## FOR THE GENERAL PRACTITIONER.

## Clinical Surgical Diagnosis for Students & Practitioners.

Containing a Chapter on "Some General Diagnostic Problems in connection with the Military Surgery of the Limbs." By Professor F. DE QUERVAIN, Director of the Surgical Clinic, University of Basle. Translated by J. SNOWMAN, M.D. 862 pp., with 604 Illustrations and 5 Coloured Plates. Second English Edition, Royal 8vo. Price 35s. net. Postage: inland, 7d., abroad 2s.

"The illustrations.....are all admirably reproduced. The arrangement of the subjects is from the head to the heel.....The book is thus easy to consult, and is particularly suitable for the general practitioner, as it emphasizes those features which are to be noted by clinical observation."—PROCEED. OF ROY. SOC. OF MED.

JOHN BALE, SONS & DANIELSSON, Ltd., 83, 85, 87, 89 & 91, Gt. Titchfield Street, Oxford Street, London, W. 1.

## Alcresta Tablets of Ipecac in Amebic Dysentery and in Endamebic Pyorrhea

The oral administration of the ipecac alkaloids is proving more advantageous than the hypodermatic injection of emetine, especially in the treatment of endamebic carriers and in the prevention of relapses.

### UNCOATED AND DISINTEGRATING—CAUSE NO NAUSEA

Each tablet contains the alkaloids (emetine and cephaeline) from ten grains of Ipecac, U. S. P., held in an adsorption compound with hydrated aluminum silicate. The tablets disintegrate but this adsorption compound passes through the acid contents of the stomach and releases the alkaloids only in the alkaline intestinal secretions—thus preventing gastric disturbances.

*Ten or twenty tablets, representing one hundred or two hundred grains of ipecac, may be given in a day without vomiting or nausea.*

Distributed through the Drug and Dental Trades in bottles containing 40 and 500 tablets. Further information on request.

Eases the Cough,  
Facilitates Expectorations,  
Soothes the Irritable Stomach,  
Promotes Nutrition.

That in a nutshell is why Angier's Emulsion is so widely and systematically used in treating pulmonary tuberculosis.

Angier's Emulsion tends to conserve and reinforce natural resources. It antagonizes the characteristic wasting of phthisis by soothing the sensitive, irritable stomach, and facilitating the digestion and assimilation of nourishing food.

**ANGIER'S EMULSION**

Angier's Emulsion has a specific palliative influence upon the symptoms of phthisis—fever, night sweats, cough, expectoration and exhaustion are ameliorated by its use.

Angier's is pleasant to take, will not become distasteful, and in most cases of phthisis its use will obviate the necessity of administering depressing or narcotizing cough sedatives.

Prescribed by the Medical Profession for 35 years.

*The BRITISH MEDICAL JOURNAL* says: "Time and use have justified the claims put forward for Benger's preparations."

## *Milk is indigestible by many people.*———

This is well-known by physicians to be a deprivation, and frequent cause of pain and discomfort to weakly or debilitated persons.

Wherever there is inability to digest milk, and whenever milk diet is advisable, Benger's Food may be prescribed with confidence. It changes (or softens) the casein of the milk so that it separates in presence of the acid gastric juice into minute flocculæ, instead of heavy curd.

The ease with which these smaller particles are digested and assimilated enables the patient to obtain more readily the whole of the Food-value in the milk.

## *BENGER'S FOOD*

*itself is also rich in food elements necessary to sustain life, and in a most easily digested form.*

*It agrees with the most sensitive stomachs, from infancy to extreme old age.*

A physician's sample, with all particulars, will be sent post free upon application to any member of the Medical Profession.

*for* INFANTS, INVALIDS,  
AND AGED PERSONS,

is quite distinct from every other food obtainable, and is sold throughout the World by Chemists, &c., in sealed tins.

First Class Award for Liquors and Liquid Extracts and Pharmaceutical Preparations International Medical Exhibition, London, '81.

# BATTLE'S LIQUORS

First Class Award at World's Industrial Exposition, New Orleans, 1885, Bronze Medal, St. Louis, 1904.

