## TRADITIONAL LONDON

THE INNER TEMPLE GATE HOUSE,  
FLEET STREET

H. BERNARD ROBINSON

*Rebuilt in 1610, it was probably the Council Chamber of the Duchy of Cornwall, which, at least as early as 1617, is known to have been located in Fleet Street. It is the oldest surviving house in Fleet Street, and the finest specimen of ancient domestic architecture in the City.*

London Hospital Catgut has no less finer traditions behind its development to a leading place in the esteem of Surgeons the world over. It is a product of scientific research, made throughout at the London Hospital under licence of the Ministry of Health.

## The chemistry underlying liver therapy is ever changing.....

An increasing tendency is shown to claim a very high purity and remarkable hæmopoietic potency for injectable fractions of liver.

Independent chemical research in stringent conditions of clinical test have maintained the place of Organon's PERNAEMON FORTE in this field.

PERNAEMON FORTE provides a medium for the therapy of Pernicious Anæmia as pure, as active, as comfortable and as inexpensive as any available.
