

**When
dizziness
dominates...**

Dizziness usually causes anxiety – and sometimes results from it. So, either way, you need to steady the patient not only physically but emotionally too.

'Stemetil' does just that.

Promptly controls both dizziness and related nausea and sickness, whether the aetiology is organic or psychogenic.

Rapidly and without sedating restores the calm that allows, in the one context, a more relaxed view of the basic condition, and, in the other, its full resolution.

Use 'Stemetil' routinely therefore whenever dizziness dominates – for emotional as well as physical equilibrium. You'll be surprised at the difference it makes!

**...Stemetil
restores
perspective
-physically and emotionally**

Specialist Journals on MICROFICHE

Since January 1976 all the BMA Specialist Journals have been published in a microfiche edition simultaneously with the standard paper editions. Overseas subscribers to the microfiche editions will receive microfiches, by AIR MAIL, within days of publication. The availability of the microfiche editions should have great appeal to libraries and other readers far distant from the United Kingdom.

The microfiche produced for the British Medical Association conform to the international standard as laid down by the National Microfilm Association of America. These microfiches are produced by a step and repeat camera with duplicates produced on silver halide film for archival permanence. Each fiche measures 105 mm × 148 mm and can contain up to 98 images filmed at a reduction ratio of 24 × along with an eye readable title for identification. Details of microfiche volume binders are available on request.

The subscription prices for each annual volume on microfiche are as follows:

*True human oestrogen replacement therapy
in the menopause*

Hormonin®

(Oestriol, Oestradiol, Oestrone)

The physical and mental distress of so many women during the menopause is generally attributed to the steep decline in oestrogen production by the ovaries. Nocturnal sweating, nervousness, insomnia, depression, headaches, and 'hot flushes' can, in most cases, be alleviated by replacing these depleted oestrogen levels with natural oestrogen content of HORMONIN®.

Because HORMONIN® provides a balanced intake of natural oestrogen hormone - not the substitute animal oestrogens or non-hormonal synthetic oestrogens of less sophisticated therapies - patient response is more predictable while side-effects are confined to the minimal.

HORMONIN's® simple dosage scheme - normally one daily tablet - can be adjusted to the patient's individual needs, thus providing relief of symptoms for the majority of patients.

HORMONIN® is a registered trade mark.

Each pink tablet contains oestriol 0.27mg; oestradiol 0.6mg; oestrone 1.4mg.

**THE FINEST PRIVATE PSYCHIATRIC HOSPITAL IN BRITAIN IS IN NORTHAMPTON**

St. Andrew's Hospital, which was established in 1838 as a non-profit making charitable foundation, is a progressive hospital staffed and equipped for the treatment of every type of psychiatric illness.

All patients are under the care of Consultant Psychiatrists.

In general, short stay patients are admitted to Isham House, a luxuriously appointed Nursing Home in the grounds. The accommodation consists of private bedrooms, most of which have private bathrooms. All forms of treatment are available, with emphasis on individual and group psychotherapy.

Facilities for occupational therapy and recreation are excellent, and include a 9-hole golf course, squash court, tennis courts, swimming pool and a Social Centre with restaurant, shop and hairdressing salon. All these are set in the hospital's own 100 acres of well-wooded grounds.

Long stay and psychogeriatric admissions are into the main hospital which has been modernised specifically for the purpose. Again, accommodation is mostly in private bedrooms.

St. Andrew's Hospital is only 65 miles from London and is easily accessible from all parts of the country by rail and road.

B.U.P.A., and P.P.P., subscribers are able to claim benefit in respect of their treatment fees.

St. Andrew's Hospital offers the highest standards of treatment for the whole spectrum of psychiatric illness in an ideal environment.

Further particulars, including fees, may be obtained from the Medical Director, St. Andrew's Hospital, Northampton, (Tel. 0604 21311) who can be seen in consultation by appointment at the hospital.

Multiple Sclerosis Research

Proceedings of a joint conference held by the Medical Research Council and the Multiple Sclerosis Society of Great Britain and Northern Ireland.

The causation of multiple sclerosis, one of the commonest primary diseases of the central nervous system, is unclear. Recent major advances into the nature of the disease were reviewed by fifty scientists of international repute at a conference in October 1974, and the collected papers presented and the discussions which accompanied them are here published.

The rôles of measles and other viruses, genetic and environmental factors are critically reviewed, and methods of treatment, including diet and immunosuppression, are discussed.

The book will provide a valuable background to current work on multiple sclerosis.

MEET THE CALMURID BROTHERS

Urea is now known to possess antipruritic, keratolytic and antibacterial properties, and can produce a marked rise in the water content of treated dry skin. Until recently, the instability of urea solution prevented other than extemporaneous preparations being used. However, the Calmurid

formulation has overcome the problem. Calmurid Cream rehydrates and softens thickened and dry skin; Calmurid HC is indicated where hydrocortisone is needed additionally to deal with inflammation.

