

In the treatment of

Diphtheria

finely - powdered "SOZOJODOL"-SODIUM is a standard preparation as a local antiseptic, because it can be applied copiously and frequently without any by-effects. The application is easily made, and the action is immediate because of its ready solubility.

"Sozodol"-Sodium

finely powdered, in the pure state, or mixed with equal parts of flowers of sulphur, insufflated several times daily, is non-toxic, non-irritant, and convenient, and may be relied upon even in mixed infections of the naso-pharynx where the prognosis is doubtful.

Vademecum of "Sozodol"-Treatment, and trial samples gratis from H. Trommsdorff, chem. works, Aix-la-Chapelle 20 G.

In virtue of its neutral character

Merjodin for Syphilis

is a remedy (in tablet form) whose use is on the increase. It is non-irritating, and free from by-effects. It is specially indicated in disease of the internal organs, the pharynx and larynx. In combination with other remedies (Hg., Salvarsan, etc.) it increases their effect. Application: 3 x 1-4 tablets daily.

In original bottles of 50 tablets. Only procurable from the chemist on a physician's prescription.

Literature and trial samples free to members of the medical profession from H. Trommsdorff, chem. works, Aix-la-Chapelle NO 20.

Agents: Chas. Zimmermann & Co. (Chemicals) Ltd., St. Mary-at-Hill, London, E.C.

"Sauermilch"

The Premier Lactic Acid or Soured Milk Preparation.

Prepared in our own Milk Laboratories under the direct control of a skilled bacteriological staff.

"SAUERMILCH" (*Bacillus of Massol and Streptococcus Lactious.*)

As recommended by Professor Metchnikoff—see "Observations on Curdled Milk," &c.

"SAUERMILCH" WHEY. "SAUERMILCH" CHEESE.
CURDLED MILK, (*St. Lacticus*) BUTTERMILK, (*Freshly Churned*)

WELFORD & SONS (Dairy Company), Ltd.

REPORT

OF THE

ANÆSTHETICS COMMITTEE

OF THE

BRITISH MEDICAL ASSOCIATION.

This Report is based on 25,920 recorded cases of the administration of anæsthetics in Great Britain, tabulated and analysed with a view to the investigation of the influence of various factors in the production of complications and danger under each of the chief anæsthetics.

The Report deals with many interesting and important questions, and contains 76 statistical tables together with detailed accounts of more than 800 complicated cases.

THE STANDARD AUSCULTATION SET

(TESKE'S PATENT).

Simplicity. Efficiency. Portability.

The set consists of a chest-piece and a binaural attachment.

The former is a modification of the inventor's original stethoscope (patented in 1896), and combines in itself the uses of three different instruments, an ordinary stethoscope, an intensified stethoscope, and a phonendoscope, as fully explained and described in the *British Medical Journal* of November 15th last, page 37, and *Lancet* of December 6th last, page 15.

The Standard Binaural is the only one having a perfect means of adjustment enabling it to be worn with comfort by any user. By simply turning the larger of the two circular nuts shown at *c*, the strength of the spring can be increased or diminished, exact tension once found, the smaller nut will fix the larger one permanently. The ear-tips themselves having a universal joint can be fixed at any angle required.

The chest-piece (Fig. 1) can be supplied with a joint at *b*.

Full description and instructions for use promptly forwarded on application.

The Fire in the Consulting-room.

A Gas-fire is a boon to medical men, to whom a comfortable temperature in the consulting room is a necessity. The room can be warmed quickly and the heat maintained without trouble if a Gas-fire is installed. The fire is lighted just before consultations begin and turned out the moment the room is done with. A Gas-fire can be lighted for a few minutes even, for the comfort and safety of a particularly delicate patient.

Modern Gas-fires make no work: do not have to be "laid," attended to or replenished; make no dust, soot, smoke or ashes, and are whole-heartedly endorsed by a large section of the medical profession for their efficient consumption and the consequent purity and healthfulness of the rooms in which they are used.

Pamphlet No. F 136 deals more fully with this question. Can we send you a copy, or serve you in any other way? The British Commercial Gas Association, 47, Victoria Street, London, S.W.

ORAL SEPSIS.

**"EUMENTHOL
JUJUBES."**

(HUDSON).

Made in Australia.

A Gum pastille containing the active constituents of well-known Antiseptics, Eucalyptus Globulus (a well-rectified Oil free from aldehydes [especially valeric aldehyde], which make themselves unpleasantly noticeable in crude oils by their tendency to produce coughing). Thymus Vulg., Pinus Sylvestris, Mentha Arv., with Benzo-borate of Sodium, &c., they exhibit the antiseptic properties in a fragrant and efficient form. Non-coagulant antiseptic and prophylactic, reducing sensibility of mucous membrane,

"THE LANCET" says:—

"In the experiments tried the Jujube proved to be as effective bactericidally as is Creosote."

MR. W. A. DIXON, F.I.C., F.C.S.,
Public Analyst of Sydney, after making exhaustive tests, says:—

"There is no doubt but that 'Eumenthol' Jujubes have a wonderful effect in the destruction of bacteria and preventing their growth. . . . I have made a comparative test of 'Eumenthol' Jujubes and Creosote, and find that there is little difference in their bactericidal action."

"THE PRACTITIONER" says:—

"They are recommended for use in cases of oral sepsis, a condition to which much attention has been called in recent years as a source of gastric troubles and general constitutional disturbance, and are also useful in tonsillitis, pharyngitis, etc."

**"THE AUSTRALASIAN MEDICAL
GAZETTE" :—**

KEROL

KEROL combines all the properties which go to the making of an ideal preparation. It has been shown to be practically non-toxic non-irritant and non-corrosive—a combination of properties which make it the one preparation which can be used with perfect confidence wherever the use of either a disinfectant or antiseptic is indicated. It is of high and definite germicidal value and is perfectly homogeneous.

KEROL is highly recommended by Bacteriologists and by prominent members of the Medical Profession.

KEROL CAPSULES.

INTESTINAL There are of great value where intestinal antiseptics is indicated. In a comparatively short space of time the coli content of the intestine is reduced by over 99 per cent. They are non-irritant and perfectly safe.

STOMACHIC For use in cases of stomach fermentation and other gastric troubles, and are of great value in reducing the number of malign organisms prior to administration of treatment with lactic ferments, i.e. sour milk, etc.

The Value of Albulactin in Augmenting the Colloid Element in Cow's Milk.

While the action of reversible colloids in preventing irreversible colloids from coagulation has been understood only in recent years, it has long been known that certain substances prevent the casein of milk—an irreversible colloid—from coagulating in large, thick curds when used for infant feeding.

Recent investigations have shown that the reason why human milk forms soft, highly comminuted flakes in the infant's stomach is because it contains much reversible or protective colloid in the shape of milk-albumin. Cow's milk contains very little of this substance, hence the large tough curds it forms in the infant's stomach.

More than this, the problem of artificial infant-feeding is further complicated by the fact that by far the largest proportion of proteid in human milk exists as milk-albumin, while there is relatively little in cow's milk. Dr. Still's analysis proves this strikingly.

When cow's milk is diluted to make the total proteids agree in quantity, the child gets 1.6 per cent. of casein and only 0.37 per cent. of milk-albumin, or nearly three times more casein than it ought and only a quarter of the milk-albumin.

If the milk is further reduced to make the casein proportion correct, the milk-albumin is reduced to about one-tenth of what it ought to be.

The solution of the infant-feeding problem, therefore, resolves itself logically into the addition of sufficient milk-albumin to supply the necessary protective colloid and to furnish enough easily digested proteid. This is best done by Albulactin, which is simply pure, sterile, soluble milk-albumin, and is being extensively used by the Profession.

Samples and literature on application to A. Wulfinck & Co., 12, Chenies Street, London, W.C.

Dr. G. F. STILL'S Analysis is :

HUMAN MILK (2 % Proteid)		COW'S MILK (4 % Proteid)	
Casein	0.6		3.25
Milk-albumin	1.4		0.75

Fellows_Syrupus Hypophosphitum

ACETYL-SALICYLIC ACID

(Patented)

HYDROPYRIN AND KALMOPYRIN

(Registered)

(Registered)

ANTIPYRETIC, ANALGESIC, ANTI-RHEUMATIC, DIAPHORETIC, ANTI-NEURALGIC.

INDICATIONS—

**Muscular and Articular Rheumatism, Polyarthrititis, Neuritis, Sciatica, Gout, Lumbago,
Influenza and all Feverish Conditions, Colds, Catarrhs, Headaches, Neuralgia.**

Prompt and Definite in Action.

No Unpleasant By-Effects.

Hydropyrin and Kalmopyrin occur as fine, dry, non-hygroscopic powders, stable in all temperatures and readily and freely soluble in water. They may therefore be prescribed singly or in combination with other drugs in mixtures.

They need NEVER be prescribed in TABLET form.

Their ready solubility ensures immediate absorption and full activity. These salts cause no gastric distress nor ringing in the ears, and have no ill-effects upon the kidneys or heart.

Their immediate action, due to their solubility, obviates the danger of overdose through impatient repetition, which is inherent in tablet medication.

No other form of acetyl-salicylic acid or the salicylates, presents so many direct advantages, instantly obvious to the practitioner, as Hydropyrin and Kalmopyrin, which mark one of the most striking advances in chemistry and pharmacy of recent years.

EMOL-KELEET

After Vaccination

and in all cases of inflamed and irritated conditions of the skin, the use of EMOL-KELEET is authoritatively recommended.

EMOL-KELEET is a natural dusting powder, prepared from a pure unctuous earth, entirely inorganic in its composition. Its texture—impalpable; its action—emollient, mildly astringent, and pleasantly sedative.

As an external application in the treatment of Eczema and the Prurigo accompanying Scarlet Fever and Measles, it has never failed to bring immediate relief to the affected parts.

In infantile cases especially, the value of EMOL-KELEET in moderating rashes and other disturbances of the skin, is most marked.

SAVORY & MOORE'S PEPTONISED MILK PREPARATIONS

(Awarded **GOLD MEDAL** International Congress of Medicine, 1913)

Savory & Moore's Peptonised Milk Preparations include Cocoa and Milk, Coffee and Milk, condensed Peptonised Milk and Milk Chocolate. They are highly nourishing and extremely easy of digestion, and are thus especially useful in all cases where ordinary nourishment cannot be taken, whether through illness or digestive weakness. They are instantly prepared, as hot water only is required.

COCOA AND MILK

The Cocoa and Milk is made from specially selected Cocoa and pure, rich country milk, both of which are treated by a special peptonising process. The result is a preparation of remarkable nutritive value and delicious flavour which can be taken and assimilated even by those who are quite unable to take cocoa in the ordinary form.

The Cocoa and Milk is especially suitable for Invalids, Convalescents, and all whose digestive organs have been weakened by illness, overwork, study or other debilitating causes. In cases of GASTRITIS and GASTRIC ULCER it has proved highly successful. It is also very beneficial in NERVOUS CASES, and it may be taken at night without the least fear of causing digestive disturbance.

It requires only the addition of hot water, and can thus be prepared in a moment at any hour of the day or night.

PEPTONISED MILK

The process of making peptonised milk is one requiring much skill and experience, and it is practically impossible to prepare it properly in the sick room. In Messrs. Savory & Moore's factory the various operations are carried out by a highly skilled and specially trained staff, with the result that their Peptonised Milk may be absolutely relied upon.

The Peptonised Milk is of the greatest value as a food in all cases of INFANTILE MALNUTRITION, also in cases of FEVER and WASTING DISEASE, whether in children or adults. It is retained even when no other kind of food can be taken, and by its nutrient qualities enables the patient to successfully combat disease. In many cases it has been the means of saving life, especially among infants.

Dilution with hot or cold water, as directed, renders it ready for immediate use.

SAMPLES of the above Preparations may be obtained on application to:—

SAVORY & MOORE, Ltd., Chemists to THE KING.

143, New Bond Street, London.

Glycolactophos

FORMULA.—Casein 95%, Glycerophosphate of Sodium $2\frac{1}{2}\%$, Glycerophosphate of Calcium $2\frac{1}{2}\%$.

GLYCOLACTOPHOS is a combination of Pure Casein 95% with Glycerophosphates 5% (Sodium Glycerophosphate $2\frac{1}{2}\%$ and Calcium Glycerophosphate $2\frac{1}{2}\%$) and therefore unites the principal proteid element of Milk with Phosphorus in an organic form.

GLYCOLACTOPHOS is a fine white powder, homogenous, readily soluble, and pleasant to take.

Casein more particularly when combined with the Glycerophosphates has a high dietetic and therapeutic value, and

1. Is able to replace broken down proteids,
2. Is readily digested and absorbed,
3. Does not form uric acid or sugar in metabolism.

The Glycerophosphates,

1. Accelerate metabolism generally,
2. Accelerate nitrogenous metabolism in particular,
3. Favour assimilation of albuminoids,
4. Increase the excretion of nitrogen and sodium chloride.

There is likewise little need to mention that the Glycerophosphates provide a most efficient form in which to administer organic Phosphorus, for there is evidence to show that the Phosphorus of Glycerophosphates is absorbed and retained in the body.

Clinical evidence proves that the Glycerophosphates are of great value in the treatment of certain disorders of the nervous system and it is maintained that

1. In Neurasthenia, Tabes Dorsalis, Neuralgia and those nervous conditions in which an excess of phosphates are excreted in the urine **GLYCOLACTOPHOS** is of valuable assistance.
2. Its use is of great value in Phthisis, Diabetes, Alimentary disorders, Anæmias, Insomnia and in all conditions in which a readily digestible and assimilable food is particularly indicated.
3. Its high proteid content renders it a most valuable adjunct in the treatment of Rickets.
4. Recent observations have shown that calcium salts are often of service in various morbid states—e.g., Hæmorrhage from different organs, Hæmophilia, Urticaria, Graves' Disease, and others. In these conditions **GLYCOLACTOPHOS** is of value owing to the readily assimilable calcium salt which it contains.

GOLD MEDAL International Congress of Medicine, London, 1913. MIST. HEPATICA CONC. (HEWLETT'S)

COMPOSITION.—Ext. Cascara, Ext. Rhei, Jalapin, Podophyllin, Cocainæ Hydrochlor., 1-12th gr. in each fluid drachm.

THIS excellent compound, first introduced as a general aperient and cholagogue, has now become a popular remedy, and attention has very recently been called to the value of the mixture, by various authorities, in that class of cases spoken of as Chronic Biliousness, in Catarrhal Jaundice, and in the Jaundice of simple Hepatic Torpor. The remedial value of the compound depends chiefly upon the power which it possesses in influencing the action of the liver and other glandular organs of the alimentary canal. The remedy would not seem to be indicated in Hepatitis with high fever, so much as in the more chronic form of the affection which ends in enlargement and induration of the organ. **In passive or habitual Congestion of the Liver, so frequently met with, it has been used with marked benefit.** Even in the early stages of cirrhosis, whilst the liver is still enlarged, the compound should be regularly given, as great benefit has been derived from its use.

In the treatment of acute or temporary constipation, frequently met with in the convalescence from acute disease, and in pregnancy, or in the constipation due to sedentary habits, to habitual overwork (especially of the nervous system), to a deficiency of intestinal secretion, and of peristalsis, and a paralytic state of the intestinal muscular fibre, the mixture can be prescribed with wonderful effect, positively curing cases that have resisted other remedies.

The Dose is from 10 to 60 minims, according to the age and condition of the patient. One drachm is a direct aperient, and is not accompanied by griping or tenesmus.

Packed for Dispensing only in 10-oz., 22oz., 40oz., and 90oz. Bottles.

Please write: "Mist. Hepatica Conc. (HEWLETT'S)" to ensure obtaining this Preparation.

Obtainable from all Wholesale Druggists and the leading Dispensing Chemists throughout the United Kingdom, India, and the Colonies.

PHYLACOGENS*

Pneumonia Phylacogen

Indicated in the treatment of pneumonia or any pathological condition caused by the pneumococcus.

Vials of 10 c.c.

Rheumatism Phylacogen

Indicated in the treatment of any acute or chronic rheumatic infection not due to the gonococcus.

Vials of 10 c.c.

Gonorrhœa Phylacogen

Indicated in the treatment of any pathological condition due to infection with the micrococcus gonorrhœæ.

Vials of 10 c.c.

Erysipelas Phylacogen

Indicated in the treatment of erysipelas—i.e., the acute disease caused by infection with the streptococcus erysipelatis.

Vials of 10 c.c.

