

CHLOROFORM

DUNCAN

For almost one hundred years Duncan, Flockhart & Co. have been making chloroform. They produced the chloroform which Prof. James Young Simpson first introduced into medicine in 1847. On account of its unsurpassed purity and stability, CHLOROFORM—Duncan, like the Company's other anaesthetics, has won the confidence of anaesthetists in all parts of the world.

DUNCAN, FLOCKHART & CO.

The greatest name in Anaesthetics

THE THERAPY OF ASTHMA

The treatment of asthma resolves itself into a consideration of underlying factors and causes. Often in ASTHMA the underlying cause is not discoverable or changes from time to

time—now irritant dusts, now bacterial infection, etc. The underlying factor is fortunately always the same—bronchospasm.

Thus sometimes causative agents can be removed or mitigated but always the underlying factor—bronchospasm—can be treated, successfully, with FELSOL.

Most cases of Asthma are chronic and demand patience in treatment—persistence with FELSOL will yield the highest possible percentage of successes.

NO MORPHIA NO NARCOTICS

Each dose contains:
