

# the fungicidal breakthrough

Scanning Electron Microscopic photographs of *Candida albicans* before and after treatment with miconazole.

1. Untreated cells appear as isolated yeast forms in an oval shape and with a smooth surface showing the formation of polar buds (pb).

2. Upon exposure to a fungistatic dose ( $10^{-7}$  M) of miconazole the cells tend to cluster. Budding becomes disorganized with visible budding scars (bs) that are randomly distributed over the surface of the cells.

3. Treatment with a fungicidal dose of miconazole causes the cell wall (cw) to burst. Vesicles of cytoplasm disintegrate and adhere to the surface of yet unbroken cells (cpr). (The interior of the cells is completely lytic).

*the standard fungicidal treatment*

# ANNALS OF CLINICAL RESEARCH

is a journal publishing—original papers—brief reports—review articles—letters to the editor—special issues on interesting topics on clinical and applied basic research

*Editor-in-chief:* M. H. FRICK (Helsinki)

*Assistant editor:* P. J. PENTIKÄINEN (Helsinki)

*Managing editor:* M. LEIRISALO (Helsinki)

International editorial board consists of 54 well-known scientists.

*Editorial office:*

**Annals of Clinical Research**  
Runeberginkatu 47 A  
00260 Helsinki 26  
Finland

The journal is listed in Current Contents. We offer rapid editing procedures and high printing quality. Articles are published within six months of acceptance.

## Are you a subscriber to Annals of Clinical Research?

*If not, you may have missed the following items:*

### Special issues on

*Rheumatoid arthritis and rheumatic diseases*

Ann Clin Res 7, No 3, 1975

*Hepatitis.* Ann Clin Res 8, No 3, 1976

*Shock.* Ann Clin Res 9, No 3, 1977

*The regulation of pituitary hormones and its clinical implications.* Ann Clin Res 10, No 3, 1978

### Original reports

L. RESNEKOV and H. LIPP: *Circulatory effects of acute myocardial infarction as a rational basis for therapy.* Ann Clin Res 3:363, 1971

P. SOVERI and F. FYHRQUIST: *Plasma renin activity and angiotensin II during oral contraception.* Ann Clin Res 9:346, 1977

E.A. NIKKILÄ, J.K. HUTTUNEN and C. EHNHOLM: *Low post-heparin plasma hepatic lipase activity in familial type IIa hyperlipoproteinemia.* Ann Clin Res 8:63, 1976

The journal is published bimonthly by the Finnish Medical Society Duodecim. The annual subscription fee is US \$60. Order through your local subscription agency or directly from Annals of Clinical Research.

## THE RETREAT, YORK for Psychiatric Illnesses

Founded in 1792 by the Quaker, William Tuke, who established the tradition of concern for patients as individuals, The Retreat is a 250-bedded private registered nursing home surrounded by extensive grounds on the outskirts of the historic City of York. It is easily reached by rail and motorways.

Care and treatment is offered for most types of psychiatric illness on the short or long term in a sympathetic and friendly atmosphere. Patients suffering from neuroses, psychoses, alcoholism and dementia are treated in surroundings suitable for their individual needs.

The Nursing Home is a registered charity and is able to offer inclusive care in shared accommodation from £13.85 per day or in single rooms at slightly increased charge. The Nursing Home is recognised by the main private patient schemes.

For further details apply to The Medical Director, The Retreat, York. YO1 5BN (Tel. 0904-54551).

**A Colour Atlas of**

# LIVER DISEASE

by **Professor Dame Sheila Sherlock**, D.B.E., M.D., D.Sc.(N.Y.) Hon., F.R.C.P., F.R.C.P.(E), F.R.C.C.P.(Hon.), F.R.C.P.(I) Hon., F.A.C.P.(Hon.) Professor of Medicine and Chairman of the Department of Medicine, University of London Royal Free Hospital School of Medicine.

**John A. Summerfield**, M.D., M.R.C.P.  
Lecturer in Medicine, Royal Free Hospital School of Medicine, London.

This book is an immensely important contribution to the literature on liver disease. It is a comprehensive, up-to-date account of the clinical signs, pathology and investigation of liver disease presented through the medium of more than 550 photographs combined with detailed explanatory captions and clear concise textual material.

The unique collection of photographs incorporated in this book will be of particular value to specialists, physicians and students involved in the field of liver disease research and treatment, highlighting as it does those areas of investigation where major advances have been made.

Its appeal to candidates for higher examinations as a compendium of the signs of liver disease is ensured and it will also prove to be a valuable reference guide to physicians, surgeons and gastroenterologists for its coverage not only of general signs but also for its descriptions of special signs of major disease and of rarer conditions.