FOR DRY SKIN

Whether the dry scaling skin in ichthyosis or the horny masses of tylosis of the hands or feet, Calmurid disperses the horny scales and raises the water content of the skin towards normal. In patients with severe ichthyosis Calmurid was the most effective of four preparations tested.¹ In other studies resistant cases showed remarkable clinical improvements in a few days² with parallel biochemical improvement³. Calmurid was found most valuable in the treatment of hyperkeratotic feet⁴. Carbamide (urea) B.P. 1968 10% in a stabilising emulsified base; tubes of 50 and 100g.

**There is
a Sister
Too.**

Calmurid Solution (20% Urea) represents a step forward in the treatment of psoriasis of the scalp, seborrhoeic eczema and seborrhoea — no tar, no steroids. Data sheet available on request.

FOR ECZEMA

Eczema characteristically has inflammation and frequently a dry scaly covering. Calmurid HC, by its dispersive and rehydrating actions on the scale allows hydrocortisone to exert its full anti-inflammatory effect. So effective is this combination that Calmurid HC has been found to be as effective as the commonly used fluorinated steroids^{5,6} yet it achieves this without the risks of skin damage and systemic effects associated with them. Hydrocortisone has negligible atrophic action on skin⁷. Carbamide (urea) B.P. 1968 10%, hydrocortisone 1% in a stabilising emulsified base; tubes of 30g.

There's no smoke without fire... ...make sure there's no fire without Insurance.

Your Property

You have probably insured your home against fire, but how long is it since you increased the cover? It is vital that you should insure for the current cost of re-building, plus the cost of clearing the site and architects fees so that you will be properly compensated in the event of partial or total destruction of your property. Costs can vary widely for different forms of construction, particularly non-traditional, but for a normal private dwelling house one should allow between £13-£15 per sq. ft. for rebuilding.

Your Contents and Valuables

The cost of replacing furniture and clothes increases week by week. Again it is important to see that cover remains adequate. Policies are now available which will provide cover on a "New Lamps for Old basis" for most items. This wider cover can be provided for a small outlay.

Don't wait until it's too late—Fill in and return the coupon below for further information. Alternatively, the sums insured under your present policy will be increased upon receipt of the coupon appropriately completed

THE UNIVERSITY OF LEEDS DEPARTMENT OF PAEDIATRICS AND CHILD HEALTH DEPARTMENT OF COMMUNITY MEDICINE AND GENERAL PRACTICE

COURSE ON DEVELOPMENTAL PAEDIATRICS

It is proposed to hold a further course for the academic year 1976/77 in association with Child Health Specialists in the Leeds Region.

The Course will consist of three terms commencing 27 September, 1976. The first term begins with a full week's introduction to the main theme followed by one day per week on Wednesdays at the postgraduate centre at Seacroft Hospital, Leeds. The final term is on a day per week basis except for the last 3 days when a written and clinical examination will take place together with the presentation of dissertations. Successful candidates will be awarded an appropriate certificate.

The first week, 27 September-1 October 1976, is a self-contained introductory course to Developmental Paediatrics, including demonstrations of practical tests. Applications are invited for attendance for this week only. Fee £20.

The outline of the syllabus is as follows:

Term I: Developmental Paediatrics

Term II: The Child with Physical Handicap

Term III: The Child with Emotional and Educational Problems

The Course is recognised by the National Health Service Regulations 1974 and provides valuable in-service training for medical officers wishing to remain in the clinical field of community child health.

LINCOLN VOCATIONAL
TRAINING SCHEME
FOR GENERAL PRACTITIONERS

Applications are invited from Post-Registration Graduates for two places in the Vocational Training Scheme which will be available on 1st August, 1976. This training programme commences with an initial period of three months in a teaching practice, followed by two years rotational S.H.O. posts at Lincoln County Hospital and St. George's Hospital, and a final nine months in the teaching practice. The hospital posts (six months in each) will be spent in General Medicine, Obstetrics with Gynaecology, Paediatrics and Geriatrics with Infectious Diseases. All of which offer a wide range of clinical experience in busy and interesting jobs under experienced Consultants, all of whom are good teachers. The posts are recognised for the M.R.C.G.P. and D.C.H. and the D.R.C.O.G.

The scheme will be based on the new and well equipped Postgraduate Medical Centre at Lincoln County Hospital where an excellent library is available. The emphasis on this scheme will be upon training for Rural Practice. A half day release course is run throughout the three years. The subjects discussed are arranged to cover a wide variety of important matters not covered by other parts of the course. There will also be an opportunity for trainees to attend out-patient clinics as if felt necessary. There is also a Trainer/Trainee Workshop session which takes place once a month. Married accommodation may be available throughout the three year period.

