

NOVUTOX PROCESS

NOW APPLIED TO THE PRODUCTION OF

SELF-STERILISING MORPHINE SOLUTIONS

The special Novutox cold sterilising process by which statrilized (i.e., stable and self-sterilising) solutions are prepared, offers for Morphine Therapy an advance which is outstanding compared with any other system.

Inconvenient tablet forms of morphine and other important narcotics, often of necessity prepared for injection with *water of doubtful character*, have been grudgingly tolerated by the Medical Profession for half a century.

The growing volume of emergency work associated with modern life, and especially with A.R.P. arrangements, demanded some improvement, and solutions of morphine in bottles, ampoules and the new cartridge form, ready for immediate use without further process of sterilisation, have at long last made their appearance.

To obviate possible confusion between Novutox Self Sterilising local anaesthetics and solutions of morphine produced by the Novutox Cold Sterilising Process, the description "STATRILIZED" (e.g., Statrilized Morphine $\frac{1}{2}$ gr.) has been applied to drugs other than Novutox Local Anaesthetics prepared by the process.

Solutions prepared by the process are :

● LESS TOXIC ● SELF-STERILISING ● STABLE ● READY FOR USE

● **LESSENERED TOXICITY** : In particular cases, such as those with cardiac manifestations or when shock is accompanied by toxæmia (as in burn-shock) the advantages of lessened toxicity are very real.

● **SELF STERILISING** : Elimination of the danger of accidental infection renders the solution perfectly safe for use from rubber capped or glass stoppered bottles, even under the adverse conditions of A.R.P. and other emergency work. Moreover, additional to the safety factor this feature of the solution makes for extreme economy in use.

● **STABLE** : Any fear that the solution "will not keep" either due to the development of micro-organisms or to decomposition, is entirely abolished.

Why **ANDREWS** is the Ideal Tonic Laxative

Andrews is a pleasant tasting, effervescent aperient with tonic properties, and is a valuable aid to Inner Cleanliness.

Andrews is beneficial in most digestive disorders, feverish conditions, the ailments of children, and in pregnancy and lactation. Its use may be discontinued without reaction when the need for it ceases.

Andrews justifies the description of "Ideal Tonic Laxative" because :—

FIRST . . Patients like taking Andrews, because its brisk effervescence is immediately refreshing and stimulating, it sweetens the mouth and helps to clean the tongue.

NEXT . . Andrews allays gastric discomfort, heart-burn and nausea by diminishing the stomach's acidity and relieving flatulence.

THEN . . Andrews increases bile flow, relieves hepatic congestion, and improves digestion. It is partly absorbed from the intestine as alkali, and therefore helps to correct acidity in the blood and to stimulate kidney function.

FINALLY . . Acting by osmosis, Andrews clears the bowels gently and entirely without irritation.

Origin of a 'household word'

WRIGHT'S LIQUOR CARBONIS DETERGENS

By the preparation of Liquor Carbonis Detergens 80 years ago, the powerful antiseptic and antipruritic agents in Coal Tar were isolated for the first time from the residuary content of irritants and non-therapeutic substances. Publicly commended by an impressive succession of notable authorities, Liquor Carbonis Detergens soon provided the basis for a toilet soap that has been a household word for generations. Discouraging germs, Wright's Coal Tar Soap produces a generous lather, specially soothing and very thorough in its cleansing.

VITAMIN SUPPLEMENTS FOR CHILDREN

(Holding Green Ration Books)

AND FOR

PREGNANT WOMEN

Concentrated Orange Juice

The Ministry of Food, working closely with the Ministry of Health and the Department of Health for Scotland, now make available, for children (holding green Ration Books) and for pregnant women:

- 1 Concentrated orange juice.
- 2 Cod-liver oil compound (not less than 1000 i.u. vitamin A per gramme and 200 i.u. vitamin D per gramme.

These vitamin supplements are obtainable at welfare centres, food offices and other distributing centres. The concentrated orange juice should contain not less than 60 mg. ascorbic acid per fluid ounce. Each 6 oz. bottle costs 5d. or is free, according to income. It provides from two to three weeks' supply for the child, and about nine days' supply for the pregnant woman.

The Ministry of Food impress upon all concerned the importance to the health of the children that all expectant mothers and young children should take the full entitlement of the vitamin supplements.

Vitamins A and D capsules or tablets are available in place of the cod-liver oil, if desired, for pregnant women.

Depend upon it...