The following preparations have for many years been used and prescribed by medical men; they are therefore thoroughly recommended both on account of their high therapeutical properties and their great purity as galenical preparations.

## Liquor Opii Sedativus (Battley)

Dose: 5 to 15 minims.

The Oldest and still the Best Hypnotic and Sedative.  
Twice the strength of Tinctura Opii B.P.  
Safe in use. No disagreeable after-effects.  
Composition always reliable.

## Liquor Cinchonæ Cord. (Battley)

Dose: 2 to 15 minims.

The most reliable preparation of Cinchona Bark.  
Contains all the active principles of Yellow Bark.  
Will remain unaltered for a great length of time, being free from starch, etc.

## Liquor Cinch. Pallidæ (Battley)

Dose: 2 to 15 minims.

A well-known and useful preparation in Malarial Diseases and in Convalescence after Illness.  
Does not disturb the stomach.

## Liquor Secalis Cornuti (Battley)

Dose: 20 to 60 minims.

Pre-eminent among Ergotic Preparations for Purity and Strength, and has proved to be unrivalled in the following therapeutical actions:  
As an Emmenagogue and Ecbolic, in Post Partum Hæmorrhage, as a Hæmostatic, etc.

Battley's Liquors are issued in 2 oz., 4 oz., 8 oz. and 1 lb. bottles.

They are prepared according to the original process of the late Richard Battley.

Telegraphic Address: "Sedative, London."

Sole Manufacturers:

Telephone: Central 2183.

# A conclusion based on trials in Hospital and in Private Practice of 'Wander' Malt Extract with Paraffin.

(50% Pure Liquid Paraffin.)

During the last year a large number of trials of this interesting product have been made. Many practitioners have kindly furnished us with reports as to the results. One definite conclusion arrived at by a study of these reports is that the product possesses distinct advantages in the treatment of **Constipation in Children and Infants.**

The almost general unanimity of opinion as to its success in this field of use is ascribed to the following features:

1. Extreme palatability—young patients take it with avidity.
2. Though containing 50% by weight of Pure Liquid Paraffin, it is not oily in nature, being presented in a dry, crystalline powder form.
3. Ease and variety of methods of administration. It mixes instantly with water or milk and does not separate—can also be given on bread and butter or dry from a spoon.
4. The oil being in an extremely fine state of globular division mixes rapidly and completely with the intestinal contents, thus not only lubricating the faecal mass, but preventing the formation of scybala, and ensuring soft, homogeneous stools.
5. The nutrient, digestive and slightly laxative qualities of the "Wander" Malt Extract being retained unimpaired add to the value of the product and make it an ideal medium in a large number of cases where dyspeptic and badly-nourished conditions are also present.
6. That in the case of Infants' Constipation it can be administered in half to one teaspoonful doses, mixed with a little water, or milk, after feeding, or in the case of the artificially fed, mixed with the contents of the bottle. Its addition to cow's milk also prevents the formation of indigestible curds, and supplies the deficiency of carbohydrate. For these purposes the preparation is stated to be ideal.

The product has been used with advantage in many conditions where Paraffin is indicated, viz.: in **Hæmorrhoids, Stasis, After Intestinal Operations, Typhoid Convalescence, Mucous Colitis, Thread-Worm Infection and Intestinal Toxæmia.**

R. "Wander" Ext. Malt. c. Paraffin.

Members of the medical profession are invited to write for liberal clinical trial packages.

**A. WANDER Ltd., 45, COWCROSS STREET, E.C. 1.**

**Works: KING'S LANGLEY, HERTFORDSHIRE.**

# Advances in Treatment

## CONSTIPATION

### "Byno Chrismol"

(TRADE MARKS)

marks a new departure in the treatment of Chronic Constipation, etc. It presents 50 per cent. by volume of "Chrismol," a specially selected and purified Russian mineral oil in intimate combination with the "Allenburys" Malt Extract.

*"Byno Chrismol" possesses the following advantages:*

It is prepared with mineral oil of the proper viscosity and chemical constitution to ensure efficient lubrication with a complete absence of bye-effects.

