FAR and wide, the many important qualities of PYREX Brand Glassware have proved of sterling value to the Scientist, the research worker and the commercial manufacturing chemist alike.

Besides, being highly resistant to all acids (other than hydrofluoric and glacial phosphoric) PYREX Brand Scientific Glassware with its low co-efficient of expansion of  $3.2 \times 10^{-6}$  per degree centigrade is immune to the effects of sudden thermal changes.

This latter feature permits the basic structure of PYREX Brand Scientific Glassware to be much more robust than that of ordinary glass. The additional physical strength thus afforded gives a wide margin of safety, and incidentally reduces replacement costs to a percentage far below that of more fragile glass.

## THREE ESSENTIALS TO EVERY DOCTOR'S OFFICE

**Specimens Free on Request**

The average doctor doesn't want elaborate correspondence-cabinets. (They're hard to come by anyway.)

But every doctor needs somewhere to keep his correspondence and records.

There is a Shannon unit which fits neatly onto any desk, side-table, or other convenient place. It is inexpensive and handy. Complete with all the necessary triply-strong suspended (on metal) folders, it costs very little. Yet it controls the doctor's correspondence safely and will last for many years.

Most doctors would find

Just write "Send Records" on your card or letterheading and post it to The Shannon Limited of 45, Shannon Corner, New Malden, Surrey. You will receive full details of all the above by return—plus specimen Case-History and Accounts Records, free and without obligation.

**Shannon Systems**

this Shannon unit invaluable in simplifying routine.

Then there are the ready-printed visible Case-History and Accounts records which control the history of every patient, give visible indication of impending visits, warnings of confinements, indications of cases to watch. . . . These too cut down the time spent on routine and help the doctor to control his practice as rigidly as any business or professional man.

Hundreds of doctors rely on these Shannon systems to keep close control of their multifarious activities. Why not you?
