For Invalids and Convalescents

Horlick's Malted Milk presents the Proteids and Carbo-hydrates of Cereals and Milk in the proper ratio which affords a maximum of nutrition with a minimum tax on digestive effort. It materially assists the building-up processes by making good the wastage entailed by illness, accelerates the recuperation of the digestive and assimilative powers, thereby preparing the way to a resumption of a solid diet. Complete in itself and ready in a moment by briskly stirring the powder in hot or cold water only.

Liberal samples free to Members of the Profession.

To secure the original, always specify HORLICK'S.
