

TWO TYRES

for the price of one and a third.

If the casing is in perfect condition, your retreaded grooved cover should, on the average, wear almost as long as the tread upon a new cover. It depends upon how you treat your tyres in the first instance.

Dunlop casing is specially made to stand retreading. Why not take advantage of this fact? But be sure and send the cover to

REPORT

OF THE

ANÆSTHETICS COMMITTEE

OF THE

BRITISH MEDICAL ASSOCIATION.

This Report is based on 25,920 recorded
 cases of the administration of anæsthetics
 in Great Britain, tabulated and analysed
 with a view to the investigation of the
 influence of various factors in the produc-
 tion of complications and danger under each
 of the chief anæsthetics.

The Report deals with many interesting
 and important questions, and contains 76
 statistical tables together with detailed
 accounts of more than 800 complicated
 cases.

Telephone—"City"—1700.

KEROL

KEROL combines all the properties which go to the making of an ideal preparation. It has been shown to be practically non-toxic, non-irritant and non-corrosive—a combination of properties which make it the one preparation which can be used with perfect confidence wherever the use of either a disinfectant or antiseptic is indicated. It is of high and definite germicidal value and is perfectly homogeneous.

KEROL is highly recommended by Bacteriologists and by prominent members of the Medical Profession.

KEROL CAPSULES

INTESTINAL There are of great value where intestinal antiseptics is indicated. In a comparatively short space of time the coli content of the intestine is reduced by over 99 per cent. They are non-irritant and perfectly safe.

STOMACHIC For use in cases of stomach fermentation and other gastric troubles, and are of great value in reducing the number of malign organisms prior to administration of treatment with lactic ferments, i.e. sour milk, etc.

Samples and literature sent free to any Medical Practitioner

BURROUGHS & WATTS'
Billiard Table

The PHYSICIAN

Heals Himself *Ø* *Ø*

YEARS ago there used to be a distinct prejudice on the part of the medical profession towards the use of gas for fires and heaters. There were then definite grounds for the objection, since gas fires were often improperly made and very generally improperly fixed. To-day, gas fires and heaters have been perfected to a degree that was hardly thought possible in those days.

Prejudices once conceived die hard, but that the modern physician has gradually cured himself of his old-time convictions may be judged by the following table.

It gives the result of a systematic canvass among medical men in the fixed area of one of the leading gas companies and reveals the steady growth of the conviction that gas fires and heaters are hygienic, economical and efficient.

Season.		Possible Users.		Actual Users.
1908-9	...	3,620	...	1,054
1909-10	...	3,630	...	1,844
1910-11	...	3,814	...	2,205
1911-12	...	4,012	...	2,484
1912-13	...	4,183	...	2,811
1913-14	...	4,203	...	3,120
1914-15	...	4,281	...	3,350

In short, of all the doctors given in the medical directory, while only 29% were using gas for heating in 1909 no less than 78·2% were using them in 1915!

The figures are a remarkable demonstration alike of the perfection to which gas fires have been brought and the almost unanimous endorsement of the medical profession.

of all manufactures

completely superseded by an ALL-BRITISH Antiseptic
certified of Higher Disinfecting Value:—

“TOXOL”

Manufactured by Boots Pure Drug Co., Ltd.,

Responding to the desire of the Medical Profession to discard preparations paying tribute to the enemies of this country, the laboratory staff of Boots the Chemists (consisting of some thirty highly-trained analysts), perfected “TOXOL,” which is identical in all but name with “Lysol,” as formerly imported from Herren Schülke & Mayr of Hamburg—a solution of cresols in a saponaceous medium—and superior in strength of disinfecting power.

Copy of Report by Dr. SAMUEL RIDEAL, Joint-Originator of the
RIDEAL-WALKER Co-efficiency Test.

November 16th, 1914.

“I have purchased at one of your branches samples of ‘Toxol,’ and my results on examination confirm your labelled strength that it is $2\frac{1}{2}$ times as powerful as Phenol, and it is higher than all samples of ‘Lysol’ I have examined.”

(Signed) SAMUEL RIDEAL.”

The following are extracts from the letters of Medical Men who have already used TOXOL to replace “Lysol.”

“It seems to be in every way quite satisfactory and an excellent substitute for ‘Lysol.’”

“Very glad to test, and prove that English science is as good as that of the Barbarians. It would be a good thing to circularise the profession with a list of alien enemies’ products.”

“I tried it on a septic finger and found it all you stated it to be.”

“Superior to ‘Lysol’ as far as I have tried it.”

“TOXOL is very satisfactory. The Medical Profession ought to feel grateful to Sir Jessie Boot for replacing a German article in such a prompt and satisfactory manner.”

