## Today's Treatment (1976)

### TO BE PUBLISHED SHORTLY

Faced with a succession of new drugs, doctors need authoritative advice on the selection of the most effective remedies for common disorders; and that is the aim of *Today's Treatment*. This first volume contains articles published in the *BMJ* in 1974-75 on disorders of the skin and blood and on psychiatric and neurological diseases. These simple clear accounts of assessment and management provide all the information needed for a rational choice of the best treatment for each individual patient.

Price £4.00 (U.S.A. \$12.00)

## Aspects of Sexual Medicine (1976)

Freer discussion of sexual matters on television and in the popular press has led to many more patients approaching their doctors for advice on sexual problems. The articles collected together in this book give practical advice on common problems such as impotence and on the help and guidance that may be given to handicapped patients and others with special difficulties. Few doctors received adequate instruction on sexual medicine at their schools: *Aspects of Sexual Medicine* brings them up to date.

Price: £2.00 (U.S.A. \$6.00)

## Personal View—An Anthology (1975)

Since the feature started in 1968 Personal View has been one of the most popular pages of the B.M.J. A hundred of these have now been gathered together in an anthology, to which an introduction has been written by a noted Personal View contributor, Dr Mahadeva of Ceylon, Sri Lanka. The subjects of the views contained in this anthology range from experience of practice all over the world to work as a schoolteacher, the role of music in medicine, learning to be a farmer's wife, and running a fringe event at the Edinburgh Festival.

Price £3.00 (U.S.A. \$9.00)

## Medicine in Old Age (1974)

The series of twenty two articles published in the *British Medical Journal* throughout the winter have been collected in book form as a convenient source of reference for general practitioners. The emphasis is on remedial mechanisms, and the use that can be made of psychogeriatric and social services in keeping the elderly healthy and relatively independent members of the community.

## You have to be good to be first

Experience, know-how and consistent performance are the qualities that go with being first in any field and which all feature in the Optimax story. When Cambrian Pharmaceuticals pioneered the use of L-tryptophan as the natural treatment for depression, few people outside the specialised field of biochemistry appreciated its potential. Today, 5 years of clinical experience testify to Optimax's efficacy and freedom from adverse reactions.

Experience, know-how and performance are at the tip of your pen when you prescribe Optimax, the first natural treatment for depression.

improves  
the management  
of Parkinsonism

BRITISH MEDICAL JOURNAL, 29 MAY 1976

ROCHE

Madopar offers the Parkinsonian patient the dramatic benefits of levodopa therapy, with a marked reduction in side-effects and the refractory period and simpler dosage. The minimum effective dose may be established within a week.

Although eminently successful alone, Madopar can be confidently co-prescribed with anticholinergics or amantadine. Introduction of Madopar to existing therapy should pose few if any problems for the patient.

Madopar is the trade mark for pharmaceutical preparations containing levodopa and benserazide.

### When increased drowsiness adds to a depressed patient's problems.

When difficulty in coping with work or domestic responsibilities is a feature of depressive illness, a treatment which causes drowsiness may add to the patient's problems.

'Vivalan' is unique, improving mood and restoring drive without daytime drowsiness so that the patient is able to take a lively interest in work, social life and the family.

Listless, apathetic, tired patients who complain of fatigue and inability to concentrate are those most likely to benefit from 'Vivalan'.

### GENERAL PRACTITIONER VOCATIONAL TRAINING SCHEME

Applications are invited for one post (Senior House Officer Grade) in a three year traineeship in General Practice consisting of two years in the hospital posts and one year as a trainee in General Practice. There are eight doctors on the scheme at the moment. The hospital post will be in Colchester and will consist of six months in each of the following specialties: General Medicine, Obstetrics and Gynaecology, and Paediatrics and an optional period which could be taken in either Geriatrics or Accident and Emergency, or Psychiatry. The General Practice training year will be in an approved practice in the Colchester area. A weekly Study Half-Day Release programme has been arranged. The Scheme is approved by the Department of Health and Social Security as qualifying for the Vocational Training Allowance and by the Royal College of General Practitioners for the M.R.C.G.P. Married accommodation should be available throughout the period.