Mixed Infection Phylacogen

Indicated in the treatment of all infections, acute or chronic, in which the condition is not due to a specific micro-organism—notably in surgical infections, abscesses, puerperal sepsis, eczema, fistulæ, etc.

Vials of 10 c.c.

THE PHYLACOGENS are sterile aqueous solutions of metabolic substances generated by bacteria grown in artificial media. Their use is based on the theory of multiple infections—a principle supported by long practical experience, supplemented by exhaustive clinical work by their author.

They are usually administered hypodermically.

They have been thoroughly tested clinically and are offered to the medical profession with full confidence in their therapeutic efficiency.

*The name Phylacogen distinguishes the modified bacterial derivatives manufactured by Parke, Davis & Co., according to the process of Dr. A. F. Schafer, of California.

How Benger's Food converts its own Starch

Analysis of Benger's Food when prepared with milk
shews the average percentage of unconverted starch to be:—

After 15 minutes self digestion 1.5%.

After 30 " " " 0.5%.

It can be prepared for Infants, etc. so as to
show so low a percentage as 0.4%.

NOTE.—The self digestion of Benger's Food may be from 5 to 45 minutes as desired. It is easily and simply regulated.

 *BENGER'S FOOD* in the tin
contains the natural percentage of starch in
wheaten flour, but this undergoes conversion
by the Amylolytic ferment in the Food so
that, as shewn above, the unchanged percentage
about equals the amount in barley water.

*The milk is also made easy of absorption
by a second, Tryptic, ferment.*

FOR INFANTS, INVALIDS,
AND AGED PERSONS.

is sold throughout the World by Chemists, &c., in sealed tins.

PNEUMOSAN

(REG. TRADE MARK)

(For constituents see THE LANCET, 11/10/13, page 1070),

has marked advantages over any other agents employed in the treatment of Tuberculosis. It is not a drastic remedy and hence it will never cause any harm locally or constitutionally. Some thousands of cases have been treated with it during the last 3 years and the results enable us to form the following conclusions: **It is practically infallible in early cases, it is capable to arrest the disease in advanced cases, and it is palliative in extreme cases.** It is strongly indicated in Pulmonary, Joint and Glandular Tuberculosis.

Extract from an official report issued in June, 1913, by the **Birmingham General Dispensary Tuberculosis Department**:—

"76 cases have been treated with Pneumosan. Of these, 43 improved, 6 got worse, and 27 were apparently not affected. No selection of cases was made except so far as it is mentioned below. The injections were intramuscular and **were given twice weekly*** over a period of 4 months. In no case was a local reaction observed. A general reaction was rare, and when it occurred the rise in temperature was not associated with subjective symptoms as is generally the case with the Tuberculin reaction. **Those who grew worse during the Pneumosan treatment are not suitable for Tuberculin.** 13 patients who have previously been treated with Tuberculin, but whose extreme sensitiveness renders its continuance unsuitable, were placed upon Pneumosan; 5 of these improved but 8 fell into the class of no 'apparent change.' By improvement we indicate increase of weight, increase of energy, and a general feeling of renewed well-being. The time is too short to talk about cure."

**If the injections could have been made in conformity with the "Directions for Use" the percentage of "Improved" would have very likely risen to 80 or 90 per hundred.—Remark by the PNEUMOSAN CHEMISCHE-FABRIK.*

October 30th, 1913. The following supplementary report has reached us from the same source:—

"We are testing Pneumosan in a very large number of cases, and the results continue to give satisfaction. It is practically impossible to get out-patients to attend more than twice a week, while we have not the time necessary to visit their homes for the purpose of inoculation."

PNEUMOSAN is issued in bottles containing 20 to 30 Injections.
Price 15/6 per Bottle, carriage paid to any part of the United Kingdom.
Special Syringe with two needles, 5/-.

Any Hospital in Greater London with facilities to try the drug on a large number of in-patients may apply for a free supply.

HOEFFTCKE'S EXTENSION APPLIANCES.

AMBULATORY TREATMENT OF FRACTURE OF THE LIMBS, TUBERCULOUS AND ARTHRITIC DISEASE OF JOINTS.

By C. A. HOEFFTCKE,

21, Woodstock Street, Oxford Street, London. W.

By Appointment to several Hospitals.

THE average result in the treatment of fractures of the neck of the femur has been very unsatisfactory, especially in old people, and I have heard the doctrine advocated to leave a neck of femur fracture alone and let the patients get on as well as they can, without making even an attempt to keep the bones in a good position.

Of late years screws and pegs have been tried, and although in a few cases union has been obtained, the majority show bad results. The splint which I have devised for neck of femur fractures has proved valuable to surgeons in many cases. First of all, with a recent fracture the patient can get up within a few days of the accident, which prevents hypostatic congestion of the lungs and other drawbacks of the recumbent treatment. The bones can be held in good apposition while the patient walks, and I can safely say that the chance of obtaining good union by means of my Extension splint is better than with any treatment hitherto devised.

By applying the apparatus immediately after the accident the best results are obtained, but even in ununited fractures in old people the percentage in which good union results is a high one.

As the trochanter is generally displaced upwards the extension part of the apparatus has to do most of the work, and although it is easier when the appliance is put on to reduce the shortening under an anæsthetic, it can be attained by the action of the apparatus alone.

The skiagrams 1 and 2 show a fracture two years old reduced under an anæsthetic, and the fragments held in apposition by means of the splint while the patient is enabled to walk about.

Very often a fracture of the neck of femur is impacted, and when the weight is put on the leg, even after considerable time has elapsed, the long bone will displace upwards, and in addition through the action of the adductors the fracture will open on the top and so prevent union.

When my splint is used the fracture remains impacted and the result is generally a very good one. Even when the surgeon decides to hold the fragments together with a screw, union is obtained in much quicker time than with the recumbent treatment, as the exercise of the muscles and dependent position of the leg furthers the blood-supply and allows the callus to form more quickly.

As there is no pressure upon the leg the holding of the screw is not interfered with, and by keeping the leg in the abducted position by means of the splint the contraction of the adductors is counteracted.

The great feature of this treatment is that from the time the apparatus is put on the patient is able to walk about without crutches and lead an active life again. The general health of patients with old ununited fractures, which has in most cases suffered from inactivity, improves, and the atrophied muscles regain their normal power from the exercise of the limb.

Mrs. W. (æet. 71). This case was diagnosed in the first instance as a sprained hip, but when a skiagram was taken two months after the accident, a fracture was shown which had been impacted. My appliance was ordered and put on Nov. 29th, 1910, three months after the accident. The leg was considerably adducted, so that the apparent shortening was about one and a half inches, actual shortening half an inch. Extension was put on and the leg gradually abducted with the help of the appliance. The patient commenced to walk again, and her health improved gradually. Another

radiograph was taken, which showed a good deal of callus forming. Extension was reduced and a certain amount of weight allowed to bear on the foot. A further radiograph taken Oct. 5th, 1911, showed good bony union. The splint was taken off and the old lady is walking about as well as before the accident. This is indeed, a very satisfactory result for a patient of this age.

Mr. E. (æet. 82). Neck of femur fracture. Splint put on six days after the accident, bony union obtained three months afterwards.

Mrs. B. (æet. 42). See Fig. 1 and 2. Neck of femur fracture, broken two years ago; shortening one and a half inches, leg adducted, and line of fracture opened out on the top. Shortening reduced under an anæsthetic on my Extension table Nov. 19th last, and leg abducted. When Extension splint had been on for eight days, and the patient had walked about on it, the skiagram taken showed a quarter of an inch shortening and bones in much better position

FIG. 1.

Mrs. B. (æet. 42). Neck of femur fracture, November, 1911. Fragments opened out on the top. Leg abducted. One and a half inches shortening.

FIG. 2.

Mrs. B. (æet. 42). Neck of femur fracture. Shortening reduced to a quarter of an inch 19th November last; leg abducted. Skiagram taken 27th November. Bones in good position.

CENTRIFUGES, FANS, &c. [phines, &c.]

NEW AND IMPROVED
SWITCHLESS MODEL

LISTERINE

is an efficient, non-toxic antiseptic of known and definite power, prepared in a form convenient for immediate use.

It is a saturated solution of boric acid, reinforced by the antiseptic properties of ozoniferous oils.

It is unirritating, even when applied to the most delicate tissue.

It does not coagulate serous albumen.

It is quite generally accepted as the standard antiseptic preparation for use where a poisonous or corrosive disinfectant can not be safely used.