“Am using sample and I am so pleased with it that I shall continue to use TOXOL in future.”

“Many thanks, have used solutions of Toxol in various strengths, for numerous minor surgical cases with most satisfactory results.”

“TOXOL” is sold
in 6½d., 11d., 1/7 & 2/9
bot. at all branches of—

Sent carriage paid to any Medical Man

In Affections Involving Deep-seated Structures—Pneumonia, Pleurisy, etc.—

A uniform degree of Heat may be maintained for 24 hours, or longer, by applying

Directions: Always heat in the original container by placing in hot water. Needless exposure to the air, impairs its osmotic properties—on which its therapeutic action largely depends.

warm and thick, over the thorax, with a liberal margin overlapping the area involved.

In this way, the aggravating symptoms may be almost immediately ameliorated; the cutaneous reflexes stimulated, causing **contraction** of the deep-seated (and coincidentally **dilation** of the superficial) blood-vessels—flushing the peripheral capillaries.

Thus, the overworked Heart is relieved from an excessive blood-pressure; congestion and pain also are relieved, and the temperature tends to decline as restoration to normal circulation ensues.

In order to AVOID "substitutes" Physicians should WRITE "Antiphlogistine."

"There's only ONE Antiphlogistine."

THE DENVER CHEMICAL MFG. CO., BOW, LONDON, E.

Manūlav

Price's Hand

SOAP

cleanses the hands of grease, stains, and ingrained dirt without the unpleasant after effects of pumice.

The soft and velvety feel which Manūlav bestows to the skin comes as a revelation to all who use it for the first time.

Free Sample on application.

PRICE'S PATENT CANDLE COMPANY, LIMITED, BATTERSEA, LONDON, S.W.

IN VALUABLE
IN NEARLY EVERY CASE
OF INDIGESTION

Taka-Diastase

A REMARKABLY ACTIVE
DIGESTANT
OF BOTH
CARBOHYDRATE
AND
PROTEIN FOODS

The digestive action of TAKA-DIASTASE is not interfered with by the presence of small amounts either of acid or of alkali.

The fact that it is both amylolytic and proteolytic renders TAKA-DIASTASE of much greater value in **dyspepsia** than any other digestive agent.

The administration of TAKA-DIASTASE is an important aid in the treatment of **gastritis, gastric dilatation, hyperacidity, intestinal fermentation and chronic constipation**; also in promoting nutrition in **tuberculosis** and other **wasting diseases**, in **infantile mal-assimilation**, and in **convalescence**.

Supplied in Powder, Liquid, Elixir and Tablets (see Price List, pp. 234-236.)

Further Information, also references to Clinical Report, will be sent on request.

Byno Chrismol
(Trade Marks)

TRADE MARK
A.D. 1715.

A Unique Digestive Food and Intestinal Lubricant.

"Byno Chrismol" marks a new departure in the treatment of Chronic Constipation, etc. It presents the "Allenburys" Pure Malt Extract in intimate combination with 50 per cent. by volume of "Chrismol," a highly refined and redistilled Liquid Paraffin.

"Byno Chrismol" is pleasant to the taste and easy of assimilation. An extensive clinical trial has proved that it aids materially the digestive power, *firstly* by alleviating dyspepsia, and *secondly* by increasing the weight.

In some instances "Byno Chrismol" replaced with advantage Malt Extract and Cod-Liver Oil.

"Byno Chrismol" is specially indicated in **Constipation, Mucous Colitis, Stasis, Typhoid Convalescence, Mal-assimilation of the Aged,** and whenever a simple laxative and active digestive agent is required.

Dose: A dessert-spoonful, or more, two or three times a day.

In bottles at 1/9 & 3/- each. Sample free on request.

ALLEN & HANBURYS LTD.
Lombard Street, LONDON.

A List of other "Chrismol" Preparations:

"Chrismol"

A Liquid Paraffin of the Highest Purity.
The Best Lubricant for Internal Use.
Supplied plain or flavoured.
In bottles at 1/3, 2/-, 3/6 and 6/6 each.

"Chrismol" Capsules

A Pure Liquid Paraffin in a convenient form.
In boxes at 2/6 and 4/6 each.

"Chrismol" Confection

An Agreeable Fruit-Flavoured Product.
Greatly relished by Ladies and Children
In jars at 1/6, 2/6 and 4/6 each

"Chrismol" Emulsion

A Tonic Laxative and Nutrient presenting
'Chrismol' and the Hypophosphites of Lime & Soda.
In bottles at 2/6 and 4/6 each.