The Hospital appointment is due to commence on or about the 1st August, 1976 and interviews will be held in the middle of June. Colchester is an historic University town in East Anglia with easy reach of London (50 minutes) and the coast. There is an active Postgraduate Medical Centre providing excellent facilities.

Applications and request for further information should be sent to the Medical Staffing Officer, Essex Area Health Authority (Colchester District) 42-48 North Station Road, Colchester CO1 1YP. (55847) 21

### TRAINEE POSTS

Applications are now being considered for trainee posts in the Academic Teaching Unit at Liverpool University. The Unit is actively involved in undergraduate and postgraduate teaching as well as research in Runcorn New Town, Cheshire, and the teaching staff at present consists of the Director in General Practice Studies and three Senior Lecturers all appointed by the University at consultant grade.

The successful candidates will be expected to take an active part in all aspects of a general practice based in a health centre and at the same time will be given the opportunity to work in that part of the practice centred in the new District General Hospital. The service commitment as well as experience in teaching and research will be under the supervision and guidance of the Senior Lecturers. Experience in Occupational Medicine will be offered in local industrial units under the supervision of the medical officers to these units who are part-time lecturers. The course will be based on the syllabus for the diploma of the M.R.C.G.P. and there is the possibility of these posts becoming part of a three year vocational training scheme. Unfurnished accommodation may be available.

Further details may be obtained from the Director of Studies in General Practice, School of Community Health, University of Liverpool, P.O. Box 147, Liverpool L69 3BX, to whom applications should be submitted. (H11373) 21

# Medical Management

## UK-based, with European & International travel

Our client, a British pharmaceutical company with a strong research base, is extending its international clinical research activities.

As a result of this expansion programme, a new post is being created which will entail international travel for perhaps 30-40% of the time - mainly within Europe, but occasional visits to South Africa, Australia and the USA are also likely.

After any initial training required, the work will involve:

- ☐ Careful study of published papers on specific groups of medicines.
- ☐ Liaison with basic research scientists over new drug development.
- ☐ Planning and organisation of clinical evaluation studies.
- ☐ Attendance at conferences and symposia to keep at the forefront of medical knowledge in relevant product fields.
- ☐ Medical education and lecturing to non-medical personnel.
- ☐ Medical control of marketing and promotional activities.
- ☐ A wide variety of other medical advisory activities both inside and outside the company.

Applicants (male or female) should be within the age range 28-45 and have at least two years' broadly-based general medical experience, backed by a good British medical qualification and a positive interest in therapeutics. Knowledge of a second European language, previous involvement in medical trials, or management experience in a group practice would be of definite advantage. Personal qualities should include a questioning mind, drive and enthusiasm.

The starting salary will be negotiable according to age, experience and merit. Other benefits will include a car, an annual bonus after one year, a good contributory superannuation scheme, and generous financial assistance with relocation. The post will be based at the company's U.K. headquarters, in a pleasant, lowish-cost housing area well outside London and the South East.

Please write in complete confidence for an application form, or phone if you would like to discuss the position further:

Head Office

## Medical Officers

There are vacancies in the British Steel Corporation Medical Service for Doctors at Scunthorpe, at Rotherham, in the Bilston/Wolverhampton area, and at Staveley.

Previous experience in industry is not essential for the first two posts, which will provide an excellent training ground for those desiring to specialise in occupational medicine; some experience in industry or in the Services would be desirable in the third post; and for the chemicals complex at Staveley, experience in chemistry and toxicology is required.

The Corporation has a country-wide comprehensive medical service, with a full programme of environmental and epidemiological projects in progress, in which the appointees would play a full part. Direct clinical responsibility is also involved, and career development prospects are good.

Commencing salaries will be within the range recommended by the B.M.A., with periodic reviews. The preferred age for the first two posts would be about 30, though this should not preclude others from applying.