It is particularly useful in the treatment of abnormal conditions of the mucosa, and admirably suited for a wash, gargle or douche in catarrhal conditions of the nose and throat.

In proper dilution, it may be freely and continuously used without prejudicial effect, either by injection or spray, in all the natural cavities of the body.

There is no possibility of poisonous effect through the absorption of Listerine.

A pamphlet descriptive of the antiseptic, and indicating its utility, in medical, surgical and dental practice, may be had upon application to Lambert Pharmacal Company, Locust and 21st Sts., St. Louis, Mo., U.S.A., or their British Agents, Messrs. S. Maw, Son & Sons, 7, Aldersgate Street, London, but the best advertisement of Listerine is

LISTERINE

LOSS OF HAIR.

POMADE MAX

(UNG. CANTHARIDIN e. HYDR. CO.)

possesses a marked action on the hair-producing structures. Its principal effects are:—

- (a) Benefits local circulation and nerve action.
- (b) Determines absorption of obstructive exudates.
- (c) Exercises penetrative parasitocidal action.

These partly explain the arrest of hair-fall and re-growth, which almost invariably follow its proper use. It contrasts with other formulae in definite reliability and striking rapidity of effect.

POMADE MAX is indispensable in

ALOPECIA PREMATURA,
ALOPECIA SEBORRHOICA,
ALOPECIA AREATA,
DANDRUFF,

and every variety and degree of
Loss of Hair.

KNEE TRUSSES.

For Dislocated Internal or External Semilunar Cartilages, for Chronic dislocation of the patella, and relaxed internal or lateral ligaments. The best results are obtained by fitting the side plates to the patient's knee, but if this be impracticable send circumference of joint over patella only with knee semi-flexed. State

which knee, and short description of the case. *Used by professional footballers, tennis players, etc. The truss does not interfere with the free action of the knee, on flexion or extension.

The CURTIS ABDOMINAL SUPPORT

(PATENTED 21103/10.)

This is the only scientific Abdominal support which accomplishes its purpose effectually, and with the least discomfort to the patient.

Supplies a perfect support for Enteroptosis, Visceroptosis, as well as for post-operative cases. Suitable in all cases requiring direct Abdominal support—allows perfect freedom of movement, does not get out of position, and obviates the use of Perineal straps. Succeeds where abdominal belts fail!

PRICE AND VALUE

There will always be a market for motor carriages, as for roller skates. There were always "cheap" cars, "cheap" meaning low-priced. There were always cars whose most signal distinction was their high purchase-price. Similarly, there was always one car which gave its buyers sterling value for every penny of price paid. It commanded a high price in the old days, when good cars might be counted on one's fingers, just as it fetches more than gas-pipe and soft-solder price to-day. It costs less per unit of rating to day than ever, because it is built in largern umbers than ever, quantity facilitating the maintenance of quality at reduced selling prices. Built for service but priced for sale, its price being determined by its cost, and not its service capacity by its price, the car for the doctor who wants sound value and trouble-free service is the

Alcohol and Drug Inebriety and Neurasthenia.

INVERNITH LODGE SANATORIUM, COLINSBURGH, FIFE, SCOTLAND. (Licensed under the Inebriates Acts.) FOR GENTLEMEN ONLY.

Neurasthenia is treated on approved principles, and there are Open-air Shelters in the grounds for suitable cases. **Inebriety and Narcomania** are treated on definite medical lines, and the most approved scientific means are employed in the curative treatment. The Resident Medical Superintendent has each patient under his personal care and observation. The curative treatment is much aided by the healthy situation of the Sanatorium and by its isolation from temptation.

The Sanatorium stands 450 feet above the sea, faces south, and looks out over the Firth of Forth. The climate is dry and bracing. All outdoor and indoor sports. First-class private golf course. Excellent mixed shooting over 1,600 acres, fishing, tennis, gardening, carpentry, &c. Billiard room (two tables), music room, large private library.

References to leading physicians in the chief centres given on application.

For all particulars apply to the *Resident Medical Superintendent*, W. H. BRYCE, M.B., C.M.

Telegrams: "Salubrious, Upper Largo." Telephone No. 8 Upper Largo. STATION—KILCONQUHAR (N.B. RAILWAY).

NEWMAINS RETREAT, NEWMAINS, LANARKSHIRE. Licensed under the Inebriates Acts.

The House is devoted to the Care of LADIES of the upper classes only, who can be treated either under the Acts or as Voluntary Patients. The place stands high and the estate is extensive, with bracing air and in good shelter. It is very retired and beautiful, well suited for the treatment of Inebriety, Narcomania and other perversions, Neurasthenia, Hysteria, and minor Mental Ailments.

No patient under Certificate of Insanity can be received.

References:—Sir THOMAS CLOUSTON, Dr. YELLOWLEES, Dr. RISIEN RUSSELL, and others.

Terms and particulars on application to "Superintendent, The Retreat, Newmains, Lanarkshire. Nearest Station Hartwood Cal. Ry.

NORWOOD (REMOVED TO BECKENHAM) SANATORIUM.

UNDER A COMMITTEE OF WELL-KNOWN MEDICAL MEN whose names will be supplied to any member of the profession on application to the Resident Medical Superintendent.

The object is to apply to the treatment of Alcoholism and other Drug Habits all available knowledge, and by accurate observation and record of cases to extend that knowledge, and place the therapeutics of Inebriety upon a definite scientific basis. The treatment is of such a nature that the restrictions common to Retreats need not be enforced. In many cases a residence of six weeks is sufficient.

The Sanatorium consists of a large family mansion, recently redecorated, and brought up to date in all respects. It is situated in a large and beautifully wooded private park, in near proximity to London.

All information to be obtained from the Resident Medical Superintendent, Norwood Sanatorium, Ltd., The Mansion, Beckenham Park. Consultations at 13, Welbeck Street, W., every afternoon by appointment.

Telegrams: "NOROTORIUM, BECKENHAM." Resident Medical Superintendent: FRANCIS HARE, M.D. Telephone: 648, BROMLEY.

ELECTRO-MEDICAL & PHYSICAL TREATMENT.

EXCLUSIVELY FOR PATIENTS RECOMMENDED
 BY THE MEDICAL PROFESSION.

4, BERKELEY ST., PICCADILLY, LONDON, W.

Telephone; 687 Mayfair.

Telegrams: "Richesta, London."

Sole Proprietor: **JOHN RICHERT (M.C.I.G. Stockholm)**, late Superintendent and Demonstrator in Physical Therapeutics, National Hospital for the Paralysed, London.

Experience has abundantly demonstrated that an INSTITUTE for ELECTRO-MEDICAL and PHYSICAL TREATMENT, conveniently accessible from all parts, and equipped scientifically and comprehensively, would provide facilities for which there is an increasing and far-felt need. Mr. RICHERT has established such an Institute at the above address, with all the latest appliances, exclusively for patients recommended by their medical advisers, the latter retaining in their own hands the control and supervision of their cases and the treatment prescribed.

The Treatments undertaken include:—

HYDRO-THERAPEUTICS—viz., Medical Baths, Douches, Aix, Vichy and Nauheim Treatments (except Fango Bath).

ELECTRO-THERAPEUTICS—viz., X-Ray and High Frequency Treatment, Electric Light and Water Bath, &c., &c.

MECHANO-THERAPEUTICS—viz., Manual & Mechanical Massage, Orthopaedic & Mechanical Gymnastics.

Mr. RICHERT begs to call attention to the fact that he does not undertake any case for treatment unless the patient produces a written prescription for the treatment required, or that the medical attendant of the case in question has otherwise given him the necessary instructions and directions.

Accommodation is provided for a limited number of In-patients requiring a continuous course of such treatment as the Institute provides.

As an Institute of this character is entirely dependent on the active support of the Medical Profession, Mr. RICHERT trusts that he will receive their kind patronage.

Members of the Medical Profession are invited to inspect the Institute.

Resident Physician:—W. JOHNSON SMYTH, M.D.

GRAMPIAN SANATORIUM KINGUSSIE, INVERNESS-SHIRE.

Specially built for the Open-Air Treatment of Tuberculosis, and opened in 1901. Bracing mountain air. Elevation 860 feet above sea-level. Sheltered situation in pine wood. Graded walks. Electric light throughout building and in shelters. Inoculation Treatment available for patients—18 beds.