Advances in Treatment of Wounds and Scars

Lymphagogue Tablets, ^{Trade}“A. & H.”^{Mark} and Citratcd Saline Powder, ^{Trade}“A. & H.”^{Mark}

*For the Hypertonic Treatment of Wounds, as suggested by
the researches of Sir Almroth Wright.*

The Tablets are specially made for slow solution inside the drainage tube. The Powder is employed to make hypertonic salt solution for lavage.

Lymphagogue Tablets, “A. & H.,” are supplied in bottles of 100, 200 and 500. Citrated Saline Powder, “A. & H.,” is sold in boxes of 6 tubes, each tube containing sufficient Powder to make 10 ozs. of solution.

^{Trade}“Antilusin”^{Mark} B Normal Serum containing an enhanced proportion of anti-tryptic enzymes.

Used as a Local Dressing for suppurating wounds and sinuses.

Its action is to neutralise the leucocytic ferments and to supply a stimulus to the formation of granulation tissue. Supplied in boxes of six 10 c.c. tubes.

^{Trade}“Iodolysin”^{Mark} Contains 43 per cent. of Thiosinamin and 47 per cent. of Iodine.

*Used to soften cicatrices and promote the absorption of
pathological fibrous tissue.*

Supplied in “Azoule” form for hypodermic injection; “Kapsol” form for oral use; and Ointment for local application.

Quinine-Urea-Hydrochloride

*A non-toxic Local Anaesthetic for application to wounds,
lacerations, and raw surfaces.*

Solutions for local use are swabbed on to the parts freely; anæsthesia is obtained in 10-15 minutes and lasts for some hours.

Sterile Solutions for local application are supplied in 4 oz., 8 oz. and 16 oz. bottles.

Leaflets descriptive of any of the above preparations will be sent on request.

In Convalescence After Acute Disease.

'Byno' Hypophosphites

"One of the most popular tonics of the day."

British Medical Journal.

"Byno" Hypophosphites combines the nutritive and digestive principles of the finest Malt Extract with Hypophosphites, a powerful tonic nerve food. It is much superior to the official syrup, and in many years' clinical experience has given most gratifying results.

"Byno" Hypophosphites may be taken when ordinary tonics cannot be tolerated.

As a General Tonic

"Byno" Hypophosphites is unrivalled; it contains a variety of principles which each have their particular therapeutic value.

Tuberculosis

In the wasting of Tubercular Cachexia it tends to reduce the temperature, improve the appetite, increase the weight, and rehabilitate the nervous system.

Typhoid Fever

In the slow convalescence from Typhoid Fever it is an easily absorbed and highly nutritious tonic food. "Byno" Hypophosphites helps the enfeebled digestion, decreases the anæmia, and improves the general tone of the nervous system. Owing to the presence of 'Bynin,' it is not constipating in its action.

FORMULA.

Calcium Hypophosphite	2 gr.
Potassium "	2 "
Sodium "	2 "
Iron "	1 "
Manganese "	1 "
Cinchona Alkaloids	1 1/2 "
Nux Vomica "	
Equal to Strychnine	1/10 "
"Bynin" Liquid Malt	1 oz.

Influenza and Malaria

For those debilitated by Influenza, Malarial and Tropical Diseases, it has proved itself an invaluable restorative and reconstructive.

In Old Age

For the Aged and Infirm there is no preparation so acceptable and so readily assimilated. It stimulates a flagging heart and is not only a tonic but a food.

Brain-Fag

It is surprisingly successful in cases of cerebral exhaustion with digestive disturbance, and constitutes a mild, yet efficient invigorator in general brain-fag. "Byno" Hypophosphites restores tone to the heart muscle and arteries, and is a blood-producing agent as well as a concentrated nutrient.

"Byno" Hypophosphites is one of the best tonics ever put forward for combating the after-effects of severe illness or as a general invigorator when the system is enfeebled. It may be prescribed with confidence to enrich the blood, strengthen the gastro-intestinal functions, give tone to the nerves, and nourish and vivify the whole organism.

Prices : In bottles 2/6 & 4/6 each. Sample sent free on request.

ALLEN & HANBURY LTD., Lombard St., LONDON.

The "Allenburys" (TRADE MARK)

(MEDICATED) Throat Pastilles

Efficient

Palatable

The basis of the "Allenburys" Throat Pastilles is a special pâte de jujube. The pastilles are demulcent, soluble and palatable, and contain accurate amounts of pure active drugs. They dissolve slowly and uniformly, so ensuring the thorough suffusion of the mucous membrane, and the prolonged continuous direct effect of the active ingredients.

The following pastilles are largely used, and have been found from long practical experience to be very efficacious.

PRACTICAL THERAPEUTICS.