Welfare and sick-room experience amply demonstrates the fundamental importance of regularity of bowel evacuation particularly for children during their growth and development. In this connection the choice of a laxative is obviously of first importance.

●
‘California Syrup of Figs’ offers marked advantages over the harsher mineral and synthetic drugs. Skilfully prepared from selected sennas, it effects thorough evacuation without griping or discomfort. Moreover it has no exhausting effect on the alimentary system and is completely safe and dependable in action.

●
‘California Syrup of Figs’ may confidently be recommended as the routine laxative for children of all ages. Being pleasantly flavoured it is accepted readily by the most fastidious patient.

PROLONGED SURFACE AND REGIONAL ANALGESIA

● 'Anethaine' Brand of Amethocaine Hydrochloride is a powerful analgesic, effective, but in different strengths, both by surface application and by injection. It has the advantage of prolonged action in the strengths recommended, while its toxicity is low. Solution of adrenaline should be added to diminish toxicity (in addition to its more obvious actions) when a vascular surface is involved or when injection is performed.

For surface analgesia 'Anethaine' is issued in three forms:—(1) A 2 per cent. solution (not for injection); (2) A powder; (3) A solution tablet.

SURFACE ANALGESIA

Some examples of everyday use as a surface analgesic normally applied in strengths of 0.25 to 2 per cent:—

- (a) Ophthalmology. 0.25 to 1 per cent. solution.
- (b) Oto-Rhino-Laryngology 1 to 2 per cent. solution.

(c) Prior to stitching of wounds. Brief application of 1 per cent. solution, not more than 5 cc., to the edges of the wound.

(d) For many painful conditions of the mouth, nose and throat. Apply with a swab soaked in 0.1 to 1 per cent. solution, or paint.

(e) For relief of pain in rectal or anal conditions, 3 per cent. ointment, or 2 per cent. suppositories.

REGIONAL ANALGESIA

Strengths used for this purpose should never exceed 1 in 1,000, and are more usually 1 in 2,000 to 1 in 4,000.

The 'ANETHAINE DRY AMPOULE,' containing 100 mg. Amethocaine Hydrochloride as a sterile powder is specially prepared for regional analgesia and opens up a wide field in difficult abdominal, thoracic and traumatic surgery requiring prolonged analgesia with full muscular relaxation. Analgesia lasting three hours is obtained.

Wide 'Cellona'—shoulder abduction plaster

THE Shoulder abduction spica or Thoraco-brachial Plaster, made from wide 'Cellona' material, is applied in 15 minutes, and weighs 5 lbs. Three shaped slabs for the arm and anterior and posterior parts of the body are cut from five layers of 24-ins. wide 'Cellona' material. Off-cuts are used for reinforcement under the axilla, and no strut is required.

'Cellona' material in widths of 18, 24 and 36 ins. by 6 yards or 12 yards long has been found by practical experience to offer unique advantages in the quick application of plaster, and for the "closed" treatment of compound fractures, burns and war injuries.

Standard patterns, to fit all average adults, are sent with the initial order for wide 'Cellona' material.

Jackets, fillets, spicas, shells and other large plasters made from 'Cellona' are remarkable for their exceptional strength and resilience.

The technique of preparation and application

of Forearm, Full Arm, Shoulder Spica, Below Knee, Mid-Thigh and Hip Spica Plasters and Spinal Jackets is described and illustrated with diagrams and photographs in a 20-page brochure. This is available to Surgeons interested in plaster technique, and a copy will be forwarded free on application to

ALBUCID SOLUBLE Eye Preparations

RECENT authoritative publications* have clearly demonstrated the unique advantages of ALBUCID SOLUBLE in the treatment of ocular infections. This preparation is now available in packings specially adapted for use in various ophthalmic conditions.

CORNEAL ABRASIONS, ULCERS AND OPHTHALMIA NEONATORUM

EYE DROPS 10% and 30% (pH 7.4) in ½-oz. bottles with special applicator. Of 646 miners treated for eye injuries, with 10% ALBUCID SOLUBLE, 96.3% recovered completely without any loss of working hours whatever, a truly remarkable record.

CHRONIC LOW GRADE CONJUNCTIVITIS and BLEPHARITIS

EYE LOTION TABLETS in packings of 12 or 250 tablets. One tablet dissolved in 10 c.c. of water gives a 24% solution of ALBUCID SOLUBLE isotonic with the tear (pH 7.4). These are intended for daily use by the patient in an eye bath.

EYE OINTMENT 24% in tubes of 25 grams. This may be inserted between the lids at night in the above-mentioned conditions. In chronic blepharitis, the crusts should be removed from the lids and the ointment applied night and morning.

