

EFFICIENT Hormone Therapy

Fundamental researches on the ovarian and testicular hormones have secured their preparation in pure, highly concentrated, accurately standardised forms suitable for logical and effective use in human therapeutics. Further, their successful syntheses have made adequate quantities available at greatly reduced prices. British Schering's complete range of reliable hormone products worthily reflects these great advances.

THE THERAPY OF ASTHMA

The treatment of asthma resolves itself into a consideration of underlying factors and causes. Often in ASTHMA the underlying cause is not discoverable or changes from time to

time—now irritant dusts, now bacterial infection, etc. The underlying factor is fortunately always the same—bronchospasm.

Thus sometimes causative agents can be removed or mitigated but always the underlying factor—bronchospasm—can be treated, successfully, with FELSOL.

Most cases of Asthma are chronic and demand patience in treatment—persistence with FELSOL will yield the highest possible percentage of successes.

NO MORPHIA

NO NARCOTICS

Each dose contains

Phenazone 0.47 Iodopyrine 0.03
Antipyrine Aceto-salicylas 0.40
Caffeine 0.10
Ext. Viscum Album 0.01
Ext. Brachycladit 0.01
Physicians' samples and literature willingly sent on request

SALT & SON LTD BIRMINGHAM 2.

The time, the place —and the Portanaest

It means much to the General Practitioner to know that the Portanaest is always at hand, equally ready for midwifery in the home and minor surgery in the consulting room or factory. Completely portable, it is very compact yet leaves nothing to be desired in the completeness of its equipment or the easy facility of its use. A master knob controls the rate of flow and pressure; another controls the mixture which can be read from the dial at a glance. For dentistry, the Portanaest can best be described as a portable "Walton"—an indispensable part of a visiting practitioner's equipment. A demonstration will be gladly arranged; literature is available on request.