The intimate combination of the mineral oil and "Allenburys" Malt Extract without an emulsifying agent, ensures the maximum activity of the oil as a lubricating agent, and removes the inconvenience that sometimes follows insufficient admixture of the lubricant with the intestinal contents.

It possesses no oily taste. The "Allenburys" Malt Extract present aids digestion and assimilation.

"Byno Chrismol" is specially indicated in Chronic Constipation with symptoms of auto-intoxication, Intestinal Stasis, Mucous Colitis and in the convalescent stage of Typhoid Fever; also after Child-birth, during the nursing period and whenever a simple laxative is required by child or adult.

*DOSE: A dessert-spoonful or more, two or three times a day.*

In bottles at 2/6 and 4/6 each.

Sample free on request.

## Allen & Hanburys Ltd., London

37 Lombard Street, E.C.3.

7 Vere Street, W.1.

For Invalids, Dyspeptics and the Aged,

Invaluable in Sickness and Convalescence.

#### TITLE IMPORTANT

The "Allenburys" DIET is a complete food chiefly intended for Adults, and is *quite distinct* from the "Allenburys" Foods for Infants. It is quickly prepared, exceptionally palatable, easily digested and wholly nourishing.

#### COMPOSITION & PREPARATION

The "Allenburys" DIET is made from pure, rich, full-cream milk and whole wheat, both ingredients being partially pancreatised during the process of manufacture. It needs boiling water only to prepare it for use.

#### ANALYSIS

Fat	...	...	...	15.4
Proteid	...	...	...	15.2
Soluble Carbohydrate	...	...	...	47.2
Starch	...	...	...	15.7
Mineral Matter	...	...	...	4.3
Moisture	...	...	...	2.2

Caloric Value of the  
"Allenburys" DIET when prepared  
ready for use:

Fat	...	...	...	23.8
Proteid	...	...	...	10.4
Carbohydrate	...	...	...	42.9

#### INDICATIONS FOR USE

In all Gastric conditions where it is found that curd is not digested, Gastritis, Gastro-Enteritis, Gastric Catarrh, Gastric Ulcer, Gastric Influenza, Obstinate Vomiting. In all Acute Disorders. Before and after Surgical Operations. In Convalescence, Gouty Dyspepsia, Insomnia, (taken last thing at night it promotes refreshing sleep and digestive rest). Neurasthenia. All forms of Tuberculosis. In Senile Disorders of the Digestion. When pure milk is not obtainable, viz., on Board Ship, in Tropical Countries or Distant Lands, or whenever a light nourishment is required. For the Invalid, Dyspeptic, and the Aged it is an essential nutrient.

#### ADVANTAGES

Most invalids' foods require cow's milk to be used in their preparation; this involves much time and careful mixing to avoid the presence of burnt milk or lumpiness—common characteristics of foods so prepared. The "Allenburys" DIET does not require cow's milk to be added. By the simple addition of boiling water a complete food is produced that is smooth to the palate and pleasant to the taste. The "Allenburys" DIET can be taken for prolonged periods without any distaste arising. These distinct advantages are of immense service in the work of a busy hospital or understaffed sick-room.

MANUFACTURED BY

Allen & Hanburys Ltd., Lombard St., London, E.C. 3.

# COLLOSOL FERROMALT

Pure Malt Extract with Colloidal Iron.

**CROOKES'**

COLLOSOLS are  
Drugs in the  
COLLOID STATE.

COLLOSOLS are  
isotonic and  
isomorphic with  
the elements of the  
body.

The iron in this preparation is in an extremely fine state of subdivision and is present to the extent of 0.1%. When administering iron it should be remembered that the total iron content of the normal body does not exceed 37 grains, and although organic compounds of iron have been recommended, the inorganic Iron is held by many to be the most efficient in the only true test of the value of an iron preparation, *i.e.*, increase of hæmoglobin. **COLLOSOL FERROMALT** should be taken after meals. Diffusion rapidly takes place over the whole of the stomach, and the known low chemical affinity of colloids prevents too rapid absorption of iron in individual positions and the amino-acids formed during the process of digestion are enabled to absorb into their complex molecule a proportion of iron essential for the synthesis of hæmoglobin. **COLLOSOL FERROMALT** does not cause constipation or digestive troubles.