Applications, enclosing curriculum vitae and naming two referees, should be sent as soon as possible to District Personnel Officer, Lincolnshire Area Health Authority, North Lincolnshire District, 1 St. Anne's Road, Lincoln, LN2 5RA. (53612) 21

APPOINTMENTS

Applicants for medical appointments are advised to check whether the post advertised is included in the Important Notice and to scrutinize carefully the remuneration and terms of service offered. Any member who is in doubt about these terms in relation to B.M.A. agreements should consult the Secretary of the Association.

Advertisers are reminded that the Race Relations Board insists that no descriptive term implying racial, national, or ethnic characteristics may be used in any advertisement. Further, readers are advised not to apply for any appointment which discriminates between applicants on grounds of creed or unreasonably on grounds of sex.

HOSPITAL APPOINTMENTS

Applicants should state names, address, age, nationality, and qualifications, and enclose (unless otherwise specified) one copy of each of three recent testimonials, with a short statement of experience and appointments held. Applications should be sent at once if no closing date is given: Canvassing disqualifies (Statutory Instrument, 1974, No. 361).

All National Health Service hospital appointments are in accordance with the Terms and Conditions of Service of Hospital Medical Staff.

Further details concerning standards of residential accommodation, telephone charges, removal allowances, study leave and other matters should be obtained from the Hospital Secretary; or by B.M.A. members from the Secretary, British Medical Association.

In particular, they will find full details of facilities provided in most hospitals in the United Kingdom in the current edition of the *Hospital Gazetteer*. If such details are not included members are advised to consult the Secretary of the B.M.A.

Applicants requiring hospital married accommodation are strongly advised to obtain, prior to interview, clarification in writing from the employing authority as to whether such accommodation will be available on appointment.

No advertisement may stipulate that a non-resident must live less than 10 miles from a hospital. Advertisements for post-registration house officers, senior house officers and registrars should state clearly whether the post is resident, i.e. compulsorily resident.

In all advertisements grade should be clearly indicated. Normally a consultant vacancy must be advertised as (a) part-time with the number of sessions clearly stated, or (b) whole-time with the option of maximum part-time.

In the view of the B.M.A., an advertiser should not insist on possession of English higher qualifications in preference to Scottish or Irish qualifications (or vice versa).

SALARY SCALES OF HOSPITAL MEDICAL STAFF

HOUSE OFFICER: Each post in this grade shall be tenable for six months. £2,859 per annum for the posts held during the first year; £3,075 per annum for posts held during the second year; £3,294 per annum for posts held during the third and subsequent years, subject to full registration.

CANCER CONTROL AGENCY OF BRITISH COLUMBIA

RADIATION ONCOLOGY OPPORTUNITIES

This new Agency has been established to develop a comprehensive programme in detection, treatment, prevention and education in cancer in this Province of 2.5 million people. A new position of Associate Director of the Agency for Radiation Oncology has been established and applications are being accepted for both this Associate Director and staff.

Full-time salaried staff opportunities exist at the Agency's centres in Vancouver and in Victoria, B.C. All positions will be held in conjunction with Faculty positions in the University of British Columbia. Salaries are competitive with those in Canada and the U.S.A. Fringe benefits are comparable to those at the University of British Columbia.

INSTITUTE IN VANCOUVER

Where all the radiotherapy is provided for 2,000,000 of the population in British Columbia and 3,300 new cancer patients are registered per annum. Of these, about 3,000 patients receive radiotherapy for malignant disease. The facilities include the following:

Linear Accelerator 1
Cobalt 60 Units 4
Caesium Unit 1
280 KV Deep X-ray Unit 1
Superficial X-ray Unit 1

Radium is used for gynaecological cases and for moulds and implants. Other isotopes are also used in treatment.

Pre-clinical work in Radiation Biology is going on now for the "TRIUMF" Cyclotron at the University of British Columbia, with a view to starting clinical trials with negative pi-mesons in about two years. The cyclotron is already working with a beam of low intensity and pi-mesons are being delivered to the treatment room. Basic research in Radiosensitizing agents is also done in the Radiation Biology Section.

The Physics Section in the Institute has four physicists, one assistant physicist, plus technical staff.

An extensive Mould Room and Prosthetics facility is operated in the Institute and this enables a high standard of beam directed radiotherapy to be given, plus the use of moulds, etc. Prosthetics are made for patients coming from all of Western Canada.

There are 56 beds in the Institute and additional gynaecology beds in the adjacent Vancouver General Hospital for radium insertions. Expansion to 85 is in the planning stage.

