Announcing SULPHAGUANIDINE-EVANS

The results of Marshall and his co-workers; Anderson and Cruikshank, and others, justify the use of sulphaguanidine as an intestinal antiseptic particularly in bacillary dysentery and colonic surgery. On the basis of the pharmacological studies the drug is also suggested for trial in such diseases as cholera ulcerative colitis and gastro-enteritis.

SULPHAGUANIDINE-EVANS is issued in compressed tablets of 0.5 grm.

*Bottles of 25, 5/9 ea. Bottles of 100, 19/6 ea.
Bottles of 500, 87/6 ea.*

Prices apply to Gt. Britain and N. Ireland and are subject to usual discounts.

Technical details will be supplied on request to Home Medical Department, Concert St., Liverpool, 1

BOURN-VITA

*For Deep,
Restoring Sleep*

THERE is sleep and sleep, as all nurses know. In these days, with the whole nation working at high pressure, sleep, like most essential things, is rationed. It remains to get full value for your small portion—healthy, restful sleep. It can be induced *naturally* by Bourn-vita. The Vitamin B, phosphorus and calcium it contains are good for high-tensioned nerves. It is an ideal food-drink for your convalescent patients, too, specially light and easy to digest.

STOMACH DISORDERS

The acute discomfort of recurring 'indigestion,' the pain of flatulence and distension associated with acid dyspepsia, will yield to treatment with 'BiSoDoL.'

Antacid, sedative and mildly aperient, 'BiSoDoL' is a finely divided powder composed of the bases bismuth, soda and magnesium, together with papain and diastase, which assist digestion. 'BiSoDoL' is flavoured with oil of peppermint, making the preparation acceptable to the most sensitive patient and, at the same time, providing a valuable carminative. Relief is experienced soon after the dose is taken.
