TO CORRESPONDENTS.

. All letters and communications for the JOURNAL, to be addressed to the EDITOR, 37, Great Queen St., Lincoln's Inn Fields, W.C.

CORRESPONDENTS, who wish notice to be taken of their communications, should authenticate them with their names—of course not necessarily for publication.

BACK NUMBERS.—We beg to thank several members for back numbers of the JOURNAL.

F.R.C.S.E. writes that it is a mistake to suppose that acupuncture is gaining ground among the surgeons in Edinburgh; and that the practice has not been countenanced in the Royal Infirmary.

THE KING AND QUEEN'S COLLEGE OF PHYSICIANS IN IRELAND.—A physician writes:—"If the President of the King and Queen's College of Physicians, Ireland, deliberately confers a degree upon Licentiates (the having no legal power to do so), ought not the Medical Council to proceed against him, in his official capacity, and so settle this vexed question?"

DINNER to MR. THOMAS MARTIN.—We are requested to state that the dinner, to which a few professional friends have invited Mr. Martin, of Reigate, will take place on Friday, the 25th of April, at the "Albion", in Aldersgate Street, at seven o'clock precisely. Mr. Propert will take the chair; and Mr. Hood and Mr. Erichsen will act as stewards.

CHLORODYNE.

Its use in Fever highly recommended, a case of Sarcinæ CURED,
and other notices of its high remedial value presented, with an especial CAUTION to the Profession.

Caution about Spurious Imitations, etc.

CAUTION.—J. T. DAVENPORT received from Dr. J. COLLIS BROWNE, M.R.C.S.L., Ex-Army Medical Staff, the sole discoverer and inventor, his RECIPE for this invaluable preparation, which has never been published or made known; hence there can be no other maker, and anything compounded as Chlorodyne besides a spurious imitation and deception.

TESTIMONIALS.

"I have now for fifteen months used Dr. J. COLLIS BROWNE'S CHLORODYNE, and am fully persuaded of its value as a remedial agent. In Fever, to allay restlessness and severe headache, and to procure sleep, its effects have been most satisfactory. It appears to me to be indicated in all cases where there is depression of Nervous power. In fact, in the hands of a judicious surgeon who has used it a few times, it is capable of being most extensively and usefully prescribed. In a case of obstinate and severe VOMITING, arising from SARCINÆ in the Stomach, associated with an Amyloid Tumour in the Liver, which had resisted treatment for many months, I used Chlorodyne most successfully. The first dose stopped the Vomiting. Small doses were continued, at intervals of a few hours, for six weeks. The vomiting having entirely ceased, it was then discontinued, and although six months have elapsed there has been no return of the symptoms. The Tumour has somewhat diminished in size; and gives no uneasiness. I have also given it in some cases of Phthisis, with marked relief especially in the early stages. I spontaneously offer my opinion as to its merits, for I think it has only to be tested and it will be used by all medical men."

"HENRY J. STORMONT, Esq., Surgeon, Cheabunt."

"Having ordered from our Druggists 'CHLORODYNE,' I was not only DISAPPOINTED IN ITS EFFECTS, but annoyed when I received a SPURIOUS Compound. I have been in the habit of using your CHLORODYNE with great advantage to my patients and satisfaction to myself. I have just discharged, well, out of this Hospital, a woman who had pyæmia after hour-glass contraction of the uterus; I feel quite certain that her recovery was caused by taking a dose of CHLORODYNE three times daily, or when the rigors were severe. I have had several cases where inflammation set in after instrumental delivery or extraction of the placenta, and never had a recovery before when the cases were so severe as the case mentioned; but I did not know the value of your medicine."