**423 full colour and 131 black and white photographs**

**0 7234 0407 0 10½" x 7½" 272 pages £18.00**

**Contents:** Clinical Examination of the Liver and Biliary System: Examination of the Liver and Spleen, Jaundice, Signs in Liver Disease, Ascites; Hepatitis: Viral, Lupoid, Drugs; Cirrhosis: Signs, Alcohol, Drugs; Congenital Hyperbilirubinaemia; Cholestasis: Signs, Extrahepatic, Intrahepatic, Biliary Atresia, Biliary Cirrhosis — 1°, 2°, Drugs; Vascular Diseases: Portal Hypertension, Hepatic Artery Aneurysm, Hepatic Vein Block (Budd Chiari Syndrome), circulatory failure; Storage Diseases of the Liver: Copper, Iron, Glycogen, Alpha 1 anti trypsin, Fat, RE Storage Diseases, Porphyria; Liver Abscesses; Cysts of the Liver: Polycystic Liver, Solitary Cyst; Carolis Disease, Choledochal Cyst, Hydatid Disease, Congenital Hepatic Fibrosis; Tropical Liver Disease: Schistosomiasis, Amoebiasis, Clonorchis, Kalaazar, Liver Flukes; Hepatic and Biliary Tumours; Gallstones.

## DOCTOR AT SEA.

As a qualified doctor you can join the Royal Navy on a 5-year Short Career Commission.

You will have the opportunity of serving in ships, in submarines, or with the Royal Marines Commandos, and in a wide variety of Naval Establishments.

Career counselling will help you plan your future.

There are opportunities for approved General and Higher Professional Training in preparation for careers in general practice and the hospital disciplines. Similar opportunities also exist for training in Naval Occupational and Community Medicine which includes aviation, underwater, submarine, nuclear, preventive and industrial medicine.

If you join immediately after registration your salary will be £7,153 as a Surgeon Lieutenant.

You can, however, join at any age up to 39 when your professional experience is taken into account and you could join as a Surgeon Lieutenant Commander earning £9,183 a year.

There is extra pay for certain recognised post-graduate qualifications and for Specialist and Consultant status.

There is a generous Boarding School Allowance for your children.

If you leave at the end of your 5-year Commission you will receive a tax-free gratuity. You may prefer to apply for extension to eight years or transfer to a pensionable Medium or Full Career Commission.

For more information write to: Surgeon Commander D.J. McKay, LM, LS, MRCP, RN (724M011), Medical Directorate General (Naval), Ministry of Defence, First Avenue House, High Holborn, London WC1V 6HE.

**ROYAL NAVY MEDICAL OFFICER**

# A unique family bond offering **TAX-FREE** growth

No other Savings Plan offers the taxpayer this combination:

\*Investment income totally exempt from Income Tax and Capital Gains Tax

\*Security for your family if you die

\*Investment back-up with a sparkling record  
(The value of the Bond increased by 114% in the last 2½ years) although the value of units can fall and rise

There are statutory limits as to the size of the Bond which can be issued under these advantageous terms and consequently the annual premium is limited to £120 if under age 45 or £132 if aged 45 or over. If you prefer you may pay the premiums monthly instead of annually or alternatively invest a lump sum of approximately £1,000 once only.

A Bond can be issued to any married man or to any woman with at least one dependent child. So, the average family can have two Bonds.

This is a 10-year savings contract but should you wish to stop early, the Bond acquires a 'cash-in' value in the second year.

There are special terms for applicants over 60 years of age and applicants in ill-health can still benefit.

If you are looking for a way to build up a large tax-free cash sum, this is the answer.

POLICIES EFFECTED BY THE 5th APRIL 1979 WILL ENJOY A CONCESSION WHICH EFFECTIVELY INCREASES THE INVESTMENT BY 21%.

# ACTIFED\* COMPOUND LINCTUS

triprolidine hydrochloride BP pseudoephedrine hydrochloride BP codeine phosphate BP

## For a beast of a cough

### PRESCRIBING INFORMATION

**Indications** Relief of cough and accompanying URT congestion.

**Dosage** Three times a day: Adults and children over 12 years: 10ml  
Children 6-12 years: 7.5ml | 1-6 years: 5ml | Infants 3-12 months: 2.5ml

**Contra-indications** Contra-indicated in persons under treatment with MAO inhibitors, and within two weeks of stopping such treatment.

**Precautions** Although pseudoephedrine causes virtually no pressor effect in normotensive patients, it should be used with caution in the presence of cardiovascular disorders. May cause drowsiness. In some patients the action of antihistamines may be potentiated by alcohol.