## COLLOSOL IODINE

**COLLOSOL IODINE** is prepared in aqueous solution, as an Oil, an Ointment, and as a Pasta.

The following extract from an article by one of the foremost dermatologists, in the *British Medical Journal* of May 12th, 1917, testifies to the efficacy of **COLLOSOL IODINE OIL** in the treatment of

### CHILBLAINS.

"In a severe case of chilblains in the first stage, that of a woman of 37, whose fingers were so swollen that they looked like sausages, under the application of Collosol Iodine Oil rubbed in four or five times a day every trace of the condition disappeared in four days."

COLLOSOLS are prepared for the Proprietors, Crookes' Collosols Ltd., at  
**THE CROOKES' LABORATORIES,**  
50, Elgin Crescent, LONDON, W. 11.

TORSO OF AN ANCIENT INDIAN WARRIOR in relief stucco discovered on the site of a former Hindu colony in Eastern Turkestan. The warrior is standing on the body of a prostrate foe. His coat of mail is composed of scales either of leather or horn laced together with the rounded ends uppermost, whereas in classical scale armour the reverse method was adopted.

In this figure the scales are gaily coloured in alternate rows red—blue and red—green. Jewelled ornaments enrich the girdle and the edge of the coat, beneath which an elaborate kilted garment is worn. Date: A.D. 100-300.

OBVERSE VIEW

## Red Cross Work THE BURBERRY

beats every other form of protection, however severe the conditions.

Unlike rubberproofs, or weatherproofs interlined with oiled silk, **THE BURBERRY** is free from the unhealthy heat engendered by airtight fabrics.

Another advantage of **THE BURBERRY** is the permanence of its proofing. Rubber and interlined coats are spoilt by any extreme of cold or heat, but

**THE BURBERRY**, owing to the protective agent being ingrained in every thread of the cloth, retains its unrivalled weather-resisting properties throughout the roughest usage in any climate.

### BURBERRY SERVICE DRESS

for Doctors and Surgeons, comprises every detail of equipment, including Uniforms and Greatcoats, made from hard-wearing cloth, proofed by Burberry processes,

### READY FOR IMMEDIATE WEAR

or made to measure in from 2 to 4 days.

PATTERNS, PRICES, & ILLUSTRATED CATALOGUE SENT ON APPLICATION.

### BURBERRYS' CLEANING WORKS

Weatherproof garments cleaned and reproofed in the shortest possible time. Price list sent on request.

## MURTON'S DROP WRIST APPLIANCE.

(Pat. applied for.)

Acts as a splint and tends to prevent over-stretching of the extensor muscles of the forearm.

The spring under the hand is adjusted to any angle.

Where no recovery is possible may be worn permanently, being free from observation.

The spring is simply adjusted to bear any tension put on it.

The simplest and best splint yet on the market.

As used at the ABBEY HOSPITAL, WOBURN, and others.

Price 17/6 each.

The hand rest adapts itself to any angle, as shown by dotted line.

## The Self-Starter that never fails.

Every post-war Car will be fitted with a Self-Starter, and discriminating motorists will specify the BROLT Starter because of its *proved* efficiency and reliability.

The BROLT is not a new and untried device—it has stood the supreme test of time, and is as perfect as human ingenuity can make it.

An important detail of the BROLT Starter which gives it tremendous starting and driving power is the **Positive Gear Drive**, which, at a touch of the switch, engages the engine fly-wheel, ensuring a sure and instantaneous start under all weather conditions.

## RELIABLE LIGATURES.

BREAKABLE TUBES.

In ligature and suture material, there can be nothing better conceived for the sterile and aseptic preparation and conveyance of the same, than a hermetically sealed glass tube. Catgut or silk, as it is prepared in our laboratories must reach the surgeon's hands in absolutely sterile condition.

This is our positive guarantee.

These Tubes possess advantages known to no other tubes. The perfection of Johnson & Johnson's Laboratory preparation of Ligature and suture material cannot be obtained elsewhere.

SURGICAL APPLIANCE MAKER TO CHELSEA HOSPITAL; ARMY AND NAVY.

THE HOUSE FOR EVERYTHING ELECTRO-MEDICAL.

