity call for considerable intensification of efforts in the field of dermatological prevention and cure. This applies to General and specific therapy. The firm intends to meet this challenge. Thus the new employee's function is to formulate and achieve this objective.

## Director of Medical Research

Briefly, his functions will be centred upon the formulation and further development of the existing preparations for skin protection, cleaning and care, intensive research and development in the fields of fungicides, pesticides and bactericides for general therapy, development of new dermatological specialities for individual therapy on the basis of existing materials. All the staff and material requirements, including research, development and testing apparatus, for independent and fruitful research and development are available.

We are looking for discussions with a qualified doctor whose inclinations tend towards devotion to medical research with broad-ranging preventive effects.

For further information and an initial confidential discussion phone Herr Dr. Rochus Mummert, our Managing Director, Tel. No. 089-648021. You can of course write under Ref. MM-AE 2711, 8 Munich 90, Fach 540. Your approach will be treated in complete confidence and we guarantee to maintain any form of discretion you require.

# ZAMBIA

## A superb location

— particularly for broadening professional and management skills with a 3-year contract. This land-locked central African state, larger than France, Belgium, The Netherlands and Switzerland combined, has a congenial, equable climate and a wealth of fascinating scenery. Although mainly a broad plateau, Zambia also has spectacular mountains, dense forest, penetrating rivers and vast lakes as well as huge wildlife reserves. Large cities and towns containing all the usual modern facilities are linked by excellent road and rail services. Extensive natural resources, copper particularly, have provided the firm economic base for dramatic post-independence progress. Wide-ranging, expanding industries and substantial agriculture, which includes both crops and dairy farming, ensure the long-term continuation of Zambia's prosperity.

### SPECIALIST ANAESTHETIST AND LECTURER IN ANAESTHETICS

There is a vacancy for a full-time Anaesthetist in the Department of Anaesthesia, Dunedin Hospital, with an appointment to the University of Otago as Lecturer in Anaesthesia.

The Department of Anaesthesia provides a full range of services for all specialties, including Cardiac and Neurosurgery as well as epidural analgesia and general anaesthesia for Obstetrics. The wide range of its service and its good facilities are recognised by the Faculty of Anaesthetists, R.A.C.S., which has approved six registrar posts for full training for the F.F.A. The Department has a long tradition of teaching of Anaesthesia and Resuscitation to undergraduates and it also has an active postgraduate training programme, which has culminated in the establishment of the first Chair of Anaesthesia in New Zealand by the University of Otago.

The Dunedin Hospital is adjacent to the University of Otago Medical School with its excellent library and experimental laboratory facilities, and is within the University campus. Dunedin is a town of 110,000 people situated on a coast of great scenic beauty with exceptional marine wildlife. Locally the sailing and fishing is excellent, and superb skiing is easily accessible.

Applicants must have been medically qualified for eight years, hold a higher qualification such as the F.F.A.R.C.S. or its equivalent, and have had at least five years experience in the specialty. The appointee will be expected to take part in undergraduate and postgraduate teaching, and every encouragement will be given to continue or initiate research projects.

The salary scale is in accordance with the Hospital Employment (Medical Officers — Specialists Scale) Determinations: \$13,332 — \$17,777 p.a. (10 steps). Higher gradings available in cases of exceptional merit and subject to determination by the Medical Officers Salaries Grading Committee within the scale: \$18,673 — \$22,734 p.a.

Travelling expenses will be paid in accordance with the information contained in the Conditions of Appointment.

Applications on the form attached to the Conditions of Appointment, available from the Board's Office (3rd floor) will be received by the Chief Executive, Otago Hospital Board, P.O. Box 946, Dunedin, New Zealand, until Friday, 30 April 1976.

## Safer Sleep

Dalmane has the two chief requirements of a hypnotic. It is effective and well tolerated. The benzodiazepine group of which Dalmane is a member has "an enviable record in terms of the rarity of lethal overdose."<sup>1</sup> Other authors<sup>2</sup> have commented: "Extensive experience with overdosage of other benzodiazepines suggests that serious or fatal poisoning is exceedingly rare. The danger of serious poisoning with flurazepam [Dalmane] is probably of the same order." Reported cases of overdosage<sup>3,4,5</sup> prove that Dalmane is bearing out in practice the theoretical promise of low toxicity expected of a drug of this class.

Add to this the speed with which Dalmane induces sleep<sup>6</sup> and the less disturbed night which follows,<sup>7,8</sup> and you have a powerful treatment for insomnia remarkably free from the problems of a barbiturate.<sup>1,9</sup>

In Parkinson's disease and syndrome

# SINEMET<sup>®</sup>

Carbidopa and levodopa, MSD

## UPDATES LEVODOPA THERAPY

With 'Sinemet', which combines carbidopa and levodopa, the therapeutic benefits of levodopa in Parkinson's disease and syndrome, can be attained at a much reduced dosage level of levodopa. More levodopa is made available for conversion into dopamine in the brain, and the distressing peripheral side effects of plain levodopa are significantly reduced.

## EVEN MORE PATIENTS COULD BENEFIT FROM 'SINEMET'

The standard strength tablet is known as 'Sinemet' (25 mg carbidopa and 250 mg levodopa).

Also available is 'Sinemet'-100 (10 mg carbidopa and 100 mg levodopa). Detailed information is available to physicians on request. ® denotes registered trademark.