Fuller details may be found in our new brochure ALBUCID and ALBUCID SOLUBLE, which is available to interested medical practitioners on request.

NOTICE—Applications for vacancies advertised should, except where otherwise specified, state name, address, age, nationality, qualifications with dates, and be accompanied by copies of three recent testimonials with short statement of experience and appointments held. Unless closing date is stated applications should be sent at once.

INDIAN MEDICAL SERVICE. Recruitment of Women Medical Officers.—The Government of India are prepared to recruit a limited number of women medical officers for service with the Indian Medical Service for the duration of the war. Applicants must be British subjects, of not more than 45 years of age, and those selected will be appointed in the rank of Lieutenants. Antedate of seniority may be granted up to a maximum period of 64 years in respect of resident hospital appointments, higher qualifications, and/or professional experience. The antedate will count for pay and promotion, but, in the case of candidates recruited in this country, higher rank will not be assumed until the date of disembarkation in India. On termination of service, a minimum gratuity is guaranteed to those officers who complete one year of service—viz., Rs. 2,000 to officers whose registrable medical qualification is dated before January 1, 1940, and Rs. 1,000 to those who qualified after that date, plus one month's pay for each further completed year of Army service. Further particulars regarding rates of pay, etc., may be obtained from the Medical Adviser, India Office, London, S.W.1, or from the Secretary, Military Department, India Office, to whom all inquiries should be addressed.

THE PRINCE OF WALES'S HOSPITAL, Greenbank Road, Plymouth.—Applications are invited from registered medical practitioners for the appointment of Resident Surgical Officer (B1), to become vacant on September 24 next. Applicants should have held house appointments and had surgical experience. Preference will be given to candidates holding Diploma of F.R.C.S. Suitably qualified R and W practitioners holding B2 appointments are invited to apply. Applications from R practitioners now holding B1 appointments cannot be considered unless they have been rejected by the R.A.M.C. Salary is at the rate of £252 per annum.—Arthur R. Cash, General Superintendent.

BEDFORD COUNTY HOSPITAL.—Applications are invited from registered medical practitioners, male and female, for the appointment of a House Surgeon (B2), to become vacant on September 1, including R and W practitioners who now hold A posts. If held by an R or a W practitioner, the appointment will be limited to six months. The salary is at the rate of £190 per annum with full residential emoluments.

COUNTY COUNCIL OF ESSEX AND CORPORATION OF CHINGFORD. Temporary Assistant County Medical Officer and Medical Officer of Health.—Applications are invited for the above appointment from persons not eligible for military service. The minimum commencing salary as Assistant County Medical Officer will be at the rate of £400 a year, and the minimum commencing salary as Medical Officer of Health will be at the rate of £400 a year. The total salary of the person appointed will rise, subject to satisfactory service, by annual increments of £25 to a maximum of £900 a year. An allowance at the rate of £78 a year in respect of travelling will also be made to the successful candidate. The amounts of any increments in salary and the travelling allowance will be shared equally by the respective authorities. The successful applicant will, in addition to his other duties, be required to undertake Civil Defence duties in the Borough of Chingford. Applicants must be duly qualified medical men with experience in Public Health duties, and hold a Diploma of Public Health. Applications must be made on the prescribed form, obtainable from the Clerk of the County Council, accompanied by copies of not more than three recent testimonials, which will not be returned, and should be delivered at the County Hall, Chelmsford, not later than August 28, 1943.—John E. Lightburn, Clerk of the County Council, George E. Malley, Town Clerk, County Hall, Chelmsford.

EAST RIDING COUNTY COUNCIL. Driffield Emergency Hospital.—Applications are invited from registered medical practitioners for the appointment of Resident Surgical Officer (B1), to become vacant at an early date. MINISTRY OF PENSIONS.—The Minister of Pensions proposes to appoint a further limited number of Medical Officers to the unestablished staff of the Ministry for duties either at Headquarters or in the Provinces, and applications for appointment to these posts are invited from registered medical practitioners (men or women) who are ineligible for recruitment either on the ground of age or by reason of being medically unfit. The salary for appointees willing to serve at any station in the British Isles will be £750 per annum, plus Civil Service war bonus, with opportunity for increase up to but not exceeding £900 per annum, provided approved services are rendered, for entrants who are not less than 31 years of age. The salaries of entrants who are less than 31 years of age would be adjusted according to their ages. Officers appointed to a particular locality who, for some reason, cannot be mobile, will receive a fixed salary of £750 per annum, plus war bonus. On the termination of the war it may be decided to make appointments to established posts, and, if so, unestablished medical officers then on the staff of the Ministry, who fulfil the prescribed conditions as to age, etc., will be eligible, with others, for consideration. Candidates selected for interview will be required to attend at Ministry Headquarters for the purpose at their own expense. The appointment will be subject to the usual Civil Service conditions. Candidates should be registered medical practitioners of not less than five years' standing, and have held house appointments in general (preferably teaching) hospitals. Canvassing through Members of Parliament or in other ways will render the candidate liable to disqualification. Applications must be made on forms which can be obtained from the Secretary (M.S.), Ministry of Pensions, Norcross, Blackpool, Lancs.

