## September

September is the month when schools reopen. Entering a new school, moving into a fresh form, embarking upon a different course of studies—these are important occasions in the lives of young people. To those who have them in their charge, provision for the future is an ever present obligation, and it is good sense to ensure that plans for the coming generation will be faithfully observed. In particular you must be able to rely on the availability of your trustees just at the moment when your children have need of them. The Manager of any branch of the Midland Bank will readily explain the services of the Bank's Executor and Trustee Company, where friendly personal assistance, based on wide experience, is always at your disposal in matters concerned with wills, trusts (educational or other) and settlements.

## ‘SULFASUXIDINE’

Succinylsulphathiazole

*in a new palatable form*

## ‘CREMOSUXIDINE’

‘Sulfasuxidine’ suspension with Pectin & Kaolin

‘Sulfasuxidine’, originated by the Medical Research Laboratories of Sharp & Dohme, is now established as a potent, non-toxic bacteriostatic agent with an activity confined entirely to the intestinal tract.

Long clinical experience has proved the value of ‘Sulfasuxidine’ in controlling the bacterial flora of the intestine and in the treatment of specific and non-specific diarrhoeas. Now the valuable properties of this sulphonamide have been combined with the well-known toxin neutralising and adsorbent properties of Pectin and Kaolin.

This combination is presented in the form of an extremely palatable cream with a chocolate-mint flavour. ‘Cremosuxidine’ is supplied in 4 oz. and 16 oz. bottles. Informative literature will be supplied on request.
