Imodium
JANSSEN

TRADE MARK

stops diarrhoea safely and rapidly

unique chemical entity... loperamide (R 18 553) is an entirely new molecule, first synthesized by Janssen Research; the compound specifically inhibits hypermotility by a direct effect on the intestinal wall.

highly effective in acute diarrhoea... quickly relieves spasms and cramps; stops diarrhoea due to gastroenteritis, diet, functional causes, etc.; even more effective than diphenoxylate in double-blind studies.^{1,2}

no incompatibility... no incompatibility with other therapies has been reported.

remarkably safe... contains no atropine, devoid of CNS activity; no adverse effects noted in long-term safety studies.³

patient-controlled dosage schedule... in adults, two capsules to start, one capsule after each unformed stool until bowel function is normalized.

Summary of Prescribing Information

Indications : Imodium is indicated for the control of acute diarrhoea regardless of origin.

Side-effects : no specific drug related side-effects have been reported to date.

Precautions : overdosage may lead to constipation. Safety of use in pregnancy has not been established. Imodium should not be used in patients with a known hypersensitivity to the drug and in those in whom inhibition of peristalsis must be avoided (e.g. subobstruction due to a tumour).

Availability : Capsules containing 2 mg of loperamide.

Dosage :

Acute diarrhoea	Adults	Children over 5
Initial dose	2 caps.	1 caps.
Subsequently after each loose stool	1 caps.	1 caps.

In acute diarrhoea a 5-day period of treatment should be adequate.

Full information is available on request.

A doctor can gain a lot from 5 years in the Royal Navy.

As a qualified doctor, you can join the Royal Navy for 3 or 5 years on a Short Service Commission.

In that time, you'll spend up to a year practising medicine in a Naval ship.

You could have the chance of working and living overseas for a time.

And you'll be able to do your General Professional Training in one of the clinical and medical scientific disciplines at a Naval hospital or an RN establishment.

At sea.

After a short Officers course at the Royal Naval College, Dartmouth, and a basic course in maritime medicine at the Institute of Naval Medicine, Alverstoke, you'll normally go to sea for about 12 months.

You'll be responsible for the medical care of some 250 to 500 men in your ship (and advise the Captain on health and environmental problems).

You won't lose touch with modern medicine, as you can visit local hospitals in ports of call and use the teaching aids provided by your Naval tutor.

Postgraduate training and specialisation.

After your sea-time, career counselling will determine your postgraduate training programme.

There are opportunities for General Professional Training in preparation for a clinical career in general practice, the hospital specialities, or the medical scientific disciplines such as Aviation, Underwater, Submarine and Nuclear Medicine; or in Occupational and Community Medicine.

If you decide to transfer to a 16-year pensionable Commission, or a permanent Commission, you could move on to recognised higher training programmes which include research training and higher training posts in civilian units.

At Alverstoke, the Dean of Naval Medicine co-ordinates postgraduate medical training and research.

Naval hospitals.

The two largest are at Haslar (near Portsmouth) and Plymouth.

They undertake the care of Naval personnel, their families and NHS civilians, providing a broad spectrum of clinical material. Both hospitals are recognised for higher training in the major specialities.

There is a full range of modern, technical equipment, and the nursing and paramedical staff are highly skilled.

There are smaller hospitals in Malta and Gibraltar.

Salary.

If you join us immediately after registration, your salary will be £5,997 as a Surgeon Lieutenant.

You can, however, join at any age up to 39. In that case, your postgraduate experience is taken into account, and you could join as a Surgeon Lieutenant Commander earning £8,015 a year.

