

WHAT WILL BE

The Effect of Air-raid Shelters

ON PUBLIC HEALTH?

MALNUTRITION and its complications

Adequate protection against diseases arising from vitamin deficiency due to scrappy and irregular 'shelter meals' is afforded by **Crookes' Halibut Oil**. It is 80 times richer in vitamin A and 30 times richer in vitamin D than good cod liver oil.

MOUTH & THROAT AFFECTIONS

An effective and palatable method for the application of Iodine to the mouth and throat is afforded by **Crookes' Iodine & Blackcurrant Pastilles**. Because each pastille contains *Collosol* Iodine (1/10th of a grain) full therapeutic effects are produced. Specially valuable for children, who like the flavour.

DEBILITY & DEPRESSION

A reliable reconstituent with very rapid action, **Crookes' Collotone** is a pleasantly flavoured hæmatinic for general use and in the treatment of debility and depression of nervous origin.

COUGHS & BRONCHIAL AFFECTIONS

An insistent cough will keep the sufferer—and those who happen to be near him—awake all night. **Crookes' Collosol Bromoform Co.** gives almost immediate relief and ensures a good night's rest. Most valuable in whooping cough and bronchial affections.
