

HAVRE EXHIBITION, October 1868.—PRIZE MEDAL.

**LIEBIG'S EXTRACT OF MEAT (Genuine),**

MANUFACTURED ENTIRELY FROM CATTLE OF ENGLISH BREEDS On the establishments of ROBERT TOOTH, Esq., Sydney. The chemical analysis of Dr. Miller proves that this extract is unequalled in composition. For Beef-tea, Soups, and Gravies, one ounce of Extract is equal to two pounds of best Gravy Beef.

N.B.—Beware of weaker Extracts, inferior in flavour and clearness when dissolved, being offered instead of the "Genuine." Mr. TOOTH's manufacture, shown by the *Lancet* analysis (January 9, 1869) to be the BEST EXTANT, and recommended, IN PREFERENCE TO ALL OTHERS, by the eminent Dr. J. E. DE VRIJ, of the Hague, Dr. FLÜCKIGER, of Berne, and Dr. RICHTER, of Dresden, has now been adopted by the INDIA GOVERNMENT.

Of all Chemists and Italian Warehousemen. Wholesale of Allen and Hanburys, John Bell and Co., Crosse and Blackwell, E. Lazenby and Sons, John Burgess and Son, and the principal Wholesale houses. Dublin: Bewley Hamilton, and Co. W. J. COLEMAN & CO., 13, St. Mary-at-Hill, London, E.C.

**MUSCULINE-GUICHON.**

A Preparation of Raw Meat, combined with cooling fruits, in the form of sugared tablets, manufactured at the Monastery of Notre Dame des Dombes, France, under the superintendence of the Inventor.

"The MUSCULINE" is strongly recommended as a nutritive and restorative. It is one of the most powerful agents in overcoming the debility consequent upon Consumption, Diabetes, Anaemia, Cancer of the Stomach, Chronic Diarrhoea, Dyspepsia, etc., and in protracted Convalescence.

The "MUSCULINE" has been found far more strengthening than the various Extracts of Meat.

Introduced into England by THOMAS TOMLINSON, Chemist, 6, Lower Seymour Street, Portman Square, London, W., Sole Agent for Great Britain; of whom it may be obtained Wholesale and Retail; also of Messrs. SANGER, 150, Oxford Street, and Messrs. NEWBURY and Sons, St. Paul's Churchyard. Sold in boxes at 2s. 1/2 or by post, 2s. 2d.

**Essence of Beef, or Meat**

JUICE, for instantly making Beef Tea for Invalids. Prepared by JOHN GILLON & CO., Preserved Provision Manufacturers, Leith. This valuable article is strongly recommended by Professor CHRISTISON of Edinburgh, and is largely prescribed by the Medical Profession. It is simply the Juice of the best Ox Beef, and it will, without trouble or loss of time, produce Beef Tea of the finest quality and flavour, such as the stomach will retain under sea-sickness, or when every thing else is rejected. It is more economical than Beef Tea prepared in the family, and, as it will keep good for any length of time, no house should be without it.—For its Medical Properties, see Article by Professor Christison of Edinburgh, in the *Monthly Journal of Medicine*, January 1855.

PROCESS, Prepared by JOHN GILLON and CO., Preserved Provision Manufacturers, Leith.