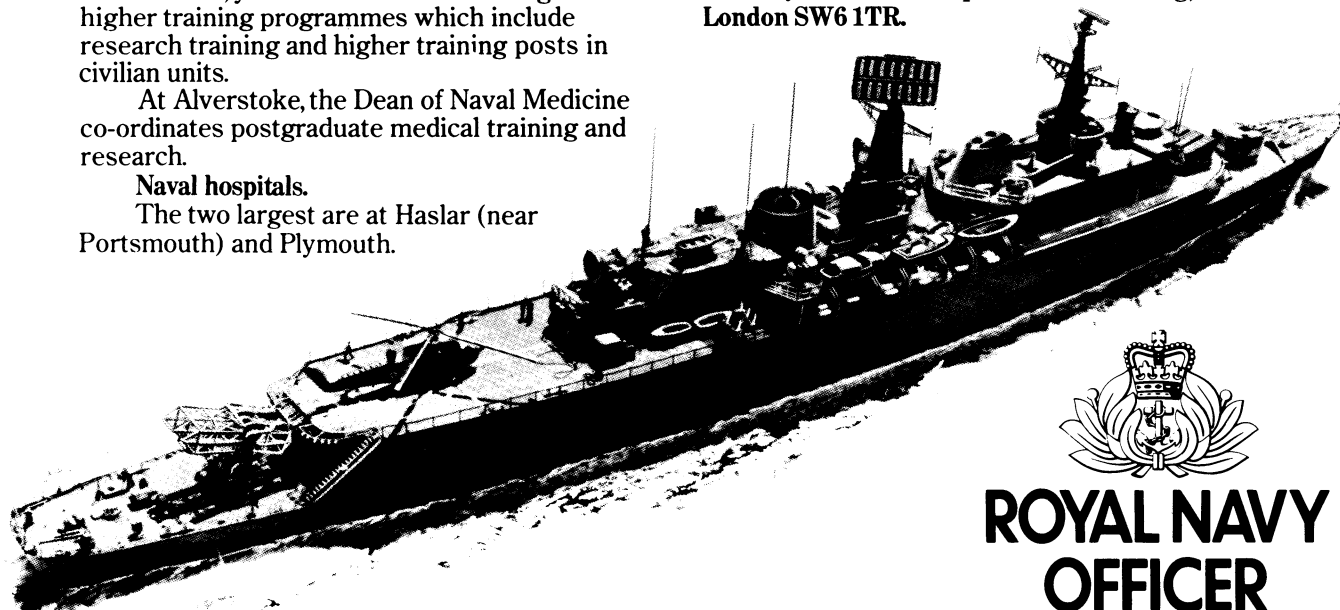

If you leave at the end of your 3 year Commission, you'll receive a tax-free gratuity of £1,500, or, after 5 years, £3,000.

If you decide to stay on, you can apply for a 16-year pensionable Commission or a permanent Commission.

The salary structure is based on an analogue computed from the average earnings of general practitioners in the NHS, with an additional X factor. There is extra pay for recognised postgraduate qualifications and Senior Specialist or Consultant status.

If you're posted overseas, you can, of course, take your family with you. There are, too, generous boarding school allowances for your children, starting at £807 for your first child.

For more information, write to Surgeon Commander H.B. Blackstone, MRCS, LRCP, MRCGP, RN, (724 FM7), Medical Directorate General (Navy), Ministry of Defence Empress State Building, London SW6 1TR.

The Allergic Salute

A sign of perennial rhinitis, the cold that can last for 25 years.

Some children seem to have a permanent cold. They're constantly sniffing and often have a troublesome nocturnal cough. They're always twitching, pressing, wiping or rubbing their nose, usually upwards, causing an accentuated crease in the skin.

They may not be suffering from a cold at all, but from perennial allergic rhinitis.

Now you can prevent it with Lomusol. Lomusol provides an effective prophylactic treatment in metered-dose form. It's easy to carry, simple to use and its safety makes it ideal for long-term treatment.

Lomusol

Full prescribing information on Lomusol (Sodium Cromoglycate B.P.) is available from FISONS LIMITED - PHARMACEUTICAL DIVISION, Loughborough, Leics. Alternative presentations for nasal use of a 2% solution of sodium cromoglycate are available as Rynacrom Nasal Spray and Drops.

Ostermilk Complete Formula. The bottle feed for breast-fed contentment.

