

POST-GRADUATE COURSES. LONDON SCHOOL OF CLINICAL MEDICINE

DREADNOUGHT HOSPITAL, GREENWICH, S.E.
FOR QUALIFIED PRACTITIONERS ONLY.

The Next SESSION begins on the 5th of January.

This School provides facilities for the acquisition of practical knowledge and technical skill in every department of Medicine and Surgery.

It has the command of a large variety of clinical material at the Dreadnought Hospital, Greenwich, and also at the Royal Waterloo Hospital for Children and Women, the Royal Bethlem Hospital, and the General Lying-in Hospital, York Road, all of which are affiliated for educational purposes.

At the Dreadnought Hospital there are exceptional opportunities for instruction in Operative Surgery and in Pathology. Venereal Diseases are admitted and offer a wide field for bedside study. Cases of Tuberculosis are also received, and are treated in a special department by the open-air method. The wards are open during certain hours for the private investigation of cases. The Out-Patient Departments and Dispensaries, at which there is a large

practice, are devoted to the service of the School. The Out-Patient Staff attends every morning.

Ward Cliniques are held every afternoon, and practical classes of limited size are formed each session. Operations are performed daily. Certificates for attendance are accepted by the University of London, the Admiralty and the War Office.

Courses of one month only may be taken in clinical work.

Highly recommended apartments can be obtained in Greenwich and Blackheath for those who desire to reside near the Hospital.

For Prospectus and full information as to fees, class arrangements, &c., early application should be made to the Dean.

SAUNDERS' NEW EDITIONS OF SUCCESSFUL BOOKS

Ashton's Practice of Gynæcology

NEW (4th)
EDITION

The profession has been quick to appreciate the practical value of this work. The author not only tells his reader in every instance what should be done, but also precisely *how to do it*. A distinctly original feature consists in the 1058 line drawings, made especially under the author's personal supervision. The *Scottish Medical and Surgical Journal* says: "The thoroughness of the descriptions of operative details, and of the successive steps of operations, the inclusion of such modern methods as the use of X-Rays in Gynecology, and the general fairness shown by the author in his statement of disputed points combine to make the book a valuable one."

Octavo of 1099 pages, with 1058 original line drawings. By W. EASTERLY ASHTON, M.D., Professor of Gynecology, Medico-Chirurgical College, Philadelphia. Cloth, 27s. 6d. net.

Kerley's Treatment of Children's Diseases

NEW (2nd)
EDITION

For the needs of the general practitioner Dr. Kerley's book is without a peer in its field. It was specially planned by a man eminently fitted for the task of writing along these lines. It tells just what measure should be instituted, what drugs given, and in many cases includes valuable prescriptions. An excellent illustrated chapter on Gymnastic Therapeutics is worthy of special notice. The *British Medical Journal* says: "Dr. Kerley's Book is one of the best on the subject. Every aspect of treatment would seem to have received consideration at his hands." The illustrations throughout are practical. *Send for Circular.*

Octavo of 629 pages, illustrated. By CHARLES GILMORE KERLEY, M.D., Professor of Diseases of Children, New York Polyclinic Medical School and Hospital. Cloth, 21s. net.

Hirst's Obstetrics (Including Related Gynecologic Operations)

NEW (6th)
EDITION

Dr. Hirst's work on obstetrics assumed at once its place as the leading book on the subject. The *Edinburgh Medical Journal* says: "Dr. Hirst has written a book which displays sound judgment and a large practical experience of his subject." Recognising the inseparable relation between obstetrics and certain gynecologic conditions, the author has included all the gynecologic operations for complications and consequences of childbirth, together with a brief account of the diagnosis and treatment of all the pathologic phenomena peculiar to women. The illustrations are numerous and exceedingly instructive.

Octavo of 992 pages, 847 cuts, 43 in colours. By BARTON COOKE HIRST, M.D., Professor of Obstetrics, University of Pennsylvania. Cloth, 21s. net.

