**JOHN GILLON & CO., LEITH.**  
**Essence of Beef, or Meat**  
JUICE, for instantly making Beef Tea for In-  
valids. Prepared by JOHN GILLON & CO., Pre-  
served Provision Manufacturers, Leith. This valuable  
article is strongly recommended by Professor CHRISTISON  
of Edinburgh, and is largely prescribed by the Medical  
Profession. It is simply the Juice of the best Ox Beef,  
and it will, without trouble or loss of time, produce Beef  
Tea of the finest quality and flavour, such as the stomach  
will retain under sea-sickness, or when every thing else  
is rejected. It is more economical than Beef Tea pre-  
pared in the family, and, as it will keep good for any  
length of time, no house should be without it.—For its  
Medical Properties, see Article by Professor Christison  
of Edinburgh, in the *Monthly Journal of Medicine*,  
January 1855.

**Gillon's Essence of Beef Lo-**  
ZENGES. JOHN GILLON & CO., Leith.  
These Lozenges are made by carefully evaporating the  
Essence of Beef, as advertised above, to one-sixteenth  
of its bulk: they are warranted to be the pure Extract  
of the best Scotch Ox Beef.

REDUCTION IN PRICE.  
**Extractum Carnis, Liebig's**  
PROCESS, Prepared by JOHN GILLON and  
CO., Preserved Provision Manufacturers, Leith. This  
Extract of Meat, from the fact of its being carefully  
prepared from the best Scotch Ox Beef in a temperate  
climate, without liability to incipient putrefaction, will  
be found to be more palatable and agreeable to Invalids  
than extract made in a warm climate. Gillon's Extract  
is free from the disagreeable bitter of other preparations,  
and it does not cause nausea.

Dr. DALZELL, Demonstrator of Practical Chemistry  
in the University of Edinburgh, reports, after careful  
analysis, that GILLON'S EXTRACT OF MEAT is identical  
in composition with that of Liebig's Co., and equally  
nutritive, and that only in the particular smell of their  
volatile aromas do these extracts differ, and that to his  
taste the smell of Gillon's Extract is more pleasing  
and more delicate than that prepared under the direc-  
tion of the illustrious Professor.