Resident Physician.
Terms 3 to 4 guineas weekly. For further particulars, apply WALTER DE WATTEVILLE, M.D., Kingussie, N.P., Medical Director.

MOORCOTE SANATORIUM.

FOR THE TREATMENT OF TUBERCULOSIS. Est. 1899.

Situated amid pines, 36 miles from London. Pure air, mild sunny climate, gravel subsoil, extensive and very sheltered grounds. Bedrooms and chalets with balconies. Home-like and comfortable. Excellent food. Spengler's I. K. Tuberculin tested in Ehrlich's Laboratory, and Inhalations used. Terms from 2½ guineas. Physician: Dr. J. G. GARSON. Matron and Trained Nurses. Vacancies in Ladies' and in Gentlemen's Departments. Apply to the Secretary, Eversley, Hants.

DARTMOOR SANATORIUM 750 FEET.

Treatment by Tuberculin-Vaccines and I.K. Within easy reach of the moor. For particulars apply C. H. BERRY, M.R.C.S. Sanatorium, Chagford, Devonshire.

OCHIL HILLS SANATORIUM MILNATHORT, N.B.

This Sanatorium, one of the finest and most beautifully situated in Europe, stands at an elevation of 800 feet in grounds of 460 acres which ascend to an elevation of 1,100 feet, and embrace woods, moorland, ornamental grounds, and a home farm, where convalescents can be taught practical farming.

It is fully and efficiently staffed and equipped with every appliance for the medical treatment, comfort, and convenience of patients.

Terms: 3½ to 4½ guineas weekly.

For particulars and Prospectus apply to THE SECRETARY or MEDICAL SUPERINTENDENT.

Telegrams: "Sanatorium, Milnathort."

Telephone: No. 9 Milnathort (P.O. Wire).

VALE OF CLWYD SANATORIUM.

This Sanatorium (opened 1901) is established for the treatment of Tuberculosis as carried out by Dr. OTTO WALTHER, of Nordrach. It is situated in the midst of a large area of park land, at a height of 450 feet above the sea level, on the western slopes of mountains rising to over 1,800 feet, which protect it from north and east winds, and provide many miles of carefully graduated uphill walks, similar in character and extent to those at Nordrach.

Small rainfall. Porous subsoil. Large amount of sunshine. Electric lighting, and hot water radiators in each room.

The Physician himself was a patient at Nordrach.

For particulars apply to GEORGE A. CRACE-CALVERT, M.B., &c., Llanbedr Hall, Ruthin, North Wales.

For Men only.
**SALARIED CLERKS
AND OTHERS IN THE EARLIEST
STAGE OF CONSUMPTION.**
Fees. £2.2. to £3.3.
**FIRST-CLASS ACCOMMODATION.
SEPARATE ROOMS. Two RESIDENT DOCTORS.
HEALTHY COUNTRYSIDE.**

APPLY TO THE SECRETARY,
34, CLEMENTS LANE, LONDON, E.C.

The TREATMENT of DISEASES of NUTRITION

DUFF HOUSE, BANFF, SCOTLAND, is now open to receive patients suffering from disorders of the stomach and intestines, diabetes, gout, and other complaints which need skilled chemical investigation and dietetic treatment.

The House is fitted with laboratories, X-ray installation, medical baths, and lifts. No expense has been spared in providing a complete equipment.

The staff includes physicians who have had special experience of chemical pathology, dietetics, and X-Ray work, an analytical chemist, a matron, and fully trained nurses.

Duff House is a former home of H.R.H. the Princess Royal and His Grace the late Duke of Fife. It is situated on the rocky coast of the Moray Firth, and looks southward up the sheltered valley of the Deveron. The climate is mild, and the rainfall the lowest in Scotland.

Enquiries should be addressed to THE SECRETARY, DUFF HOUSE, BANFF, Scotland.

NORDRACH-ON-DEE

(Near BALMORAL), SCOTLAND.

Open-Air Treatment of CONSUMPTION
and allied diseases.

TUBERCULIN and VACCINE TREATMENT associated with Laboratory Control is available for all patients residing in this Sanatorium.

Research Laboratory. Fully Equipped Throat Room. Roentgen Ray and Ultra Violet Light Installations.

Address, Dr. LAWSON or Dr. LUCAS, Banchory, N.B.

MENDIP HILLS SANATORIUM, FOR THE OPEN-AIR TREATMENT.

Specially built, facing South. 300 acre of Sanatorium grounds—meadow and woodland; sheltered pine avenues. Altitude 853 feet, magnificent view for miles South; hot-water radiators and electric light. Special features are breathing, singing, and graduated exercises, walking and trampolining; continuous inhalation a decided success; electric treatment. Resident Physicians—C. MUTHU, M.D., M.R.C.S., L.R.C.P., and C. F. FEARNSIDE, M.A., M.B., C.M.

Terms 3 Guineas Weekly.

For particulars apply, SECRETARY, Hillgrove, Wells, Somerset.

THE HOME SANATORIUM, WEST SOUTHBOURNE, NEAR BOURNEMOUTH.

For early Tuberculosis. Efficient hygienic treatment combined with home comfort. Tuberculin and Vaccine treatment in suitable cases. Skilled nursing. Night nurse. Excellent table. Beautiful grounds. Croquet and billiards.

Charges: Three to Five Guineas Weekly.

The Directors are prepared to receive applications
for the post of an ASSISTANT DIRECTOR OF
THE LABORATORIES. Remuneration to com-
mence with £250 per annum.

Applications, stating qualifications and experience,
should be sent in before January 17th, 1914, to the
Secretary, at the above address.

St. Mary's Hospital for WOMEN AND CHILDREN, Plaistow, London, E.

The Committee invites applications for the post of
(Male) JUNIOR RESIDENT MEDICAL OFFICER.
The appointment is made for a period of six
months from the 1st November, and the salary is at
the rate of £70 per annum, with residence, board,
laundry, and an honorarium of £10 on completion of
the appointment.

The Hospital has 42 beds in use daily, and con-
tains special departments for Ophthalmic, Gynaecological,
Throat and Nose cases, as well as an X-Ray
Department.

Applications, together with copies of three recent
testimonials to be sent to the Secretary.

A. ERNEST WILKES, Secretary.
31st October, 1913.

Norfolk and Norwich Eye INFIRMARY.

SURGEON AND ASSISTANT SURGEON.

Applications, with qualifications, for the above to
be sent to the Secretary, Saint Stephen's Road,
Norwich, not later than 9th January next.

RULE XI. provides that "Every Candidate for
the office of Surgeon or Assistant Surgeon shall
produce evidence of holding a degree in
Surgery of one of the Universities of the
United Kingdom or of being Fellows or
Members of one of the Royal Colleges of
Surgeons of the United Kingdom and of being
registered according to the provisions of the
Medical Act."

Norwich, S. N. BERRY, Secretary.
20th December, 1913.

Liverpool Eye and Ear INFIRMARY, Myrtle Street, Liverpool.

Applications are invited for the post of HOUSE
SURGEON (male). Salary at the rate of £80 per
annum. Candidates must be doubly qualified.
Applications, stating age, qualifications, &c., accom-
panied by three recent testimonials should be
forwarded to the Secretary of the Medical Board not
later than Tuesday, December 30th.

King's College Hospital, Denmark Hill, London, S.E.

Applications are invited for the appointment of
SENIOR MEDICAL REGISTRAR and TUTOR to
King's College Hospital. Particulars can be obtained
from the undersigned, to whom applications, with
copies of testimonials should be sent by Monday,
January 12th, 1914.

H. S. TUNNARD, Secretary.

Hackney Union.

The Guardians of this Union require the services
of a MEDICAL OFFICER for the East End Out-
Relief Districts of the Union, which comprise part of
Lower Clapton and Homerton, bounded on the
North by Lea Bridge Road and the River Lea, and
on the East by the River Lea, and on the South by
the line of the North London Railway and Temple
Mill Road, and on the West by Lower Clapton Road.

Salary £130 per annum, together with any extra
medical fees which may be allowed in accordance
with the orders of the Local Government Board, and
fees for Visiting Pauper Lunatics resident in the
Districts.

Candidates must be doubly qualified registered
Medical Practitioners, and the person appointed will
be required to enter into a contract for the due per-
formance of the duties of the office, must be prepared
to conform to the rules, orders, and regulations of
the Local Government Board and of the Guardians,
and reside in one of the Districts.

