

## A SPENCER SUPPORT

compensates for

### SACRO-ILIAC or LUMBO-SACRAL INSTABILITY

*Spencer Sacro-iliac  
Support*

The Spencer you prescribe for Sacro-iliac or Lumbo-sacral instability will be designed to:

Provide co-operation of abdominal and back support to modify any abnormal tilt of pelvis. Thus body mechanics are improved.

Grip pelvic girdle so effectively, stabilization of pelvis will result.

Immobilize the lower back when it is desirable to inhibit movement of specific parts. (Immobilization of entire back is provided when

prescribed.) Each Spencer support is individually designed, cut, and made for the one patient who is to wear it. This assures the doctor that each patient will receive the proper design to aid his treatment; that the support will improve body mechanics, and will fit with the precision and comfort necessary.

## ARGYROL—relief for Hay Fever

"Relief often follows the use of pledgets of cotton saturated with 10 per cent. Argylol placed in the vault of the nose and allowed to remain from 15 minutes to one-half hour. The method is a very useful addition to any other form of treatment."

*Manual of Diseases of the Nose, Throat and Ear, 1933 p. 98*

The pre-eminence of Argylol Brand Silver Vitellin in the treatment of mucous membrane irritation and inflammation is due to the fact that it is a unique compound. The pH and pAg of Argylol are especially regulated for treatment of delicate mucous membranes.

## Dermatophytosis

The introduction of AERO-PED, a preparation containing Phenylmercuric Nitrate in an o/w emulsion, presents a new and effective treatment for Dermatophytosis and allied mycotic affections of the feet.

1 It combines high antiseptic and fungicidal activity with low tissue toxicity.

2 Inhibits bacterial decomposition of perspiration.

#### FORMULA:

Methyl Salicylate, 1%; Benzoic Acid, 1%; Terpeneol, 1%; Glycerin, 5%; Phenylmercuric Nitrate, 0.05% (w/w); Soft Paraffin, 5%; Hexadecyl Alcohol, 9%; Octadecyl Alcohol, 5%; Sodium Cetyl Sulphate, 1%; Water to 100.
