

The rapid enzymic action of **BENGER'S FOOD**

The instant hot milk is added to Benger's Food, self-digestive action by natural pancreatic enzymes begins.

As supplied in the tin, Benger's Food is a special wheaten powder, containing 77% of insoluble starch.

So quick is the enzymic action of Benger's Food that within 2 minutes of adding the hot milk insoluble starch has been reduced to 0.5%.

The milk proteins have simultaneously been modified, so that when prepared Benger's Food comes in contact with the gastric juices it separates into fine flocculi instead of the heavy tough curds formed by milk itself. All this change in two minutes! And by the time the milk used to make Benger's Food is sufficiently cool to drink, the self-digestion of Benger's Food is carried as far as it need be for all cases where digestion is slightly impaired or where light diet is indicated.

For Infants, Invalids and those suffering from severe digestive weakness, the time for pre-digesting Benger's Food should be extended to 15 minutes and upwards to 45 minutes. At the end of this period the wheaten powder is converted to dextrins, dextri-maltoses and maltose, and the milk proteins modified so that the finest possible curd is formed on contact with the gastric juices.

Sole Manufacturers: **BENGER'S FOOD, LTD.**,
Holmes Chapel, Cheshire, Eng.

The Benger Laboratories are always at the disposal of the medical profession in any of their dietetic problems. Physicians' samples of Benger's Food are always available.

Selected Medical Specialties

SAMPLES of any of the following preparations will gladly be sent on the signed request of any registered medical practitioner.

IODEX Brand OINTMENT

The ideal presentation of iodine for external use. Is more active than the Tincture, has greater inflammation-reducing, resolvent, and antiseptic properties, yet is entirely bland even on mucous surfaces. Indicated in wounds, enlarged glands, haemorrhoids, certain skin affections, rheumatic pains, and inflammatory conditions generally.

'OVENDOSYN' Brand TABLETS

This preparation of stilboestrol and calcium phosphate is indicated in menopausal disorders, dysmenorrhoea, amenorrhoea, etc.

'CALSIOD' Brand TABLETS

For oral administration to relieve pain, swelling, and muscle spasm in arthritis and rheumatoid conditions generally.

NEURO PHOSPHATES

(Eskay Brand)

This unique presentation of the glycerophosphates provides the practitioner with a palatable and efficient tonic that is of special value in convalescence and for those undergoing prolonged mental and physical strain.

'BENZEDRINE' Brand TABLETS

These tablets have a profound stimulating effect on the central nervous system. They are particularly useful in asthenic and depressive states and are capable of bringing about increased capacity for physical and mental effort. Other indications include: post-encephalitic Parkinsonism, narcolepsy, alcoholism, dysmenorrhoea, and sea-sickness.