Saunders' Pocket Medical Formulary

NEW (9th)
EDITION

In compiling this handy volume the author has introduced as many of the more important recently discovered drugs as possible. Besides the many hundreds of the famous formulas collected from the works of the most eminent physicians and surgeons of the world, it contains many valuable and hitherto unpublished prescriptions from the private practices of distinguished practitioners of to-day. The *Medical Record* says: "This little book, which can be conveniently carried in the pocket, contains an immense amount of material. It is very useful, and, as the name of the author of each prescription is given, is unusually reliable."

By WILLIAM M. POWELL, M.D.

Flexible leather, 7s. 6d. net.

Friedenwald & Ruhrah on Diet

NEW (3rd)
EDITION

This is a practical, comprehensive work on Diet, prepared to meet the needs of the general practitioner, the medical student, and the trained nurse. It contains a complete account of food-stuffs, their uses and chemical composition. The dietetic management of every disease in which diet plays a part in treatment is carefully considered. The *Dietetic and Hygienic Gazette* says: "There are a great many good points in the book, especially for the physician. . . . Post-operative diet, one which has given physicians in general a great deal of trouble, we are glad to see has been embodied in a book for handy reference."

Octavo of 689 pages. By JULIUS FRIEDENWALD, M.D., Professor of Diseases of the Stomach, and JOHN RÜHRAH, M.D., Professor of Diseases of Children, College of Physicians and Surgeons, Baltimore. Cloth, 18s. net.

LOSS OF HAIR.

POMADE MAX

(UNG. CANTHARIDIN e. HYDR. CO.)

possesses a marked action on the hair-
 producing structures. Its principal
 effects are:—

- (a) Benefits local circulation and nerve
 action,
- (b) Determines absorption of obstructive
 exudates.
- (c) Exercises penetrative parasitocidal
 action.

*These partly explain the arrest of hair-
 fall and re-growth, which almost invariably
 follow its proper use. It contrasts with
 other formulae in definite reliability and
 striking rapidity of effect.*

POMADE MAX is indispensable in

ALOPECIA PREMATURA,
 ALOPECIA SEBORRHOICA,
 ALOPECIA AREATA,
 DANDRUFF,

and every variety and degree of
 Loss of Hair.

ORAL SEPSIS.

"EUMENTHOL JUJUBES."

(HUDSON).

Made in Australia.

A Gum pastille containing the active constituents of well known Antiseptics, Eucalyptus Globulus (a well-rectified Oil free from aldehydes (especially valeric aldehyde), which make themselves unpleasantly noticeable in crude oils by their tendency to produce coughing). Thymus Vulg., Pinus Sylvestris, Mentha Arv., with Benzo-borate of Sodium, &c., they exhibit the antiseptic properties in a fragrant and efficient form. Non-coagulant antiseptic and prophylactic, reducing sensibility of mucous membrane.

"THE LANCET" says:—

"In the experiments tried the Jujube proved to be as effective bactericidally as is Creosote."

Mr. W. A. DIXON, F.I.C., F.C.S.,
Public Analyst of Sydney, after making exhaustive tests, says:—

"There is no doubt but that 'Eumenthol' Jujubes have a wonderful effect in the destruction of bacteria and preventing their growth. . . . I have made a comparative test of 'Eumenthol' Jujubes and Creosote, and find that there is little difference in their bactericidal action."

"THE PRACTITIONER" says:—

"They are recommended for use in cases of oral sepsis, a condition to which much attention has been called in recent years as a source of gastric troubles and general constitutional disturbance, and are also useful in tonsillitis, pharyngitis, etc."

"THE AUSTRALASIAN MEDICAL
GAZETTE":—

"Should prove of great service."

BULLOCK'S PEPSINA PORCI.

DOSE—2 to 4 GRAINS.

ACID GLYCERINE OF PEPSINE

DOSE—1 to 2 DRMS.

(BULLOCK.)

In this preparation advantage has been taken of the solubility of Pepsine in Glycerine to produce a convenient and desirable liquid form of this valuable medicine; whilst the preservative qualities of the menstruum confer upon the Acid Glycerine of Pepsine the property of keeping for any length of time.

May be prescribed with most substances compatible with Acids.

In 4-oz., 8-oz., and 16-oz. Bottles and in Bulk.