The appointment will be subject to the approval
of the Local Government Board and the Poor Law
Officers' Superannuation Act, 1896.

Canvassing the Guardians, either personally or
otherwise, is strictly prohibited, and will disqualify
a candidate.

Form of application can be obtained at my office,
or will be sent upon receipt of a stamped addressed
foolscap envelope.

Applications, with copies of not more than three
testimonials of recent date, must be delivered to me
not later than 10 a.m. on Monday, the 29th day of
December, 1913.

Selected candidates will be informed when to
attend a meeting of the Guardians.

By Order,
FRANK R. COLES.

Clerk's Office, Clerk to the Guardians,
Hackney Union, Sidney Road,
Homerton, N.E., 17th Dec., 1913.

County Borough of Croydon.

CROYDON BOROUGH HOSPITAL.

The Council invite applications for the appoint-
ment of SENIOR RESIDENT MEDICAL OFFICER
and BACTERIOLOGIST at the Croydon Borough
Hospital for Infectious Diseases and Assistant
Medical Officer of Health.

Preference will be given to candidates who have
held previous hospital appointments and possess a
Diploma in Public Health.

The salary will be £160 per annum, with board,
lodging, and washing.

Applications to be made upon forms to be obtained
at my office, and sent to me with copies of not more
than three testimonials of recent date, not later
than 11 o'clock in the forenoon of Wednesday, the
7th January, 1914, endorsed "Senior Resident
Medical Officer."

JOHN N. NEWNHAM,
Town Hall, Croydon, Town Clerk.
16th December, 1913.

Royal Free Hospital, Gray's-Inn Road, W.C.

The Committee of Management are about to
appoint an ASSISTANT PHYSICIAN to the
Hospital, to have care of Out-Patients.

Candidates must be Fellows or Members of the
Royal College of Physicians of London, and be
prepared to give instruction to the students of the
London (Royal Free Hospital) School of Medicine
for Women.

Applications, with testimonials, must be sent to
the Secretary on or before January 17th, 1914.

Canvassing Members of the Committee is pro-
hibited.

Further particulars may be obtained from the
Secretary of the Hospital.

REGINALD R. GARRATT, Secretary.

Birmingham Maternity HOSPITAL.

HOUSE SURGEON (male) required in January.
The appointment is for six months. Salary at the
rate of £50 per annum, with board, residence and
laundry.

Applications accompanied by copies of testimonials
and certificate of registration must be sent on or
before January 3rd, to

HUGH C. ASTON, Honorary Secretary,
45, Newhall Street, Birmingham.

Belgrave Hospital for CHILDREN, Clapham Road, S.W.

DENTAL SURGEON.

The Committee of Management invites applica-
tions for the above appointment. Candidates
must be Licentiates or Graduates in Dental Surgery
of an English University. Applications, with copies
of testimonials, must be delivered to the under-
signed by Saturday, January 10th, 1914, from whom
further information may be obtained.

By Order,
THOMAS W. GREGG, Secretary.

Willesden Urban District COUNCIL.

ASSISTANT MEDICAL OFFICERS OF HEALTH
AND
ASSISTANT SCHOOL MEDICAL OFFICERS.

The Willesden Urban District Council invite
applications for two appointments as above. The
applicants must be duly qualified and registered
Medical Practitioners and hold a Diploma in Public
Health. Men and women are alike eligible to apply.
The principal duties of the Officers appointed will be
the medical inspection of school children in the
public elementary schools, but they must be pre-
pared to undertake such other duties as the Council
of Education Committee may from time to time
determine. The Officers will be required to give
their whole time to the duties of the office, and to
act under the direction of the Medical Officer of
Health and School Medical Officer.

The salary will be £300 per annum, and the
appointments are terminable by a month's notice on
either side.

Forms of application, which may be obtained by
applying to the undersigned and enclosing a stamped
addressed envelope, must be delivered at the Offices
of the Council, addressed to me, and endorsed
"Assistant Medical Officer," with copies of not more
than three recent testimonials, on or before the
6th day of January, 1914.

Canvassing is prohibited, but candidates will be
permitted, if they so desire, to send through me, 42
copies of their application for members of the
Council.

Dated this 22nd day of December, 1913.

By Order, REGINALD C. GRAVES,
Deputy Clerk of the Council.

Municipal Offices,
Dyne Road, Kilburn, N.W.

Lancashire Education COMMITTEE.

APPOINTMENT OF ONE LADY SCHOOL
MEDICAL INSPECTOR.

The Lancashire Education Committee invite
applications from registered medical practitioners
for the appointment of one School Medical Inspector
(female) to assist in carrying out the provisions of
the Act with regard to the Inspection of School
Children within the County Elementary Education
Area, and to perform such other duties as may be
required by the Committee from time to time.

The person appointed will be required to devote
her whole time to the services of the Committee.
The salary will be £350 per annum, rising by annual
increments of £50 to a maximum of £450, with third
class railway fare, and other reasonable expenses.

Applications must be made upon a form which
can be obtained (with further particulars) from the
undersigned, and must be forwarded (together with
copies of not more than three recent testimonials)
to this office not later than first post on the 13th
January, 1914.

All communications must be endorsed "School
Medical Inspector." Canvassing, either direct or
indirect, will disqualify.

HARCOURT E. CLARE,
Clerk of the Lancashire County Council,
County Offices, Preston.
18th December, 1913.

Royal Mineral Water HOSPITAL, Bath.

Special Hospital for Rheumatism, Arthritis and
Joint Diseases. 150 Beds.

Applications are invited for the post of RESIDENT
MEDICAL OFFICER, now vacant.

Candidates, who must be legally qualified and
registered medical men, should forward their appli-
cations, stating age, &c., and testimonials to the
Secretary at once.

Salary £120, with lodging, board and washing.
November, 1913.

Metropolitan Hospital, Kingsland Road, N.E.

There is a vacancy for a JUNIOR DENTAL
SURGEON. Candidates must be Licentiates in
Dental Surgery of the Royal College of Surgeons of
England.

Applications, with copies of testimonials, to be
sent by Monday, 19th January, 1914, to

J. COURTNEY BUCHANAN,
Secretary and House Governor.

National Hospital for the PARALYSED AND EPILEPTIC (Albany Memorial), Queen Square, Bloomsbury, W.C.

SENIOR HOUSE PHYSICIAN. Applications
are invited for the post of Senior House Physician
which will shortly be vacant. The salary is £50 per
annum, with board and residence. Applicants
should state if they are willing to accept the
appointment of Junior House Physician (£50 with
board and residence). Applications, with copies of
recent testimonials, should be sent to the under-
signed on or before December 31st, 1913.

PRACTICE in a small town or the country, North of Birmingham—(C.G., Lanes., Yorks., or Cheshire. Income about £500).—Apply, BLUNDELL & RIGBY, Walter House, 418 422, Strand, London, W.C.

Wanted, Practices and
PARTNERSHIPS.—Messrs. Arnold & Sons, Surgical Instrument Manufacturers, are in urgent need of Practices and Partnerships for several of their clients who have ample capital at command and are anxious to settle down at once. Send full details, in confidence, ARNOLD & SONS, Transfer Department, Surgical Instrument Manufacturers, 6, Giltspur Street, London, E.C. (opposite St. Bartholomew's Hospital).

Wanted Partnership, with
view to early succession by a medical gentleman with D.P.H. Excellent recommendations. Well versed in Refraction work. Keenly interested in Electrotherapy. Has a thorough knowledge of general Practice. Total abstainer and not afraid of hard work.—Address, No. 8015, BRITISH MEDICAL JOURNAL Office, 429, Strand, W.C.

Wanted by M.R.C.S., aged
46, an unopposed PRACTICE of £700 or £800 in an agricultural district of West Midlands. Warwickshire or Herefordshire, preferred.—Apply, BLUNDELL & RIGBY, Walter House, 418 422, Strand, London, W.C.

Wanted Panel Practice, £900,
London. Low rental. £600 down, balance instalment.—Address, No. 8002, BRITISH MEDICAL JOURNAL Office, 429, Strand, W.C.

Wanted by F.R.C.S., M.C.,
aged 30, a PRACTICE or PARTNERSHIP of about £1,000 a year, with good opportunities for surgical work.—Apply, BLUNDELL & RIGBY, Walter House, 418 422, Strand, London, W.C.

