SEA-SICKNESS PREVENTABLE AND CURABLE BY DR. CHAPMAN'S SPINAL ICE-BAG (PATENT).

Its application is agreeable; it gives immediate comfort and relief; while arresting the sickness, as well as any cramps or spasms which may be experienced, it restores the impaired circulation of the blood to its normal standard; and thus the patient, who may be cold, pallid, apathetic, and completely prostrate, quickly regains the ruddy glow and the mental and physical energy of health.

Dr. CHAPMAN'S book on Sea-Sickness (published by Trübner and Co.) explains how the malady is cured by the Spinal Ice-Bag, and contains reports of numerous cases proving its efficacy.

The Bags, together with directions how to select one of suitable size in each case, and how to use it, may be had of Messrs. Maw and Son, 11, Aldersgate Street; Messrs. Mackintosh and Co., 83, Cannon Street; and J. G. Gould, 198, Oxford Street, London; of Thos. Chapman, 56, Buchanan Street, Glasgow; and, by order of all Druggists.