Ostermilk Complete Formula has been developed by doctors and nutritionists so that the protein and mineral levels are closer to those of breast milk than traditional milks. Clinical trials have proved that in comparison with traditional milks, babies fed on Ostermilk Complete Formula are more contented, are satisfied for longer periods between feeds, suffer less from regurgitation and severe wind and are less likely to have loose stools. Also there is a considerable decrease in napkin rash.

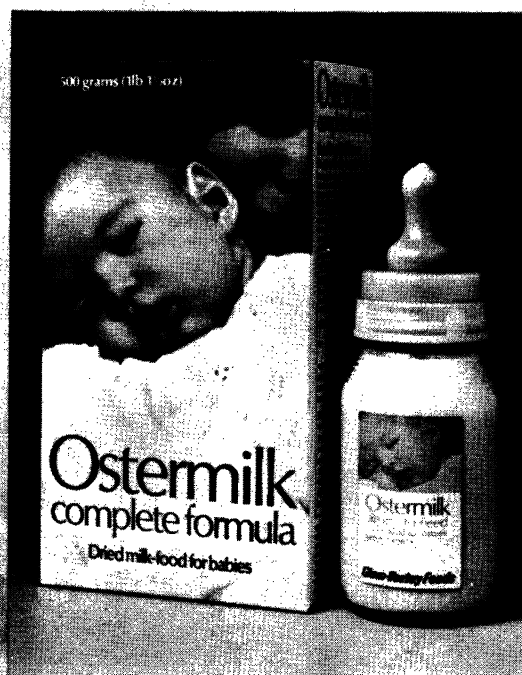

In addition, the lower phosphorus content virtually eliminates the risk of hypocalcaemia and possible neonatal tetany. The low solute content reduces the risk of hypernatraemic dehydration. And the presence of maltodextrin as the major carbohydrate helps to avoid the problems of transient, induced lactose intolerance.

For hospital use, Ostermilk Complete Formula is available as Ready-to-Feed milk-food for babies. This system provides individual sterilized feeds in disposable glass bottles. Consequently, nursing staff spend less time with preparation and are more free to care for mothers and babies.

Out of hospital, Ostermilk Complete Formula can be recommended right through until the end of weaning in a powder form which can be mixed easily and quickly in the bottle, without the need to add sugar.

Why forbid the patient coffee?

Thanks to H-A-G Decaffeinated Coffee even in cases of Insomnia, Palpitations, Disorders of the Heart and Circulation, Excitability, Gastritis and Peptic Ulcer, Gallstones, certain Diseases of the Liver the patient need not forego his favourite beverage.

*** THE H-A-G DECAFFEINATING PROCESS.**

Swelling the green beans by steam pressure enlarges the pores and exposes the maximum surface to the highly volatile caffeine solvent (not trichlorethylene) which is flushed through the beans, carrying the caffeine with it. The surplus solvent is removed by a final steam flushing. The beans are then roasted in the normal way.

H-A-G coffee is available in 3 forms, Beans, Ground and Instant.

Liberal samples of Ground or Instant will be sent free and post free to any Doctors applying to: The A.A. Supply Co. Ltd. Dept. BM, 14 Northfield Estate, Beresford Avenue, Wembley, Middlesex. HAO 1YN.

LINCOLN VOCATIONAL TRAINING SCHEME FOR GENERAL PRACTITIONERS

Applications are invited from Post-Registration Graduates for two places in the Vocational Training Scheme which will be available on 1st August, 1976. This training programme commences with an initial period of three months in a teaching practice, followed by two years rotational S.H.O. posts at Lincoln County Hospital and St. George's Hospital, and a final nine months in the teaching practice. The hospital posts (six months in each) will be spent in General Medicine, Obstetrics with Gynaecology, Paediatrics and Geriatrics with Infectious Diseases. All of which offer a wide range of clinical experience in busy and interesting jobs under experienced Consultants, all of whom are good teachers. The posts are recognised for the M.R.C.G.P. and D.C.H. and the D.R.C.O.G.

