

The Nutrient Laxative for Intestinal Stasis

Combines the nutrient properties of Virol with the lubricating effects of Medicinal Paraffin.

Though the Virol is used rather as a vehicle for the paraffin than for its food value, yet there are many occasions in which it is a distinct advantage to be able to supply easily digested food with a bowel lubricant.

Paraffin acts not only by directly facilitating the progress of the intestinal contents, but by inhibiting undue bacterial growth. Virol forms an admirable vehicle for the paraffin, which in Virolax is so finely emulsified that it mixes immediately with the intestinal contents and does not give that uneasiness in the lower bowel often accompanied by leakage of plain paraffin from the rectum, which is occasioned by unemulsified paraffin.

Virolax

(Registered Trade Mark)

Very Palatable. Especially liked by Children.

In Tins: 1/., 2/8.

VIROL LTD., 148/166, Old Street, London, E.C.1.
