## Today's Treatment (1976)

### TO BE PUBLISHED SHORTLY

Faced with a succession of new drugs, doctors need authoritative advice on the selection of the most effective remedies for common disorders; and that is the aim of *Today's Treatment*. This first volume contains articles published in the *BMJ* in 1974-75 on disorders of the skin and blood and on psychiatric and neurological diseases. These simple clear accounts of assessment and management provide all the information needed for a rational choice of the best treatment for each individual patient.

Price £4.00 (U.S.A. \$12.00)

## Aspects of Sexual Medicine (1976)

Freer discussion of sexual matters on television and in the popular press has led to many more patients approaching their doctors for advice on sexual problems. The articles collected together in this book give practical advice on common problems such as impotence and on the help and guidance that may be given to handicapped patients and others with special difficulties. Few doctors received adequate instruction on sexual medicine at their schools: *Aspects of Sexual Medicine* brings them up to date.

Price: £2.00 (U.S.A. \$6.00)

## Personal View—An Anthology (1975)

Since the feature started in 1968 Personal View has been one of the most popular pages of the B.M.J. A hundred of these have now been gathered together in an anthology, to which an introduction has been written by a noted Personal View contributor, Dr Mahadeva of Ceylon, Sri Lanka. The subjects of the views contained in this anthology range from experience of practice all over the world to work as a schoolteacher, the role of music in medicine, learning to be a farmer's wife, and running a fringe event at the Edinburgh Festival.

Price £3.00 (U.S.A. \$9.00)

## Medicine in Old Age (1974)

The series of twenty two articles published in the *British Medical Journal* throughout the winter have been collected in book form as a convenient source of reference for general practitioners. The emphasis is on remedial mechanisms, and the use that can be made of psychogeriatric and social services in keeping the elderly healthy and relatively independent members of the community.

# Slimming with Bread

Some typical slimmers' questions answered by

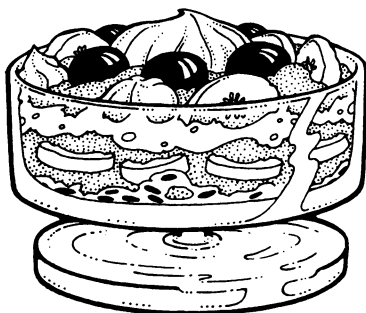

**Derek Miller**

Lecturer in Nutrition at London University

## 1. Should I give up bread completely?

"A slimming diet certainly may contain bread. In fact, it's a convenient method of ensuring that a diet contains an adequate supply of most nutrients, since bread provides an important quantity of protein, vitamins, and minerals. If you give up bread, you will need to get these from other more expensive foods. It's also good training for maintaining weight after your target weight is achieved; because one learns the calorie value of ordinary foods, rather than knowing only about so-called 'slimming' foods which you don't intend to use for the rest of your life."

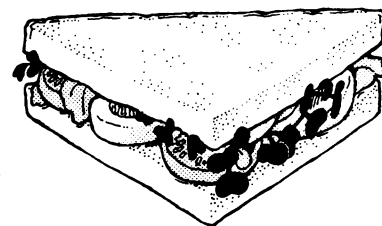

## 2. Must I cut out all high-calorie foods?

"It's necessary to reduce your total calorie intake. For many people, it's easier to cut down on high calorie foods like fat which, incidentally, contain more than 3 times the number of calories in bread on an ounce-for-ounce basis. Really low-calorie foods (e.g. lettuce and tomatoes) are clearly an advantage and can be used as sandwich fillings."

## 3. What's the best way to avoid an expensive slimming diet?

"Many slimming diets are expensive, some very expensive. There's no need for this. If you're going to eat less food, diets should be cheaper than normal. The easiest thing to do is to stick to ordinary foods and learn their calorie values. Generally it is more sensible to cut down on 'empty calories', i.e. foods which contain little or no nutrients, such as sugar confectionery; but for those with a sweet tooth, small indulgences can be included, so long as they are calorie-counted."

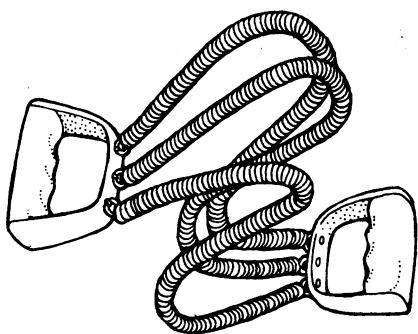

## 4. Are regular sandwich lunches a bad thing on their own?

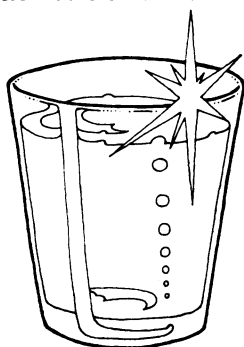

"It's a common fallacy that hot meals are essential for good nutrition. But this is not so. Most sandwich lunches are highly nutritious, but slimmers should avoid high calorie fillings."