There is an active training programme in Clinical Radiation Oncology, and a training programme in Medical Oncology was started in July 1976.

An active Medical Oncology Section is operated in the Institute, and this is being expanded to include work in Clinical Pharmacology. Clinical co-operative therapy trials are also encouraged, including collaboration in national Canadian protocols, and collaboration in U.S.A. protocols.

VICTORIA CLINIC

The Agency's clinic on Vancouver Island is located in the Royal Jubilee Hospital, one of the larger general hospitals in Victoria. This clinic services the largest portion of cancer patients on this island of 400,000 persons.

Between 600 and 700 new cancer patients are seen each year. The equipment includes:

Cobalt 60 Unit 1
300 KV X-ray Unit 1
Superficial X-ray Unit 1
Radium for Gynaecology cases

Additional equipment is being planned for installation over the next two years, along with a mould room. The physicist at present works half-time in the clinic and half-time at the University of Victoria (Physics Department); a full-time physicist member of the Agency's Physics Section is planned.

At present there is one Radiation Oncologist on the Victoria staff and this is now being increased to two. Two new Medical Oncology positions have also been established. Preparations for integration of all Victoria Clinic activities with those of the Institute are under way, to include a training programme.

Applicants should apply, stating areas of special interest within Radiotherapy (e.g. Paediatrics, Gynaecology, etc.) to Thomas C. Hall, M.D., Director, Cancer Control Agency of British Columbia, 2656 Heather Street, Vancouver, B.C., Canada, V5Z 3J3, and include a curriculum vitae, time of availability, and expected salary range.

THE NORTH BRISBANE HOSPITALS BOARD PATHOLOGIST IN CHARGE ROYAL WOMEN'S HOSPITAL AND CYTOLOGY SERVICE

Applications are invited from pathologists with a particular interest and experience in cytology for the above position. The appointee will be expected to exercise direct control over the cytology laboratory, situated at the Women's Hospital and to supervise the work of the pathology laboratory at the Women's Hospital. An appointee with special interest in gynaecological and/or neonatal pathology would be encouraged to maintain involvement in this work, and if desired in other areas of anatomical pathology.

The Royal Women's Hospital with 300 beds and some 9,000-10,000 confinements per year is part of the Royal Brisbane Hospital Complex, which also includes the Royal Brisbane Hospital itself, the Royal Children's Hospital and a psychiatric hospital. The complex is the main teaching centre for the University of Queensland Medical School. Gynaecological cases are currently admitted to the Royal Brisbane Hospital but transfer to the Women's Hospital is under consideration.

The Cytology Laboratory processes cervical smears and other material from all over Queensland and is expected to receive 100,000 specimens per year by 1978. The pathology laboratory handles the bulk of the hospitals investigations but some tests are performed in laboratories of the Pathology Department, Royal Brisbane Hospital, with which there is a close liaison.

The salary for the position is currently \$A30,324. The successful applicant will be required to contribute to the State Service Superannuation Fund.

Further information can be obtained from the **Director of Pathology, Royal Brisbane Hospital**, but applications, listing full personal particulars and naming two referees should reach the **Executive Director — Medical Services, the North Brisbane Hospitals Board, Base Hospitals Post Office, Brisbane, 4029 not later than 31st May, 1975.** (5763)

WAIKATO HOSPITAL BOARD

MEDICAL SUPERINTENDENT
Waikato Hospital and
DEPUTY SUPERINTENDENT-IN-CHIEF
Waikato Hospital Board, Hamilton, New Zealand.
Applications are invited from suitably qualified medical officers for the above position which is of specialist status. The position required the appointee to possess wide clinical and administrative abilities and hold the Diploma of Health or similar qualification or a higher qualification.
The salary with the above scale range \$14,256-\$18,365, the commencing rate being determined according to the qualifications, experience, status and ability of the appointee. In addition to this scale, there are four further salary rates of \$18,673, \$19,571, \$20,596 and \$22,734, these rates being subject to determination by the Medical Officers Salaries Grading Committee. A supplementary allowance of 10% of basic salary is payable in respect of hours of work in excess of forty per week.
Waikato Hospital is the Board's base hospital of 920 beds and provides a full range of specialist services other than neurosurgery and open heart surgery. The hospital is recognised by the various colleges for special training and has an active educational programme organised by a Director of Medical Education. The hospital is situated in the city of Hamilton, a fast growing city with a population of 90,000. There are good schools including eleven higher schools, a university, a teachers' training college and a Technical Institute. It is the centre of a charming pastoral and farming area with ready access to beautiful beaches, ski fields and mountains.
Application papers and conditions of appointment may be obtained from the Chief Executive, Waikato Hospital Board, P.O. Box 934, Hamilton, New Zealand with whom applications close on 21st May, 1976.