RUBINAT=LLORACH

The renowned SPANISH Aperient Mineral Water.

THE Rubinat-Llorach Spring bubbles forth at a height of about 6 feet between strata of gypsum; and its ideal method of tapping shields it from all contamination.

The most complete bacteriological examinations (Bonjean) have furnished only negative results, proving the absolute sterility of its taps; while on the other hand the method of bottling offers every guarantee that can be desired, for transporting a water in *perfect purity*, protected from any development of pathogenic micro-organisms. Its remarkable stability thus explains, in fact, its indefinite preservation, even when exported to equatorial regions.

The successive analyses of Codina, Ulex, Lebaigue, Bouchardat, Lefort, &c., have proved that it contains (per litre) about 104 grammes of saline residue (a mineralisation three *times superior* to that of the usual purgative waters):

Analysis of Rubinat-Llorach by the Academy of Medicine, Paris.

	Per 1,000
Sulphate of Soda	96.265
" of Potash	0.239
" of Magnesia	3.268
" of Lime	1.949
Chloride of Sodium	2.055
Silica, alumina, iron, etc.	0.038
	<hr/> 103.814 <hr/>

A rich Mineralisation such as the above allows us to rely upon a safe and sure cathartic energy, easy to graduate—a sort of *mother-solution*, of convenient and infallible use *in small doses*.

Sample Bottle forwarded gratis upon application to the Sole Wholesale Agents—

GOLD MEDAL International Congress of Medicine, London, 1913.

MIST. HEPATICA CONC. (Hewlett's).

COMPOSITION.—Ext. Cascarae, Ext. Rhei, Jalapin, Podophyllin, Cocainæ Hydrochlor., 1-12th gr. in each fluid drachm.

THIS excellent compound, first introduced as a general aperient and cholagogue, has now become a popular remedy, and attention has very recently been called to the value of the mixture, by various authorities, in that class of cases spoken of as Chronic Bilioussness, in Catarrhal Jaundice, and in the Jaundice of simple Hepatic Torpor. In passive or habitual Congestion of the Liver, so frequently met with, it has been used with marked benefit.

In the treatment of acute or temporary constipation, frequently met with in the convalescence from acute disease, and in pregnancy or in the constipation due to sedentary habits, to a deficiency of intestinal secretion, and of peristalsis, the mixture can be prescribed with wonderful effect, positively curing cases that have resisted other remedies.

The Dose is from 10 to 60 minims, according to the age and condition of the patient. One drachm is a direct aperient, and is not accompanied by griping or tenesmus.

Packed for Dispensing only in 10-oz.; 22-oz.; 40-oz.; and 90 oz. Bottles.

Please write: "Mist. Hepatica Conc. (HEWLETT'S)" to ensure obtaining this Preparation.

GOOD REASONS FOR USING**'WELLCOME' Brand Concentrated**
(Trade Mark)**Diphtheria Antitoxin**

*Prepared according to
the latest scientific
methods at the
Wellcome Physiological
Research Laboratories,
London*

**There is less for the
physician to inject**

At least 1000 antitoxic units are contained in 1 c.c. as against the 2.5 c.c. of an average unconcentrated serum.

**There is less for the
patient to absorb**

High-power doses in a minimum of non-viscous fluid are absorbed with comparative ease and comfort.

**There is less risk of
serum rashes, etc.**

In the process of concentration the bulk of the useless proteins have been eliminated, and these, although devoid of antitoxic value, are probably as active as the antitoxic fraction in the causation of rashes.

Fragment of an Akkadian monument showing the siege of an ancient fortress in Mesopotamia. Three of the fallen, in attitudes of cadaveric rigidity, are seen abandoned to the vultures. Date, circa 2500-2300 B.C.

Supplied in hermetically-sealed phials as follow:—

1000 units at 2/0; 2000 at 3/6; 3000 at 5/0;
4000 at 6/0; 5000 at 7/0; 6000 at 8/0; and
8000 at 10/0 per phial. Obtainable through all

HOEFFTCKE'S EXTENSION APPLIANCES.

Ambulatory Treatment of Fracture of the Limbs; Tuberculous and Arthritic Disease of Joints.

By C. A. HOEFFTCKE,

21, Woodstock Street, Oxford Street, London, W.

HOEFFTCKE'S UNIVERSAL LEG SPLINT.

(Patent App. No. 139,615.)

It is now nearly three months since I first introduced this splint, which is designed on similar lines to my Ambulatory Extension splint, only in cheaper form. In the opinion of surgeons who have tried it, it is the best splint ever produced, and the results obtained, even in that short time, have been most satisfactory.

