

BRANDY for ILLNESS *means* MARTELL

For Infant Feeding

Horlick's Malted Milk—the Original—supplies all the elements of nutrition in Cereals and Milk in proper proportions and with the amylolytic conversion of starch, thus fulfilling the physiological requirements of Infants and constituting the characteristics of a proper diet in Infancy. It is dependable in all climates, free from pathogenic organisms, and affords a solution to the pure milk problem, as well as the prevention of those diseases often induced by amylaceous foods. Complete in itself and ready in a moment by briskly stirring the powder in water only.

Liberal samples free to Members of the Profession.

To secure the original, always specify HORLICK'S.

Made in England by
HORLICK'S MALTED MILK COMPANY,
SLOUGH, BUCKS.

**HORLICK'S
MALTED MILK**
The Original