The published experiments of G. F. DOWDESWELL, Esq., M.A. Cantab., F.C.S., F.L.S., &c., Dr. PAVY, Professor TUSON, the late Professor GARROD, Dr. ARNOLD LEES, and others, conclusively demonstrate the excellence, high digestive power and medicinal value of the above preparations.

WOLFE'S Aromatic SCHNAPPS

Has received the commendation of the medical faculty
Thousands of Testimonials have been received from
Doctors in all parts of the world.

Before it was invented ordinary Hollands Gin was frequently prescribed for troubles connected with the Kidneys, Bladder, and Urinary Organs, as well as for Gravel, Gout, Rheumatism, &c., but it often failed to effect the required restoration. With Wolfe's Schnapps, however, all doubt and uncertainty disappears. Its action on the secretive organs and upon the blood, and the system generally, is at once stimulative and curative.

"the evidence of the therapeutic value of a remedy must be judged by the results which it produces.

The unbiassed reports of thousands of physicians, basing their opinion upon their experience with antiphlogistine in both hospital and private practice, conclusively prove its dependable value in all inflammatory and congestive conditions.

Their experience should be sufficient reason why you at least should give it a trial, when its action as a superior moist hot dressing will readily convince you of its remedial value.

The Autumn climatic change will bring with it its train of cases such as laryngitis, pharyngitis, quinsy, tonsillitis, etc., and antiphlogistine (the original clay dressing) applied hot and thick, will offer prompt and satisfactory relief."

BISHOP'S CAFFEINE

The Original Granular Effervescent Caffeine.

INTRODUCED AND PREPARED ONLY BY

ALFRED BISHOP, Ltd., Manufacturing Chemists. (Est. 1857).

Each drachm contains One grain Caffeine Alkaloid.

BISHOP'S CAFFEINE is absolutely free from all analgesics or antipyretics, such as Acetanilide, Antipyrine, and Phenacetine, which usually enter into the composition of headache remedies, and which cause so much mischief by their depressant action upon the heart. BISHOP'S CAFFEINE has no depressant effects upon the circulatory or nervous systems, and is therefore not contra-indicated in cases of heart weakness.

BISHOP'S CAFFEINE is a prompt, effective, and reliable cerebral and cardiac stimulant, which does not produce any injurious by- or after-effects or establish a habit. BISHOP'S CAFFEINE is of unequalled efficacy in relieving all forms of Headache, including the uræmic headache associated with long-established kidney complaints, Mental and Nervous Fatigue and Exhaustion, and Heart Failure.

BISHOP'S CAFFEINE exhibits the drug in a form which ensures its immediate absorption and assimilation, and consequently its prompt and complete activity. This obviates the danger which arises from the administration of tablets, pills, and powders, which are often so slowly soluble as to retard greatly the action of the drug, and to entail the risk of over-dose by repetition.

The superiority of BISHOP'S CAFFEINE over imitations and substitutes consists in its freedom from injurious ingredients, its purity, accuracy of dose, its brisk effervescence and complete solubility, and its refreshing palatability, which renders it highly acceptable to patients.

SAMPLES of BISHOP'S CAFFEINE and other Preparations, together with Physician's Price List and Literature, will be sent post free to any Medical Man in the United Kingdom by

ECSÖLENT COMPOUND

For the Treatment of Eczema, Erythema and Skin Affections.

ECSÖLENT COMPOUND is a non-staining emollient Preparation which forms an elegant transparent dressing, possessing a most agreeable odour without the aid of added perfume. It is a perfect germicide, disinfectant and antiseptic. The Compound is non-poisonous, and is free from glycerine and all animal fat. It possesses remarkable potential antiphlogistic, antipruritic, and analgesic properties, and promotes healthy nutrition of the skin.

Recent British Medical Opinions

(PUBLISHED BY SPECIAL PERMISSION.)

M.B. writes: "18th October, 1910. Your Ecsölent Compound is the best preparation I have found for irritation around the anus associated with hæmorrhoids. The intense irritation is immediately relieved, and several patients have expressed gratitude to me for the relief obtained. The Powder has given good results, particularly in two cases of intertrigo in stout elderly women."