## 5. How much help is exercise, and what kinds help most?

"The energy cost of exercise is disappointingly small. To lose weight by exercise alone is almost impossible unless you change your occupation and become a coal miner or lumberjack."

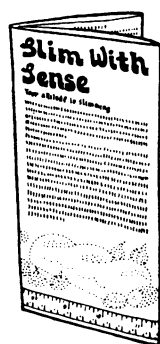

A weekend game of golf helps very little. On the other hand, exercise may help the successful slimmer to improve her shape by increasing muscle tone and reducing flab. The exercise of particular muscle groups can improve measurements—but has little effect on the weight."

## 6. Is it true that you should avoid liquid, even water, during a meal?

"Some charlatan diets restrict fluid intake with the suggestion that obesity is due to too much body water rather than too much fat. This is nonsense. The body normally controls its fluid content very carefully and, if it does *not*, your problem is more serious than being overweight. Such cases are rare except in famine—and they require medical attention."

'*Slim with Sense*' tells you about the *essential* foods, the quantities to eat, the foods to avoid at all costs, and the foods which can be consumed in large quantities. It also tells how to diet sensibly without giving up bread.

If you would like a free copy of '*Slim with Sense*' just send a stamped self-addressed envelope (measuring not less than 9" x 4") to Dept. 1, The Flour Advisory Bureau, 21 Arlington Street, London, SW1A 1RN. (*Enquiries from UK residents only*).

# Stop him messing about!

Frequent shampoos and messy gels often add to the misery of severe dandruff for your patients. Quite often, too, they are unsuccessful.

Betnovate Scalp Application can stop your patients scratching for an answer to the irritation and inflammation associated with this problem.

Betnovate Scalp Application provides the clear, simple and swift solution to the problem of severe dandruff.

Betnovate Scalp Application, containing betamethasone valerate in a special base, spreads easily and evenly over the scalp. And the special nozzle gets right down to the lesions.

## Betnovate Scalp Application— a clear answer to dandruff

Betnovate Scalp Application is available in 30 and 100 gram plastic squeeze bottles.

# Alternative dosage regimen of Caved-S produces impressive results in chronic duodenal ulcer

Endoscopic examination proved chronic duodenal ulceration in 32 male patients, whose clinical histories ranged from 2 to 30 years.<sup>1</sup>

## ADEQUATE DOSAGE

2 Caved-S tablets 5 times daily for up to 24 weeks

"... the daily dose selected was the median of that advised in a series of patients treated with deglycyrrhizinized liquorice tablets who had failed to respond to other measures and had been referred for surgery . . ."<sup>1</sup>

## THOROUGH CHEWING OF THE TABLETS

mixing Caved-S with the saliva appears to play an important role.

"Saliva may have a role of its own or a synergistic action with constituent of the liquorice extract. Work in India (Malhotra *et al*, 1965) has suggested that eating foods which do not require chewing results in an increased incidence of duodenal ulceration and that saliva exerts a protective action in peptic ulceration (Malhotra 1967; Malhotra, 1967)."<sup>1</sup>

## SWALLOWING ON AN EMPTY STOMACH

allows the bolus of Caved-S and saliva to reach the prepyloric area of the stomach, where maximum demulcent effect and healing occur.

"The advice that the agent should be taken on an empty stomach in the ambulant patient could be crucial. Simple studies on patients presenting for barium-meal examination have shown that if a small sip of barium is taken while in an upright position when the stomach is empty the bolus of barium rapidly travels down the lesser curve of the stomach and comes to rest in the prepyloric region. This may effectively produce a 'positioned release' preparation, and the bolus of mixed saliva and deglycyrrhizinized liquorice would appear to be strategically placed to exert maximum demulcent or healing effect."<sup>1</sup>

## RESULTS

Endoscopic examination showed that Caved-S had healed the ulceration in ALL 32 patients and in most the mucosa appeared normal.

## COMMERCIAL APPOINTMENTS

# MEDICAL ADVISER Hampshire

We are one of the UK's major pharmaceutical manufacturers with international operations on both the ethical and proprietary sides.