The scheme will be based on the new and well-equipped Postgraduate Medical Centre at Lincoln County Hospital where an excellent library is available. The emphasis on this scheme will be upon training for Rural Practice. A half day release course is run throughout the three years. The subjects discussed are arranged to cover a wide variety of important matters not covered by other parts of the course. There will also be an opportunity for trainees to attend out-patient clinics as felt necessary. There is also a Trainer/Trainee Workshop session which takes place once a month. Married accommodation may be available throughout the three year period.

Applications, enclosing curriculum vitae and naming two referees, should be sent as soon as possible to District Personnel Officer, Lincolnshire Area Health Authority, North Lincolnshire District, 1 St. Anne's Road, Lincoln, LN2 5RA. (53612) 21

Vocational Training for General Practice in Peterborough

Applications are invited for two posts in this three year Scheme commencing in September and October, 1976. Full registration is essential.

In **Peterborough** we are fortunate in having not only a group of enthusiastic general practitioner trainers but also a highly co-operative hospital staff, many of whom take an active part in the organisation of the Scheme which is based on the Peterborough District Hospital and Postgraduate Medical Centre which has splendid facilities.

The first year the trainee spends six months in a training practice and six months as an S.H.O. in general medicine in the District Hospital and then one year in Paediatrics, Obstetrics and Gynaecology and finally six months with clinical responsibility in Geriatrics and gaining experience in Rheumatology, Ophthalmology, E.N.T., Accident and Emergency and Dermatology. They will spend six months in a training general practice.

A half day release programme takes place throughout the three years. This is based on recommendations made by the R.C.G.P. and generally takes the form of group discussion. Psychiatry is the most important feature of this portion of the course and a consultant psychiatrist takes part in all these sessions.

Six trainees are in post at any one time and it has been decided that there will be no enlargement of the Scheme in the near future.

Accommodation will be available throughout the three years if required.

The Course is recognised for the M.R.C.G.P., D.C.H. and D.R.C.O.G.

The closing date is Friday, 23rd April, 1976 and the shortlisting will take place during the week of the 26th-30th April. Interviews will be held during the week of 10th-14th May, 1976.

Full details and an application form are obtainable from **The Course Organiser, Postgraduate Medical Centre, Peterborough District Hospital, Thorpe Road, Peterborough PE3 6OA.**

NOTTINGHAM VOCATIONAL TRAINING PROGRAMMES FOR GENERAL PRACTICE

Applications are invited from fully Registered doctors to join this established Scheme between June and August 1976. All those interested in a career in General Practice are invited to apply as the aim is to provide a "custom built" programme for each successful applicant. Candidates are likely to fit into one of the following:-

Basic 3-Year Programme

An introductory period of 3-6 months in General Practice is followed by a choice from the following six month jobs at S.H.O. level: General Medicine, Psychiatry, Obstetrics and Gynaecology, Paediatrics, Geriatrics and Accident and Emergency (with release to E.N.T., Ophthalmology, Venereology and Dermatology). The balance of one year in General Practice to complete the programme.

Modified Programme

For those with previous hospital experience at S.H.O. level or in a training General Practice, a purpose-built programme based upon the above pool of jobs is available. This is usually followed by a period in a Teaching General Practice for those who require it.

There is also a one-year rotation in Psychiatry and Dermatology with release to Ear, Nose and Throat, Venereology, Ophthalmology and Geriatric Departments. If required a period in a Teaching General Practice can usually be provided.

A weekly Seminar based on "The Family Life Cycle" is run for all Trainees and Trainers who also participate in the planning of the programme. All the resources of the Medical School are available and are used.

Past Trainees have taken and passed the M.R.C.G.P., D.C.H., Dip.Obst., and M.R.C.P. Recognition for these examinations still exists.

Accommodation is available during the introductory period in General Practice, hospital posts, and sometimes during the final period in General Practice.