B.A.Camb., M.R.C.S., Eng., etc., writes:—

"28th October, 1910. I have personally tried your Ecsölent Compound and find it of undoubted value in the treatment of Erythema and herpetic conditions of the skin. I notice also the Ung. and Pulv. possess a marked action in reducing the troublesome cutaneous irritation of these skin affections."

BENGER'S FOOD — AS AN ADJUSTABLE DIET — EXPLAINED.

The presence of active Amylolytic and Tryptic ferments in **BENGER'S FOOD** places at the command of the Physician an adjustable diet that may be prescribed by him with the accuracy of a tincture. The Food is expressly devised for use in conjunction with fresh milk, or milk and water; in such proportions of Food, milk, and water, as may be ordered by the Physician for each particular case. The fat may be increased by the use of "top" milk, or by the addition of cream.

The action of the Ferments, during the process of preparation of the Food according to directions, softens the curd of the milk, and without digesting much of the casein profoundly modifies it; so that it will no longer curdle in large masses, but in fine flocculæ, and the farinaceous material is gradually converted into soluble sugars.

A complete diet is provided, free from all rough and indigestible particles, and one that is tolerated in the great majority of cases of weak or defective digestive power, whether in Adults, Children, or Infants.

A Sample, with Analysis and Report, and other printed matter relating to the preparations of the Company will be sent post free to Members of the Medical Profession on application to—

# MODERN THERAPY

## Medication by Spray.

### Acetozone Inhalant (P., D. & Co.)

A 1 per cent. solution of Acetozone with 0.5 per cent. of Chlorotone in neutral liquid paraffin. A powerful germicide, useful in bacterial or other diseases of the nose, mouth, ear or throat.

### Adrenalin Inhalant (P., D. & Co.)

A 1:1000 solution of Adrenalin Chloride with 3 per cent. of Chlorotone, which forms a soothing and antiseptic astringent spray valuable in acute nasal catarrh, hay fever, rhinitis, tonsillitis, pharyngitis, etc.

### Chlorotone Inhalant (P., D. & Co.)

A 1 per cent. solution of Chlorotone with camphor, menthol and oil of cinnamon, whose antiseptic and local analgesic properties are very effective in nasal catarrh, asthma, bronchitis, pertussis, laryngitis, etc.

### Inhalant No. 10 (P., D. & Co.)

For use as a nasal douche or spray, powder one tablet and dissolve in four ounces of warm water.

### THE "GLASEPTIC" NEBULISER

delivers an extremely fine nebula. It is primarily intended for use with oily solutions, but is also effective with alcoholic or aqueous fluids. Throat tubes are not sent unless specially ordered.

The glass portion is drawn to scale of about one-half actual size.

If the medicament is of an oily nature or of a density equal to a 25 % glycerin solution, the nebula may be rendered still lighter by using the throat piece, which directs it to the pharynx whence it may be inhaled into the respiratory passages or exhaled into the post-nasal cavities. For nasal medication, insert the nozzle into the patient's nostril.

### THE "GLASEPTIC" POCKET NEBULISER.

The glass portion is drawn to scale of about one-half actual size.

A modification in form, embodying the principle of the "Glaseptic" Nebuliser, for the use of sufferers from hay fever, nasal catarrh, asthma, bronchitis, etc., when ordered frequent local treatment. Particularly useful for travellers. *The British Journal of Tuberculosis*, Oct., 1907, p. 349, says:

"The 'Glaseptic' Pocket Nebuliser will be much appreciated."

Supplied in cardboard or leather-covered case measuring 3½ x 3½ x 1 inch.

#### IMPORTANT.

When prescribing or ordering, please be careful to specify the exact title of the appliance required.

### THE "GLASEPTIC" SPRAY

is specially designed for use with aqueous or alcoholic solutions, which it delivers freely in a state of fine subdivision. The glass portion is made in one piece.

The glass portion is drawn to scale of about one-half actual size.

Specially suitable for local medication in diphtheria and other diseases of the throat, for cleansing the nasal passages, for spraying wounds with antiseptic solutions, and various other purposes.

