

## THE THERAPY OF ASTHMA

The treatment of asthma resolves itself into a consideration of underlying factors and causes. Often in ASTHMA the underlying cause is not discoverable or changes from time to time—now irritant dusts, now bacterial infection, etc. The underlying factor is fortunately always the same—bronchospasm.

Thus sometimes causative agents can be removed or mitigated but always the underlying factor—bronchospasm—can be treated, successfully, with FELSOL.

Most cases of Asthma are chronic and demand patience in treatment—persistence with FELSOL will yield the highest possible percentage of successes.

## SURGICAL CATGUT

British Pharmaceutical Codex Standards  
(1944, 6th Supplement)

### MERSONS OF EDINBURGH

will produce their Surgical Catgut in B.P.C. sizes only. Until present stocks are exhausted, the nearest B.P.C. size will be indicated by additional carton labels. As B.P.C. stocks become available, the nearest Mersons former size will be indicated also, to assist Surgeons and Theatre Staffs to become accustomed to the B.P.C. sizes

Orders received by Mersons from 1st May 1944 are being interpreted as being for B.P.C. sizes.
