

Fast Asleep

Dalmane gets patients to sleep in less than half the time.¹ Reduction in sleep latency has been observed in the home,¹ and the hospital,² as well as the sleep laboratory^{1,3} where objective studies have consistently confirmed the patients' subjective assessments.

Add to this a less disturbed night^{1,4} with Dalmane and you have a powerful treatment for insomnia, remarkably free from the problems of a barbiturate.^{3,5}

Stop him messing about!

Frequent shampoos and messy gels often add to the misery of severe dandruff for your patients. Quite often, too, they are unsuccessful.

Betnovate Scalp Application can stop your patients scratching for an answer to the irritation and inflammation associated with this problem.

Betnovate Scalp Application provides the clear, simple and swift solution to the problem of severe dandruff.

Betnovate Scalp Application, containing betamethasone valerate in a special base, spreads easily and evenly over the scalp. And the special nozzle gets right down to the lesions.

Betnovate Scalp Application is available in 30 and 100 gram plastic squeeze bottles

Betnovate Scalp Application —a clear answer to dandruff

Alternative dosage regimen of Caved-S produces impressive results in chronic duodenal ulcer

Endoscopic examination proved chronic duodenal ulceration in 32 male patients, whose clinical histories ranged from 2 to 30 years.¹

ADEQUATE DOSAGE

2 Caved-S tablets 5 times daily for up to 24 weeks

"... the daily dose selected was the median of that advised in a series of patients treated with deglycyrrhizinized liquorice tablets who had failed to respond to other measures and had been referred for surgery . . ."¹

THOROUGH CHEWING OF THE TABLETS

mixing Caved-S with the saliva appears to play an important role.

"Saliva may have a role of its own or a synergistic action with constituent of the liquorice extract. Work in India (Malhotra *et al*, 1965) has suggested that eating foods which do not require chewing results in an increased incidence of duodenal ulceration and that saliva exerts a protective action in peptic ulceration (Malhotra 1967; Malhotra, 1967)."¹

SWALLOWING ON AN EMPTY STOMACH

allows the bolus of Caved-S and saliva to reach the prepyloric area of the stomach, where maximum demulcent effect and healing occur.

"The advice that the agent should be taken on an empty stomach in the ambulant patient could be crucial. Simple studies on patients presenting for barium-meal examination have shown that if a small sip of barium is taken while in an upright position when the stomach is empty the bolus of barium rapidly travels down the lesser curve of the stomach and comes to rest in the prepyloric region. This may effectively produce a 'positioned release' preparation, and the bolus of mixed saliva and deglycyrrhizinized liquorice would appear to be strategically placed to exert maximum demulcent or healing effect."¹

RESULTS

Endoscopic examination showed that Caved-S had healed the ulceration in ALL 32 patients and in most the mucosa appeared normal.

Peugeot 504L diesels. The exclusive facts.

Peugeot 504 diesels, saloon and estate.
Exceptional economy, especially for the high-mileage
motorist. 35 mpg* with Derv at around 65p a gallon.

So on fuel alone you get the cost-per-mile
economy of a Mini (think what you'd save in a year!).

And the Peugeot diesel's built-in strength and
reliability means even further economies in
maintenance and repairs.

But don't imagine that Peugeot diesel economy
implies any stark austerity. The superbly-fitted
saloon carries five in quiet, smooth luxury. Estate
load capacity is 66 cu. ft. Top speed is a healthy
87 mph*. And standard equipment includes reclining
front seats, heated rear window, power assisted dual-
circuit brakes, radial tyres, anti-theft steering lock,
two-speed wipers, laminated windscreen and electric
screen washers, hazard warning lights and inertia
reel seat belts.

*Source: What Car?

We've always taken things seriously.

Why are Peugeot cars famous for strength?
Peugeot is the world's second oldest car
manufacturer, and the second largest in France,
making nearly ¾ million cars a year. With sales and
service throughout the UK. They have a wealth of
experience in diesels, producing nearly a million
engines over the last 15 years.

And Peugeot engineers combine old fashioned
beliefs with modern technology. They say: "if you

can't make it well, don't make
it at all." Peugeot make all major
components themselves. Their own
engines and gearboxes, body panels and
shock absorbers. Each part designed and
engineered for strength and safety. And every engine,
gearbox and completed car given an individual test.

Small wonder you get the lion's share of
reliability and safety with Peugeot. Because Peugeot
give you the lion's share of strength.

Calmurid Solution deals with scalp disorders — psoriasis, seborrhoeic eczema, seborrhoea, ichthyosis and atopic eczema. It keeps the scalp clean and free from crusts and scales by loosening and dispersing them. It also retains the natural moisture of the scalp. Note the nozzle on the bottle: it gets to the point — the scalp, not the hair. A sample awaits your request.

Why forbid the patient coffee?

Thanks to H-A-G Decaffeinated Coffee even in cases of Insomnia, Palpitations, Disorders of the Heart and Circulation, Excitability, Gastritis and Peptic Ulcer, Gallstones, certain Diseases of the Liver **the patient need not forego his favourite beverage.**

* THE H-A-G DECAFFEINATING PROCESS.
Swelling the green beans by steam pressure enlarges the pores and exposes the maximum surface to the highly volatile caffeine solvent (not trichlorethylene) which is flushed through the beans, carrying the caffeine with it. The surplus solvent is removed by a final steam flushing. The beans are then roasted in the normal way.

