

BOUDAULT'S PEPSINE.

In 1854, after many experiments, **PEPSINE** was obtained in a pure state by **M. BOUDAULT**, Chemist, and Dr. L. Corvisart. Boudault's **PEPSINE** was honoured with two Reports at the Academy of Medicine, Paris, and with having its formula inserted in the New French Pharmacopœia.

The International Jury of the Universal Exposition, Paris, 1867, awarded to Boudault's **PEPSINE** the ONLY MEDAL given for **PEPSINE** and its preparations. (Silver Medal, 1868.)

Boudault's **PEPSINE** is the only one that has been furnished to the Hospitals in Paris since 1854.

PEPSINE Wine (Sherry), in bottles, 4s. and 8s. Dose—a tablespoonful before each meal.

PEPSINE Lozenges, in Bottles, 4s. Dose—3 before each meal. **PEPSINE** Pills, in bottles, 4s. Dose—3 before each meal.

Boudault's **PEPSINE** or Poudre Nutrimentive. Dose—15 grains. Boudault's **PEPSINE** is sold in 1-oz., 4-oz., 8-oz., or 16-oz. bottles.

HOTTOT BOUDAULT, 7, Avenue Victoria, Paris.

London: A. & M. ZIMMERMANN, 7, Fen Court, E.C.

May be obtained through all Chemists.

PHARMACEUTICAL PRODUCTS

PREPARED BY

Messrs. GRIMAULT and Co, Operative Chemists

8, RUE VIVIENNE, PARIS.

SPECIAL NOTICE.—These products are prepared with the greatest care, under the direct supervision of Dr. LECONTE, Professor of the Faculty of Medicine, Pharmacist of the first class to the Hospitals of Paris, and Ex-Preparator of the Course of Physiology of CLAUDE BERNARD at the College of France, etc., etc.

GRIMAULT'S GUARANA,

a vegetable product, obtained from Brazil, infallible in cases of Hemiplegia, Headache, and Neuralgia. To these properties it joins that of immediately arresting diarrhoea and dysentery, however severe. Physicians are requested to ask for Guarana bearing the seal of "*Grimault & Co.*," so as to avoid prescribing crude Guarana, just as imported from Brazil, this latter kind being frequently substituted for *Grimault's*. Dose: one packet in a little sugared water, and another packet half an hour afterwards.

GRIMAULT'S INDIAN CIGARETTES,

prepared from Resin of *Cannabis Indica*. Asthma and all complaints of the respiratory organs are promptly cured or relieved by their smoke. The efficacy of this plant has been proved by extensive use in England and Germany, to the entire rejection of the cigarettes of belladonna, of stramonium, and of arsenious acid, and other plants hitherto employed.

DR. LERAS' PHOSPHATE OF IRON.

In Solution, Syrup or Sugar-coated Pills.

A pleasant combination of Pyrophosphate of Iron and Soda, colourless and tasteless. It is readily assimilated, and used with great success in Chlorosis, Anæmia, Dysmenorrhœa, etc., replacing all other ferruginous preparations. It never causes constipation. Dose: a tablespoonful before and after each meal.

GRIMAULT'S SYRUP OF HYPOPHOSPHITE OF LIME.

All Hypophosphites supplied from our establishment, on account of their absolute purity, give results which differ entirely from all others, even those which have hitherto been considered the most favourable. This new remedy, in most cases of Phthisis and the different diseases of the chest, quickly arrests their most alarming symptoms. By its administration the cough is soothed, the nightly perspirations cease, and the patient soon recovers health. Also, SYRUPS of HYPOPHOSPHITE of SODA, of IRON, and of MANGANESE. Dose: a tablespoonful morning and evening.

GRIMAULT'S IODIZED SYRUP OF HORSE-RADISH.

A pleasant substitute for Cod-liver Oil, prepared from juices of antiscorbutic plants. Each tablespoonful contains one grain of Iodine, so intimately combined as to be insensible to the action of starch.

GRIMAULT'S VEGETABLE MATICO INJECTION.

The *Matico* (*Piper angustifolium*), a Peruvian plant, possesses extraordinary astringent and preservative properties. Prepared as an injection by our process, it suffices, without any other medicine, to stop rapidly the most obstinate cases of gleet, gonorrhœa, and blennorrhœa. It is the only injection which does not cause the contraction of the urethra, as is the case with all injections having a metallic base. One injection morning and evening.

GRIMAULT'S VEGETABLE MATICO CAPSULES.

The Essential Oil of Matico, combined with the Balsam of Copaiba, and administered in the form of Capsules, coated with gluten, forms a very active medicament and is superior to all capsules of copaiba, liquid or solid, cubebs, rhatany, or bismuth, and to all the opiates known. These capsules rapidly cure the most obstinate cases of gleet and gonorrhœa, and never fatigue the stomach or bowels. Dose 8 or 12 capsules per day.

GRIMAULT'S SYRUP & WINE OF PERUVIAN BARK AND IRON.

This new combination unites, in a small volume and an agreeable form, two elements which have never before been blended—Red Peruvian Bark, the best of tonics, and Iron, which forms the base of the blood. It is especially suitable for lymphatic or delicate persons, and in all cases for which Bark and preparations of Iron are usually prescribed. Dose: a wineglassful half an hour before and after each meal.

GRIMAULT'S MEDICINAL PEPSINE,

In Powder.

Taken from the stomach of the *sheep*, not from the pig.

The therapeutical value of Pepsine in all disorders of the stomach, resulting from the inability of this organ to digest and assimilate food, cannot be overestimated. It is used daily with great success in Dyspepsia, Slow and Difficult Digestion, Gastralgia, Debility of the Stomach, from old age or from abuse of liquors, and in Vomiting during Pregnancy.

Physicians will please notice that GRIMAULT'S **PEPSINE** may always be relied upon. Its digestive power, being physiologically tested by Mr. Leconte, late assistant to Claude Bernard, is always the same. Also, *Grimault's Wine Elixir*, Pills and Lozenges of Pepsine.

Insist on having "*Grimault's*" Guarana from F. Newbery & Sons.

Sole Agents — F. NEWBERY and SONS,

37, NEWGATE STREET, LONDON.

And at all the principal Chemists and Druggists of the United Kingdom, of the British Colonies, and the U.S. America.
