TO CORRESPONDENTS.

* * All letters and communications for the JOURNAL, to be addressed to the EDITOR, 37, Great Queen St., Lincoln's Inn Fields, W.C.

CORRESPONDENTS, who wish notice to be taken of their communications, should authenticate them with their names—of course not necessarily for publication.

SIR B. BRODIE'S LETTER.—Several correspondents have suggested that Sir Benjamin Brodie's letter might be advantageously reprinted. We would suggest that all that can be done in the way of widely distributing this letter, has already been done. *We could only reprint a few hundreds.* But hundreds of thousands of copies of it have been already or are being spread over the face of earth and water.

AN INQUIRER.—We are not aware that there is in England any establishment for the treatment of dipsomania. Several such exist in Scotland—two in the Isle of Skye; one at St. Catherine, Lochfane; and one near Clackmannan. An Inquirer will find some information on the subject in the number of the BRITISH MEDICAL JOURNAL for July 6th, 1861.

DR. GUINNESS'S letter arrived too late for insertion this week.

SUBSCRIPTIONS.

THE following Laws of the Association will be strictly enforced:—

15. The subscription to the Association shall be One Guinea annually; and each member on paying his subscription shall be entitled to receive the publications of the Association of the current year. The subscriptions shall date from the 1st of January in each year, and shall be considered as due unless notice of withdrawal be given in writing to the Secretary on or before the 25th of December previous. If any member's subscription remain unpaid twelve months after it shall have become due, the publications of the Society shall be withheld from such member until his arrears be paid.

16. The name of no member shall remain on the books of the Association, whose arrears extend over three years; but the omission of the name from the list of members shall not be deemed, either in honour or equity, to relieve any member from his liability for the subscriptions due for the period during which he has availed himself of the privileges of membership.

PHILIP H. WILLIAMS, M.D., General Secretary.

 "Striking and spirited portraits."—*The Lancet*.
 "Faithful likenesses of the distinguished originals."—*Med. Times*.
 "The portraits published by Mr. Stone are capital likenesses."—*Dublin Medical Journal*.

"Admirable as works of art."—*Brit. & Foreign Med. & Chir. Review*.
 "Mr. Stone is known in the medical world as an assiduous and discriminating collector of portraits. The shortcomings of art towards the talented band who now lead the van of medical inquiry appear to have suggested the present series of engravings. The whole collection forms an interesting *souvenir* to the numerous body whom the requirements of instruction or relief may at any time have brought into communication with the distinguished originals."—*The Daily News*.