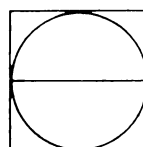

As Medical Adviser, you will be very much involved in our product development activities—both in defining the role of new products and in establishing new indications for existing ones. Reporting to the Medical Director, you will initiate, progress and control clinical trials in conjunction with the Clinical Trials Manager, and prepare medical information for promotional purposes. You will work closely with the Sales and Marketing functions, and another aspect of your brief will involve some lecturing and maintaining effective links with the medical profession.

This demanding post will appeal to you if you are a doctor interested in clinical pharmacology or a research-orientated hospital clinician. Either way, you are likely to be in the 30-45 age bracket and interested in gaining experience in industry. It is particularly important that you have an up-to-date—and well maintained—knowledge of medical affairs. Previous experience in the pharmaceutical industry is not essential.

We offer an attractive salary, car, plus good fringe benefits and relocation to this attractive part of the South Coast.

Please write with brief details to:

M. S. Warner, Personnel Director, William R. Warner & Co. Ltd., Chestnut Avenue, Eastleigh, Hants. SO5 32Q.

## Had enough?

Ready for a change? Thinking of emigrating? Don't. Medical Advisers in the pharmaceutical industry currently earn roughly £7,000—£10,000: Senior Medical Advisers and Medical Directors of small departments, £9,000—£12,000: heads of large departments, *anything* over £12,000 and doctors in senior management are earning £20,000 plus, all in the U.K. We do have our problems and frustrations but we'd rather have ours than yours. Want to join us?

The Medical Director of the A. H. Robins Company is being promoted within the company (which will continue to grow and expand) so we are looking for a Medical Adviser to replace him with a view to becoming Medical Director in a few years if the new man or woman works out as we hope. We are not looking for drop-outs even though no experience is necessary; we want someone who has seen a bit of life and is

now pretty sure that they can find contentment and be efficient in a commercial setting.

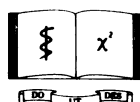

The work involves checking advertising and promotional material for medical accuracy, a little training of reps, handling medical queries, advising management on medical aspects of marketing, new product acquisitions and reformulations, dealing with the Committee on the Review of Medicines and the Committee on Safety of Medicines, much clinical testing of products prior to marketing and afterwards, and so on. The person will be expected to devote half a day each week to an honorary clinical session of their choice.

The company is located at Horsham, Sussex (area delightful, natives insular, civilisation nearby). The small team that makes up the department is happy and harmonious and needs someone of similar disposition. Might that be you? Please write for further information to:

# Medical Officer

A member of our team of doctors is due to retire soon and we are looking for someone to join the Medical Service based at Harwell. The Medical Service meets the occupational health needs of the 7,000 employees at the Harwell and Culham Laboratories of the United Kingdom Atomic Energy Authority and of the other laboratories on the same sites.

The doctor will work as a member of an existing team in a well-equipped medical centre which has its own clinical pathology laboratory, physiotherapy department and X-ray facilities. These are widely used by local practitioners and there is an excellent liaison with hospitals in the vicinity. It is possible that a clinical post in hospital may also be available. The successful applicant will also be encouraged to participate in the research projects of the Environmental and Medical Sciences Division.

The post should be attractive to a doctor with several years' experience in appropriate fields, with the ability and motivation to develop his/her own career in occupational health.

The salary will be assessed according to qualifications and experience within the range £7,480 to £10,235 per annum. There is a contributory superannuation scheme and generous leave allowance, and rented housing, assistance with house purchase or single accommodation may be made available.

*Further details and application forms may be obtained from:*

**OCCUPATIONAL HEALTH**

# DOCTOR OCCUPATIONAL HEALTH

London Transport is seeking a doctor for a new post within its Medical Service which provides a full occupational health service for 60,000 staff.

The selected applicant will be a registered medical practitioner with experience in occupational medicine; should preferably be 35-45 and possess a D.I.H. or other appropriate higher qualification.

In addition to including the normal practice of clinical and environmental occupational medicine the post will carry responsibility for recommending to the Chief Medical Officer future developments in the health care of London Transport staff in the light of current trends in preventive medicine. The post, therefore, offers wide scope and prospects to the right person. Starting salary will depend on age, qualifications and experience — around £8,500. There are valuable free travel concessions on and off duty and there is a contributory superannuation fund.

