

De Dion Bouton

LIMITED

12/24 H.P. 3/5 Seater Torpedo, £565.

Winter brings no relaxation— Why not have more Comfort?

THERE will be rain, sleet, snow and gale soon. Why not have more comfort? Winter will bring you a heavy duty list; the crowded surgery, the busy round, the late night call. . . . And most patients think the Doctor is weatherproof. Can we not make it really so?

The De Dion has always been a Doctor's Car. Quality has made it so. They are always reliable; no emergency call ever finds it 'stalling,' and many Doctors say that they cannot wear them out. There are three types of chassis, the 15/43 H.P., 12/28 H.P., and 12/24 H.P., the two former with Overhead Valve Engines. Cantilever springs. You may choose your own colour and leather trimming and select any of the 14 types of coachwork. The Car will be built to your own standard of comfort and on a comparison of quality it is most inexpensive.

May we send you more particulars?

Autocar, 17/8/23:—

"The coachwork is solidly built, and not a rattle or squeak could be detected. The paintwork is carried out in the thorough manner adopted by the old coach-painting school, and the leather upholstery is deeply sprung and padded.

"All-weather side curtains are carried in a pocket—carefully lined—behind the rear seat, and fit so snugly that not the slightest draught can be detected when they are erected.

"The De Dion, is in fact, an ideal car for the owner-driver.
