ADVERTISEMENTS.

Weiss's Illustrated Catalogue,
containing nearly 800 engravings of Surgeons' Instruments, and Apparatus, classified for their various purposes. Price, 5s.
62, Strand, London

"This catalogue has many and great merits. Its modest, truthful carefully arranged, and extremely well illustrated. In the great majority of cases the name of the surgeon is appended to the modification which he has introduced, and frequently other makers' names are honourably attached to instruments which they first originated. These are large principles of honour which we are glad to see strictly observed in this catalogue."—*Lancet*, September 12th, 1863.

OF KNOWN
COMPOSITION.

TOWLE'S CHLORODYNE.

For Formula,
&c., see back
Numbers.

Extract of Letter from Dr. C. KIDD (Author standard works on Chloroform): "SIR: Of the value of Chloroform given internally I have no doubt, it appears to me in that form an anodyne *sui generis* that no other anodyne can approach. I have resolutely opposed the use of *secret* compounds of Chloroform, and, in every way I can, encourage the 'Chlorodyne' (if we must have it at all) that is made by you, as you state that its composition is known. Many medical men think with me and recommend your compound, but will never prescribe a *secret* remedy." (Signed)

"Sackville Street, Piccadilly, London. April 1862."

"CHAS. KIDD, M.D. and Surgeon."

Letter from ALFRED ASPLAND, Esq., F.R.C.S. Eng., J.P. Chester and Lancaster, Surgeon 4th Cheshire Batt. V.R., Surgeon to the Ashton Infirmary.—"After an extensive trial of your Chlorodyne in Hospital, Infirmary, and Private Practice, I am able to state that it is a valuable medicine. I have found its action peculiarly serviceable in Bronchial, Spasmodic, and Neuralgic Affections. I have never found it produce headache or feverish disturbance, results which not unfrequently occur from other forms of Chlorodyne. As a sedative to allay excitement arising from the abuse of intoxicating drinks, so commonly witnessed in our Barrack Hospital, I have been perfectly satisfied with it. Its known composition will doubtless prove an additional recommendation to the Profession."

In bottles, 1 oz., 1s. 6d.; 2 oz., 2s. 6d.; 4 oz. and 8 oz., 8s.

LIQ. CHLOROFORMI CO. (TOWLE'S).

This preparation is identical with "Towle's Chlorodyne," *sine* Ol. Ment. Pip. (dose, 5 to 20 minims. as in Chlorodyne).

The Proprietor having for some time past, at the request of several members of the Medical Profession, made a preparation of Chlorodyne without peppermint, has lately, on account of the frequency of these demands, prepared the same for more general use, under the designation of LIQUOR CHLOROFORMI CO., which, possessing the Medical properties of Chlorodyne, may be prescribed in all cases where the Ol. Ment. Pip. is disapproved, and overcome the objection so generally felt to the use of the term "Chlorodyne."

May be obtained, as an introduction, from the following Wholesale Houses, in 2 and 4 oz. bottles, at 2s. 6d. and 4s. each:—London:—Barclay and Sons, 95, Farringdon Street.