It is designed to meet the urgent demand for an inexpensive splint of an ambulatory nature, of simple design, adjustable so that it can be applied to any case of injury to the lower limbs and ready for immediate use, as for the wounded on the field, rendering a man so fitted to be able to bear extension up to 10 or 15 lb, without producing further complications or excessive pain, while the wounds are easily accessible. For fractures with large wounds through shot or shell the splint can be used in the beginning when in the recumbent position until such time that the wounds are so far recovered that there is no fear of further hæmorrhage or other complications. When the leg can be brought into the perpendicular position without any danger to the wounds the same splint can be used for walking purposes while the bones are uniting, as is the case with my Ambulatory Extension splint, as the extension arrangement keeps the fractured ends of the bones in good position.

The advantages over other splints can be summed up as follows: The top part of the splint presses solely against the gluteal muscles and tuber ischii. The perineum and pubic bone are entirely free from pressure, so that the irritation and pain which the ring of Thomas's and similar splints produce are entirely done away with. As soon as the splint is put on and extension applied the grating between the fractured ends and consequent twitching of the muscles ceases. The patient is enabled to sit upright and not confined to the recumbent position, as in a long Liston.

The upper part of the appliance being composed of two divisions, an inner and outer part, can be adjusted so that it fits the thigh like a glove, so that it does not stand open at certain places like a Thomas's, or Wallace Maybury, or similar splints.

In my War splint, the telescopic arrangement allows it to be used for a man from 5 ft. 4 in. to 6 ft. 4 in. in height. I have noticed with pleasure (see page 812 of BRITISH MEDICAL JOURNAL of December 4th) that this telescopic arrangement has been copied to try and improve a Thomas's splint. I am afraid, however, that the pressure against the pubic bone and perineum produced by the ring of Thomas's splint will defeat its object for extension purposes.

The Universal splint has to be made to measurements. The greatest advantage however, is, that in a fracture which is not compound—the patient is enabled to walk without crutches, while the fractured ends are held in good position, almost immediately after the splint is applied, in some cases three days after the accident. This applies to the Universal and War splint equally (see Figs. 1, 2, 3 and 4).

In compound fractures my War splint with the telescopic arrangement and perforated zinc support at the back (see Figs. 3 and 4) is most suitable, as the wounds are more easily accessible. The top and upper side bar on the outside of the splint can be easily rotated outwards so as to gain access to the upper part of the thigh.

The steel wire loop seen in Fig. 3 can be inserted in the back of the heel of the foot-plate which can be elevated to any height so as to allow for a receptacle to be placed underneath the limb for drainage purposes.

The Universal splint can also be used with great success for tubercular knee- and ankle-joints. For a tubercular hip and also for a fracture above the lower third of the femur a pelvic band has to be added to the splint. The great advantage in using this splint for tubercular joints is that no crutches are needed and that the clumsy elevation (patten) under the other boot which is used with Thomas's splint is not needed. An ordinary boot can be worn over the foot-part of the appliance.

This splint is especially designed for the poorer classes and for war cases. If the patient can afford it Hoefftcke's Extension appliance, which is made of leather and steel and is jointed at ankle, knee, and hip, and described by many surgeons in their books and in medical journals, is more advisable.

FIG. 1.

Back view of splint showing impact of the tuber ischii with soft tissues on top of the splint.

FIG. 2.

Back view, showing the separation of the two halves of the upper part of the thigh bucket which can be adjusted to any size of thigh.

FIG. 3.

Side view of Hoefftcke's War Splint, with telescopic arrangement and wire heel elevator.

FIG. 4.

Front view. Showing upper part of thigh-piece rotated outwards for dressing purposes, while inner part maintains the extension against tuber ischii.

(To be continued in the last issue of every month next year).

The CURTIS ABDOMINAL SUPPORT

(PATENTED 21103/10.)

TO THE SURGEON.

In cases of Abdominal Section and for Abdominal Wounds this is the ideal support.

It accelerates consolidation of scar tissues and expedites convalescence.

The only scientific Abdominal support which accomplishes its purpose effectively and with the least discomfort to the patient.

SULIS

MEMBERS OF THE MEDICAL PROFESSION

may confidently recommend baths of **TIDMAN'S SEA SALT** for the following, among other reasons:—(1) It is now established by scientific authority beyond question, that **Seawater is RADIO-ACTIVE**, containing a definite quantity of **Radium**, with all its marvellous potentialities in cases of weakness and disease. (2) Tidman's Sea Salt, by observations made by the authorities at the **Natural History Department of the BRITISH MUSEUM**, and at the **ZOOLOGICAL GARDENS, Regents Park**, is shown to produce **REAL SEAWATER**. *Higher testimony than this cannot be imagined or desired.* Medical men all over the world are prescribing baths of Tidman's Sea Salt with the greatest advantage to their patients and credit to themselves. In bags, 1 cwt., 10/-; ½ cwt., 5/6; ¼ cwt. (Box or Bag), 3/-. free anywhere in the United Kingdom. Also in packets, bags, and boxes from 1d. upwards. Of all Chemists and Stores. Pamphlets of testimonials, all guaranteed genuine, post free on application. **TIDMAN & SON, Limited, Wapping, London, E.**

ALLIANCE DRUG AND CHEMICAL CO.