GENERAL PRACTICE TRAINING POSTS

**NORTH HUMBERSIDE
VOCATIONAL
TRAINING SCHEME**

A scheme for training in General Practice designed to bridge the gap between primary and secondary patient care

This scheme has been in operation for four years and has achieved a continuity between primary and secondary care due to careful choice of hospital posts and the involvement of G.P. Trainers as Clinical Assistants.

It is based on the Hull Royal Infirmary, a modern District General Hospital, which has all the specialised Departments needed for a full range of medical care. There is an up-to-date, well equipped, Postgraduate Centre, with a first class medical library in which there are facilities for private study. A recently opened Health Centre in Beverley is linked with the Westwood Hospital, in which a number of S.H.O. posts are available. There is a variety of Teaching Practices in the city and rural areas, all working closely with the two hospitals. In every hospital post full Consultant support is given to the concept of continuing General Practice involvement. The Trainee is encouraged to keep in touch with the G.P. Tutor and will be released throughout the three year course for weekly half-day training periods designed to cover the syllabus outlined in the "Future General Practitioner." Part of these training periods will take the form of group discussions amongst the Trainees themselves centres upon case presentation, behavioural problems, and the development of the Doctor/Patient relationship.

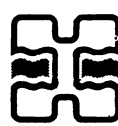

The S.H.O. posts include General Medicine, Obstetrics, Paediatrics, Geriatrics, Psychiatry, and Accident and Emergency, the choice being flexible and adaptable to the Trainee's current experience. The total period in General Practice is usually divided into two periods of six months, one at the beginning and one at the end of the Scheme.

A Summer School is held each year at York University, and here Trainees can meet colleagues from other Regional Schemes. The Course is recognised for the M.R.C.G.P., D.Obst.R.C.O.G., and the D.C.H.

Resident whilst in the hospital part of the Scheme. Married accommodation may be available.

APPOINTMENTS

Applicants for medical appointments are advised to check whether the post advertised is included in the Important Notice and to scrutinize carefully the remuneration and terms of service offered. Any member who is in doubt about these terms in relation to B.M.A. agreements should consult the Secretary of the Association.

Advertisers are reminded that the Race Relations Board insists that no descriptive term implying racial, national, or ethnic characteristics may be used in any advertisement. Further, readers are advised not to apply for any appointment which discriminates between applicants on grounds of creed or unreasonably on grounds of sex.

HOSPITAL APPOINTMENTS

Applicants should state names, address, age, nationality, and qualifications, and enclose (unless otherwise specified) one copy of each of three recent testimonials, with a short statement of experience and appointments held. Applications should be sent at once if no closing date is given: Canvassing disqualifies (Statutory Instrument, 1974, No. 361).

All National Health Service hospital appointments are in accordance with the Terms and Conditions of Service of Hospital Medical Staff.

Further details concerning standards of residential accommodation, telephone charges, removal allowances, study leave and other matters should be obtained from the Hospital Secretary; or by B.M.A. members from the Secretary, British Medical Association.

In particular, they will find full details of facilities provided in most hospitals in the United Kingdom in the current edition of the *Hospital Gazetteer*. If such details are not included members are advised to consult the Secretary of the B.M.A.

Applicants requiring hospital married accommodation are strongly advised to obtain, prior to interview, clarification in writing from the employing authority as to whether such accommodation will be available on appointment.

No advertisement may stipulate that a non-resident must live less than 10 miles from a hospital. Advertisements for post-registration house officers, senior house officers and registrars should state clearly whether the post is resident, i.e. compulsorily resident.

In all advertisements grade should be clearly indicated. Normally a consultant vacancy must be advertised as (a) part-time with the number of sessions clearly stated, or (b) whole-time with the option of maximum part-time.

In the view of the BMA, an advertiser should not insist on possession of English higher qualifications in preference to Scottish or Irish qualifications (or vice versa).

SALARY SCALES OF HOSPITAL MEDICAL STAFF

HOUSE OFFICER: Each post in this grade shall be tenable for six months. £2,859 per annum for the posts held during the first year; £3,075 per annum for posts held during the second year; £3,294 per annum for posts held during the third and subsequent years, subject to full registration.

BERMUDA

CONSULTANT PSYCHIATRIST

The Bermuda Hospital Board require a Consultant Psychiatrist for St. Brendan's Hospital to commence on 1st January, 1977. The clinical team comprises four Consultants, two Resident Doctors, two Clinical Psychologists, four Mental Welfare Officers, five qualified Occupational Therapists, one Educational Therapist and a nursing establishment of 119 of which over half are fully qualified. The hospital has 170 beds and is divided into eight distinct ward areas two of which care for the mentally retarded. It serves the total island population of 60,000.

