

COMBATS SERIES, 71—CARTHAGINIAN

TRADE MARK 'TABLOID' BRAND

**Emetine Bismuthous Iodide**

1 grain, keratin-coated

Notable results obtained with Emetine Bismuthous Iodide in the

**Treatment of Amoebic Dysentery**

have recently been published, *vide* LANCET, July 29, 1916, *p.* 183, and August 19, 1916, *p.* 319. Administered orally, this substance was found to be more effective than emetine hydrochloride given hypodermically, in removing the cysts of *Entamoeba histolytica* from the faeces of chronic carriers.

Military medical authorities will find the 'TABLOID' product exceptionally pure and convenient to administer.

*Supplied in bottles of 36. \*Prices on application*

TRADE MARK

**'TABLOID' BRAND Aspirin**