Applications, giving age and full details of qualifications and experience, together with the names of three referees, should be sent to the Chief Establishment Officer (Ref. F/V0202), London Transport, 55 Broadway, SW1H 0BD to arrive not later than Monday 10th May, 1976.

## UNIVERSITY AND RESEARCH APPOINTMENTS

## Northern Regional Health Authority and The University of Newcastle Upon Tyne Postgraduate Dean of Medicine and Regional Director of Postgraduate Medicine

Applications are invited for the whole-time appointment of Medical Postgraduate Dean and Director of the Regional Institute of Postgraduate Medicine and Dentistry.

The post combines the responsibilities previously undertaken by two individuals, one with a small part-time commitment, as it now felt that integration of the posts will unify the contributions of the University and the Regional Health Authority in the development and co-ordination of postgraduate activities in the region as a whole and within the setting of the reorganised NHS.

The post is a joint one as between the University and the Northern Regional Health Authority and the successful applicant, based on the Regional Institute accommodated in the Medical School, will work in close association with the Dean of Medicine, the Postgraduate Sub-Dean of Dentistry, the Clinical Tutors and the Regional Medical Officer of the Regional Health Authority. He or she will be ex-officio Chairman of the University Medical Postgraduate Committee, the Regional Medical Postgraduate Subcommittee (of Clinical Tutors), and the Committee for the Selection of Senior Registrars and Registrars.

The previous experience of the successful candidate may have been acquired in any of a variety of appointments. He or she will have extensive senior clinical or academic medical experience and will have had some administrative experience. An interest in, or experience of, current national policies and university or regional arrangements for supervising and promoting the development of postgraduate training and continuing education in medicine will be an advantage.

The post offers a considerable challenge to an experienced clinician in the development of postgraduate medical education in a region of considerable standing in this field and the successful applicant can confidently count on a high degree of support and assistance from those also involved in both the university and health fields. Remuneration will be on the consultant scale.

Application forms may be obtained from the Regional Medical Officer, NE6 4PY, who would be pleased to meet prospective applicants or to provide further information about the post. The closing date for applications is 15th May, 1976.

# Senior Pathologist

Huntingdon Research Centre is a contract research organisation working in the safety evaluation of pharmaceuticals, biologicals and agrochemicals. Although the work is sponsored by commercial contracts, there is a high scientific content in the overall research effort.

We need a veterinary or medical pathologist to join a multi-disciplinary team in a general toxicology area. This is a new appointment and existing senior posts in this team are held by veterinarians and medical practitioners. You should be qualified in either the veterinary or medical professions and have had experience in comparative pathology, preferably in a research establishment, in industry or in an academic institution. Attendance at scientific meetings and the publication of scientific papers are encouraged.

Salary, career prospects and benefits are competitive with industry and are consistent with our position as part of a major international group. The location itself has many advantages: Huntingdon is situated in pleasant countryside and housing prices are among the lowest in Britain. At the same time, Cambridge, London and the Midlands are within easy reach by road and rail. You will be given help with relocation expenses.

For further details, phone or write to: David Prentice, Head of Pathology Department, Huntingdon Research Centre, Huntingdon PE18 6ES. Phone Huntingdon 890431.

# APPOINTMENTS

Applicants for medical appointments are advised to check whether the post advertised is included in the Important Notice and to scrutinize carefully the remuneration and terms of service offered. Any member who is in doubt about these terms in relation to B.M.A. agreements should consult the Secretary of the Association.

Advertisers are reminded that the Race Relations Board insists that no descriptive term implying racial, national, or ethnic characteristics may be used in any advertisement. Further, readers are advised not to apply for any appointment which discriminates between applicants on grounds of creed or unreasonably on grounds of sex.

## HOSPITAL APPOINTMENTS

Applicants should state names, address, age, nationality, and qualifications, and enclose (unless otherwise specified) one copy of each of three recent testimonials, with a short statement of experience and appointments held. Applications should be sent at once if no closing date is given: Canvassing disqualifies (Statutory Instrument, 1974, No. 361).

All National Health Service hospital appointments are in accordance with the Terms and Conditions of Service of Hospital Medical Staff.

Further details concerning standards of residential accommodation, telephone charges, removal allowances, study leave and other matters should be obtained from the Hospital Secretary; or by B.M.A. members from the Secretary, British Medical Association.

In particular, they will find full details of facilities provided in most hospitals in the United Kingdom in the current edition of the *Hospital Gazetteer*. If such details are not included members are advised to consult the Secretary of the B.M.A.