£1,400 a year.—Northern
City. Very transferable working-class PRACTICE in outskirts of large town, nearly 20 years in same hands, for disposal. Visits 2s. 6d. to 2s. 6d., and some higher. Appointments, including Panel, over £500 a year. Not much night work. Convenient house and garden. Very lucrative Practice. Every investigation courted. Premium only one year's purchase, or near offer.—Apply (No. 5341), c/o Mr. PERCIVAL TURNER, 4, Adam Street, Strand, W.C., who has seen Vendor.

For immediate disposal on
reasonable terms, owing to illness, an old established good class PRACTICE in manufacturing town, with appointments (£500). Total receipts over £1,200. Excellent house with well equipped surgery. Can be bought or rented. Good opportunities for operative surgery if desired. Small panel about 600. Short introduction given. For further particulars address, No. 7723, B.M.J., 429, Strand, W.C.

For disposal.—A really good
PRACTICE is not always to be had directly, but Mr. PERCIVAL TURNER can generally offer applicants something suitable on being furnished with details of their requirements. Nearly all the best Practices are sold by him without being advertised.—Full information free of charge on application personally or by letter to 4, Adam Street, Adelphi, Strand, W.C.

For sale.—Third-share in self
established and growing Practice in mixed colliery and agricultural district in Midlands. Great scope for increase as considerable developments are taking place. Price £500.—Address, No. 7215, BRITISH MEDICAL JOURNAL Office, 429, Strand, W.C.

For sale.—Practices or
PARTNERSHIPS.—Messrs. ARNOLD & SONS, Surgical Instrument Manufacturers, have been instructed to privately dispose of a large number of really good Practices and Partnerships. Gentlemen are requested to state their requirements and amount of capital available. No charge to purchasers.—Address, ARNOLD & SONS, Transfer Department, 6, Giltspur Street, London, E.C. (opposite St. Bartholomew's Hospital).

Brighton (near).—For
immediate disposal a cash and Panel PRACTICE which has been very much neglected. The premises are situated in the main thoroughfare at £50 per annum. Ample scope for an energetic man. Premium £100. Quote Folio 177.—ARNOLD & SONS, Transfer Department, 6, Giltspur Street, London, E.C. (opposite St. Bartholomew's Hospital).

Sight Testing taught privately
in London to qualified practitioners only. Easy, accurate, time-saving method adapted for general practice. Tuition fees moderate and inclusive.—Enclose stamped addressed envelope to "M.D.," No. 7200, BRITISH MEDICAL JOURNAL Office, 429, Strand, W.C.

£1,000 per annum (nett)
yielded by Partnership share of old established PRACTICE for disposal next June. Attractive residential neighbourhood near London. Good experience general practice necessary.—Address, No. 8008, BRITISH MEDICAL JOURNAL Office, 429, Strand, W.C.

Staffs.—An entirely middle
class town PRACTICE, no working class or panel patients. Receipts last year £440, about same this year. Fees mostly 3s. 6d. and 5s., practically no midwifery. Plenty of scope for increase by taking lower fees and panel work. Good family residence. Premium £350.—Apply, PEACOCK & HADLEY, 19, Craven Street, Strand, W.C.

Colonial Practices.—Wanted
for numerous clients, Practices yielding good incomes. Quick sale assured for anything good at a reasonable price.—BLUNDELL & RIGBY, Walter House, Bedford Street, Strand, W.C.

Cheshire.—In small town an
old-established middle-class PRACTICE. Receipts average £1,200 a year, including £500 from appointments. Small panel. Scope for surgery. Cottage Hospital. Good residence. Rent £35. Premium for whole Practice £1,100, or £600 for Half Share, payable on easy terms.—Apply, PEACOCK & HADLEY, 19, Craven Street, Strand, W.C.

Premium out of Receipts.—
A safe country PRACTICE (Yorkshire moors) of £250 p.a. (scope to £400), offered to gentleman without capital. Premium £200 payable from receipts. Vendor retiring from ill-health offers immediate purchaser free hospitality for a few months in return for slight services.—Address, No. 7315, BRIT. MED. JOURNAL Office, 429, Strand, W.C.

Unopposed country Practice
for sale in pleasant agricultural district of S. Wales. Receipts this year £680. Panel 520 at 8s. Good house, stable, and garden. Rent £35. No opposition for eight miles. Station in village. Premium £550. Easy terms of payment.—Apply, PEACOCK & HADLEY, 19, Craven Street, Strand, W.C.

A mixed Welsh Practice for
sale. Easy terms to immediate purchaser.—Address, No. 7732, BRITISH MEDICAL JOURNAL Office, 429, Strand, W.C.

Health resort.—Practice for
sale producing nearly £700 a year. Panel of about 700. Commodious house with garage. Rent £100. Magnificent scenery, golf, etc. Purchaser should have private means.—Address, No. 8004, BRITISH MEDICAL JOURNAL Office, 429, Strand, W.C.

Yorks., W.R.—Practice for
immediate disposal, part colliery. Vendor leaving the country is anxious for quick sale. Doing £500 a year, capable of extension. Small panel, which could be considerably increased if desired.—Apply, 152, c/o W. WHARRAM, Ltd., 115, Vicar Lane, Leeds.

Practice (seaside) for disposal.
Receipts £250 for 1913. Panel 100. Fees 2s. 6d. to 5s. Midwifery a few cases only. Good house. Rent £36. Resident patients could be taken. Good winter resort. Vendor is taking an appointment. Short but adequate introduction given. £100 cash to prompt purchaser.—Address, No. 8014, BRIT. MED. JOUR. Office, 429, Strand, W.C.

West of England.—Urgent
sale. Old-established PRACTICE in a very beautiful sporting district in a small country town on line of rail. Income over £600 a year, entirely transferable and great scope. Visits 3s. 6d. to 10s. 6d. Detached house and garden, tennis lawn, etc. Hunting, boating, fishing, etc.—Apply to 5317, c/o Mr. PERCIVAL TURNER, 4, Adam Street, Strand, London, W.C.

Practice or Partnership
wanted in a residential district or country within easy reach of town, to bring in £1,200—£1,500 per annum. Necessary capital available and prepared to settle at once. Midlands preferred.—Address, No. 6227, BRITISH MEDICAL JOURNAL Office, 429, Strand, W.C.

Partnership.—Junior Partner
wanted in a first class very old established Practice of £1,600 a year increasing in a favourite residential sporting locality, within 100 miles of London, on line of rail. No opposition. Fees good. Partner must be single and prepared to purchase 1 or 1/2 share at 2 years purchase. Bona fides guaranteed. (No. 5337), c/o Mr. PERCIVAL TURNER, 4, Adam Street, Strand, W.C., who has visited Vendor and can guarantee bona fides.

Partnership.—Half-share of
an old-established better and middle class Practice in pleasant country town (Midlands). Receipts £2,000 a year. Good house, rent £40. Incoming Partner should be able to undertake minor operations and be well up in eye and throat work. Further particulars on application to PEACOCK & HADLEY, 19 Craven Street, Strand, W.C.

Partner wanted immediately
in a very old-established and first-class Practice within an hour of London in a wealthy residential town. One-third Share for disposal, worth over £800 a year, at 2 years' purchase on audited receipts. First-class hunting and other sport. Choice of houses. Visits 2s. 6d. to 10s. 6d. Appointments about £1,000 a year. Personally known and recommended by Mr. PERCIVAL TURNER, 4, Adam Street, Strand, London, W.C.

Partner required in old-
established general Practice. Panel 2,000. Hampshire. Quarter share for disposal, 2 years purchase. Must be a gentleman and a hard worker.—Address, No. 8005, BRITISH MEDICAL JOURNAL Office, 429, Strand, W.C.

To Colonial Practitioners.—
Any well established transferable PRACTICE (Colonial) at reasonable price can probably be disposed of by forwarding full details to the Managing Director, SCROLOSTIC, CLERICAL, AND MEDICAL ASSOCIATION, Limited (Agents), 22, Craven Street, Trafalgar Square, London, W.C., who has inquiries for such investments. A query form to fill in appears in the advertisement pages of the BRITISH MEDICAL JOURNAL of July 5th, 1913.

To Purchasers.—Do not buy
any PRACTICE or PARTNERSHIP without an investigation into books and other inquiries by an expert specially competent to conduct the same. Thirty-six years' personal attention to such enquiries has given Mr. PERCIVAL TURNER an unique ability to advise in all cases. Terms and full particulars free on application to 4, Adam Street, Strand, London, W.C. Telephone: 3399. Central. Telegrams: Epeomian, London.