ST. ANDREW'S HOSPITAL, NORTHAMPTON For Nervous and Mental Disorders

President: THE MOST HON. THE MARQUESS OF EXETER, K.G., C.M.G., A.D.C. *Medical Supt.:* THOMAS TENNENT, M.D., F.R.C.P., D.P.H., D.P.M. This Registered Hospital is situated in 130 acres of park and pleasure grounds. Voluntary patients who are suffering from incipient mental disorders or who wish to prevent recurrent attacks of mental trouble; temporary patients and certified patients of both sexes are received for treatment. Careful clinical, biochemical, bacteriological, and pathological examinations. Private rooms with special nurses, male or female, in Hospital or in one of the numerous villas in grounds of the various branches can be provided.

WANTAGE HOUSE—This is a Reception Hospital in detached grounds with a separate entrance to which patients can be admitted. It is equipped with all the apparatus for the complete investigation and treatment of Mental and Nervous Disorders by the most modern methods; insulin treatment is available for suitable cases. It contains special departments for hydrotherapy by various methods, including Turkish and Russian baths, the prolonged immersion bath, Vichy Douche, Scotch Douche, Electrical baths, Plombières treatment, etc. There is an Operating Theatre, a Dental Surgery, an X-ray Room, an Ultra-Violet Apparatus, and a Department for Diathermy and High-frequency Treatment. It also contains Laboratories for biochemical, bacteriological, and pathological research. Psychotherapeutic treatment is employed when indicated.

MOULTON PARK—Two miles from the main Hospital there are several branch establishments and villas situated in a park and farm of 650 acres. Milk, meat, fruit, and vegetables are supplied to the Hospital from the farm, gardens, and orchards of Moulton Park. Occupational therapy is a feature of this branch, and patients are given every facility for occupying themselves in farming, gardening, and fruit-growing.

BRYN-Y-NEUADD HALL—The seaside house of St. Andrew's Hospital is beautifully situated in a park of 330 acres at Llanfairfechan amidst the finest scenery in North Wales. On the North-West side of the Estate a mile of sea-coast forms the boundary. Patients may visit this branch for a short seaside change or for longer periods. The Hospital has its own private bathing house on the seashore. There is trout-fishing in the park.

At all the branches of the Hospital there are cricket grounds, football and hockey grounds, lawn tennis courts (grass and hard courts), croquet grounds, golf courses, and bowling greens. Ladies and gentlemen have their own garden, and facilities are provided for handicrafts such as carpentry, etc. For terms and further particulars apply to the MEDICAL SUPERINTENDENT (Telephone Nos. 2356 and 2357 Northampton), who can be seen in London by appointment.

**"He who comes
to him that
calls him."**

The modern layman readily understands why the ancient Egyptians applied to their chief medical deity the epithet, "He who comes to him that calls him." Throughout the ages, nothing in the whole realm of medicine has so caught the popular imagination as the physician's readiness to drop everything and come on a moment's notice in an emergency. Abbott Laboratories is proud that on thousands of such emergency calls to-day, yeoman service is rendered by three products developed by Abbott research: Butyn 2% Solution, Metaphen, and Butesin Picrate Ointment with Metaphen. Butyn 2% Solution is a rapid-acting topical anaesthetic, useful in providing prolonged relief from the intense pain that accompanies injury to the eye and for facilitating the removal of foreign particles. Butesin Picrate Ointment with Metaphen is used for relieving the pain of minor burns of all kinds and as a soothing and protective dressing for cuts, abrasions and painful denuded areas. Metaphen is widely recognised as one of the most dependable antiseptics yet developed. For first-aid use, Tincture Metaphen, Metaphen 1:500 Solution or Metaphen 1:2500 Solution may be employed. These products are available through pharmacies everywhere.