34, Leadenhall St., London, E.C.

Established 1812—Reorganised 1902.

The Company specializes in providing the Medical profession at **the lowest possible** inclusive prices (no charge for Bottles, etc. or Cases, etc.) with pure and reliable Drugs, Chemicals, Pharmaceutical Preparations, Compressed Tablets, Pills, Surgical Dressings, and Stock Mixtures of approved Formulae as used by the London and other Hospitals.

We append a few sample prices for guidance of the great saving that can be effected, and in many instances our Clients have written us stating we have saved them

40 per cent.

of their usual Yearly Account for Drugs. This saving is not reflected in the quality of our Goods, but is primarily due to not employing **TRAVELLERS**, thus saving the purchaser the cost of the Travellers' Salaries and expenses which greatly enhance the prices the usual Drug Houses have to charge.

NOTE.—Only Terms Net Cash with order without discount, or orders received through London Merchants or Bankers. Goods carriage forward. All packages free. Export cases extra.

**OUR NEW DETAILED PRICE LIST
WILL BE ISSUED AS SOON AS
POSSIBLE, WHEN COPY WILL BE
SENT ON RECEIPT OF A PRO-
FESSIONAL CARD.**

Glycolactophos

THIS preparation being British, inability to obtain supplies need not be anticipated.

FORMULA.—Casein 96%, Glycerophosphate of Sodium 2½%, Glycerophosphate of Calcium 2½%.

Its use is indicated in the treatment of Neurasthenia, Tabes Dorsalis, Neuralgia, Nervous conditions in which an excess of phosphates are excreted in the urine, Phthisis, Chronic Dyspepsia, Anemia, Insomnia, and wasting diseases generally.

The presence of the Calcium salt gives it a high therapeutic value in the treatment of Rickets.

FROM ALL CHEMISTS AND DRUG STORES.

A COMBINED HAMMOCK STRETCHER

THE hammock is made of strong waterproof canvas, connected to the stand by thick cord and metal rings. The stand is constructed of strong aluminium tubing $\frac{7}{8}$ inch diameter and fitted with strong metal castings at each joint.

There is no woodwork in the construction of this hammock stretcher to break, warp, or rot. It can be easily taken apart, cleansed, disinfected, or carbolicised.

When reclining in the hammock the patient is suspended well off the ground; it is much warmer and more comfortable to lie in than a camp bed.

The hammock stand is scientifically constructed so as to distribute the weight and is capable of holding with perfect security a weight of about 350 lbs. It measures 8 ft. in length and 22 in. wide when erected, and folds up into a space 3 ft. in length by 6 in. in diameter. Total weight 22 lbs.

Ideal for hospital and nursing homes, etc.

When being carried as a stretcher the framework is from 6 in. to 9 in. off the ground.

The hammock is fitted with a pocket for holding sword or rifle.

BUXTED 15.

Excellent Medical attendance. The Nursing is in hands of a fully qualified Hospital Sister, while the personal comfort of visitors
is under the superintendence of a House Matron.

The House, which stands in its own grounds of six acres, is situated on one of the Sussex Hills at an altitude of 362 feet, with
extensive views over the South Downs. Electricity is used throughout for lighting.

Alcohol and Drug Inebriety and Neurasthenia.

INVERNITH SANATORIUM, COLINSBURGH, FIFE, SCOTLAND FOR GENTLEMEN ONLY.

(Under the direction of an Advisory Council of eminent Medical men.)

Neurasthenia is treated on approved principles, and there are Open-air Shelters in the grounds for suitable cases.

Inebriety and Narcomania are treated on definite medical lines, and the most approved scientific means are employed in the curative treatment. The Resident Medical Superintendent has each patient under his personal care and observation. The curative treatment is much aided by the healthy situation of the Sanatorium.

The Sanatorium, which stands in 200 acres of private grounds, is 500 feet above the sea, faces south, and looks out over the Firth of Forth. The climate is dry and bracing. All outdoor and indoor sports. First-class private golf course. Excellent mixed shooting over 1,200 acres, fishing, tennis, gardening, carpentry, &c. Billiard room (two tables), music room, large private library.