Ground floor.—Chambers to
LET. Splendid suite of 3 rooms and bath, situate in Hill Street, Berkeley Square, will become vacant in March next. Occupied by a Physician for several years past.—Apply to the Estate Office, Grosvenor Mansions, 78, Victoria Street, S.W.

To I.M.S. men retiring, able
to invest £1,500 cash: An income of £500 to £700, together with a freehold country HOUSE (16 rooms and offices), equipped with all modern conveniences, beautifully situated at 600 feet elevation in Yorkshire moors, can be secured by immediate purchaser. Income is derived from resident patient business with small SANATORIUM attached (£500 profit), and from very easily-worked unopposed country PRACTICE in adjoining village (£250 p.a.). Price of whole, including house, sanatorium, and goodwill £2,500, of which £1,000 may remain on mortgage. Complete furniture can be left for a few months for buyer's use. Owner is a retired I.M.S. man, compelled from ill health to dispose of property at once, but could carry on business for 2 or 3 months on behalf of immediate buyer requiring a little time to come home.—Fullest particulars from "X," GRINDLAY, GROOM & Co., Bombay.

House to Let in South
London. Main road. Occupied for over thirty consecutive years by Doctors.—Apply, W. VOGEL GOAD, 211, Camberwell Road, S.E.

Gymnasium and Consulting
ROOM in HARLEY STREET to be let on very advantageous terms. Large rooms on ground floor.—Apply, SAMUEL B. CLARK & SON, 8, New Cavendish Street, Portland Place, W.

Wanted.—Electric Light
BATHS, Schneé 4 cells baths, Finsen or Quartz lamp, Eye Magnet, Pante- or Multo-stat, X-ray and High Frequency and Bergonié's apparatus.—Address, No. 8003, BRITISH MEDICAL JOURNAL Office, 429, Strand, W.C.

Metropolitan Asylums
BOARD.

ASSISTANT MEDICAL OFFICERS.

The Metropolitan Asylums Board invite applications for the appointment of Assistant Medical Officers in their Imbecile Asylums Service (one Second Assistant Medical Officer at Leavesden Asylum, King's Langley, Herts; one Second and one Third Assistant Medical Officer at Darent Industrial Colony, Dartford, Kent).

The salaries assigned to the offices are as follows: Second Assistant Medical Officer, £210, rising by £10 annually to £250; Third Assistant Medical Officer, £180, rising by £10 annually to £200, together with board, lodging, and washing in each case.

Candidates must be unmarried, must not exceed thirty years of age, and must be duly qualified by law to practise both Medicine and Surgery in England.

Forms of application may be obtained from the Clerk to the Board, Embankment, E.C., and must be returned to him, duly filled up, not later than 10 a.m. on Thursday, 1st January, 1914.
17th December, 1913.

Hull and Sculcoates
DISPENSARY.

Owing to the Resident Surgeon of the above Institution obtaining a more lucrative appointment, the Board will shortly require a fully qualified RESIDENT SURGEON, to devote the whole of his time to the work of the Institution. Salary £220 per annum, with house, gas and coals. No other fees given. The appointment will be subject to determination at any time by three months' notice. Applications, with copies of recent testimonials which will not be returned, stating age and qualifications, to be sent to the undersigned on or before the 1st January next.

Canvassing members of the Board not allowed.
J. E. D. SPICKNEY, Hon. Secretary.
Kingston Chambers, Land of Green Ginger,
Hull, December 18th, 1913.

Wilts County Asylum.
Devizes.

The Visiting Committee invite applications for the post of JUNIOR ASSISTANT MEDICAL OFFICER, which falls vacant about the middle of January. The salary offered is £200 per annum, with board, lodging, attendance, and laundry, which is valued at £100 per annum.

Applications, stating age and qualifications, and accompanied by not more than three testimonials, must be sent to the undersigned not later than January 9th. If desired, applicants may send 25 copies of their applications, &c., to the undersigned to be placed before the Committee, but canvassing is strictly prohibited.

GUY W. JACKSON,
Clerk to the Committee.

Devizes, 18th December, 1913.

Administrative County of
ESSEX.

APPOINTMENT OF TWO TUBERCULOSIS OFFICERS.

The County Council of the Administrative County of Essex have vacancies for two Tuberculosis Officers, and they accordingly invite applications for the appointments from Medical Practitioners specially qualified in the treatment of Tuberculosis.

The salary attached to each appointment will be £500 per annum, with allowance for travelling and subsistence expenses. The persons appointed will be required to devote their whole time to the service of the Council, and to reside in such District of the County as the Council may require. The appointments will be subject to three months' notice on either side.

Applications and copies of not more than three testimonials, which will not be returned, should be addressed to me and delivered at the Shire Hall, Chelmsford, not later than noon on Saturday, the 10th January, 1914.

JOHN H. GOOLD,
Clerk of the County Council,
Shire Hall, Chelmsford.
18th December, 1913.

ALLIANCE DRUG AND CHEMICAL CO.

34, Leadenhall St., London, E.C.
Established 1812—Reorganised 1902.

The Company specializes in providing the Medical profession at **the lowest possible** inclusive prices (no charge for Bottles, &c., or Cases, &c.) with pure and reliable Drugs, Chemicals, Pharmaceutical Preparations, Compressed Tablets, Pills, Surgical Dressings, and Stock Mixtures of approved Formulae as used by the London and other Hospitals. We append a few sample prices for guidance of the great saving that can be effected, and earnestly ask our Readers to kindly forward us their professional card when we shall be most pleased to forward post free our

DETAILED PRICE LIST

giving full particulars. In many instances our Clients have written us stating we have saved them

40 per cent.

of their usual Yearly Account for Drugs. This saving is not reflected in the quality of our goods, but is primarily due to not employing **TRAVELLERS**, thus saving the purchaser the cost of the Travellers' Salaries and expenses which greatly enhance the prices the usual Drug Houses have to charge.

NOTE.—Only Terms Net Cash with order without discount, or orders received through London Merchants or Bankers. Goods carriage forward. All packages free. Export cases extra.

TASTELESS Quinine, **"EUQUININE"** (ZIMMER'S)

THE IDEAL FORM OF QUININE

Has greatly reduced infant mortality in malarial countries and rendered preventive measures easy.
Euquinine is tasteless, has the same physiological action as quinine and is given in the same doses.
Cinchonism rare, and very mild where it occurs.

EUQUININE IS CHILDREN'S QUININE.

HYDROQUININE HYDROCHLOR. "ZIMMER'S"

New Antimalaric and Whooping Cough Cure for Hypodermic use.

Hydroquinine hydrochlor. differs from the usual quinine salts, in that it is extremely soluble in water (1:3).
Hence it can be applied in perfectly neutral solution, additions (such as of urethane, &c.) being unnecessary.
Sold in powder or in solution (ampouls of 0.3 to 7½ grs., ready for use).

Appendicitis and Chocolate

57 Mercers Road, Holloway,
London, N., England.

To Mr. D. PETER,
Vevey, Switzerland.

20/10/13.

Dear Sir,

Some weeks ago I had a serious illness in the form of Appendicitis. All my food was stopped, except that I was allowed to have a little orange juice squeezed into a glass.

Well, to come to the point, I went on like this for a day, until on the second day the doctor recommended me "Peter's Milk Chocolate," and although I was too ill at the time to eat what was put before me, I was always ready for a piece of your chocolate. Ever since then I have made it my custom always to have Peter's when buying any.

I am writing you this letter as a recommendation, as I think it is my duty (on the strength of a doctor recommending it) to do so. You are fully entitled to use my name and also this letter as an advertisement, and I sincerely trust you will benefit by it.

I may say that ever since my illness I have been doing my utmost to recommend your chocolate among my friends, and so far I have been rewarded with success. Hoping to hear from you as to whether this letter will help you or not.

Very truly yours,

(Signed) A. CROCKER.

P.S.—I enclose my card as it might be of use to you.

¶ Peter's Swiss Milk Chocolate is not only a delicious sweetmeat but a strength-giving food as well, and its value in the case of illness is shown in the letter above. It is readily accepted by the patient when an ordinary convalescent food would only create nausea. Absolutely pure and does not create thirst.

¶ Samples sent free to Medical Men only on application to Nestle's and Anglo-Swiss Condensed Milk Co., 6 and 8 Eastcheap, London, E.C.