## Cod-Liver Oil

and its  
Preparations

"It is as nearly tasteless as Cod-Liver Oil can be."—LANCET.

The "Allenburys" Cod-Liver Oil is obtained from the finest selected livers of fresh cod, and prepared at Allen & Hanburys' own factories at Lofoten and Söndmör, in Norway. It is the result of manufacturing experience of nearly half a century, and represents the highest technical skill. The process of manufacture ensures the elimination of all unpleasant and harmful products. The "Allenburys" Cod-Liver Oil is therefore perfectly pure, and by its merit alone has obtained a unique position in the estimation of the profession. It is retained and assimilated when other Cod-Liver Oils derange the digestive system, and its full nutritive power is thereby assured.

## "Bynol"

(TRADE MARK)

"A perfect combination of Malt Extract and Cod-Liver Oil."—B.M.J.

"Bynol," the "Allenburys" Malt and Oil, presents the pure "Allenburys" Cod-Liver Oil in intimate association with the finest Malt Extract. It contains a very high percentage of Cod-Liver Oil, and is a valuable nutrient and digestive. Palatable and acceptable to the most fastidious, it is readily assimilated even when the digestive organs are impaired.

## "Bynin" Emulsion

(TRADE MARK)

"This preparation is doubtless a valuable one, and one which we are glad to bring before the notice of the profession."—LANCET.

"Bynin" Emulsion is a unique combination of the "Allenburys" Cod-Liver Oil with "Bynin" pure active liquid malt, together with the hypophosphites of lime and soda. Palatable and easily digested, it is a valuable restorative of high nutritive power. It invigorates the nervous system and nourishes the enfeebled tissues.

# LISTERINE

is an efficient, non-toxic antiseptic of known and definite power, prepared in a form convenient for immediate use.

It is a saturated solution of boric acid, reinforced by the antiseptic properties of ozoniferous oils.

It is unirritating, even when applied to the most delicate tissue.

It does not coagulate serous albumen.

It is quite generally accepted as the standard antiseptic preparation for use where a poisonous or corrosive disinfectant can not be safely used.

It is particularly useful in the treatment of abnormal conditions of the mucosa, and admirably suited for a wash, gargle or douche in catarrhal conditions of the nose and throat.

In proper dilution, it may be freely and continuously used without prejudicial effect, either by injection or spray, in all the natural cavities of the body.

There is no possibility of poisonous effect through the absorption of Listerine.

"The Inhibitory Action of Listerine," a 128-page pamphlet descriptive of the antiseptic, and indicating its utility in medical, surgical and dental practice, may be had upon application to the manufacturers, Lambert Pharmacal Co., Locust and Twenty-first Streets, St. Louis, Missouri, U.S.A., but the best advertisement of Listerine is

### OPINION OF THE PRESS.

Extract from the "FIELD":—"We have already drawn attention to the breeches made by Messrs. Evans & Co., which combine tightness at the knee with general comfort all over. During the last few days we have been riding on alternate afternoons in a pair of the Jodpore riding trousers made by Messrs. Evans & Co., which were made for us in fine elastic whipcord. They certainly answer every purpose which they claim, and should be most serviceable to men who are on and off a horse all day, with jobs of other kinds in between of a kind which would make high boots inconvenient. The problem of the cut must be extraordinarily difficult, but it has been very cleverly solved, and the garment is as loose above the knee as it is close fitting beneath it. The shape will be well known to Anglo Indians, and should be appreciated by a wider public."

For Dislocated Internal or External Semilunar Cartilages, for Chronic dislocation of the patella, and relaxed internal or lateral ligaments. The best results are obtained by fitting the side plates to the patient's knee, but if this be impracticable send circumference of joint over patella only with knee semi-flexed. State which knee, and short description of the case.

\*.\* Used by professional footballers, tennis players, etc. The truss does not interfere with the free action of the knee, on flexion or extension.

Cover Changing.—The Victor Way.

