Epilepsy; its Symptoms, Treatment, and Relation to other Chronic Convulsive Diseases. By J. RUSSELL REYNOLDS, M.D. Lond., F.R.C.P., Assistant-Physician to University College Hospital.

London: JOHN CHURCHILL, New Burlington Street.

Professor Quekett, F.R.S.—An

Engraved PORTRAIT, by WALKER, of this distinguished Microscopist, which has met the approbation of the family of the deceased Gentleman, is just published at Half a Guinea, and a few India-paper proofs with his original autograph at One Guinea; being No. XXII of Mr. Stone's Medical Portrait Gallery, which now includes the following at 5s. each: Sir J. R. Martin, Sir John Forbes, Sir William Ellis, Dr. Budd, Dr. Todd, Dr. E. Forbes, Dr. E. Smith; Messrs. South, Skay, Luke, Fergusson, Travers, Paget, Simon, Coulson, Gay, Holden, Avery, Cox, Hancock, and Busk.

"Admirable portraits! capital likenesses!"—*Brit. Med. Journal*.

"Striking and spirited portraits."—*The Lancet*.

"Faithful likenesses of the distinguished originals."—*Med. Times*.

"The portraits published by Mr. Stone are capital likenesses."—*Dublin Medical Journal*.

"Admirable as works of art."—*Brit. & Foreign Med. & Chir. Review*.

"Mr. Stone is known in the medical world as an assiduous and discriminating collector of portraits. The shortcomings of art towards the talented band who now lead the van of medical inquiry appear to have suggested the present series of engravings. The whole collection forms an interesting *souvenir* to the numerous body whom the requirements of instruction or relief may at any time have brought into communication with the distinguished originals."—*The Daily News*.

JOHN W. DAVIES, 54, Princes Street, Leicester Square.

On the 1st November, Second Series, No. 20, price One Shilling,

The Pharmaceutical Journal.

CONTAINING THE

TRANSACTIONS OF THE PHARMACEUTICAL SOCIETY.

484

The Second Edition, considerably Enlarged, Plates, 8vo, cloth, 10s.

Stricture of the Urethra and
PERINEAL FISTULA. By HENRY THOMPSON, F.R.C.S., M.B., Assistant-Surgeon to University College Hospital, etc.

"It fully sustains the character it had attained, and the high reputation so justly acquired by the author in this branch of surgery."—*Medical Times*.

"Not only an admirable guide to practice, but the authority par excellence on all the subjects of which it treats."—*Glasgow Med. Jour.*

"A most complete treatise on urethral stricture, and a valuable contribution to practical surgery."—*Edin. Monthly Jour.*

London: JOHN CHURCHILL, New Burlington Street.

RADICAL CURES BY ELECTRICITY.

Just published, 8vo, of 300 pages, price 1s. 6d.,

Extracts from Dr. Caplin's Case-

BOOK. Containing the Demonstration of his System in Opposition to the Usual Mode of Practice, with the Rationale of Fifty-six Cases.—To be had at H. BAILLIÈRE'S, 219, Regent Street, and at the Author's ELECTRO-CHEMICAL BATH Establishment, 9, York Place, Baker Street, London.

A CUP OF COFFEE IN ONE MINUTE.

Dunn's Essence of Coffee, War-

anted to Keep Good in any Climate.

Extract from the Commercial Handbook of Chemical Analysis, by A. NORMANDY, M.D.:—"Coffee is met with in commerce as a manufactured article in the state of Essence, or rather Extract of Coffee. That preparation, providing it be genuine, is peculiarly adapted to the use of Travellers, who are thus enabled to procure a cup of good Coffee without trouble or apparatus. Of all the attempts which have been made to manufacture such an Extract, and of most of which I have had samples, I have found on examination that only one kind, that manufactured by DUNN, of Pentonville, would keep. I think I can confidently assert that DUNN'S ESSENCE OF COFFEE is the only one which has stood ground; all other attempts, for some reason or other, have hitherto proved failures, and eventually have been abandoned."

Sold in bottles from 1s. to 2s. each.

Manufactory, Pentonville, London; and may be had everywhere.

Lichen Islandicus; or, Iceland

MOSS COCOA; manufactured by DUNN and HEWETT, London.

Strongly recommended by the Faculty in all cases of Debility, Indigestion, Consumption, and all Pulmonary and Chest Diseases.

The two articles here combined are well known for their nutritive qualities. The Moss contains a large portion of nitrogen, or flesh-producing substance; and being prepared by a very careful and peculiar process, which frees it from all the grittiness and disagreeable flavour which are always so unpleasant, is rendered perfectly pure, with nothing but the beneficial parts left.

The Cocoa, containing more nutriment than most articles of food, being combined with the Moss, forms in this mixture an article of the greatest importance to the invalid, and at the same time beneficial to the healthy and robust, restoring health where it is declining, and retaining it where already enjoyed.

Testimonial from A. H. HASSALL, Esq., M.D.

"I have carefully examined, both microscopically and chemically, the preparation of Iceland Moss and Cocoa made by Messrs. Dunn and Hewett: I find it to be carefully manufactured with ingredients of the first quality.

"The combination of Iceland Moss and Cocoa forms a valuable article of diet, suited equally for the robust and for invalids, especially those whose digestion is impaired. It is very nutritious, of easy digestibility, and it possesses, moreover, tonic properties."

(Signed) A. H. HASSALL, M.D.