For all particulars of Invernith Sanatorium, Ltd., apply to the Resident Medical Superintendent, W. H. BRYCE, M.B., C.M. Telegrams: "Salubrious, Upper Largo." Telephone No. 8 Upper Largo. STATION—KILCONQUHAR (N.B. RAILWAY).

GHYLLWOODS SANATORIUM Est. 1905.

Licensed under Inebriates Acts.

NEAR COCKERMOUTH, CUMBERLAND.

Patients (gentlemen only) admitted for treatment of **Alcoholism, Drug Addictions, and Psycho-neurotic Ailments** generally. Patients are treated individually by most approved and suitable methods. 30 acres private grounds. Own golf links, trout-fishing, billiards, library, &c. Ref. to leading consultants in London and Provinces. Terms from 3 gns. Apply for further particulars to J. W. ASTLEY COOPER, Med. Supt. and Licensee. Telegrams: "Cooper, Buttermere."

NEWMAINS RETREAT, NEWMAINS, LANARKSHIRE.

Licensed under the Inebriates Acts.

The House is devoted to the care of **LADIES** of the upper classes only, who can be treated either under the Acts or as Voluntary Patients. The place stands high and the estate is extensive, with bracing air and in good shelter. It is very retired and beautiful, well situated for the treatment of Inebriety, Narcomania and other perversions, Neurasthenia, Hysteria, and Minor Mental Ailments.

No patient under Certificate of Insanity can be received.

References:—Sir THOMAS CLOUSTON, Dr. YELLOWLEES, Dr. RISIEN RUSSELL, and others.

Terms and particulars on application to "Superintendent, The Retreat, Newmains, Lanarkshire." Nearest Station: Hartwood, Cal. Rly.

The Government of the

COMMONWEALTH OF AUSTRALIA invites applications from qualified Medical Men for the position of OFFICER IN CHARGE of an Institution for the preparation of Vaccines and Antitoxins. The Institute will be in Melbourne, Victoria.

Applicants must have had adequate bacteriological experience in a University or an Institute for Bacteriological Research and must possess adequate practical experience in the preparation of Antitoxins, Sera and Vaccines.

The work will be similar to that at the Lister Institute Serum Department, at Elstree.

Salary commencing at £650 and reaching £750 by two yearly instalments; quarters provided as soon as practicable. The person appointed will be an Officer of the Commonwealth Quarantine Service. Knowledge of French and German desirable. Applications should reach the Official Secretary, Commonwealth of Australia, 72, Victoria Street, S.W., not later than 15th January, 1916.

Tunbridge Wells, General HOSPITAL.

Wanted, a HOUSE SURGEON, unmarried, fully qualified. Salary £250 per annum, with board, residence, etc.

The Hospital is being largely used for wounded troops, and is a fully equipped modern Hospital, with a more than usually perfect X-ray and Electrical Department. Over 1,000 In-Patients during the past 12 months.

Applications will be welcomed from those who are not eligible for Military Service.

Applications, with copies of testimonials and certificate of registration, should be sent to the undersigned, who will furnish any other particulars.

The appointment to be entered upon January 9th, 1916. J. J. WEBB, Secretary.

Oldham Union.

RESIDENT ASSISTANT MEDICAL OFFICER.

Wanted, a Resident Assistant Medical Officer, Male (ineligible for Military Service) or Female, for the Poor-Law Institution situate in Rochdale Road, Oldham. Salary (inclusive), £300 per annum, with apartments, rations, washing, and attendance.

Deductions from the salary will be made in accordance with the provisions of the Poor-Law Officers' Superannuation Act, 1896.

Applications, stating age, experience, and qualifications, with copies of three testimonials of recent date, must be sent to the undersigned, from whom any further information relating to the appointment may be obtained.

HORACE A. QUARMBY,

Clerk to the Guardians.

Union Offices, Oldham. December, 1915.

North Staffordshire Infirmary, Hartshill, Stoke-on-Trent.

ONE HOUSE PHYSICIAN, male or female, unmarried. Salary £200 per annum, with board, residence, and laundry.

Candidates must be legally qualified and registered, and ineligible for Military service. Engagements may terminate by three months' notice on either side.

Appointments renewable after one year on recommendation of Medical Board.

Applications, stating age, together with three recent testimonials, to be sent as soon as possible to the undersigned, from whom particulars as to the duties may be obtained.

ERIC E. YOUNG, Acting House Governor.

Bolton Infirmary and DISPENSARY. (166 beds, mostly surgical, including Children's Wards).