THE "GREVILLITE"  
IMPROVED DIATHERMY APPARATUS

## THE BEST

## For Thermo Penetration Treatment.

It has long been known that the oscillations of æther within the body, when absorbed, develop heat and increase the internal temperature of the body. The electric current also, in passing through the human body, experiences resistance resulting in a transformation of energy which develops the so-called Joule's heat. In all these cases, however, only a slight development of heat, and, therefore, also only a slight rise of temperature, takes place.

A much greater development of heat is caused by suppressed electric waves of high frequency. When they pass through the body they create a great increase of temperature. In Diathermic treatment this process is now utilised in various therapeutic applications.

The "GREVILLITE" apparatus is specially designed to create this higher temperature of the body by means of these currents of high frequency.

**NO HOSPITAL SHOULD BE WITHOUT THIS VALUABLE TREATMENT.**

**Price £45 : 0 : 0.**

Owing to prevailing conditions our prices are subject to fluctuation.

A well-known competitor, who has since ordered our apparatus, writes:—

"We have received an order for a Diathermy apparatus and have been asked to supply the best obtainable.

"We understand that you manufacture a Diathermy apparatus having a special form of spark gap which works in coal gas.

"We shall be glad if you will let us have your quotation." Signed —

ALFRED COX, Medical Secretary.

### Parish of St. Pancras GUARDIANS OF THE POOR.

**WANTED.**—The Guardians of the Poor of this Parish invite applications from duly qualified Medical Women Practitioners for the position of **ASSISTANT MEDICAL SUPERINTENDENT** of the St. Pancras Infirmary (South), Pancras Road, and **ASSISTANT MEDICAL OFFICER** for the House adjoining. The appointment to be made in the first instance for a period of one year, with salary at the rate of £300 per annum, with the usual residential allowances.

Though not essential, it is desired, that the person appointed shall have had experience such as will enable her to be approved by the C.M.B. as a Teacher in midwifery with an honorarium of £10 10s. per annum for Lectures to midwifery pupils.

Applications to be made on forms obtainable at my office as below by transmitting a stamped addressed (foolscap) envelope.

**J. E. P. HALL,**  
Town Hall, Clerk to the Guardians.  
Pancras Road, 18th December 1917.

### Corporation of Manchester.

Applications are invited for the post of **TEMPORARY ASSISTANT TUBERCULOSIS OFFICER** for the City of Manchester, at a salary of £450 per annum.

Candidates must be fully qualified Medical Practitioners, ineligible for Military Service, having special knowledge of Medical and Surgical Tuberculosis.

Applications, stating age, qualifications and experience, and endorsed on the envelope "Assistant Tuberculosis Officer," must be addressed to the Town Clerk only (and not to members of the Committee or Council) not later than January 8th, 1918, and be accompanied by not more than three recent testimonials.

Canvassing in any form, oral or written, direct or indirect, is prohibited.

**THOMAS HUDSON,** Town Clerk.  
Town Hall, Manchester, December, 1917.

### The Borough Hospital, Birkenhead.

Wanted, **JUNIOR HOUSE SURGEON**, must be fully qualified. Duties include casualties and anaesthetics. Salary £170 per annum, board and laundry. Applications to be sent to the Secretary at the Hospital.

### The Royal Infirmary, Hull.

**SENIOR HOUSE SURGEON** wanted. The Hospital contains 125 surgical beds. There are in addition a Resident House Physician, Asst. House Surgeon, and two Casualty House Surgeons. Candidates must be fully qualified, registered, and unmarried, and preference will be given to such as have previously held a similar appointment. The salary is £250 per annum, with board and furnished apartments. The selected candidate will be required to enter into an agreement to remain not less than one year, and to give or receive three months' notice to terminate his engagement. Applications, stating age, qualifications, and previous experience, with copies of testimonials, to be sent addressed "Chairman House Committee."

**BENJAMIN BROOKS,** Secretary.

### The Royal Infirmary, Hull.

The Appointing Committee are prepared to elect an **HONORARY SURGEON** to the Institution. Applicants must possess the Fellowship of the Royal College of Surgeons in England, or Edinburgh, or Ireland, or have been an Hon. Assistant Surgeon of the Infirmary for five years.