The theme of the psychiatric service is community orientated and an active rehabilitation programme is practised. In addition, consulting services are provided to the Social Services Department, Sheltered Workshops, Child and Family Services, Rehabilitation Hostels, Drug and Alcohol Addiction Services, community based Geriatric Facilities, the Prison Services and the Island's modern General Hospital. Many of these programmes have recently been developed and there is therefore ample opportunity to develop and put into practice one's own interests and ideas.

The team already includes members with special interest in alcoholism, psychotherapy, psychogeriatrics, mental retardation and child and family psychiatry. Experience in E.E.G. interpretation would be valuable but not essential as, in selecting the candidate, emphasis will be on good all round psychiatric training and experience and the ability to share with colleagues the continued development of the service.

Benefits: Salary — BD. \$27,164 p.a. (BD. \$ equals USA. \$). Shared private practice, no income tax, minimal cost health insurance, settlement and baggage allowances and return air fares for the successful candidate and family.

Applications, which should include curriculum vitae and the names of three referees should be forwarded to The Executive Director, Bermuda Hospitals Board, King Edward VII Memorial Hospital, Pages 6-23, Bermuda, to arrive by 31st August, 1976. (H11652)

There is one Registrar in each of the departments of Medicine, Surgery and Casualty. There are ten rotating Resident Medical Officers. The appointee would share anaesthetic duties with the present full-time Specialist Anaesthetist.

The type of surgery carried out at present covers both emergency surgery (including trauma) and elective surgery of a general nature, including Paediatrics. There is a limited amount of Obstetric surgery performed.

At present the hospital has a four bed Coronary Care Unit and it is proposed in the near future to establish a four bed intensive therapy unit.

The position attracts a salary in accordance with the Hospital Specialist (New South Wales State) Award and is in the range of \$21,962 to \$27,438 per annum depending on qualifications and experience. There is in addition a Broken Hill allowance of \$438 per annum payable and a bonus of \$1,000 payable at the completion of the first year of service. This latter bonus rises to \$1,500 after the second year of service and \$2,000 after the third year and thereafter. In addition the appointee may be granted the limited right of private practice to 16% of his base salary.

Accommodation for a married appointee is provided in a furnished air cooled home at a rental currently of \$15.00 per week.

Leave provision includes one week conference leave per year, overseas study leave of three months after each five years service and annual recreation leave of seven weeks per year.

Applications close on the 12th July 1976.

Enquiries regarding further details and applications should be directed to The Medical Superintendent, Broken Hill and District Hospital, Broken Hill, New South Wales, 2880.

ASSOCIATE MEDICAL DIRECTOR

CIBA-GEIGY (Australia) Limited

Applications are invited from registered medical practitioners preferably in the 30-45 year age group.

The duties will involve the design, initiation and follow-up of clinical trials of a variety of marketed and non-marketed products. Co-operation with hospital staff, research units, and general practitioners will be required and the duties will involve the investigation of adverse reactions to drugs and the preparation of relevant manuscripts. Close co-operation with our Marketing Division will be required with particular emphasis on medical aspects of product development and promotion.

The Company has wide therapeutic interests but the post will initially be concerned mainly with psychotropic and anti-inflammatory agents. The new member must be a general medical practitioner and have an interest, and preferably experience, in psychiatry or rheumatology, or both.

The work will involve considerable travelling within Australia and occasionally abroad. Clinical work is encouraged. Appreciation of modern trends and ideas in medicine is important and this is aided by attendance at society meetings and conferences.

Previous experience in the Pharmaceutical Industry is not essential. The new member will join two other medical graduates, the Director being a consultant physician. Initially the associate will be given help and advice in this interesting and expanding branch of medicine which offers wide scope for an excellent career.

Further details of the type of work and duties involved will be discussed in depth with applicants selected for interview.

The successful candidate will be based in Sydney. Salary will be negotiable in accordance with experience and qualifications. Good conditions of work include a company car and superannuation is available after qualifying period. Financial assistance towards expenses associated with house removal will be offered in appropriate cases, but the candidate will be required to serve at least two years.

Registered Medical Practitioners interested in the appointment are invited to write for an application form to:

BRUNEI

A MEDICAL GRADUATE OF A BRITISH UNIVERSITY IS REQUIRED FOR BRUNEI STATE

SALARY: BASIC \$2,500 per month in Brunei dollars plus allowances to give a total tax free income of nearly £12,000.

HOUSING: A modern furnished and attractive house and garden is provided free. There are other inducements.

DUTIES: The successful candidate will be appointed an officer in the **SULTAN'S ARMED FORCES** and will be responsible for the health of the Brunei soldiers and their families. The post requires a knowledge of general medicine and obstetrics and an interest in tropical medicine would be useful.

Brunei is an ancient Moslem Sultanate with a history going back many centuries. It is situated in the North of Borneo and is a delightful tropical country with a pleasant climate and many advantages to those who like the outdoor life. The clean tropical seas are a haven for rare fish, animals, shells and sea plants and surfing, diving, fishing and sailing are as good as any in the world. The primary jungle of North Borneo is only a mile or two away for those who like botany, zoology, entomology or exploring the often still unexplored jungle and rivers. The British community offers an excellent social life. This is an interesting, rewarding and financially attractive post.