Applications for the appointment of a SENIOR HOUSE SURGEON are invited from ladies and gentlemen (ineligible for military service) having a registered Medical and Surgical qualification. Salary £230 per annum, with apartments, board and attendance. Applications, stating age, with copy of testimonials, should be forwarded to the undersigned, from whom further particulars may be obtained.

ALBERT E. BRISCOE, Secretary.

Saint Pancras Dispensary, 39, Oakley Square, N.W.

The election of HON. PHYSICIANS to serve on the Staff of the above Dispensary will take place at the Dispensary on Tuesday, 11th January next, at 5.30 p.m.

Every candidate must be a Member or Fellow of one of the Royal College of Physicians and a Graduate in Medicine of one of the Universities of Great Britain or Ireland, and not practising Pharmacy.

Every candidate must send in his application in writing, accompanied with copies of his testimonials, to the Hon. Sec., 23, Gordon Street, Gordon Square, on or before the 7th January next.

H. PETER BODKIN, Hon. Sec.

The Royal Infirmary, Sheffield. (326 Beds).

SOAPS FOR MEDICAL MEN

LYSOL SOAP SURGICAL (LYSOL 10%). Non-carbolic. A Bland non-irritating pure soap incorporating 10% Lysol.

Such a soap has been found excellent in the treatment of certain skin affections, and it is also useful for its antiseptic and germicidal properties.

For the toilet, **LYSOL TOILET SOAP** can be usefully recommended. It is beautifully fragrant and mild, and contains about 5% Lysol. There is a quality in this soap that has already received the highest commendation from medical men.

Samples of all products can be had direct from the works—

LYSOL LTD., Warton Road, Stratford, E.

SAVORY & MOORE'S PEPTONISED MILK PREPARATIONS

(Awarded **GOLD MEDAL** International Congress of Medicine, 1913)

Savory & Moore's Peptonised Milk Preparations include Cocoa and Milk, Coffee and Milk, condensed Peptonised Milk and Milk Chocolate. They are highly nourishing and extremely easy of digestion, and are thus especially useful in all cases where ordinary nourishment cannot be taken, whether through illness or digestive weakness. They are easily and quickly prepared, as hot water only is required.

COCOA AND MILK

The Cocoa and Milk is made from specially selected Cocoa and pure, rich country milk, both of which are treated by a special peptonising process. The result is a preparation of remarkable nutritive value and delicious flavour which can be taken and assimilated even by those who are quite unable to take cocoa in the ordinary form.

The Cocoa and Milk is especially suitable for Invalids, Convalescents, and all whose digestive organs have been weakened by illness, overwork, study or other debilitating causes. In cases of GASTRITIS and GASTRIC ULCER it has proved highly successful. It is also very beneficial in NERVOUS CASES, and it may be taken at night without the least fear of causing digestive disturbance.

It requires only the addition of hot water, and can thus be prepared in a moment at any hour of the day or night.

PEPTONISED MILK

The process of making peptonised milk is one requiring much skill and experience, and it is practically impossible to prepare it properly in the sick room. In Messrs. Savory & Moore's factory the various operations are carried out by a highly skilled and specially trained staff, with the result that their Peptonised Milk may be absolutely relied upon.

The Peptonised Milk is of the greatest value as a food in all cases of INFANTILE MALNUTRITION, also in cases of FEVER and WASTING DISEASE, whether in children or adults. It is retained even when no other kind of food can be taken, and by its nutrient qualities enables the patient to successfully combat disease. In many cases it has been the means of saving life, especially among infants.

Dilution with hot or cold water, as directed, renders it ready for immediate use.

SAMPLES of the above may be obtained on application to:—

SAVORY & MOORE, Ltd., Chemists to THE KING,
143, New Bond Street, London.

Prescribed by the Medical Profession for 35 years.

The LANCET (London, Eng.) says: "So many worthless articles of this kind have been sold that great care is required in choosing those upon which reliance can be placed. Mr. Benger's care has therefore been well spent".

Benger's Food

has been described as—
'The physician's dietetic sheet Anchor.'

IT is not one of the "made in a moment" variety of foods. On the contrary, its preparation takes a little time, and, although simple, requires a little care.

This is because the amylolytic and tryptic ferments scientifically combined in BENGERS FOOD act upon the fresh milk with which it is prepared, and also upon the food itself. As a result—

**Fresh new milk and BENGERS FOOD
combine to form a delicious FOOD CREAM.**

so light as to be available for invalids prostrate with illness, and so rich in nutrition as to contain all that is necessary to sustain life in a vigorous adult.

It is no platitude, therefore, to describe BENGERS as "different from any other food obtainable."

for INFANTS, INVALIDS, AND THE AGED,
is sold throughout the World by Chemists, &c., in sealed tins.