Applications should be made in the first instance, quoting reference HO96 and stating which post(s) would be of interest, to:

## MEDICAL DIRECTOR

We wish to appoint a youthful Medical Director who will create and run the New City's Occupational Health Service. The Director will be in charge of a constantly expanding service and will have the opportunity to become established in the occupational health field. The first task will be to advise, plan and build up a service for a city which will grow to 250,000 people by the turn of the century. The Director will be in charge of an appropriately staffed and equipped service but must be capable of initiating the scheme as well as administering it. The service is vital to industry and commerce in an area of rapid expansion. The Director's qualifications and experience must match this challenging and demanding post. The Director will also be required to act on a part-time basis as Advisor to the Oxford Regional Health Authority. The salary will be commensurate with the relevant B.M.A. scale for Doctors within Industry.

Applications will be treated in absolute confidence.

NATIONAL COAL BOARD

South Nottinghamshire Area

Due to promotion a Medical Officer is required to act as Deputy to the Head of the Medical Department at Area Headquarters, Bestwood, near Nottingham.

The range of occupational hazards in the coal industry is wide. It is, therefore, the Board's firm policy progressively to improve the working environment. The Medical Officer's role in this work is a challenging one, calling for competence both in clinical and preventive medicine, while research is carried out in collaboration with the Institute of Occupational Medicine in Edinburgh, the industry's research centre for medical and allied problems.

At Bestwood, a multiphasic health screening centre has been opened recently in order to provide screening facilities for entrants to the industry.

Interested applicants should preferably be under 35 years of age, be fully registered practitioners in the U.K. and have had good all-round medical and surgical experience. It would be expected that after training the successful candidate would obtain the Diploma in Industrial Health or some higher qualification.

Salary on appointment is expected to be not less than £7000 but will depend on age and experience.

## MEDICAL RESEARCH COUNCIL UNIT OF CLINICAL PHARMACOLOGY Department of Clinical Pharmacology University of Oxford

# CLINICAL RESEARCH POST

Applications are invited for a **Medical Research Council Clinical Scientific Post**. While the post requires that the appointee concentrates mainly on research in clinical pharmacology, there are also commitments to teaching in the Oxford University Clinical School and to the clinical service of the Oxford AHA (T) hospitals. Research in the Unit presently involves the development and assessment of methods for monitoring drug therapy in individual patients using both pharmacokinetic and pharmacodynamic approaches, the study of pharmacological substances involved in disease, the biochemical pharmacology of central neurotransmitters and the mode of action of psychotropic drugs. The appointee would be expected to work at both the basic and clinical level in one of these fields. The Unit offers excellent laboratory and clinical facilities and there are established links with several basic science and clinical departments in the University.

Applicants should have the MRCP. A first degree in one of the physiological sciences and some research experience would be helpful but not essential. Opportunities exist for study for a higher degree. The post would best suit those who wish to pursue an interest in or who have embarked upon a career in clinical pharmacology. Remuneration will depend upon the seniority and experience of the appointee. The post is superannuable on the MRC terms of service. An appropriate honorary clinical contract will be negotiated with the Oxford AHA (T).

Further information can be obtained from **Professor D. G. Grahame-Smith, MRC Unit and University Department of Clinical Pharmacology, Radcliffe Infirmary, Oxford OX2 6HE** to whom applications, curriculum vitae and the names of two referees should be sent before **June 19th 1976**.

# THE WELLCOME TRUST

1 Park Square West, London NW1 4LJ

# RESEARCH FELLOWSHIP

The Wellcome Trust offers a fellowship for a period of three years to be held concurrently in Wellcome Trust Research Laboratories, Nairobi and a home-based laboratory with immunological interests.

Applications are invited from scientists who would welcome the opportunity to study the immunology of schistosomiasis. The successful applicant would be expected to participate in ongoing research and develop his own complementary research project. The most suitable applicant is most likely to be either a medical graduate with postgraduate qualifications and experience, or a postdoctoral graduate in immunology with interests in parasitology. Preference may be given to applicants who already have some experience of schistosomiasis research.

In the first instance interested applicants are advised to write to Dr. B. E. C. Hopwood at The Wellcome Trust, for further information. This letter should be accompanied by a full curriculum vitae, including details of present post and a list of publications.

