

the fungicidal breakthrough

Scanning Electron Microscopic photographs of *Candida albicans* before and after treatment with miconazole.

1. Untreated cells appear as isolated yeast forms in an oval shape and with a smooth surface showing the formation of polar buds (pb).

2. Upon exposure to a fungistatic dose (10^{-7} M) of miconazole the cells tend to cluster. Budding becomes disorganized with visible budding scars (bs) that are randomly distributed over the surface of the cells.

3. Treatment with a fungicidal dose of miconazole causes the cell wall (cw) to burst. Vesicles of cytoplasm disintegrate and adhere to the surface of yet unbroken cells (cpr). (The interior of the cells is completely lytic).

Announcement by Miles Laboratories Limited

**AMES DIVISION • CONSUMER PRODUCTS DIVISION
DOME DIVISION • RESEARCH PRODUCTS DIVISION**

We regret to announce that in the early hours of Saturday, 6th January, fire broke out in our office premises at Stoke Court, Stoke Poges.

While extensive damage has been caused to certain parts of the building, emergency arrangements have been made so that no disruption of normal business is expected.

In particular, we wish to emphasise that orders will continue to be received and processed in the normal way upon receipt at Stoke Court.

Our production facilities in Bridgend, South Wales, are in no way affected and no delay in despatch of goods is expected.

We will keep all customers fully informed of any further arrangements that are made, but in the meantime we ask for their understanding should they experience any occasional disruption in the immediate future.

A small amount of correspondence, apart from orders, has been lost.

It is suggested that anyone who fails to receive an answer from us within a reasonable period of time should contact us again.

Miles Laboratories

PO Box 37, Stoke Court, Stoke Poges, Slough SL2 4LY

Perhaps that is what we should be called. Because The Radiochemical Centre is one of the largest radiopharmaceutical producers in the world. It also has a large research and development programme for new products in the diagnostic, therapeutic and research fields.

By setting ourselves a high standard of Production and Quality Control we can assure you of the reliability of our products. Their performance is validated by extensive clinical trial

data much of which is published in our literature.

We offer, for example, ^{75}Se selenomethionine, ^{67}Ga citrate, $^{99\text{m}}\text{Tc}$ and $^{113\text{m}}\text{In}$ generators, and a wide range of iodinated compounds including ^{125}I -labelled fibrinogen. Our catalogue also lists a number of unique products like the Dicopac* kit, a valuable aid in haematology.

But we have many more. Why not write or telephone for our catalogue.

DOCTOR AT SEA.

As a qualified doctor you can join the Royal Navy on a 5-year Short Career Commission.

You will have the opportunity of serving in ships, in submarines, or with the Royal Marines Commandos, and in a wide variety of Naval Establishments.

Career counselling will help you plan your future.

There are opportunities for approved General and Higher Professional Training in preparation for careers in general practice and the hospital disciplines. Similar opportunities also exist for training in Naval Occupational and Community Medicine which includes aviation, underwater, submarine, nuclear, preventive and industrial medicine.

If you join immediately after registration your salary will be £7,153 as a Surgeon Lieutenant.

You can, however, join at any age up to 39 when your professional experience is taken into account and you could join as a Surgeon Lieutenant Commander earning £9,183 a year.

There is extra pay for certain recognised post-graduate qualifications and for Specialist and Consultant status.

There is a generous Boarding School Allowance for your children.

If you leave at the end of your 5-year Commission you will receive a tax-free gratuity. You may prefer to apply for extension to eight years or transfer to a pensionable Medium or Full Career Commission.

For more information write to: Surgeon Commander D.J. McKay, LM, LS, MRCP, RN (724MO9), Medical Directorate General (Naval), Ministry of Defence, First Avenue House, High Holborn, London WC1V 6HE.

ROYAL NAVY MEDICAL OFFICER

CHILDREN IN HEALTH AND DISEASE

By Frederic Brimblecombe and Donald Barltrop

'All in all, there is no reason why this new edition should not live up to its editors expectations and remain the leading single-volume paediatrics manual and textbook.'

Archives of Disease in Childhood.

1978 • 892pp • 186 illustrations

LUNG SOUNDS

By Paul Forgacs

'This is a unique small book. Paul Forgacs uses plain speaking to explain the basic acoustics of the sounds generated within the chest during breathing. . . . There are very few books indeed that one would expect to be possessed by every doctor, but it is no exaggeration to say that this one not only should be, but almost certainly will be one of them.'

British Journal of Diseases of the Chest.

1978 • 80pp • 30 figures • 2 tables

PULMONARY TUBERCULOSIS

By R. Y. Keers

'Dr. Keers has presented a most readable conspectus of the complex history of tuberculosis, ranging widely from the archaeological evidence derived from ancient Egyptian mummies to a cogent account of the outstanding problems of today.'

British Medical Journal.

1978 • 265pp

AMPUTATIONS AND PROSTHESES

By Miroslaw Vitali, Kingsley P. Robinson, Brian G. Andrews and Edward E. Harris

'The book will be of interest to members of any profession concerned with the care of amputees. They will find that the book gives them a broad general knowledge written, one feels, by sympathetic and understanding authors. The authors relate the problems facing an amputee and give us constructive help and guide lines on how best we can treat these patients.'

Physiotherapy

1978 • 249pp • 168 illustrations

Prices and further details available on request from the publishers.

"Help your clients to the help they need"

There are quite a lot of people who could benefit from some of the helpful services provided by British Gas—but who are unaware of them. People like the elderly and disabled.

You could help them to the help they need by spreading the word more among your clients.

We will gladly provide you with explanatory leaflets about special help for disabled people, gas safety, easy payments and other helpful services we can offer. Just ring—or write to your local Home Service Adviser. You'll find the address and telephone number below.

BRITISH GAS

DON'T FORGET

As a fast acting diuretic
Burinex^{*} K
is unbeatable...

as a potassium
supplement it's
unforgettable

Your patients rarely forget to take their 'water pill' but all too frequently fail to take their potassium supplement if you prescribe it separately.¹ Burinex K solves this problem because Burinex the 'most effective natriuretic agent'² 'coats' the potassium core - to make it truly unforgettable. In addition - because of the shape and size - it's easier to swallow than the most commonly used potassium supplement alone.³

Burinex K in CCF
right from the start

1. Brit. Med. J., 618, 2, 1977

2. Acta med. scand., 119, 193, 1973

3. J. Int. Res., 104, 3, 1975

Burinex (bumetanide) is a potent short-acting diuretic indicated in the treatment of oedema. Available as Burinex Tablets (1mg and 5 mg), Burinex Injection (4 ml and 25 ml ampoules; each ml contains 0.25 mg bumetanide) and Burinex K (0.5 mg bumetanide and 7.7 mmol slow release KCl).

Dosage: oral and parenteral normally 1 mg. Higher doses may be used in resistant oedema, for long-term maintenance therapy of CCF, Burinex K is usually given as 2 tablets O.M. **Contra-indications:** Hepatic coma and severe electrolyte disturbances. Burinex K should not be used with potassium sparing agents. **Adverse reactions:** Occasional skin rashes and minor gastric upset. **Precautions:** Burinex may potentiate antihypertensive therapy and rarely, may affect carbohydrate metabolism. Periodic electrolyte checks are advisable on long-term therapy. Burinex K should be stopped immediately if signs or symptoms of bowel ulceration appear.