Applicants requiring hospital married accommodation are strongly advised to obtain, prior to interview, clarification in writing from the employing authority as to whether such accommodation will be available on appointment.

No advertisement may stipulate that a non-resident must live less than 10 miles from a hospital. Advertisements for post-registration house officers, senior house officers and registrars should state clearly whether the post is resident, i.e. compulsorily resident.

In all advertisements grade should be clearly indicated. Normally a consultant vacancy must be advertised as (a) part-time with the number of sessions clearly stated, or (b) whole-time with the option of maximum part-time.

In the view of the BMA, an advertiser should not insist on possession of English higher qualifications in preference to Scottish or Irish qualifications (or vice versa).

# ZAMBIA

## A superb location

—particularly for broadening professional and management skills with a 3-year contract. This land-locked central African state, larger than France, Belgium, The Netherlands and Switzerland combined, has a congenial, equable climate with a wealth of fascinating scenery. Although mainly a broad plateau, Zambia also has spectacular mountains, dense forest, penetrating rivers and vast lakes as well as huge wildlife reserves. Large cities and towns containing all the usual

modern facilities are linked by excellent roads and rail services. Extensive natural resources, copper particularly, have provided the firm economic base for dramatic post-independence progress. Wide-ranging, expanding industries and substantial agriculture, which includes both crops and dairy farming, ensure the long-term continuation of Zambia's prosperity.

# Thinking of

Then how about Canada at \$22,800.00 per annum! — That's in the top 5% of Canadian wage earners and it doesn't include any of the fringe benefits you would enjoy as a commissioned officer in the Canadian Armed Forces.

If you are

- a citizen of the United Kingdom trained in a British or Irish medical school and holding a medical qualification registered in the Medical Register of the United Kingdom
- a Practising physician (preferably, but not necessarily, under 35)
- interested in a challenging and rewarding future then get in touch with us, because

We are offering

- a commission as a Medical Officer in the Canadian Armed Forces
- a starting salary in the range of \$22,800.00-28,260.00 depending on experience and qualifications
- relocations allowances for you and your family
- an opportunity for steady career advancement and for meaningful professional growth.

OF WESTERN AUSTRALIA  
State Public Service  
Mental Health Services**

**CONSULTANT PSYCHIATRISTS**

Applications are invited from Consultant Psychiatrists for joining the Mental Health Services of Western Australia. The duties and status of appointees will be substantially similar to those of a British Consultant. Vacancies exist at in-patient, out-patient and child psychiatry units. All units are in the Perth Metropolitan Area. Community Psychiatric Services are being developed and consultative services are provided to a number of country towns. Perth, the capital of Western Australia has a mild mediterranean type of climate with abundant opportunities for outdoor recreations. Secondary and tertiary educational facilities are of a high standard. Perth has two universities and an Institute of Technology.

Salary: Dollars A. 22 42-Dollars A. 25,904 per annum. Commencing salary is dependent upon nature and duration of relevant experience since attaining psychiatric qualifications.

Qualifications: Applicants must be eligible for registration as a Medical Practitioner with the Medical Board of Western Australia and possess a Diploma in Psychological Medicine from a recognised body or be a Member of the Royal College of Psychiatrists or of the Australian and New Zealand College of Psychiatrists in addition to having a minimum of five years experience in Psychiatry.

Conditions of Service: Three months long service leave after seven years continuous service, four weeks annual leave plus 13 statutory public holidays, a generous cumulative leave entitlement, superannuation benefits and other general conditions applicable to permanent public servants. Successful applicants who are not Australian citizens or British subjects cannot be considered for permanent appointment until they become Australian citizens.

Transport: Passages for married appointee and dependent family under 16 years of age arranged plus a reasonable amount for removal of essential personal effects, subject to the appointee entering into an agreement to serve the state for one to three years, according to amount of assistance given. Single persons receive assistance in the form of fares only. Accommodation: Furnished three bedroom housing is available at nominal rental.

General: Applicants can be appointed to the permanent public service staff or may also be engaged on a two year contract with return fares paid if the officer decides to return to the country of appointment within six months of the expiry of the contract period. Mental Health Services enjoy a close relationship with the University of W.A. Department of Psychiatry and Metropolitan Teaching Hospitals. Opportunities exist for teaching and participation in approved research programmes.

Successful applicants who are not Australian citizens will require visas. On receipt of an offer of a specific appointment the applicant should lodge an application immediately with the office of the High Commissioner for Australia, 111 St. George's Terrace, Perth WA 6000. Closing date for applications is 21st May, 1976. (27285) 118