Letters of application containing full details and Curriculum Vitae should be addressed to: District Administrator, North Nottingham Health District, Administrative Headquarters, Sherwood Hospital, Hucknall Road, Nottingham, NG5 1PD, together with the names and addresses of two referees, by 21st April 1976. Full details of the Scheme will be issued on application. (H10806) 21

COMMERCIAL APPOINTMENTS

Clinical Pharmacologist

The Company, Abbott Laboratories, is one of
the world's leading pharmaceutical companies
with a major investment programme of
research into new therapeutic compounds for
use in man. The appointment presents an
unusual opportunity to join a new Clinical
Pharmacology Unit being established at Esher
in Surrey, serving the Continent of Europe as
well as the UK.

Duties will include evaluation of data derived
from laboratory work, the planning of protocols
for further study, the identification, evaluation
and briefing of investigators throughout
Europe, and ultimately, the evaluation of all
data received from clinical investigators.
Studies will be conducted in phase I and early
phase II on compounds developed in our
Research Laboratories in the United States.

Ideally, candidates will have a Ph.D., or masters
degree in addition to their medical qualification.
Previous experience in industry is desired —
certainly some familiarity with clinical research

procedures will be expected. An ability to
converse in one or more European languages
(other than English) is desirable, but not
essential.

The post will be based on Esher but will involve
travel away from the office in the UK and
Europe for about one third of the time. A
Company car will be provided. Salary will be
negotiable in accordance with experience and
qualifications. Other benefits include
contributory Pension Scheme, free life
insurance, etc. Where necessary, generous
financial assistance will be given towards the
cost of moving home.

Applications should in the first instance be
submitted in writing, quoting reference AM.250,
and giving details of qualifications and
experience to:

APPOINTMENTS

Applicants for medical appointments are advised to check whether the post advertised is included in the Important Notice and to scrutinize carefully the remuneration and terms of service offered. Any member who is in doubt about these terms in relation to B.M.A. agreements should consult the Secretary of the Association.

Advertisers are reminded that the Race Relations Board insists that no descriptive term implying racial, national, or ethnic characteristics may be used in any advertisement. Further, readers are advised not to apply for any appointment which discriminates between applicants on grounds of creed or unreasonably on grounds of sex.

HOSPITAL APPOINTMENTS

Applicants should state names, address, age, nationality, and qualifications, and enclose (unless otherwise specified) one copy of each of three recent testimonials, with a short statement of experience and appointments held. Applications should be sent at once if no closing date is given: Canvassing disqualifies (Statutory Instrument, 1974, No. 361).

All National Health Service hospital appointments are in accordance with the Terms and Conditions of Service of Hospital Medical Staff.

Further details concerning standards of residential accommodation, telephone charges, removal allowances, study leave and other matters should be obtained from the Hospital Secretary; or by B.M.A. members from the Secretary, British Medical Association.

In particular, they will find full details of facilities provided in most hospitals in the United Kingdom in the current edition of the *Hospital Gazetteer*. If such details are not included members are advised to consult the Secretary of the B.M.A.

Applicants requiring hospital married accommodation are strongly advised to obtain, prior to interview, clarification in writing from the employing authority as to whether such accommodation will be available on appointment.

No advertisement may stipulate that a non-resident must live less than 10 miles from a hospital. Advertisements for post-registration house officers, senior house officers and registrars should state clearly whether the post is resident, i.e. compulsorily resident.

In all advertisements grade should be clearly indicated. Normally a consultant vacancy must be advertised as (a) part-time with the number of sessions clearly stated, or (b) whole-time with the option of maximum part-time.

In the view of the BMA, an advertiser should not insist on possession of English higher qualifications in preference to Scottish or Irish qualifications (or vice versa).

Rotational Training Scheme for SENIOR REGISTRARS

Applications are invited for the post of Senior Registrar in Mental Subnormality to this scheme which includes Chelmsley Hospital and Monyhull Hospital, Birmingham and Leas Hospital, Bromsgrove and Lea Castle Hospital, Kidderminster. The post is intended to run in parallel with the scheme already in existence for Senior Registrars in child psychiatry. It is intended that the successful candidate will spend nine months at each of either two or three hospitals for the mentally subnormal in the Birmingham area depending on individual requirements. During this period there will be an opportunity to take part in assessment and management of multiple handicapped children and also become acquainted with the work in special units for the cerebral palsied and deaf/blind; also in the rehabilitation of adolescent and adult mentally handicapped.