Honorary Surgeons are appointed for a period not exceeding twenty years, or until attaining sixty years of age, and may not hold any paid appointment to any other Charitable Medical Institution or to a Workhouse.

Applicants are prohibited from personally canvassing, but may send copies of their applications and testimonials to the members of the Appointing Committee.

Applications, addressed "The Chairman, Committee of Management," must be received at the Board Room of the Institution not later than ten o'clock a.m. on Wednesday, 9th January, 1918.

By order, **BENJAMIN BROOKS,** Secretary.  
Board Room, 20th December, 1917.

### City of Birmingham.

**LADY DOCTOR** wanted for Infant Welfare work only. Salary £350 per annum, rising to £450. Three months' leave of absence, with salary, given for study at the expiration of every three years of service.

Applications to be made on form, which can be obtained from the Medical Officer of Health, the Council House, Birmingham, on or before January 12th, 1918.

### City of Manchester.

#### SECOND ASSISTANT MEDICAL OFFICER TO THE BAGULEY SANATORIUM FOR TUBERCULOSIS.

The Sanitary Committee require the services of a fully qualified Medical Officer, with experience in the treatment of Tuberculosis, to act as **LOCUM TENENS**.

Applicants must be unmarried, ineligible for Military Service, and conversant with bacteriological methods. The salary will be £400 per annum with board and residence.

Applications, stating age, qualifications, and experience, and endorsed on the envelope "Second Assistant Medical Officer, Baguley Sanatorium," must be addressed to the Town Clerk only, and not to members of the Committee or Council, not later than January 8th, 1918, and be accompanied by not more than three recent testimonials.

Canvassing in any form, oral or written, direct or indirect, is prohibited.

**THOMAS HUDSON,** Town Clerk.  
Town Hall, Manchester, December, 1917.

### Wolverhampton & Staffordshire GENERAL HOSPITAL.

Wanted **SENIOR STUDENT** to act as Assistant to House Surgeons. The Hospital contains 262 beds (of which 82 are reserved for wounded soldiers), including the usual Special Departments, and is recognised by two various Examining Bodies for a part of the requisite attendances on Medical and Surgical Practice.

Board, furnished rooms and laundry provided, and an honorarium will be given.

Further particulars may be obtained from the undersigned **W. H. HARPER,**

Hon. Governor and Secretary,  
Wolverhampton, 18th December.

**Alopecia prematura ... Pomade Max**  
**Alopecia prematura ... Pomade Max**

Loss of Hair, no matter from what cause arising, should be perseveringly treated with POMADE MAX. Apparently hopeless cases receive marked benefit generally almost immediately.

## POMADE MAX

(UNC. CANTHARIDIN & HYDRARG. CO.)

For Alopecia Prematura & Alopecia Areata  
A dermatologist writes:—

"Without stretching language in the least we may say that it really appears to be a *specific* for baldness."

An L.R.C.P., Harrogate, writes Sept. 1915:—

"Send pot Pomade Max for own use."

"A Patient (syphilitic) has used it with wonderful results."

**MAY, ROBERTS & CO., LTD.,**  
9 & 11, Clerkenwell Road, E.C.

## KOND'S EUONYMISED COCOA.

What is it?

A delicious Beverage, taking the place of Tea, Cocoa, or Coffee.

Why take it?

Its use is attended with a marked increase of appetite and rapidity of digestion: all feelings of heaviness after meals disappear; and an increase of the natural flow of bile takes place. It is not aperient, except in repeated doses, but the increased activity of the liver is valuable in removing constipation. It is used in stomach or liver disorders, alcoholism, slow digestion, overwork, depression, loss of appetite, in cases where tea and coffee are not desirable, sedentary habit of life, gout, rheumatism, and biliousness.

Euonymised Cocoa can be freely taken by those unable to take ordinary Cocoa.

The Euonymin is taken in the form of a hot infusion in a delicious beverage. Its action in this form is incomparably more direct and powerful than when taken in any other forms.

*Highly recommended by the Medical Profession, from whom we have received hundreds of testimonials.*