Letters of enquiry should be received as soon as possible since the closing date for applications will be June 25th. It is hoped that the successful applicant will take up his appointment on January 1st 1977 at the latest.

# APPOINTMENTS

Applicants for medical appointments are advised to check whether the post advertised is included in the Important Notice and to scrutinize carefully the remuneration and terms of service offered. Any member who is in doubt about these terms in relation to B.M.A. agreements should consult the Secretary of the Association.

Advertisers are reminded that the Race Relations Board insists that no descriptive term implying racial, national, or ethnic characteristics may be used in any advertisement. Further, readers are advised not to apply for any appointment which discriminates between applicants on grounds of creed or unreasonably on grounds of sex.

# HOSPITAL APPOINTMENTS

Applicants should state names, address, age, nationality, and qualifications, and enclose (unless otherwise specified) one copy of each of three recent testimonials, with a short statement of experience and appointments held. Applications should be sent at once if no closing date is given: Canvassing disqualifies (Statutory Instrument, 1974, No. 361).

All National Health Service hospital appointments are in accordance with the Terms and Conditions of Service of Hospital Medical Staff.

Further details concerning standards of residential accommodation, telephone charges, removal allowances, study leave and other matters should be obtained from the Hospital Secretary; or by B.M.A. members from the Secretary, British Medical Association.

In particular, they will find full details of facilities provided in most hospitals in the United Kingdom in the current edition of the *Hospital Gazetteer*. If such details are not included members are advised to consult the Secretary of the B.M.A.

Applicants requiring hospital married accommodation are strongly advised to obtain, prior to interview, clarification in writing from the employing authority as to whether such accommodation will be available on appointment.

No advertisement may stipulate that a non-resident must live less than 10 miles from a hospital. Advertisements for post-registration house officers, senior house officers and registrars should state clearly whether the post is resident, i.e. compulsorily resident.

In all advertisements grade should be clearly indicated. Normally a consultant vacancy must be advertised as (a) part-time with the number of sessions clearly stated, or (b) whole-time with the option of maximum part-time.

In the view of the B.M.A., an advertiser should not insist on possession of English higher qualifications in preference to Scottish or Irish qualifications (or vice versa).

# SALARY SCALES OF HOSPITAL MEDICAL STAFF

**HOUSE OFFICER:** Each post in this grade shall be tenable for six months. £2,859 per annum for the posts held during the first year; £3,075 per annum for posts held during the second year; £3,294 per annum for posts held during the third and subsequent years, subject to full registration.

# New appointments to meet dramatic Health Service expansion

Zambia's Health Service has been transformed since independence in '64. Planned, co-ordinated progress has produced a high degree of professional efficiency, with superb modern buildings and the most sophisticated medical equipment. Health centres, clinics, district hospitals, general hospitals, central hospitals and some specialist hospitals are established throughout the country.

Nonetheless, in an area larger than France, Belgium, Switzerland and The Netherlands combined, the eventual aim of bringing full medical aid close at hand to everyone is a mammoth task, so existing momentum will most certainly be maintained for many years. Of those contributing towards this development, a large number have come out from Britain on 3-year contracts (renewable by mutual agreement) to enjoy:

## Strong financial attractions

— salaries plus TAX-FREE supplements, TAX-FREE terminal gratuities, low-cost accommodation, low taxation and free passages. All that means very exceptional real earnings. Starting salaries relate to qualifications/experience (the maximum of each scale is shown), while gratuities total 25% of basic salary. Salary-related supplements (annual maximum is shown) are paid by the British Government to designated British nationals, who also receive appointment grants, education allowances, car loans, medical aid assistance and free holiday visits for children educated in Britain. NB Sterling equivalents given are approximations only, due to constant exchange rate fluctuations.

## Rich experience

Apart from much satisfying professional experience, the country itself offers a wealth of fascinating scenery ranging from spectacular mountains to vast lakes and wildlife reserves. Equally important, many people are surprised to discover how pleasant and congenial is Zambia's climate.
