

## THE NERVOUS HEADACHE

Present-day conditions stress the need for an analgesic which may be taken with the minimum of habit induction or other after effects.

'Anadin' may be administered with safety over an indefinite period where the depressing action of the barbiturates and other potent sedatives would result in lowered efficiency and ultimately in impairment of the excretory mechanism.

### Dose:

Two tablets at four hourly intervals.

Formula: Acetphenetidin 2 gr.;  
Ac. Acetylsalicylic. 4 gr.; Caffeine  
Alkaloid.  $\frac{1}{4}$  gr.

## WARTIME GASTRIC DISORDERS

'BiSoDoL' is the result of painstaking research and extensive clinical trial.

A finely-divided powder, easily miscible with milk or water, it is especially well suited to the treatment of gastric disorders frequently resulting from a change of occupation.

Symptoms of nausea, flatulence and dyspepsia respond well to its sedative properties. Incorporation of the enzymes, papain and diastase, ensures completion of the digestive processes.

Mag. Carb. Levis., in addition to exerting an antacid action, is effective in counteracting any tendency to constipation.

**—BiSoDoL—**

Magnesi carbonatis levis, 39.27. Sodii bicarbonatis, 56.09. Bismuthi subnitrat, papain, diastasi, as 1.40. Olei menthae piperitae, 0.44.

Dosage: One teaspoonful in half a glass of milk or water three times a day after meals; or as indicated.

BISODOL LIMITED, 12 CHENIES ST., LONDON, W.C.1

## During and After Pregnancy

The maintenance and restoration of adequate hæmoglobin levels in pregnancy, postpartum and lactation are of paramount importance. Precautionary measures to avoid deficiency anæmias should include reliable iron medication. Thus iron reserves needed by mother and child can be satisfactorily provided by the administration of specially prepared iron (easily assimilated ferrous sulphate) incorporated in 'PLASTULES'.

### Formula:

Exciccated Ferrous Sulphate B.P. 5 grains, Dried Yeast  $\frac{1}{2}$  grain, Excipient sufficient quantity.

**'PLASTULES'**  
BRAND *Hæmatinic Compound* REGD.  
**For Anaemia and Debility**