**Presentation** Each 5 ml contains 1.25 mg triprolidine hydrochloride BP, 30 mg pseudoephedrine hydrochloride BP and 10 mg codeine phosphate BP.  
Basic NHS cost: £0.63 for 150ml PL 3/5005.

The combination of simple language and straightforward line drawings has made the

# ABC OF OPHTHALMOLOGY

one of the most popular series of articles in the Medical Practice section of the British Medical Journal.

All the common problems are covered – visual defects, squints, glaucoma and cataracts – together with detailed instruction on examination, diagnosis and management.

The articles have now been collected into book form – in exactly the same format as they appeared in the BMJ – priced at:  
Inland £2.50; overseas US \$6.25  
(Inland £2.00; overseas US \$5 for BMA members).

or through any leading bookseller

# The best treatment money can buy?

To save a life, which physician, surgeon or nurse would not choose the best treatment money could buy? For patients with a high risk of deep vein thrombosis, Heparin, although by no means always suitable, is perhaps the best course to adopt. For the cost of Heparin at £12.87 a week plus nursing time and physiotherapy, at least 15 other patients could be treated in a week with Kendall T.E.D. Anti-Embolism Stockings. A fatal pulmonary embolus often occurs outside the

immediate high risk area. It is entirely unforeseen – a shock event. T.E.D. offers a simple cost-effective method of protection to so many more patients. What's more, T.E.D. stockings from Kendall will reduce the incidence of DVT by well over 50%<sup>1</sup>. DVT occurs in half the number of surgical patients over the age of 40, and in a good many more medical patients. The problem is large; one of the solutions is extremely simple – Kendall T.E.D. stockings for less than £1 a week.

**KENDALL T.E.D. STOCKINGS – SAFE, SIMPLE AND EFFECTIVE

THE NEW ENGLAND JOURNAL OF MEDICINE  
every week...**

**You should, too!**

The New England Journal of Medicine is read, quoted and referred to the world over. The reason — it presents only papers that offer something new to the medical literature of the day or an extension of an existing body of knowledge; editorials that deal with the internal technology of medicine and its interface with our changing world with impartiality, honesty and integrity. Whatever your medical discipline or the stage of your career, you should subscribe to the journal.

# STATISTICS AT SQUARE ONE

by T. D. V. SWINSCOW

from the British Medical Journal

The statistical testing of data is indispensable in many types of medical investigation and a help on countless occasions in clinical practice. This book provides step-by-step instruction. Subjects covered include standard deviation,  $\chi^2$  tests, t tests, non-parametric tests and correlation. Methods specially adapted to pocket calculators.

*"The ability to put symbols in sequence may well be one of the greatest advances in man's development. . . . This excellent and attractive volume will give you an idea into which category an article or projected article fits. The ink you save may be your own. It is superb value."*

O'Donnell, Barry, *British Medical Journal*, 1977, 1, 451.

*"... this gem of a practical booklet squeezes the essence of biostatistics into 75 well-written, well-organized pages. Newcomers to the field will like the way obscure concepts are clarified; experts will find the book valuable as a teaching aid."*

# **DON'T FORGET**

As a fast acting diuretic  
**Burinex<sup>\*</sup> K**  
bumetanide and slow-release potassium chloride  
is unbeatable...

as a potassium  
supplement it's  
unforgettable

Your patients rarely forget to take their 'water pill' but all too frequently fail to take their potassium supplement if you prescribe it separately.<sup>1</sup> Burinex K solves this problem because Burinex the 'most effective natriuretic agent'<sup>2</sup> 'coats' the potassium core - to make it truly unforgettable. In addition - because of the shape and size - it's easier to swallow than the most commonly used potassium supplement alone.<sup>3</sup>

**Burinex K in CCF**  
right from the start

1. Brit. Med. J., 618, 2, 1977

2. Acta med. scand., 119, 193, 1973

3. J. Int. Res., 104, 3, 1975

Burinex (bumetanide) is a potent short-acting diuretic indicated in the treatment of congestive heart failure. Burinex K (0.5 mg bumetanide and 7.7 mmol slow-release KCl).  
**Dosage:** oral and parenteral normally 1 mg. Higher doses may be used in resistant oedema, for long-term maintenance therapy of CCF, Burinex K is usually given as 2 tablets O.M. **Contra-indications:** Hepatic coma and severe electrolyte disturbances. Burinex K should not be used with potassium sparing agents. **Adverse reactions:** Occasional skin rashes and minor gastric upset. **Precautions:** Burinex may potentiate antihypertensive therapy and rarely, may affect carbohydrate metabolism. Periodic electrolyte checks are advisable on long-term therapy. Burinex K should be stopped immediately if signs or symptoms of bowel ulceration appear. Product Licence No: 0043/0027B