Three sessions per week will be spent over the whole training period in attending a child psychiatric out-patient clinic, this placement to remain constant regardless of movement between subnormality hospitals. In order to maintain continuity the facilities of newly opened Institute of Mental Subnormality at Lea Castle Hospital will be available to trainees. Higher qualification required. Accommodation, married or single, will be available as conveniently as possible or for the successful candidate must reside within ten miles Birmingham Area. Candidates invited to arrange to meet the Director of the Institute of Mental Subnormality (Tel: Wolverley 251), to discuss the appointment and at the same time they will be given an opportunity of viewing the various units in which they will be working and to visit the hospitals involved.

Application forms to be returned to Assistant Personnel Officer, 146 Hagley Road, Birmingham, B16 9PA, by the 1st May, 1976. (53653) 84-5

**CANCER CONTROL AGENCY OF
BRITISH COLUMBIA**

RADIATION ONCOLOGY OPPORTUNITIES

This new Agency has been established to develop a comprehensive programme in detection, treatment, prevention and education in cancer in this Province of 2.5 million people. A new position of Associate Director of the Agency for Radiation Oncology has been established and applications are being accepted for both this Associate Director and staff.

Full-time salaried staff opportunities exist at the Agency's centres in Vancouver and in Victoria, B.C. All positions will be held in conjunction with Faculty positions in the University of British Columbia. Salaries are competitive with those in Canada and the U.S.A. Fringe benefits are comparable to those at the University of British Columbia.

INSTITUTE IN VANCOUVER

Where all the radiotherapy is provided for 2,000,000 of the population in British Columbia and 3,300 new cancer patients are registered per annum. Of these, about 3,000 patients receive radiotherapy for malignant disease. The facilities include the following:

Linear Accelerator 1
Cobalt 60 Units 4
Caesium Unit 1
280 KV Deep X-ray Unit 1
Superficial X-ray Unit 1

Radium is used for gynaecological cases and for moulds and implants. Other isotopes are also used in treatment.

Pre-clinical work in Radiation Biology is going on now for the "TRIUMF" Cyclotron at the University of British Columbia, with a view to starting clinical trials with negative pi-mesons in about two years. The cyclotron is already working with a beam of low intensity and pi-mesons are being delivered to the treatment room. Basic research in Radiosensitizing agents is also done in the Radiation Biology Section.

The Physics Section in the Institute has four physicists, one assistant physicist, plus technical staff.

An extensive Mould Room and Prosthetics facility is operated in the Institute and this enables a high standard of beam directed radiotherapy to be given, plus the use of moulds, etc. Prosthetics are made for patients coming from all of Western Canada.

There are 56 beds in the Institute and additional gynaecology beds in the adjacent Vancouver General Hospital for radium insertions. Expansion to 85 is in the planning stage.

There is an active training programme in Clinical Radiation Oncology, and a training programme in Medical Oncology was started in July 1976.

An active Medical Oncology Section is operated in the Institute, and this is being expanded to include work in Clinical Pharmacology. Clinical co-operative therapy trials are also encouraged, including collaboration in national Canadian protocols, and collaboration in U.S.A. protocols.

VICTORIA CLINIC

The Agency's clinic on Vancouver Island is located in the Royal Jubilee Hospital, one of the larger general hospitals in Victoria. This clinic services the largest portion of cancer patients on this island of 400,000 persons.

Between 600 and 700 new cancer patients are seen each year. The equipment includes:

Cobalt 60 Unit 1
300 KV X-ray Unit 1
Superficial X-ray Unit 1
Radium for Gynaecology cases

Additional equipment is being planned for installation over the next two years, along with a mould room. The physicist at present works half-time in the clinic and half-time at the University of Victoria (Physics Department); a full-time physicist member of the Agency's Physics Section is planned.

At present there is one Radiation Oncologist on the Victoria staff and this is now being increased to two. Two new Medical Oncology positions have also been established. Preparations for integration of all Victoria Clinic activities with those of the Institute are under way, to include a training programme.

