

... AND FIRST OF THESE IS COMFORT

Many diseases of the rectum, especially those of long standing, are amenable only to surgical measures; but, before surgery can be undertaken, symptomatic relief of pain and discomfort must be provided and the field of operation prepared. For these purposes Anusol Haemorrhoidal Suppositories are extensively used with satisfaction and safety. They have become intimately associated with the successful treatment of haemorrhoids, anal fissure, proctitis and inflammatory conditions of the ano-rectal region generally. Time after time they have demonstrated permanent results from their systematic use. Nothing is contained in the Suppositories to give a false sense of security.

The treatment of HERNIA

Illustration shows double truss price

45/-

Single truss - - 35/-

Where treatment of Hernia by surgical methods is undesirable for any reasons, the HECSON super elastic truss can be confidently recommended. The Special Feature of the HECSON Truss is that the perineal or under strap is attached to the top of the pad, instead of the lower margin as in the ordinary elastic or old spring truss. Thus it becomes part of the leverage mechanism for increasing the pressure of the pad at its base.
