

A new approach to the treatment of Arthritis and Neuritis

'LYOVAC' BEE VENOM SOLUTION

SINCE the early days of history, bee venom has frequently been referred to in medical literature for its value in the treatment of arthritis and neuritis. The factors which kept it from wide-spread use have now been overcome in 'Lyovac' Bee Venom Solution, which supplies standardized bee venom in a stable form which retains its potency for many years.

Published reports^{1,2} of the effectiveness of Mulford 'Lyovac' Bee Venom Solution in reducing swelling, relieving pain and improving joint motility are paralleled by similar reports from physicians in general practice. It is indicated in the treatment of acute and chronic arthritis. It appears to be most effective in extra-articular mani-

is packaged under the new lyophile process by which the original therapeutic value of freshly prepared biological substances at the time of their highest potency is retained for many years.

festations, such as muscular rheumatism, sciatica, lumbago, neuritis, and iritis.

Mulford 'Lyovac' Bee Venom Solution represents the whole venom of ten bee stings. After candle filtration, for sterility, the solution is rapidly frozen and rapidly dehydrated under high vacuum. It is preserved under vacuum in the specially devised 'Vacule' flame-sealed ampoule-vial.
