

Delicious Vitamin Food

For Infants, Children & Adults

— at all Seasons

To the physician requiring a product which incorporates important vitamins in a form entirely pleasant and acceptable to every patient, 'Vimaltol' presents special advantages.

'Vimaltol' is a concentrated and economical vitamin food. The vitamins are supplied from specially prepared malt extract of high protein content; yeast, one of the richest sources of vitamin B₁₂; and Halibut Liver Oil, an important source of vitamins A and D. It is also fortified with additional vitamins and mineral salts and is deliciously flavoured with orange juice.

'Vimaltol' is standardised to contain in each fluid ounce 648 international units of vitamin A and 1390 of vitamin D; also 0.3 milligrammes of vitamin B₁₂, 4 of Niacin (PP vitamin) and 4.8 of Iron, in a readily assimilated form.

'Vimaltol' is thus an important aid in the treatment in the many abnormal conditions resulting from the deficiency of one or more of the essential vitamins in the average every-day dietary.

The routine use of 'Vimaltol' helps normal development of the growing organism and the maintenance of the correct metabolism, while raising the general resistance against infection.

A liberal supply for clinical trial sent free on request.

Dermatophytosis

The introduction of AERO-PED, a preparation containing Phenylmercuric Nitrate in an o/w emulsion, presents a new and effective treatment for Tinea Pedis and allied mycotic affections of the feet.

- 1 It combines high antiseptic and fungicidal activity with low tissue toxicity.
- 2 Inhibits bacterial decomposition of perspiration.

FORMULA:
Methyl Salicylate, 1%; Benzoic Acid, 1%; Terpineol, 1%; Glycerin, 5%; Phenylmercuric Nitrate, 0.05% (w/w); Soft Paraffin, 5%; Hexadecyl Alcohol, 9%; Octadecyl Alcohol, 5%; Sodium Cetyl Sulphate, 1%; Water to 100.

THE RESTRICTED DIET

Under normal conditions the restricted diet is the lot of a small minority, but now, unfortunately, there is a limitation of foodstuffs which affects everyone. And lack of variety tends to lead to lack of balance and eventually to illness unless special care is taken. Thus food to-day plays a vital part in preventive medicine and so it is that natural products which supplement the intake of vitamins, proteins or other essential food constituents are widely recommended.

Marmite is ordered extensively for its dietetic value; it supplies important vitamins derived from the yeast from which it is made and, within the limits of the amount consumed, it is a useful source of predigested protein.

MARMITE

yeast extract

contains

Riboflavin (vitamin B₂) 1.5 mg. per oz.
Niacin (nicotinic acid) 16.5 mg. per oz.

Jars: 1-oz. 8d., 2-oz. 1/1, 4-oz. 2/-, 8-oz. 3/3, 16-oz. 5/9.