# The Scourge.

¶ There are at least two campaigns **AGAINST CONSUMPTION** being waged at present. That against lung disease is of course infinitely more important than that against the consumption of motorists' time, money, and convenience, with which we are concerned here. But the value of our campaign is not inconsiderable. Indeed as it enables a medical man to get to his cases more expeditiously, and certainly, and more cheaply than he otherwise could, it is making an indirect contribution to the more important campaign.

¶ This is our case. The Victor Combination Tube and Sheath is a **CERTAIN** guard against punctures and bursts; it is a **CERTAIN** contribution to tyre life. Particularly in conjunction with Victor retreads (a new system—sound covers for unsound **FREE**) an actual saving in tyre cost of 50% is secured; while the Victor Tyre Lever, self-acting and extraordinarily effective (on approval, 3/6) saves time in changing a cover, and all the normal inconveniences attending there-upon.

## NORWOOD (REMOVED TO BECKENHAM) SANATORIUM.

UNDER A COMMITTEE OF WELL-KNOWN MEDICAL MEN whose names will be supplied to any member of the profession on application to the Resident Medical Superintendent.

The object is to apply to the treatment of Alcoholic and Drug Inebriety all available knowledge, and by accurate observation and record of cases to extend that knowledge, and place the therapeutics of Inebriety upon a definite scientific basis. The treatment is of such a nature that the restrictions common to Retreats need not be enforced. In many cases a residence of six weeks is sufficient.

The Sanatorium consists of a large family mansion, recently redecorated, and brought up to date in all respects. It is situated in a large and beautifully wooded private park, in near proximity to London.

All information to be obtained from the Resident Medical Superintendent, Norwood Sanatorium, The Mansion, Beckenham Park. Consultations at 14, Stratford Place, W. (opposite Bond Street Tube Station), on Mondays and Thursdays by appointment.

Telegrams: "NOROTORIUM, BECKENHAM."

## THE ALCOHOL AND DRUG HABITS.

## GHYLLWOODS (Formerly the GHYLL RETREAT.) NEAR COCKERMOUTH, CUMBERLAND.

(Licensed under the Inebriates Acts)

For Gentlemen only.

(There is also a Private Address for Patients' correspondence.)

Patients are treated individually, and on a sound scientific basis with the object of building up the health generally, strengthening the will power, and educating the mind to an adverse attitude towards the above habits.

The situation of the house in the heart of the Lake District, nine miles from the nearest town and railway station, is unique in its suitability for the work, and its isolation from temptation makes close confinement quite unnecessary in the vast majority of cases.

Outdoor and indoor sports and occupation of all kinds are provided. Trout fishing (own private lake and streams). Rough shooting over 2,000 acres, Golf (private 9 hole course), Tennis, &c. Poultry-keeping, Fish-culture, and Gardening may be indulged in, while a workshop and dark room are provided for joinery, woodcarving and photography. The house also containing a full-sized Billiard table. Terms from £3 3s. weekly, according to accommodation.

This Hospital is in a retired part of the country,  
nine miles from Manchester and two miles from  
Cheadle and Cheadle Hulme Stations, L. & N.W.  
Railway and Cheshire Lines.

The object of the Institution is to provide the  
most efficient means for the cure of mental diseases  
in those who belong to the upper and middle classes  
of society.

Many of the patients reside outside the Hospital  
in villas, in no way differing from ordinary dwelling  
houses in their internal arrangements and general  
surroundings, some of them being situated in the  
immediate neighbourhood and some on the Welsh  
Coast. These establishments give considerable  
opportunity for change of scene and locality, and  
the patients are in this way benefited in a very  
marked degree.

Voluntary Boarders are also admitted for treat-  
ment.

Arrangements are made when desired for patients  
to have private rooms or villas, and their own  
attendants, horses and carriages.

**MEDICAL PARTNERSHIP AND CONVEYANCING AGENCY.**

1, ADAM STREET, ADELPHI, W.C.

The Sale of Practices and Partnerships negotiated. Trustworthy Locum Tenens and Assistants can be had at a few hours' notice.

N.B.—No charge made to purchasers.

**Notice.—Mr. J. C. Needes,**

with an experience of over a quarter of a century, is in an exceptional position to give intending purchasers independent information concerning most Practices and Partnerships. Those investments in the following List marked with an Asterisk are well known to him, having been purchased through his office by the present incumbent years ago, and in many other cases, introductions can be given to gentlemen who have taken charge of the practices during the absence of the Incumbent.

**\*Over £1,400 a year.—A**

PARTNERSHIP introduction of 12 months will be given to a good class practice in a country residential town of 5,000 to 6,000 inhabitants in the Midland counties. Good society, educational facilities, hunting, golf, &amp;c. Visiting fees 3s. 6d. to 10s. Midwifery 1 to 10 guineas. Capital detached family residence (3 reception rooms, 6 bedrooms, &amp;c.) with large garden, orchard, &amp;c., attached. Rent £100 a year.

**Immediate.—In an open and**

increasing Northern Suburb of London a well established private PRACTICE averaging over £1,200 per annum for the past 3 years is for immediate disposal owing to ill-health. Held by present Incumbent over 20 years. Clubs have been refused. Semi-detached house containing dining and drawing rooms, consulting and waiting rooms, 7 bed rooms, &amp;c., with stabling, and good-sized garden attached. Rent £70 a year on lease. A short but efficient introduction given. Premium £1,400.

**One of the best class Practices**

in a South-Western Suburb, which has been in the same hands 20 years, is for disposal owing to the incumbent's advancing age. Receipts £500 to £800 a year, with ample scope for increase as incumbent has devoted a considerable part of his time to other matters. Visits 2s. 6d. to 10s. Midwifery 1 to 5 guineas. Exceedingly good detached house containing 4 reception rooms, 7 bedrooms, &amp;c., with garden and stabling. Three months' introduction given. Premium £800.

**In a Northern residential**

seaside town, a PRACTICE averaging nearly £500 per annum and offering unlimited scope for increase. Fees 2s. 6d. to 7s. 6d., medicine extra. Midwifery 1½ to 5 guineas. Large modern residence standing in its own grounds and fitted with every convenience for sale with the practice. Capital required £1,400.

**Canada.—Unopposed and**

rapidly increasing PRACTICE in a well settled country district. Cash receipts this year (January to October), £355. Visits 8s. 6d. to 16s. 6d., mileage extra. Midwifery £3 to £5. Freehold house (10 rooms, modern bathroom, etc.), in perfect order. Premium for house, practice, furniture, large stock of drugs, instruments, &amp;c., £1,550. Excellent climate. Good shooting and other sport. London references.

**\*Partnership.—The Two-third**

Share of a very old-established cash and private Practice in a central part of London is for disposal. Cash receipts last year £1,165, of which about £10 per week was received in ready money fees. Very little midwifery (only 15 to 20 cases yearly, nothing under 2 guineas). Premium for Two-third Share, £1,000.

**London, W.—A gentleman**

who has practised near Kensington Gardens for upwards of 30 years is desirous of meeting with a SUCCESSOR to whom he will give a partnership introduction of 12 months. The Practice is non-dispensing, worth about £1,200 per annum, and capable of very considerable increase as Midwifery and Surgery have been avoided of late years. Fees 6s. to £1 1s. House in good position containing dining and drawing rooms, waiting and consulting rooms, 5 bedrooms, dressing room, bathroom, &amp;c. Rent £120 a year.

Without Protein Life is Impossible.

## **Huntley & Palmers 'Spartan' Biscuits**

are of great value to Convalescents and Invalids, for they contain about as much protein as the same weight of cooked meat.

## **Huntley & Palmers 'Apax' Biscuits**

are very useful in dieting to combat corpulency. They contain barely 40% of starch and sugar combined, whilst one-fourth of their weight consists of scientifically balanced proteins.

## **Huntley & Palmers 'Akoll' Biscuits**

are invaluable in dieting for diabetes and glycosuria. More than half their total weight is composed of proteins, no less than seven different proteins being embodied in them. They are practically free from sugar and starch, of which they only contain those mere traces which cannot be eliminated from the albumen employed.

These three biscuits have been tested, approved and prescribed by many of the most eminent physicians in the country.