Applicants should apply, stating areas of special interest within Radiotherapy (e.g. Paediatrics, Gynaecology, etc.) to Thomas C. Hall, M.D., Director, Cancer Control Agency of British Columbia, 2656 Heather Street, Vancouver, B.C., Canada, V5Z 3J3, and include a curriculum vitae, time of availability, and expected salary range.

THE ROYAL NORTH SHORE HOSPITAL OF SYDNEY St. Leonards, Australia

DIRECTOR OF INTENSIVE CARE

This new position has been established in association with the development of a Critical Care Facility of 52 beds as part of a new 650-bed ward block. The Facility has been designed to aggregate on one floor, units devoted to coronary care, chronic respiratory failure, post-operative cardiac and neurosurgery and acute quadri and paraplegia, as well as intensive care as generally understood. The Physical arrangements of the facility are designed to promote fruitful inter disciplinary consultation between specialists in the branches mentioned and practitioners devoting themselves to Intensive Care. The position is one offering considerable challenge and opportunity to the successful applicant. Applicants should have a postgraduate specialist qualification in any suitable branch of medicine together with significant intensive care experience.

The appointee will have the opportunity to participate in the establishment of policy guidelines for the facility and will be responsible for the development of administrative and teaching programmes for the whole area as well as for the management of patients in those intensive care fields in which he has a particular interest. Conditions of Service are in accordance with the N.S.W. Hospital Staff Specialists' Award (Current salary range \$A22,000 to \$A31,500 approx.). A limited Right of Private Practice (16% of salary plus participation in Study and Conference Leave benefits) may be granted by the Hospital Board.

Further particulars concerning the position and copies of the Hospital's Application Form can be obtained from Dr. B.R. Catchlove, Director of Medical Services, Royal North Shore Hospital of Sydney, St. Leonards, N.S.W. 2065, Australia. Applications for the above position should be lodged with I.R. Vanderfield, General Medical Superintendent, by 1st June, 1976. (H10990) 118

THE ROYAL NORTH SHORE HOSPITAL OF SYDNEY N.S.W. Australia

STAFF SPECIALIST ANAESTHETIST (New Position)

Intending Applicants should hold a Specialist qualification in Anaesthetics of equivalent status to that of the F.F.A.R.A.C.S. Additionally they should be able to show experience beyond that appropriate to the obtaining of such diploma. Preferably this experience should have been given to the development of special fields of interest in the practice of anaesthetics. The Royal North Shore Hospital is a Teaching Hospital of the University of Sydney and is currently opening a new 650-bed ward block. The anaesthetic practice of the hospital encompasses all sub-specialties.

The successful applicant will be expected to participate in the general work of the Anaesthetic Department and in postgraduate and undergraduate medical and nursing teaching. He will also be encouraged to develop his specialised fields and will have the opportunity to undertake related research. Conditions of Service are in accordance with the N.S.W. Hospital Staff Specialists' Award (Salary range \$A21,962 to \$A30,176). A limited Right of Private Practice (16% of salary plus participation in Study and Conference Leave benefits) may be granted by the Hospital Board.

THE NETHERLANDS De Wever Hospital at Heerlen

CLINICAL NEUROPHYSIOLOGIST

We are looking for a young clinical neurophysiologist, who has just finished his training, and who is willing to work for one or two years in our Department of Clinical Neurophysiology.

The De Wever Hospital is a 900 bed hospital in the southern part of the Netherlands. The department is led by two full time clinical neurophysiologists. Apart from EEG and EMG investigations, extensive studies are made on blood velocity in the cerebroretal vessels, using the ultrasonic Doppler technique. The department has its own computer facilities (24K).

The task will include participation in the routine investigations asked for by the clinicians, as well as in the departmental research, especially computer analysis of biopotentials.

Gross salary: 70.000 Dutch guilders (= about £ 13.000) per annum.

Further information may be obtained from Dr. J. Mol, De Wever Hospital at Heerlen, Netherlands. (26707)—118
